History of the School

The founding of the School marked the conjunction of a need with an opportunity. The need was for a centre where political and social problems could be studied as profoundly as they were being studied in universities on the Continent and in America. The opportunity came when Henry Hunt Hutchinson, a member of the Fabian Society, died in 1894 leaving instructions that Sidney Webb and four other trustees were to dispose of the residue of his estate for socially progressive purposes, but otherwise more or less as they thought fit. Sidney Webb working without 'the formalities of charters and incorporations, of public subscriptions and government grants, boards of trustees and governors' collected subscriptions and started his School. Its aim was to contribute to the improvement of society by promoting the impartial study of its problems and the training of those who were to translate policy into action.

The School opened modestly in October 1895 in rooms at 9 John Street, Adelphi, moving next year to 10 Adelphi Terrace, later the home of George Bernard Shaw. It was here in November 1896 that the School's library, The British Library of Political and Economic Science, was started. From the first the School set itself to cater for older students as well as for those of normal university age, attracting them particularly from business and administration; and from the first held itself open equally to students of both sexes.

Once the University of London had reorganized itself in 1900, and established a Faculty of Economics and Political Science, the School joined the University, its three-year course providing the basis of the new B.Sc. (Econ.) degree. Since the formality of its new position required the School to regularise its constitution, it was incorporated as a limited company not trading for profit, on 18 June 1901, with Sidney Webb as Chairman of the Governors. The Memorandum of Association (Section 3 vii) authorised the School to promote 'the study and advancement of Economics or Political Economy, Political Science or Political Philosophy, Statistics, Sociology, History, Geography, and any subject cognate to any of these'. And Article 28 of the Articles of Association stated that 'no religious, political, or economic test or qualification shall be made a condition for or disqualify from receiving any of the benefits of the Corporation, or holding any office therein; and no member of the Corporation, or professor, lecturer or other officer thereof, shall be under any disability or disadvantage by reason only of any opinions that he may hold or promulgate on any subject whatsoever'.

Numbers soon rose; and in 1902 the School moved into its first purpose-built accommodation. The site was provided in Clare Market by the London County Council; the money for building was donated by Mr. Passmore Edwards and others. By 1913 the building was seriously overcrowded; and the School's subsequent history is a saga of rising numbers, constantly diversifying academic interests and too little space. In 1921 the School was recognised by the University Faculty of Laws; in 1922 by the Faculty of Arts; in 1963 by the Faculty of Science. Research and teaching have expanded from small beginnings into the complex range of disciplines set forth later in this Calendar. In 1921 the journal *Economica* was founded;

History of the School

in 1934 *Politica*, which ceased publication during the war. The Library has also grown, until it is now, within its chosen fields, probably the finest collection in the world. And the School buildings, though they have not expanded in step with the needs implied by this growth have been added to and adapted so as to provide space for snack-bars and dining-rooms, homes for statistical machines, meeting-rooms for student gatherings, and modest facilities for physical recreation, in addition to more accommodation for conventional academic needs. In January 1970 the St. Clements Extension and the Clare Market Building were opened: the School's first purpose-built accommodation for forty years. Its users benefit from improved standards and communications, but little has been gained in terms of actual space as these buildings replace others previously used by the School.

However, 1970 also brought the prospect of the largest building expansion at any one time since the School was founded, with the possibility of a sixty per cent increase in accommodation. The School entered into a contract to purchase Strand House, a five-storey building with some 158,000 square feet of floor space, on an adjacent site in Portugal Street. Subject to planning permission it is intended to adapt the building to rehouse the British Library of Political and Economic Science by 1975-76 in a way which will enable scholars, both from the School and beyond, to have full access to the Library's two million items. The accommodation then released in the main building will become available for other purposes including the improvement of general amenities for students.

Substantial financial assistance has been promised by the University Grants Committee for this Library project. Meanwhile the School is required to raise two and a half million pounds from other sources and is actively preparing a public appeal, which will be launched towards the end of 1972.

There is a full account of the foundation of the School in *The History of the Foundation* by Sir Sydney Caine; and a survey of subsequent development in F. A. von Hayek, 'The London School of Economics, 1895-1945', *Economica*, February 1946.

Report by the Director on the Work of the School During the Session 1970-71

Strand House

In the last three annual reports I have had to refer obliquely to the great enterprise which, if completed, will shape the development of the School for the next half century. In 1968 I wrote 'Only the radical solution of rehousing the Library on an alternative site will solve its problems satisfactorily. Continuous efforts throughout the session were maintained in pursuit of this radical solution, but a final conclusion cannot yet be reported, and may yet elude us'. In 1969, 'If the Library could be rehoused in a neighbouring building, there would be a dramatic relief for all School activities and a radical improvement in the accessibility of the Library's unique resources'. In 1970, 'One basic assumption of our plans for 1972-77 is that during that period the Library must be rehoused'.

During these anxious years it would have been imprudent to identify the 'neighbouring building'. It can now be named; it is Strand House, the headquarters of W. H. Smith and Son Ltd., the book, magazine and newspaper distributors. On 18 November 1970 the School entered into a contract to purchase the freehold site and building for £3,780,000 at a date to be determined at the convenience of the present owners between December 1973 and March 1975.

Strand House, in Portugal Street, is immediately adjacent to the present complex of School buildings in Houghton Street and Clare Market, its site boundary marching with the north-east side of St. Clements Building. It was constructed in 1913, with a basement and six storeys, each on an open-plan system round a central well, and with a heavy load-bearing structure throughout to take the dead-weight of stored books and papers. With only minor structural changes it can house the whole of the School's library stock and activities on an open-access system and with a single control-entrance, and provide seats for over 1,700 readers. It will make possible the worthy and efficient housing of our priceless Library for the first time in its history, and will provide opportunities for the modernisation of its services and for its progressive growth as a national and international workshop of the social sciences.

The School is indebted to many persons for this dramatic possibility of increasing by over fifty per cent (158,000 square feet of usable space) its accommodation in its existing location in central London. Not least is its gratitude owed to the generous patience of W. H. Smith and Son Ltd., throughout the long years of negotiation before the School was in a position to sign a firm contract. Its greatest debt is to the Court of the University of London which, with the approval of the University Grants Committee, has undertaken both to meet the cost of the building, £1.98 million, provided that the School can raise sufficient funds to finance the cost of the site, and also to act as guarantor for the purchase.

The Appeal

By signing the contract for the acquisition of Strand House the School has com-

Report by the Director

mitted itself to the mighty task of raising the sum of £2½ million for the purchase of the site and towards the cost of the conversion of the building for Library use. It has set up an appeal organization of which the chairman is Lord Robbins, who with characteristic generosity has devoted almost his full time to its leadership and development since his retirement early in 1971 from the chairmanship of *The Financial Times*. Professor H. C. Edey, after completing three years' service as the first Pro-Director of the School and deservedly expecting to return to full-time academic duties, has selflessly accepted the responsibilities of Co-ordinator of the Appeal.

The appeal organization has devoted its initial activities to planning the strategy and tactics, to preparing basic documentation, to enlisting the services of Governors, members of the academic staff and others for special tasks, to laying the foundations of co-operating groups in North America and elsewhere overseas, and to identifying the various categories of potential donors. The present plans of the appeal organization are to concentrate in the first stage on private approaches to persons and organizations who might give substantial benefactions, before moving later to progressively more public appeals to other groups, including former students of the School.

Quinquennial planning

The generous offer of the University Grants Committee and of the Court of the University of London to assist the School in acquiring Strand House was a decisive contribution to the clarification of our capital budgetary situation and needs. It leaves the School with the colossal task of raising £2½ million in the next two years to complete its side of the bargain, and in our planning for the decade of the 1970s we must assume that the Appeal will succeed. The alternative would involve not only the loss of a unique and unrepeatable opportunity, but a major change in the School's functions and future.

It is clear that in capital planning the Strand House project has an absolute priority and the School must postpone other proposals for site acquisition or large-scale capital expenditure, such as, for example, on the replacement or renovation of the group of inefficient buildings it possesses on the 'island site'. Its capital plans, other than for Strand House, must therefore be limited to relatively minor tasks such as the adaptation to meet student welfare and other needs of the premises which will be vacated when the Library moves, the improvement of computer and equipment resources, and the progressive development of student residential accommodation.

During the past year the School's planning for the quinquennium 1972-77 has been concerned with the recurrent expenditure aspects and the co-ordination of its plans with those of the other schools of the University through the much improved procedures which are being developed by the Collegiate and Academic Councils and the Court. The University Grants Committee has greatly assisted the process by agreeing that estimates of student numbers should not be confined to full-time students, but should be expressed as 'full-time equivalents', thus taking into account the teaching costs and other expenditure involved in providing for part-time students, who have always been important in the School's activities.

The School's proposals for 1972-77 remain in the form summarised in my report

for last year. There is need to make good some of the deficiencies caused by under-financing in the present quinquennium, in such spheres as staff-student ratios, staff promotions and Library acquisitions and services. It is planned to keep the number of full-time students to its present total of 3,000, but to alter the composition from the present 41 per cent to 50 per cent graduate, and to move towards doubling the present number of 400 part-time graduates. The plans propose no major academic innovation, but increased emphasis on inter-disciplinary studies and improvements in the financing of research.

The University Grants Committee and members of its Social Studies Sub-Committee visited the School on 26 May and devoted the day to wide-ranging and informal discussions with representatives of all members of the School: academic and administrative staff, students and Governors. The visit provided a welcome opportunity for discussing the School's present development and its plans for the future. The development statement for the next quinquennium has now been officially submitted to the Court of the University for presentation to the University Grants Committee.

We now await the announcement early in the next calendar year of the block recurrent grant to the School for the 'provisional year' 1972-73, the first year of the next quinquennium. It will not be possible to inform the universities of their full quinquennial grants until much later when the final settlement with the Government is made. We await with anxious hope signs of some improvement in the procedures for the more speedy adjustment of block grants to the rising costs of services and goods in a period of rapid inflation. The tardiness and non-retrospective character of this supplementation have seriously inhibited orderly budgeting by institutions whose expenditure is inescapably committed to so high a proportion of salaries and wages and whose free reserves are small, continuously eroded and almost incapable of being restored. The University Grants Committee and the Treasury have in recent years done much to narrow this gap in university financing, but further relief is needed. The universities have no right to claim exemption from the effects of inflation, but they have few means of increasing their income and extremely little room for manoeuvre in quickly changing their patterns of expenditure and therefore need a more quickly adjusted protection.

Student numbers

The target numbers for the School indicated by the University Court for the last year of this quinquennium, 1971-72, were 1,725 full-time undergraduates and 1,231 full-time postgraduates. The analysis of student numbers shows that totals declined in the first three years of the quinquennium, but increased in the fourth year, 1970-71. This was in part deliberate policy in order to avoid the extreme congestion of 1966-67 and to adjust to the temporary shortage of accommodation in the mid-years of the quinquennium, when the new buildings, St. Clements and Clare Market, were not available. The increase in 1970-71 indicates that it will not be difficult to meet our quinquennial targets in 1971-72 and that it will be possible to do so without material change in admissions policy. The crude totals for this quinquennium also show that the School's chosen policy for the next quinquennium of moving to a 50 per cent postgraduate component is realistic in terms of the supply of students.

Report by the Director

The figures themselves, and still more our direct experience of the real situations to which they refer do, however, raise important questions which it is not possible even to list, still less to discuss in a brief report like this. It must suffice to mention three points, merely as examples of issues of current concern to the School and particularly its Graduate School.

Firstly, the figures show a continuing and accelerating growth in the proportion of postgraduates registering for the taught Master's degree. Clearly this degree, instituted about seven years ago, is meeting a felt need and has justified itself. Its popularity, however, does not prove that it has yet found its best educational form or that we are justified in investing so high a proportion of our teaching effort in it. The experience we have so far gained should make possible a review in depth of its educational purpose and function, of the multiplicity of specialised options available within it, of the efficiency of the various examining and assessment methods used, and of similar issues. Conversely, there is need for a look at the functions and forms of the research degrees, the M.Phil. and Ph.D., now available. It is possible that such reviews of the taught Master's and research degrees will establish that they are not in need of change and are economically interrelated, but we should assure ourselves and our students that this is so before we progress too far into the next quinquennium with the intended modest increase in the numbers of full-time and part-time postgraduates.

Secondly, it is already evident that there is insufficient co-ordination between the supply of well-qualified applicants for higher degrees and the resources for their financial support to enable them to take up places offered. A growing number of home-based candidates whom the Graduate School is eager to admit is unable to join because they cannot obtain a grant from one or other of the Research Councils, the Department of Education or other sources, and, because of personal circumstances, cannot accept part-time registration. This contrasts with the situation in the undergraduate school, where applications from qualified candidates represent effective supply, since accepted candidates are entitled to a maintenance award from a local education authority. Selection is therefore on academic and aptitude grounds, rather than on a financial means test. It is desirable that selection for the limited number of places in the Graduate School should be on academic merit and not on the inappropriate grounds of wealth or nationality. The competition for places from overseas students is increasing and we would not wish artificially to restrict their number, since the School's services to overseas students have been one of its great glories. A situation, however, is emerging in which home-based candidates of equal or even superior merit cannot take up places for lack of means of support. The problem is one which needs urgent consideration by the universities and by Government. An increase or a concentration of Research Council awards may be needed or the institution of a partial-loan support scheme. These and other devices require discussion before the adoption of such unhappy methods as the introduction of a *numerus clausus* on a basis of nationality or the reduction of total numbers on the basis of short-term manpower estimates at the price of the loss of the seed corn of future scholarship.

Thirdly, the actual and intended growth of the Graduate School adds urgency to the need for assistance in finding residential accommodation for postgraduate students. The School has made important contributions through the provision of its own graduate flats and through co-operation in the AFSIL Housing Association;

Report by the Director

but the need grows greater as the general problem of residential accommodation for all types of student in London becomes yearly more critical.

Teaching and research activities

At the end of the session Dr. P. S. Cohen completed his four years' service as Dean of Undergraduate Studies and was succeeded in that post by Mr. K. R. Minogue. Dr. Cohen was the first holder of this office, which was created experimentally in 1967. His distinguished services as Dean have more than fulfilled the expectations of those who proposed the experiment. Under his guidance the Committee on Undergraduate Studies and the related departmental committees have proved to be among the most fruitful developments in staff-student co-operation; they have initiated many changes in substance and in attitudes in curriculum planning, teaching and assessment techniques and other aspects of the School's academic activities. The School is deeply indebted and grateful to him.

The Academic Policy Committee, to whose formation I referred in last year's report, contributed valuably to the initial formulation of the quinquennial plan and has since devoted most of its efforts to a revision of the B.Sc. (Econ.) degree. It had been evident for some years that the pressures for specialisation were rapidly increasing. These arose from a variety of sources including the increase of teaching in the social sciences in sixth forms, the growth of teachable knowledge claiming a place in the undergraduate curriculum, the developing emphasis on quantitative methods in many of the social sciences, the subject enthusiasms of the teaching staff and the educational and vocational needs of students. These pressures could have led to the unplanned development within the School of a series of separate specialised or two-subject degrees and to the erosion of the coherence which the B.Sc. (Econ.) had previously given to undergraduate studies at the School. At a period of great fluidity in the traditional boundaries of 'subjects' and of much fission and coalescence in the social sciences, the School might have forfeited some of the unique advantages it enjoys as a 'single-faculty' institution, not overly committed to departmentalism, with a strong tradition of interdisciplinary studies and the unifying influences of a single Senior Common Room and a centralised Library, had it allowed, without assessing the implications, the unco-ordinated dispersal of its teaching resources at first-degree level.

Under the guidance of the Pro-Director, Professor John, the Academic Policy Committee, in continuous consultation with departments and the Academic Board, has produced proposals for a revision of the B.Sc. (Econ.). It is intended that it should be a 'college-based' degree, that is, not subject to the constraints imposed by the needs of other schools of the University or of external students. It will retain the structure of a one-year Part I, with the examinable subjects reduced from the present five to four, and a two-year Part II, with the possibility of examination in a limited number of subjects at the end of the second year instead of all at the end of the third year. The traditional core subjects of Economics, Government and History will cease to be compulsory, but by compulsory requirements of selection in Part I from certain groups of subjects all students will be exposed to some experience of both literacy and numeracy. Some other rigidities in the present structure will be removed, allowing the student to choose within the three years a high degree of specialisation or, under guidance, a considerable spread over a wide range of subjects.

The proposed revision of this central degree in the School is compatible with the continuation of the existing special degrees or the emergence of others, but is intended to provide a flexible framework within which a great variety of the needs of students and of departments can be met. There is still much debate within the School both on the technical details of the proposals and of the principles of educational philosophy implied in them. Sufficient agreement, however, has emerged to make it probable that, subject to University consent, the revised degree will be introduced at the beginning of the 1972-73 session.

The teaching activities of the School are not of course limited to the formal instruction provided for degrees and diplomas. Throughout every session there are numerous other lectures and discussions ranging from the Oration, given this year by Sir Arthur Lewis on 'Socialism and Economic Growth', and the Public Lectures arranged by the University or the School, to the numerous talks by guests and visitors organized by departments and by student societies. During July the School in association with the National Institute of Social Work Training arranged a fortnight's course for twenty of the local Directors of Social Services, recently appointed under the scheme for integrating and regionalising the social services following the implementation of the recommendations of the Seeborn Report.

Publications are also an act of teaching by universities. The list of publications by members of the staff is only one part of the story of this activity. A variety of learned journals in the social sciences is published by or from the School; the oldest established of these, *Economica*, reached its fiftieth year of continuous publication with its issue in February 1971. In addition to the continuing series published from the School, such as the *L.S.E. Monographs on Social Anthropology* and the *Occasional Papers on Social Administration*, the activities of the Publications Committee have been particularly fruitful in this session with the issue of six books, five of which were in the Research Monographs Series.

The books and articles published by members of the School provide only an indication – and in any case a tardy one – of the variety of the continuing research activity at the School. Much of the research and formative work pursued in the Graduate School will not emerge in printed form for some years, nor indeed that of the members of the academic staff, of the many visiting scholars who are guests of the School and of the numerous users of the Library. The influence of this intellectual activity flows immediately into teaching, both in formal ways through seminars, classes and lectures, and in informal channels through discussion within the School as a community of shared interests, not least through the Senior Common Room. The modern university knows that its responsibilities for the advancement and dissemination of knowledge are interdependent parts of a single process, not separate activities. For administrative convenience and sometimes for budgetary reasons, 'research' may be organized in units, such as our Higher Education Research Unit, the Medical Research Council Unit, the Population Investigation Committee or the Greater London Group, but the accumulating experience of the Research Committee suggests that organizational separateness even of a temporary character may tend to create a dichotomy which has academic and professional disadvantages. The most recent unit, created at the beginning of this session, the Centre for Urban Economics, has been placed within the academic Department of Economics, and has both teaching and research interests.

The accommodation crisis in the School within its existing premises has gravely

restricted the growth of research activity and has compelled us on occasion to refuse potential grants since there is no space in which to house the work or the auxiliary staff. The problem is aggravated by the policy decision of the Research Councils and of many of the private foundations and trusts to refuse to contribute full overheads, particularly for rental costs, in research grants. The concept of 'dual support' for research in universities, by grants both from the University Grants Committee and from the Research Councils and other sources, is admirable, but may be frustrated if neither party is willing to contribute adequately towards the cost of space. The School in its quinquennial submission to the University Grants Committee has entered a strong plea for assistance for the accommodation of research.

Buildings and accommodation

In preparation for the loss, in the Lent term, of the premises which the School had been renting in 5-6 Clements Inn, a short lease was taken of part of Faraday House. This was adapted into office accommodation with its own entrance from Old Gloucester Street and into these were moved the Higher Education Research Unit, the Institute of Manpower Studies and the Population Investigation Committee. The Survey Research Centre was moved to offices in Wardour Street. A further re-allocation of accommodation in the School's premises will be necessary in the coming session when the space rented in 3-4 Clements Inn has to be vacated.

The existing two halls of residence, Passfield and Carr-Saunders, continued to make their contribution to the residential needs of students with their provision of 158 and 148 places. The newly acquired block of 41 flats in Fitzroy Street provided accommodation for a further 91 students and had an extremely successful first year of operation. Detailed planning continued for the new hall of residence in Rosebery Avenue, building for which must start in March 1972 to fulfil the conditions set by the anonymous benefactor. Even when this is completed, providing an additional 179 places, the School's students will still face a serious problem in finding accommodation in the University's halls of residence and in private flats and lodgings the availability of which rapidly decreases while their costs and distance from the School increase. Even without an increase in the School's student numbers, our residential accommodation problem remains grave, aggravated by our inability at present to provide better refectory services, common rooms and study space in the main premises.

Now that the School occupies almost all the buildings fronting on both sides of Houghton Street and Clare Market, it has renewed its plea for the closing of Houghton Street to through vehicular traffic, basing its case on amenity grounds as well as on traffic dangers, and requesting that the street area be converted into a pedestrian precinct. The case was assisted by a student demonstration in the street in November and the press publicity which this attracted.

Governance and administration

No structural changes were made during the session in the scheme of government of the School, but within the unwritten constitution normal processes led to significant changes in its actual working. As an example, of the seven Academic Governors

on the Court nominated by the Academic Board, three are now from the non-professorial staff. Continuing efforts were made throughout the year to improve the flow of information about the School to its own members and to past students by, for example, the development of the monthly circular edited by the Information Assistant and by the compilation of the register of former students by the Alumnus Secretary; as a minor but symbolically significant step the agenda and minutes (with the exception of strictly confidential items) of almost all committees are now available to all members of staff in the Information Assistant's office. It is disappointing to have to report that the Students' Union has still not accepted the invitation to participation on committees of the Court and Academic Board.

The session saw the retirement of three members of the administrative staff who have given exceptionally long service to the School and whose presence will be sadly missed. Mr. S. A. Godfrey, a graduate of the School, joined the staff in 1934, served in many capacities particularly during the war when the School was evacuated to Cambridge, and in recent years in the Bursar's department was concerned with office accommodation and the servicing of the Research Committee. Mrs. Marion Horn joined the staff in 1948, for many years among many other roles serviced the Appointments Committee and, recently on a part-time basis, was secretary of the Centre for International Studies and of the London-Cornell Project. Mr. W. S. Collings came to the School from Senate House in 1951 as Registrar. From 1957, as Deputy Secretary and Bursar, among many other invaluable services he guided and managed the great expansion of the School's buildings and academic and residential accommodation that has occurred over the past decade. The School is deeply grateful to these three members and wishes them happiness in their retirement.

Colleagues

Staff changes include the retirement of two colleagues on the academic staff who have given very long and distinguished service to the School: Mr. W. Pickles, who joined the School's staff in 1930, and Mrs. Kay F. McDougall, a former student of the School, who joined the staff in 1946.

Among the honours conferred on colleagues, special mention must be made of the election of Professor D. V. Glass to the Fellowship of the Royal Society; he was already a Fellow of the British Academy and this quite exceptional distinction of election to both these learned societies is a tribute to his personal standing as a scholar and a recognition of the importance of demography as a field of study, to the creation of which he has made such a decisive contribution.

In a sadly long list of deaths of former members of the School: Governors, staff, students and porters, reference must be made to the death of Sir Otto Niemeyer, who was Chairman of the Court of Governors for sixteen years; to the death of Sir Theodore Gregory, who joined the School in 1910 as a student, was a member of its academic staff for twenty-four years and retained his active interest in the School throughout his retirement; and to the death of William Wall, a porter at the School for forty-six years. The death of Miss Eve V. Evans closes a chapter of half a century of devoted service to the School, unique in its character and creative importance. As Registrar and as Secretary she established a quality of personal concern and intimacy combined with superb efficiency in the School's administration which all of us who worked with her or have followed her are determined shall never be

Report by the Director

betrayed; she set a standard of selfless devotion to the best interests of the School and of all its individual members which we cannot hope to reach, but are under duty to her to strive to do so.

Research

The School has, from its foundation, been a leading centre of research in social studies and has sought to provide good research facilities for members of the teaching staff and for graduate students. Furthermore, in order to preserve the freedom of staff to pursue research in their own way, the aim of the School has been to keep administrative organization concerned with research to a minimum consistent with adequate financial control and flexible enough to allow for the variety of research undertaken and for the rapid changes in the ways in which research is pursued. To this end there is a Research Committee whose terms of reference are as follows:

1. To encourage and facilitate research appropriate to the School as an academic centre of scholarship and teaching in social studies.
2. To keep under general review the research activities of the School and:
 - (a) seek to initiate and to secure means for the development of research
 - (b) receive for assessment all new proposals for research or for extensions of existing research projects which involve commitments of School funds and resources, other than the personal research of members of the staff or research financed from the Staff Research Fund
 - (c) make recommendations to the Director concerning proposed applications by the School or by members of the staff to outside bodies for research funds for which, if granted, the School would be accountable
 - (d) make recommendations to the Director concerning the amount of the allocation to be voted annually to the Staff Research Fund
 - (e) receive annual reports on the use of all research funds and grants for which the School is accountable.

There is a Staff Research Fund Committee which is responsible for advising the Research Committee on the allocation of the Staff Research Fund to research divisions. The Committee also receives reports on research carried out with the aid of the Fund.

The Research Divisions

There are at present seven research divisions, which include most members of the teaching staff. They are:

- (i) the Economics Research Division, which includes the staffs of the departments of Economics, Economic History, and Industrial Relations
- (ii) the Geographical and Anthropological Research Division
- (iii) the Government Research Division
- (iv) the International Studies Research Division, which includes the staffs of the departments of International History, International Relations, and Language Studies
- (v) the Legal Research Division
- (vi) the Social Research Division, which includes the staffs of the departments of Social Psychology, Social Science and Administration and of Sociology

Research

- (vii) the Statistics Research Division which includes the staffs of the departments of Statistics, and Philosophy, Logic and Scientific Method.

The divisions are concerned mainly with 'project research' and provide assistance to individual teachers on an *ad hoc* basis. Two divisions have, however, developed other functions:

- (a) The Economics Research Division has established a basic staff of research assistants, whose services are available to all members of the Division, and an Economic Documentation and Research Centre where information is collected. To this extent this division may be said to be becoming also a centre of 'subject research'.
- (b) The Statistics Research Division also offers an advisory service to staff and graduate students throughout the School on statistical methods and their application, and maintains a small research library, the Leverhulme Library, for staff use.

The Computer Services Unit has set up an experimental data retrieval scheme for articles published in the principal statistical journals. Any member of the School may obtain from the statistical journals at present in the scheme, details of any articles written by a specified author or containing a given word or group of words in the title. Information about references to or from the articles is also given.

A Unit in Operational Research has been established within this Division to provide a centre at which new theoretical problems in this field can be attacked, to provide graduate students with practical experience and to provide advice and information for operational research workers.

It is characteristic of much research in social studies today that it is co-operative in many different ways. Many projects are joint ventures in which several members of the staff share; some involve co-operation between several academic disciplines; some are pursued in collaboration with outside agencies, public and private, and with other colleges both in the United Kingdom and overseas. These have often been most fruitful in contributing both to the solution of urgent social and economic problems and to the enrichment of academic knowledge and the stimulation of the development of new techniques of enquiry.

The units described in the following paragraphs are mainly concerned with projects of this kind.

Centre for International Studies

The Centre for International Studies was established at the School in 1967 with the aid of a grant from the Ford Foundation. Whilst the prime concern of the Centre lies in the broad field of international studies, special attention is devoted to research and training in Soviet studies, including Russian and East European studies, and the study of International Communism; in Asian studies with special emphasis on development within China, and on China's relations with the outside world; and in European studies where, initially, a major concern is with the pattern of East-West relations, political, economic and cultural, in Europe.

In pursuance of this programme, the Centre has to date appointed eleven Research Fellows. Details of the work of earlier years are set out in previous Calendars. In 1970-71 three appointments were made: Dr. M. Abir, who worked on political

Research

relations and great power pressures in the Gulf and Red Sea area; Dr. Sheila Fitzpatrick, who worked on the cultural revolution in Russia during the period of the first Five-Year Plan and Miss T. Tani, who worked on Japanese policy towards China and the international politics of Asia at the time of the Nishihara loans. The Centre has also awarded studentships to seventeen graduates. It is worthy of note that nearly half the number of former holders of graduate studentships now hold university appointments. Seventeen Visiting Fellows have also been able to spend some time at the Centre, taking part in seminars, as well as conducting their own research.

Documentary archives of contemporary international politics are being maintained and may be published. This project is sponsored jointly by the Centre and the International Relations department.

A seminar is also being run on Asia and the Pacific in International Relations, particular attention being given to China's relations with her neighbours and other great powers, while the Centre also assists in a joint Chatham House/L.S.E. seminar on European Studies.

The work of the Centre is directed by a Steering Committee under the Chairmanship of Professor J. B. Joll, consisting of: Professor G. L. Goodwin, Professor A. H. John, Professor Coral M. Bell, Professor M. Freedman, Professor G. Ionescu, Professor H. G. Johnson, Dr. I. Lapenna, Dr. M. Leifer, Dr. P. H. Lyon, Dr. I. H. Nish, Professor F. S. Northedge, Mr. P. Reddaway, Professor L. B. Schapiro, Mr. G. H. Stern, Professor D. C. Watt, Professor P. J. de la F. Wiles, Mr. P. Windsor.

Centre for Urban Economics

The Centre for Urban Economics was established in September 1970 to undertake research in urban economics. It is part of the Economics department. Contact has been established and will be maintained with members of other departments working on urban problems.

Among its activities has been developing an urban economics option in the M.Sc. in Economics and strengthening the urban economics element in the teaching for the M.Sc. in Regional and Urban Planning Studies. Among its major research areas are: the analysis of trends in employment and unemployment within London during the 1960s in comparison with the rest of the country (also by industrial and geographical sectors within London); the formulation and testing of hypotheses to explain these trends, as well as research on female activity rates, the nature of unemployment and the relation of availability of low-paid labour to the structure of the housing market.

Comparative urban transport policies: the comparisons are international. The development of cost-benefit techniques in planning studies. Theoretical work in urban modelling.

Forecasting housing supply and demand in relation to a number of macro-economic variables. The analysis of changes in housing policy.

The development of methods to evaluate urban renewal programmes.

The Head of the Centre is Mr. C. D. Foster. Its members are A. D. J. Flowerdew and J. M. Thomson. Several other members of the Economics faculty are associated with its work.

Greater London Group

This interdisciplinary group was formed in 1958 under the stimulus provided by the

Research

appointment of the Royal Commission on Local Government in Greater London. The appreciation of the value of the evidence which the Group presented to the Commission led to continued research into a number of subjects relating to local government in London and the south-east region, the range of which is indicated by the appended list of publications. In addition, two reports commissioned from the Group by the Royal Commission on Local Government in England were published by H.M.S.O. in 1968: they dealt with local government in south-east England and the lessons of the Greater London reforms.

During the last session, the second evaluative part of the Group's study of the reform of London government was published by the School and its publishers as *The New Government of London: The First Five Years*. The major research project on transport and traffic administration and co-ordination in Greater London has now been completed and will be published in due course. A study of the London Borough of Camden and its administration in the period 1965-71 has also been completed and will be published by Camden Borough Council.

During the current session a major project is being undertaken to examine London's labour market with particular reference to female activity rates, unemployment, low-paid workers and their housing needs. Finance is being sought for another project concerned with the political process in the London boroughs to ascertain the relative importance of the elected members, the officers, the press, local organizations and pressure groups and individuals. A feasibility study has been carried out in the London Borough of Haringey.

The Group has received grants of £18,300 from the Nuffield Foundation, £14,000 from the Leverhulme Trust, £13,600, and £16,000 from the Social Science Research Council, £8,000 from the Royal Commission on Local Government, £3,500 from the Ministry of Housing and Local Government and £2,000 from the City Parochial Foundation.

The Chairman of the Group is Professor W. A. Robson and the Vice-Chairman is Professor P. J. O. Self.

Higher Education Research Unit

The Unit undertakes research on economic and statistical aspects of higher education. Its research relates to methods of educational planning at national level, the relationship between what is provided in higher education and labour force needs, and the costs and operation of institutions of higher education. Part of the Unit's efforts is devoted to educational planning in developing countries.

Current projects include: student numbers and resource allocation in higher education; cost and production functions in higher education; two studies in the field of manpower planning: the demand for social scientists and an international comparison of rates of return to investment in education; and a study of the findings of the Carnegie Commission on Higher Education from a European viewpoint. Two new studies are proposed: one on financial efficiency and innovation in higher education, in particular on the economics of the Open University and its implications; and an analysis of professional labour markets, especially school-teachers. Several projects have now been completed, each resulting in a major publication. Seventeen books have been published. The following publications are in the press: *The Practice of Manpower Forecasting: A Collection of Case Studies*; *The Returns to Education: An International Comparison*; 'Economic and Social Aspects of the Academic Profession'; 'Costs in Universities and Polytechnics'; 'Demand for Social Scientists'; and 'Allocating Resources in Higher Education'.

Journal articles by members of the Unit are issued in the Unit's Reprint Series: forty-nine to date. A report on the Unit's work from 1964 to 1968 entitled *The First Five Years* was published in July 1969. As well as covering research completed, it describes the Unit's administrative, financial and teaching aspects and outlines future plans. Annual Reports are also available.

Financial support for the Unit has come from the Nuffield Foundation (two grants), the Social Science Research Council (two grants), the Department of Education and Science (five grants), O.E.C.D. (three grants), the Ford Foundation (three grants), the former Ministry of Overseas Development (two grants), the Department of Employment, the National Board for Prices and Incomes, the National Economic Development Office (three grants), the Carnegie Commission on Higher Education, and the London School of Economics, and now totals some £580,000.

The Director of the Unit is Professor C. A. Moser; Associate Director, Mr. G. L. Williams; Deputy Director, Mr. P. R. G. Layard; Research Secretary, Miss J. A. Pinney. There is a full-time research staff of fifteen. Several members of the teaching staff undertake research in connection with the Unit's programme.

Apart from its research, the Unit has initiated five courses: a workshop and a research seminar in the Economics of Education, held fortnightly throughout the session, a lecture course in the Economics of Education and Human Capital (sixteen lectures), a lecture course on Statistical Aspects of Educational Planning (fifteen lectures), and a lecture course on Economic Models of Educational Planning (ten lectures). The students who attend these courses are mainly graduates taking the option in Economics of Education and Human Capital for the M.Sc. in Econ-

Research

omics, the Educational Statistics option for the M.Sc. in Statistics, the Educational Administration option for the M.Sc. in Social Administration, or the Manpower Planning option in the M.Sc. in Industrial Relations, as well as research students working in the Unit's field. The Unit also organizes a Seminar in Educational Planning and various informal activities in the economics of education.

Industrial Relations and Work Behaviour Research Unit

This Unit was formed to bring together the research activities of the Industrial Relations department, the Building Management Research Unit and the Diploma in Personnel Management Course of the department of Social Science and Administration. The research of the Unit is under the direction of Professor B. C. Roberts, Baroness Seear and Mr. K. E. Thurley.

Current research includes S.S.R.C. financed projects investigating industrial relations problems of multi-national corporations; the growth of legal services and policy and trade unions and firms; the process of organizational change in large public organizations. Studies of housing maintenance organizations within local and national government and of port management organization are also being carried out.

Management Studies Research Division

The Management Studies Research Division is concerned with studies at the School germane to management problems, covering such fields as administrative theory, structure and procedures; mathematical and statistical methods applied to decision-making; computer programming and data processing; accounting for management; the economics and finance of public and private enterprises; and industrial relations. Its members are Professor A. S. Douglas, Professor J. Durbin, Professor H. C. Edey (Chairman), Professor B. C. Roberts, Baroness Seear, Professor P. J. O. Self and Professor B. S. Yamey.

Medical Research Council Unit (20 Hanway Place, W1P 0AS)

The Medical Research Council Unit was established at the School in April 1962 to study problems on the borderline of sociology and medicine. The Unit is undertaking first a large-scale national study of health and development, and second a number of smaller developmental studies of infants and young children.

The work of the National Survey covers four main areas: (a) the educational histories of the 5,000 young people in the sample, more than 600 of whom have entered universities or training colleges. Miss E. Atkins and Mr. M. Lowe are in charge of this part of the study. (b) The employment and vocational training of those who have left school and are not continuing with full-time education. This part of the study is in the hands of Miss N. Cherry, who, with the help of youth employment officers throughout the country is looking at further education and apprenticeships among school leavers, the types of job they have taken, the reason for taking them and the time they have lost from work. (c) The home background, educational record and emotional adjustment of those who come before the Courts. (d) A study of the second-generation families. These last two studies are in the care of Mr. M. E. J. Wadsworth.

The developmental studies of infants and young children are of two types. Dr. A. Costello and Dr. Margaret Lamont are using a twin sample to study the ways in which the personal characteristics of very young children influence the care they

Research

receive. Mrs. E. Cooper and Dr. D. Ingleby are studying the factors that influence the early adjustment and progress of children when they enter the infant schools. The Director of the Unit is Dr. J. W. B. Douglas and the Secretary is Miss E. Pollard.

Population Investigation Committee

The Population Investigation Committee is a research group concerned with the study of demographic questions and has been housed at the School since World War II. It is affiliated with the School, acts as adviser to the School on questions of demographic research and teaching, and collaborates with the School in the provision of postgraduate training in demography. The Committee undertakes investigations into population problems and publishes a journal *Population Studies*.

A major investigation initiated by the Committee has been a National Sample Survey of the Health and Development of Children, based on a follow-up study of an appropriately designed sample of children born in one week in 1946 in every area in Great Britain. Reports on the study include many papers and three books: *Maternity in Great Britain* by the National Survey Committee; *Children under Five* by J. W. B. Douglas and J. M. Blomfield and *The Home and the School* by J. W. B. Douglas.

This study is continuing under the direction of Dr. Douglas through the Unit established by the Medical Research Council in collaboration with the School. Since the establishment of the Unit, several more papers and an additional book (J. W. B. Douglas, J. M. Ross, and H. R. Simpson, *All Our Future*) have been published and further reports are in preparation.

The Committee has also co-operated with the Scottish Council for Research in Education in their follow-up survey of Scottish school children—a survey which has resulted in the publication of several books.

Part of the continuing research of the committee is the study of changes in marriage and divorce in England and Wales over the past hundred years. Several reports have been published. A collection of documentary materials on marriage and divorce has been built up and analysed. The documentary study was complemented by a stratified random sample survey covering a national sample of 3,000 households. This survey, multi-purpose in character, covered not only a number of aspects of marriage, but also detailed questions on fertility and birth control. Many papers have been published dealing in particular with the changing incidence of birth control in Great Britain and also with marriage and marital breakdown.

More recently, the research of the Population Investigation Committee has been concerned especially with questions of current marriage and fertility patterns in Britain. A full-scale enquiry into fertility and birth control practice in Britain was launched in 1967. Papers presenting preliminary results have been published in advance of the completion of a full report. The Committee is also involved in research concerning population questions in developing countries and, at the request of the Government of Mauritius, is helping to evaluate the birth control programme in that country.

In collaboration with the School, the Committee has organized a postgraduate training programme in demography, focused upon developing societies, but also accepting students from developed societies. Since its establishment in 1965, 108 students have been admitted to the programme. New methodological research has been undertaken in connection with the training programme, with the object of

Research

providing more effective techniques for detecting and correcting errors in poor basic demographic data. A book embodying the results of this research was published in 1971: *Demographic Estimation for Developing Societies* by N. H. Carrier and J. N. Hobcraft.

In addition, the Committee has long been involved in research into historical demography. One of the major publications resulting from this research is that of T. H. Hollingsworth, *The Demography of the British Peerage*. A monograph on the eighteenth-century population controversy and the development of censuses and vital statistics in Britain is scheduled for publication in 1973.

The Committee has received financial support from many bodies including the following: Department of Scientific and Industrial Research, the Social Science Research Council, the Ford Foundation, the Home Office, the International Planned Parenthood Federation, the Nuffield Foundation, the Simon Population Trust, the Population Council Incorporated of New York and the Rockefeller Foundation. The Chairman of the Committee is Professor D. V. Glass; the Hon. Research Secretary is Mr. N. H. Carrier and the General Secretary is Mrs. D. Castle.

Other Aspects of Research

Whilst some research activity is financed from School funds, the greater part of it is supported by public sources of research grants, by research foundations and by benefactions from industry and individuals. Reference to some of this support has been made in the preceding paragraphs about the larger units engaged upon co-operative projects. Earlier benefactions have provided support for a wide range of other research projects, some of them extending over several years.

The School has also been glad to accept grants from outside bodies which have made possible the establishment of fellowships, thereby enabling scholars to undertake on a full-time basis investigations the pursuit of which would scarcely have been possible if combined with the heavy burdens of teaching duties.

Other aspects of the School related to the pursuit of research are dealt with in other parts of the *Calendar* where particulars will be found of the resources of the British Library of Political and Economic Science, one of the most important 'tools' for social scientists in the world, and of the Graduate School and the facilities provided for graduate students.

This brief account of research in relation to the teaching and research staff of the School would not be complete without reference to the important contribution which the School makes by the training of research workers, many of whom thereafter carry their experience to newer centres of social studies both at home and abroad.

Computer Services

As members of London University, students and staff of the School have access to the University computer facilities. These comprise the London University CDC 6400, 6600 and 7600 computers at Guilford Street; the IBM 360/65 at University College; the ICL 1905E at Queen Mary College; the CDC 6400 and IBM 7094 at Imperial College and the ICL Atlas at Chilton.

The School is directly linked to the CDC 6600 through two card reader/line printer terminals and by means of a number of video terminals. Several teletypes are available to access the 6600 or the 6400 at Imperial College. In addition, the School

Research

shares a CDC 1700 computer at King's College, which is also directly linked to the central 6600.

It is the policy of London University to charge all users who are in receipt of research grants with a financial provision for computing, the direct cost of computer time. All other users have free access to the computer although small charges may be made for the hire of magnetic tapes or discs, and the use of stationery.

A computer service comprising data preparation, computer operating, programming and advisory services, is provided under a Manager of the Computer Unit. A very comprehensive range of programs designed for the use of social scientists is available to members of the School.

Part II: Regulations and Facilities

Admission of Students

1. Students are classified in the following categories:

- (a) Regular students—those paying a composition fee for a degree or diploma or for any other full course and students paying a research fee.
- (b) Occasional students—those paying a fee for one or more separate courses of lectures.

2. No student will be admitted to any course until he has paid the requisite fees. The School reserves the right at all times to withdraw or alter particular courses and course syllabuses.

First Degrees

1. All applications for admission to full-time courses leading to a first degree at the School should be made through the Universities Central Council on Admissions. The Council's address is P.O. Box 28, Cheltenham, Glos., GL50 1HY, and all completed application forms should be sent there.

2. Students at school in this country may obtain the application form and a copy of the U.C.C.A. handbook, which contains a list of universities and degree courses and instructions on completing the form, from their head teacher. Other students may obtain the form and handbook from the Secretary of the U.C.C.A. The cost, post free, is 27p within the United Kingdom and the Republic of Ireland; 55p within Europe; 80p elsewhere.

3. Completed application forms must be returned to the U.C.C.A. and not to the School. The School's code number is **L LSE 44**. An overseas student should normally submit his form to the U.C.C.A. through one of the recognised agencies, such as the Overseas Development Administration or his own country's High Commissioner's Office, Students' Office, Embassy or Consulate General in the United Kingdom. Students from Australia, Canada, New Zealand, South Africa, the Republic of Ireland and the United States of America, and citizens of the U.K. and colonies resident in East Africa should submit their applications direct to the U.C.C.A. British Council offices abroad can give helpful advice, but do not supply application forms or handbooks. Any student whose permanent home address is outside the U.K. will be classed as an overseas student **for U.C.C.A. purposes**.

4. The earliest date at which the U.C.C.A. will receive applications for admission in October 1973 is 1 September 1972. The closing date for the receipt of applications at the U.C.C.A. is 15 December 1972, except for students who include Oxford or Cambridge in their choice of universities, who must submit their applications by 15 October 1972. However, all students are advised to submit their applications as soon as possible after 1 September and not to leave them until the last minute.

5. Before anyone can be considered for admission to a degree course he must either have satisfied the general requirements of the University of London and any additional requirements for the course for which he is applying, or intend to do so

Admission of Students

before the date on which he wishes to be admitted. The entrance requirements for the degree courses conducted by the School are set out briefly on pages 139–140. Full details may be found in the pamphlet *Regulations Relating to University Entrance Requirements* which may be obtained from the Secretary to the University Entrance Requirements Department, University of London, Senate House, Malet Street, London, WC1E 7HU. Intending students are advised to obtain a copy of the regulations and to check that their qualifications are appropriate for the course they wish to follow.

6. The fact that a student has satisfied these general requirements does not mean that he will automatically obtain a place at the School. Candidates are usually expected to have reached a standard well above the pass mark in their qualifying examinations. Some students may also be asked to attend for interview or to take an entrance examination.

7. No person under the age of eighteen years will be admitted as a student without the Director's special permission. Any student who wishes to enter the School before his eighteenth birthday may be asked to write to state his reasons.

8. Candidates will be informed of the result of their applications through the U.C.C.A. Successful candidates will be admitted as regular students of the School on payment of the requisite fees and on presentation of a Statement of Eligibility to enter the University of London. They will receive an admission card, which must be produced at any time on demand.

9. No student is allowed to register or study concurrently for more than one examination of the University of London or of the School unless he has previously obtained in writing the permission of the Director of the School. Students studying for an examination of the University or of the School who wish to study at the same time for an examination held by an outside body are required to state this fact when applying for admission to the School. Students failing to disclose this fact are liable to have their registration cancelled.

Interviews

Most offers of a place are made without the students' being called for interview, but practice varies from one course to another. However, the School normally invites applicants who have received an offer of a place to come to see its buildings, to meet teachers and to ask questions.

University Entrance Requirements

All candidates for admission to degree courses at the School must, by the date on which they hope to be admitted, be able to satisfy:

- (a) the general requirements laid down by the University of London for admission to degree courses.
- (b) the course requirements (if any) for the particular degree course they wish to follow. (See table on pages 139–140.)

Candidates may satisfy the general entrance requirements by:

- 1. passing the General Certificate of Education examination, or an approved equivalent, in the required number of subjects, i.e.
 - either (a) two at advanced level and three at ordinary level,
 - or (b) three at advanced level and one at ordinary level;

Admission of Students

(Notes: (i) A Grade 1 pass in a subject taken in the Certificate of Secondary Education is recognised as equivalent to an Ordinary level pass in the G.C.E. examination.
(ii) Higher or Lower passes in the Scottish Certificate of Education examination are accepted as equivalent to Ordinary level subjects in the G.C.E. examination. Advanced level equivalence is granted to certain subjects passed in the Certificate of Sixth-year Studies, and passes in certain branches of mathematics in the post-higher syllabus may count as equivalent to Advanced level subjects.)

- or 2. graduating in another university;
- or 3. obtaining by examination a full practising professional qualification;
- or 4. obtaining the Diploma in Technology;
- or 5. applying under the regulations for Advanced Students in virtue of a Teacher's Certificate, awarded since 1962, after a course of study lasting three academic years in a Training College in England or Wales, or of a Teacher's Certificate, gained in or after 1960, at a Training College in Scotland or Northern Ireland after a course of study lasting not less than three academic years;
- or 6. by other qualifications to be considered by a Special Entrance Board (See below.)

For a list of first degree courses and course requirements see pages 139–140.

A Special Entrance Board will consider applications from holders of the Higher National Diploma or Certificate, or the Ordinary National Diploma or Certificate. Full details will be found in the pamphlet *Regulations Relating to University Entrance Requirements* mentioned in Section 5 on page 136.

Additional Information for Overseas Students

Many students overseas will find it convenient to submit their applications to the U.C.C.A. through an established agency, such as their government's Students' Office or High Commission, or the Foreign and Commonwealth Office (Overseas Development Administration), and students are advised to seek the help and advice of these agencies before submitting an application. Students who wish to do so, however, may send direct to the U.C.C.A. any application for admission to a first degree course at the School. Students who are in any doubt or difficulty over this procedure may write direct to the School for advice.

Candidates from overseas are also asked to take particular note of the following points:

- (a) Those who do not hold the relevant British qualifications listed on pages 136–7 but who hold a qualification enabling them to enter a foreign university may be considered by the Special Entrance Board of the University of London. Such students should in the first instance apply for admission to the School through the U.C.C.A. If the School is willing to admit them it will forward their applications to the Special Board for consideration.
- (b) Students whose mother tongue is not English will be required to give evidence of proficiency in the language before their applications can be considered.
- (c) Candidates from overseas, whether living abroad or in the United Kingdom at the time they make application, will be required, before they are accepted, to

Admission of Students

show that they have adequate financial resources to cover the cost of the three-year full-time course of study for a first degree. They will be asked to provide a guarantee that they have available at least £650 a year in addition to the fees. They may also be asked to provide a medical certificate.

- (d) Intending students from overseas should not set out for this country unless they have received a definite offer of a place at the School.
- (e) There is further information on pages 150–3 about fees for overseas students.

Note Besides the general requirements given on pages 136–7 candidates must satisfy the course requirements for the degree they wish to take.

General Course Students

Enrolment in this category is suitable for students who wish to follow a full-time course of study at the School for one year only. The facilities are intended mainly for foreign students, and attendance does not count towards any degree awarded by London University.

1. Applications for General Course registration will be considered from undergraduates who will have completed at least two years of study in a foreign university by the time of their enrolment at the School. Highly qualified graduate students who wish to do general work in the social sciences may also apply. Graduates who wish to follow a more specialised course without preparing for a degree, should apply for Research Fee registration (see pages 152 and 265).
2. General Course enrolment enables a student to attend lectures and classes and receive tuition at the School for one academic year only.
3. The number of students admitted each year is strictly limited. Only students who propose to spend one whole session at the School will ordinarily be considered.
4. (a) The Adviser to General Course students has general responsibility for the arrangements for students in this category and will address newly-arrived students at the beginning of the year as part of a reception programme.
(b) Every student is allocated to a tutor, who will advise in the selection of courses and act throughout the session as supervisor.
(c) The student may attend most lecture courses and may also join classes.
(d) The student has full use of the Library without payment of any additional fee.
5. (a) At the end of the course each student will be given, on request, a certificate of registration. This certificate lists the lectures and classes for which the student was registered, but does not include a detailed record of attendance.
(b) The student may apply to write not more than two examination papers in subjects of his own choosing. The results of any examinations are added to the registration certificate.
(c) A tutor's confidential report will also be made available, on request, to the student's home university.

The School does not grade students or award credits on the American model. *Before committing themselves to attendance, students should, therefore, ensure that the facilities outlined above will satisfy the requirements of their home university.*

6. Application forms for General Course registration may be obtained from the Assistant Registrar (Admissions) of the School. Completed applications must reach the School not later than 31 March before the opening of the session for which admission is sought.

Occasional Students

1. Occasional students are entitled to select up to three lecture courses per term from those listed in the Sessional Timetable. They are normally required to enrol for a complete course or for a whole term; registration for single lectures is not permitted. Classes and seminars are not normally open to Occasional students.

Admission of Students

The fee for most courses is 50p per hour. Refunds of fees are not normally available.

2. Applicants for admission as Occasional students must normally be in full-time employment.

3. A person seeking admission as an Occasional student should obtain a form of application from the Assistant Registrar (Admissions) of the School and return it at least four weeks before the opening of the term in which he wishes to attend.

4. Each applicant will be asked to state his qualifications for study at the School and the purpose for which he wishes to study, and he may be invited to attend for interview before admission. In view of pressure on teaching resources and accommodation, only a limited number of Occasional students will be accepted. Candidates for external degrees of this University may not normally be registered as Occasional students.

5. If the application is accepted the student will, on payment of the fees, receive a card of admission for the courses named thereon and must produce it on demand.

6. Occasional registration does not entitle a student to tutorial assistance. The teaching facilities are strictly limited to attendance at the courses for which the individual student is registered.

7. An Occasional student will be allowed full use of the Main Library but not of the Teaching Library.

8. At the end of his attendance a student will, on request, be given a typed certificate listing the courses for which he has been registered, but this certificate will not include a detailed record of attendance.

University Registration

Students of the School who are reading for degrees or diplomas of the University of London are registered by the School as internal students of the University.

Regulations for Students

Preamble

1. The School exists for the pursuit of learning. Its fundamental purpose can be achieved only if its members can work peaceably in conditions which permit freedom of thought and expression within a framework of respect for the rights of other persons.

The Regulations exist to maintain these conditions and protect the School from actions which would damage its academic reputation or the standing of the School and its members.

Alterations and Additions

2. There shall be a Rules and Regulations Committee. The Committee shall consist of the Director, three Academic Governors, and three other members of the Academic Board elected annually by the Board, the President and Deputy President of the Students' Union and three other student members elected annually from among the registered full-time students in accordance with Regulation 25. The Committee may make recommendations for alterations and additions to these Regulations to the Standing Committee of the Governors and such alterations or additions shall come into effect forthwith upon publication after the approval of the Standing Committee has been given. If at any time the Standing Committee does not accept a recommendation of the Rules and Regulations Committee it shall state its reasons to that Committee in writing.

3. The Rules and Regulations Committee may also make recommendations to the Director on Rules for the conduct of School affairs, and the Director or any other person authorised by him may make and issue Rules that are not inconsistent with these Regulations after consultation with the Committee. The Director or any other person authorised by him may also, in circumstances which in the opinion of the Director or such other person constitute an emergency, issue Instructions for the duration of the emergency.

General

4. No student of the School shall:

- (a) Disrupt teaching, study, research or administrative work, or prevent any member of the School and its staff from carrying on his work, or do any act reasonably likely to cause such disruption or prevention;
- (b) Damage or deface any property of the School, or do any act reasonably likely to cause such damage or defacing;
- (c) Use the School premises contrary to the Regulations and Rules, or do any act reasonably likely to cause such use;
- (d) Engage in any conduct which is, or is reasonably likely to be, clearly detrimental to the School's purposes.

Academic Matters

5. The Director may at his discretion refuse to any applicant admission to a course of study at the School or continuance in a course beyond the normal period required for its completion. He may refuse to allow any student to renew his attendance at the School as from the beginning of any term, on the ground of the student's lack

Regulations for Students

of ability or of industry, including failure in a degree examination or other examination relating to a course, or failure, without adequate reason, to enter for an examination after completing the normal course therefor, or for any other good academic cause.

The Press

6. The admission to the School of representatives of the press, radio or television shall be governed by Rules made under these Regulations.

Public Statements

7. A student using the name or address of the School on his own behalf or on behalf of an organization in a public statement or communication shall make clear his status as a student, and the status of any such organization.

Copyright in Lectures

8. The copyright in lectures delivered in the School is vested in the lecturers, and notes taken at lectures shall be used only for purposes of private study. Lectures may not be recorded without permission of the lecturer. Any recording permitted is subject to the conditions (if any) required by the lecturer.

Misconduct

9. Any breach by a student of these Regulations constitutes misconduct and renders the student guilty of such a breach liable to penalties as laid down in these Regulations. Misconduct shall not be excused by the fact that the offender may have acted on behalf of, or on the instructions of, any other person or organization.

10. If suspension from any or all of the facilities of the School has been imposed by a Summary Tribunal or by a Board of Discipline, or by the Director or under his authority under Regulation 24, and the student upon whom it has been imposed fails during the period of the suspension to comply with its terms, this failure shall itself be misconduct.

11. If a student is convicted of a criminal offence in the courts which relates to an act committed within the School or immediately affecting the School or committed in such circumstances that the continued presence of the offender within the School may be clearly detrimental to the well-being of the School, the fact of a conviction will not necessarily preclude the institution of disciplinary action by the School under these Regulations.

Penalties for Breaches of Regulations

12. The following penalties may be imposed for a breach by a student of any of these Regulations:

Reprimand.

A fine not exceeding £25.

Suspension from any or all of the facilities of the School for a specified period.

Expulsion from the School.

In any case where a penalty is imposed (other than a reprimand) the Director or the authority imposing the penalty may suspend its coming into force conditionally upon the good behaviour of the offender during the remainder of his membership of the School.

Regulations for Students

13. A Board of Discipline may impose any of the penalties listed in Regulation 12. A Summary Tribunal may impose any of the following penalties:

Reprimand.

A fine not exceeding £25.

Suspension from any or all of the facilities of the School for a period not exceeding six weeks.

Disciplinary Procedures

14. Where any member of the staff or any student of the School believes that a breach of the Regulations has been committed by a student of the School he may file a complaint against that student for misconduct. The complaint shall be filed in writing with the Academic Secretary, who will investigate the matter.

Should the Academic Secretary be satisfied that a *prima facie* case exists, he will refer the complaint to the Director, or to another person authorised by the Director, and the Director or such person shall decide whether the complaint shall be proceeded with, and, if so, whether before a Summary Tribunal or before a Board of Discipline. In deciding whether proceedings shall take place before a Summary Tribunal or a Board of Discipline the Director or the person authorised by him shall have regard to the seriousness of the alleged misconduct. Where the decision is made to proceed the Director or the person authorised by him shall formulate the charge or cause it to be formulated, and convene a Summary Tribunal or Board of Discipline as the case may require.

15. Subject as hereinafter provided, the members of Summary Tribunals and Boards of Discipline shall (other than the Chairman of a Board of Discipline) be drawn from a Disciplinary Panel and a Student Disciplinary Panel:

Provided that

- (a) If a person who has been selected as a member of a Tribunal or Board, and to whom not less than seventy-two hours' notice of its convening has been despatched, is absent during any part of the proceedings of the Tribunal or Board, he shall thereafter take no further part in the proceedings and his absence shall not invalidate the proceedings unless the number of those present throughout the proceedings (including the Chairman) falls below two in the case of a Summary Tribunal or four in any other case.
- (b) Students against whom charges of misconduct are laid shall have the right, if they so wish, to be heard by a disciplinary body without student members provided it is otherwise properly constituted.

16. The Disciplinary Panel shall consist of ten lay Governors appointed annually by the Court of Governors and ten members of the academic staff who are appointed teachers of the University of London or recognised teachers of the University of London of at least two years' standing at the time of selection, selected annually by lot in accordance with Regulation 27:

Provided that

- (a) No Governor who is a member of the Standing Committee of the Court of Governors shall be a member of the Disciplinary Panel.
- (b) No member of the Rules and Regulations Committee shall be a member of the Disciplinary Panel.

Regulations for Students

17. The Student Disciplinary Panel shall consist of ten persons who are registered full-time students selected annually by lot in accordance with Regulation 26.

18. Subject to Regulation 29, appointments of Governors to and selection of academic members of the Disciplinary Panel and the selection of the Student Disciplinary Panel shall take place in the year preceding the year of office, which shall commence on 1 August in each year. Additional appointments and selections may be made during the year of office to fill casual vacancies.

19. The members of a Summary Tribunal or of a Board of Discipline (other than lay Governors, who shall be selected by the person convening a Board, and the Chairman) shall be selected from the appropriate Panels by lot. No person shall be eligible for selection as a member of a Tribunal or Board if he is himself the subject of the case intended to be referred to that Tribunal or Board, or if he is the person who has brought the complaint, or if in the opinion of the person convening the Tribunal or Board it would be unfair to the person who is the subject of the case if he were to be selected. If at the commencement of a hearing a member of a Tribunal or Board is successfully challenged by the student who is the subject of the case, or his representative, that member shall be replaced by another person selected in a like manner.

20. Subject to Regulation 15, a Summary Tribunal shall consist of two academic members of the Disciplinary Panel and one member of the Student Disciplinary Panel. The Chairman of a Summary Tribunal shall be appointed from the Disciplinary Panel by the person convening the Tribunal. The decision of a Summary Tribunal shall be by a majority. At least seventy-two hours before a Tribunal meets, the student alleged to have committed a breach of these Regulations shall be informed in writing of the date of the hearing and of the nature of the breach which he is alleged to have committed. At the hearing of the Summary Tribunal he shall be entitled to be represented by an advocate of his own choice, who may be a lawyer. He or his representative shall be entitled to cross-examine any witness called, and to call witnesses in his defence. He shall further be entitled to give evidence and to address the Tribunal in his defence. The Summary Tribunal shall report its findings and the penalty (if any) imposed in writing to the student concerned and to the Director.

21. In every case where a Summary Tribunal reports that a breach of Regulations has been committed the student concerned shall be entitled to request, within forty-eight hours of being informed of the report and of the penalty proposed to be imposed, that the decision be reviewed by an Appeals Board consisting of two members of the Disciplinary Panel who shall not be persons concerned in the original hearing, selected in the same manner as the academic members of the Summary Tribunal. The Appeals Board shall not re-hear evidence, but otherwise shall determine its own procedure. It shall report its decision in writing to the student concerned and to the Director.

22. Subject to Regulation 15, a Board of Discipline shall consist of two members of the Disciplinary Panel who are also lay Governors, two academic members of the Disciplinary Panel, two members of the Student Disciplinary Panel and a Chairman who shall be a practising member of the Bar of at least seven years' standing who is not a member of the School and who shall be appointed in consultation with and subject to the agreement of the Vice-Chancellor of the University of London.

Regulations for Students

The decision of a Board of Discipline shall be by a majority. At least three weeks before a Board of Discipline meets, the student alleged to have committed a breach of these Regulations shall be informed in writing of the date of the meeting and of the nature of the breach which he is alleged to have committed. At the hearing of the Board of Discipline he shall be entitled to be represented by an advocate of his own choice, who may be a lawyer. He or his representative shall be entitled to cross-examine any witness called, and to call witnesses in his defence. He shall further be entitled to give evidence and to address the Board in his defence. The Board of Discipline shall report its findings and the penalty (if any) imposed in writing to the student concerned and to the Director.

23. In every case where the Board of Discipline reports that a breach of Regulations has been committed the student concerned shall be entitled, within three weeks of being informed of the report and of the penalty proposed to be imposed, to appeal to an Appeals Committee of two members, neither of whom shall be members of the School, appointed in consultation with and subject to the agreement of the Vice-Chancellor of the University of London. The Appeals Committee shall not re-hear evidence but otherwise shall determine its own procedure and shall report in writing its decision to the student concerned and to the Director.

24. At any time when a decision to refer an alleged offence to a Board of Discipline is under consideration, or after any such reference has been made, the Director or a person under his authority may suspend the student concerned from all or any specified use of the School facilities pending the decision of the Board of Discipline.

Any order for suspension made pending a decision to refer shall lapse at the end of two weeks and shall not be renewable unless the case is, within that time, referred to a Board of Discipline. Any suspension under this Regulation will not be construed as a penalty, nor will it be reported to a grant-giving body as a penalty.

Student Members of Rules and Regulations Committee

25. The student members of the Rules and Regulations Committee shall be elected annually in the academic year preceding the year of office, which shall commence on 1 August in each year. Nomination of candidates shall be carried out in like manner to the nomination of candidates for the election of the President of the Students' Union. The election shall be by postal ballot and shall be conducted by the Academic Secretary. The President of the Students' Union shall be entitled to nominate a student to observe the conduct of the election.

Student Disciplinary Panel

26. The annual selection of members of the Student Disciplinary Panel shall be made by the Academic Secretary in the academic year preceding the year of office, using a random selection process. In making this selection he shall seek the advice of an Appointed Teacher in Statistics of the University. He shall exclude from the selection students whose courses he anticipates will be completed during the year of selection. He shall notify the persons selected and shall ask them to state in writing whether they agree to serve as members of the Panel. If within fourteen days of this notification any of the persons selected has not given this consent, further selections shall be made in like manner until ten persons have been selected

Regulations for Students

and have agreed to serve. Any casual vacancies that arise during the year of office may be filled by further selection in like manner from the same group of persons. The President of the Students' Union shall be entitled to appoint a student to observe the conduct of the selection.

Academic Members of Disciplinary Panel

27. The annual selection of the academic members of the Disciplinary Panel shall be made by the Academic Secretary in the academic year preceding the year of office, using a random selection process. In making this selection he shall seek the advice of an Appointed Teacher in Statistics of the University. He shall exclude from the selection persons who he anticipates will be absent from the School for any period in term time exceeding four weeks during the year of office for which the selection is made. He shall notify the persons selected and shall ask them to state in writing whether they agree to serve as members of the Panel. If within fourteen days of this notification any of the persons selected has not given this consent, the Academic Secretary shall make further selections in like manner until ten persons have been selected and have agreed to serve. Any casual vacancies that arise during the year of office may be filled by further selection in like manner from the same group of persons.

Miscellaneous

28. These Regulations shall come into force on 29 September 1969.

29. The first appointments to and selections for the Disciplinary Panel and the first selection of the Student Disciplinary Panel shall exceptionally be made and held as soon as practicable after 29 September 1969 and the members of each Panel as so constituted shall hold office until 31 July 1970.

30. Any disciplinary proceedings pending on 29 September 1969 and any appeal from any finding or penalty imposed in any disciplinary proceedings which is pending on such date shall, notwithstanding the coming into force of the Regulations, continue to be governed by and in the manner available under the Regulations for Students in force at the time when the pending proceedings or appeal were commenced.

31. Until the first Disciplinary Panel has come into existence a Summary Tribunal shall be duly constituted if its members (other than the student) consist of two members of the academic staff appointed by the person convening the Tribunal, and a Board of Discipline shall be duly constituted if its Chairman has been nominated as laid down in Regulation 22 and its other members (other than students) consist of any four persons appointed by the person convening the Board from the Board of Discipline in existence immediately before these Regulations come into force. If at any time there shall be no duly constituted Student Disciplinary Panel in existence a Summary Tribunal or a Board of Discipline shall be duly constituted if the Tribunal or Board as the case may be has no student members provided that it is otherwise properly constituted. Selection of members of a Summary Tribunal or Board of Discipline under Regulation 19 shall not be invalid only by reason of the fact that at the time of selection the number of members of the Disciplinary Panel or Student Disciplinary Panel is less than that specified in Regulation 16 or 17, as the case may be.

Regulations for Students

32. Rules and Instructions issued under these Regulations shall be deemed part of the Regulations. All Rules in force immediately before these Regulations come into force shall remain valid and shall be deemed part of these Regulations until they have been amended, altered or cancelled under the provisions of Regulation 3.

33. An accidental defect in the constitution of a Summary Tribunal or Board of Discipline shall not invalidate its procedure.

34. Any actions that these Regulations require to be carried out by the Academic Secretary may be carried out by a person acting under his authority. In the absence or incapacity of the Academic Secretary his functions under these Regulations may be exercised by his Deputy or by another person authorised by the Director, and references in these Regulations to the Academic Secretary shall be read to include his Deputy or any such person.

Fees

(The fees stated are those which are applicable to the session 1972-73: they may not be valid thereafter.)

General Notes

1. Composition fees entitle students to:

- (a) the use of the Library;
- (b) membership of the Students' Union, and, for students working under inter-collegiate arrangements, the use of student common rooms of the other colleges which they attend.

2. Degree composition fees cover lectures, classes and individual supervision, and also lectures given at other colleges under intercollegiate arrangements.¹ They also cover University registration and examination fees except in the case of *part-time* students registered for higher degrees who must pay University registration and examination fees in addition to the School composition fees.

3. Following the decision of the government, announced in December 1966, separate fees are payable by overseas students. The definition of overseas students is given on pages 152-3.

4. Students are normally expected to pay fees by the session, but for those who find this difficult, payment by terminal instalments is permitted.²

5. The sessional or terminal fees should be paid in full before the beginning of the session or term to which they relate.² Fees are not returnable, but applications for partial return of fees may be considered in exceptional circumstances. Adequate notice of withdrawal from the School should be given. Students who fail to notify the School of their withdrawal before the opening of term will be liable for the fees for that term.

6. Fees should, as far as possible, be paid by cheque and remitted by post to the Accounts Department, Room H402.

7. Cheques should be made payable to the "London School of Economics and Political Science" and should be crossed "A/c. Payee".

8. The School does not issue receipts for payments by cheque unless specially requested.

¹Composition fees do not include (a) the cost of field work or practical work required to be undertaken in vacation or term time, nor (b) the costs of a year of residence abroad required of students reading for B.A. degrees in Language Studies.

²If the sessional fee has not been paid by 31 December, students will be charged at the terminal rate.

Unless otherwise stated the fees apply to each year of the course of study.

Fees

Students Registered with the Graduate School

- (i) Graduate students undertaking research not leading to a degree, or undertaking studies leading to a higher degree of a university other than London, will be classified as research students and be required to pay the research fee.
- (ii) The continuation fee is payable by a higher degree student who has completed his approved course of study, but has been permitted to continue his registration. It entitles him to receive advice from his supervising teacher and to attend one seminar, but not to attend any lecture courses. These arrangements apply to higher degree students after they have been registered for the M.Phil or Ph.D. full time for three years or part time for four years.
- (iii) The sessional or terminal fees should be paid in full before the beginning of the session or term to which they relate. Fees are not returnable, but applications for partial return of fees may be considered in exceptional circumstances. Adequate notice of withdrawal from the School should be given.

Students who fail to notify the School of their withdrawal before the beginning of the term will be liable for the fees for that term.

- (iv) The fees cover attendance at all such courses at the School as a student may attend and at such courses at other institutions of the University as he may attend on the advice of his teachers and with the approval of the other institutions concerned.
- (v) The fees for the LL.M. degree entitle the student to the advice and guidance of a supervising teacher and attendance at such lecture courses and seminars as are approved by the latter. A student spreading the work for the degree over two sessions may, with the consent of the teacher concerned, repeat a seminar or course already taken.
- (vi) Part-time students reading for higher degrees are charged non-inclusive tuition fees plus a University registration fee of £8. They pay their own examination fee as follows:

M.A., M.Sc., M.Phil. or LL.M.	£25
Ph.D.	£35

Fees for Occasional Students

Approved students are admitted on payment of appropriate fees, the amounts of which will be quoted on request. For general guidance it may be stated that the fee for most courses is 50p per hour. Thus, for example, the fee for a course of ten lectures of one hour each is £5.

Fees for Re-entry to Examinations for School Diplomas

A candidate who, as a registered full-time student, has completed the course of study for a Diploma awarded by the School, but has failed to satisfy the examiners in whole or in part, may apply to re-enter for the examination on payment of the following fees:

Re-entry for a single subject	£2
Re-entry for a whole examination	£6

Definition of "Overseas Students" for the Purpose of Fees

The following are not regarded as overseas students for the purpose of paying fees:

1. Any student who has been ordinarily resident in the U.K. for at least three

Fees

years immediately preceding the date his course is, or was, due to begin; a student who has been in the U.K. either at school or at a course of *non-advanced* further education¹ is regarded as having been ordinarily resident in the U.K. during the period of such attendance.

2. Any student whose parents (or one of whose parents) have been ordinarily resident in the U.K. for at least three years immediately preceding the date his course is, or was, due to begin.

3. Any student who would have been ordinarily resident in the U.K. for at least three years immediately preceding the date his course is, or was, due to begin had he or his parents (or one of his parents) not been employed for the time being outside the U.K.

4. Any student aged under 21 at the date his course is, or was, due to begin if he and his parents (or one of his parents) have been ordinarily resident in the U.K. for at least one year immediately preceding that date.

5. Any student who for at least one year immediately preceding the date his or her course is, or was, due to begin, has been (a) ordinarily resident or on a full-time or sandwich course of higher education² in the U.K., and (b) married to a person who has been ordinarily resident in the U.K. for at least three years immediately preceding that date.

All other students are regarded for the purpose of fees as overseas students for the duration of their course, including any student who has attended a full-time or sandwich course of *higher* education² in the U.K. prior to embarking on a course at the School. (An overseas undergraduate who marries a U.K. resident may however, acquire home student status for a postgraduate course. See 5 above.)

¹General Certificate of Education 'O' and 'A' level and Ordinary National Diploma courses are examples of non-advanced further education courses.

²Higher National Diploma, Diploma in Art and Design and degree courses are examples of higher further education courses.

Scholarships, Studentships, Prizes, Bursaries

The pages immediately following give particulars of the scholarships, studentships, prizes and bursaries made available to students hoping to study or already studying at the School. The information relating to them is correct at the time of going to press, but may be amended in the light of subsequent developments. Intending candidates for undergraduate awards should enquire at the Registry and those for graduate awards at the Graduate School Office.

Information about Local Authority Awards and State Scholarships may be found in the *Handbook of Undergraduate Courses* 1973-74, available from the Registry and the Undergraduate Admissions Office.

Scholarships and Studentships

These awards are arranged in the following categories:

(a) **Entrance awards** open to those who seek to enter the School to read for a first degree.

(b) **Undergraduate awards** open only to students already studying at the School. They are generally awarded on the results of a first-year degree examination or on the student's record as an undergraduate.

(c) **Graduate awards** open to graduates who wish to read for a higher degree at the University of London or to undertake research or advanced study.

(d) **Awards open to both undergraduates and graduates:**

(i) The S. H. Bailey Scholarship in International Studies (see page 166)

(ii) The Scholarship in International Law (see page 166)

Overseas applicants All the awards offered are open to overseas students, and there are some for which only overseas students may compete. One graduate entrance studentship is offered exclusively to students from overseas, on the basis of record only, and without interview. An interview at the School is, however, an essential part of the selection procedure for all other awards offered by the School and overseas candidates cannot be considered unless they are likely to be in England at the time when the selection is being made.

Entrance Scholarships

1. ENTRANCE SCHOLARSHIPS FOR MATHEMATICIANS

A scholarship to the value of £550 a year is offered to students who wish to read for *either* the B.Sc. (Econ.) degree and who propose to offer one of the following special subjects in Part II of the final examination:

Accounting and Finance

Economics, Analytical and Descriptive

Scholarships, Studentships

Mathematical Economics and Econometrics
Statistics
Computing

or the B.Sc. degree: Main Field Mathematics.

A small number of awards of £100 may also be made.

The closing date for receipt of applications is 30 November.

2. LEVERHULME ADULT SCHOLARSHIP

This scholarship of the value of £100 a year is offered to candidates of not less than 23 years of age who intend to read for one of the first degrees in the social sciences. The closing date for receipt of applications is 15 December.

Detailed regulations for these scholarships and application forms may be obtained from the Senior Assistant Registrar.

3. CHRISTIE EXHIBITION

This exhibition of the value of £40 is offered every other year to students reading for a diploma in the department of Social Science and Administration.

4. THE DELIA ASHWORTH SCHOLARSHIP

The Delia Ashworth Scholarship, founded under the will of Miss Mary Isabel Ashworth, may be offered from time to time to enable the holder to follow a diploma course in the department of Social Science and Administration. The value is expected to be about £90 a year.

Note Further information about the awards at 3 and 4 and the Loch Exhibitions awarded by the University of London may be seen in the pamphlet *Department of Social Science and Administration*.

Scholarships for Undergraduates

Provided that candidates of sufficient merit present themselves the School will award annually eight scholarships to students whose work in their first year shows outstanding merit. Seven of the scholarships are of the value of £100 a year, namely four C.S. Mactaggart Scholarships and three School Undergraduate Scholarships. The eighth, namely the Chartered Institute of Secretaries and Administrators Scholarship, is open only to students reading for the B.Sc. (Econ.) and LL.B. degrees and is of the value of £50 a year.

The scholarships will be allocated to students following first-degree courses as follows:

(a) B.Sc. (Econ.):

Regulations for Undergraduate Scholarships at (a), (b) and (c):

- (i) They shall be open to registered students of the School who have completed not less than one year of a first degree course at the School.
- (ii) Awards shall be made only if there are candidates of sufficient merit.
- (iii) The scholarships shall be tenable for one or more years, extension beyond the first year being dependent upon the high standard of progress required of a School scholar.
- (iv) Students who have completed one year of a degree course will be considered automatically. Selected candidates may be required to attend for interview at the beginning of the Michaelmas term of their second year.

HAROLD LAŠKI SCHOLARSHIP

A scholarship in memory of Professor Harold Laski will be offered for award annually to second and third-year undergraduate students working within the Government department. It will be awarded to the student who, in the opinion of the convener of the department, has written the best essay during the current session. Essays will be submitted through tutors within the department by the beginning of the Summer term.

The value of the scholarship will be the income of the fund for the preceding year and will normally be about £50.

Undergraduates will be considered automatically and the successful candidate will be informed. An award will be made only if there is a candidate of sufficient merit.

LILIAN KNOWLES SCHOLARSHIP

An undergraduate scholarship will be offered by the School annually. The value of this scholarship will be the income of the fund for the preceding year and will normally be about £45.

The regulations for this scholarship are:

- (a) It shall be awarded on the results of Part I of the B.Sc. (Econ.) examination to

Scholarships, Studentships

the student of the School intending to offer Economic History as his special subject in Part II of the examination and achieving the best results among such students in Part I of the examination as a whole. An award shall be made only if there is a candidate of sufficient merit.

(b) The scholarship shall be tenable for one year.

(c) The scholarship shall be awarded in the Summer each year.

Candidates need not make special application; they will be considered automatically and the successful candidate will be informed.

BRYCE MEMORIAL SCHOLARSHIP

The Clothworkers' Company offers annually, until further notice, in memory of the late Lord Bryce, a Bryce Memorial Scholarship in History or in Laws of the value of about £80.

The conditions for this scholarship are:

1. Candidates must be internal students of the University.
2. Candidates must have completed the first year of a course as internal students of the University, and must be about to commence the second year of a course leading to the B.A. degree in History or to the LL.B. degree.
3. The scholarship will be tenable for one year.

No application is required. The Director will nominate candidates, who will be told when their names have been submitted.

CLOTHWORKERS' COMPANY'S EXHIBITIONS

The Clothworkers' Company has established two annual exhibitions of the value of about £40 a year.

The conditions for these exhibitions are:

1. The exhibitions are restricted to internal students (men), who must be prepared to take an honours degree and/or to take Holy Orders in the Church of England. Preference will be given to applicants intending to take Holy Orders, but the exhibitions are open to any candidate who is proceeding to an honours degree. (Candidates for the LL.B. degree must have passed the Intermediate examination in Laws.)
2. The exhibitions will be tenable for one or two years.
3. They will be available during the second and third years of the degree course.
4. Applicants' financial circumstances may be taken into account.

No application is required. The Director will nominate candidates, who will be told when their names have been submitted.

METCALFE SCHOLARSHIP

A scholarship, founded under the will of Miss Agnes Edith Metcalfe, is awarded annually by the University of London, provided a candidate of sufficient merit presents herself. The value of the scholarship is £40 per annum.

Scholarships, Studentships

The conditions for this scholarship are:

1. Candidates must be women students who have passed the examination for Part I of the B.Sc. (Econ.) degree.
2. The successful candidate will be required to work as a full-time student of the School for the B.Sc. (Econ.) degree.
3. The scholarship will be tenable for one year.

No application is required. Students selected for interview will be informed.

STERN SCHOLARSHIPS IN COMMERCE

Two Sir Edward Stern Scholarships each of the value of £40 (at present supplemented to £100), will be awarded annually in October.

The conditions for these scholarships are:

The scholarships will be awarded on the results of Part I of the B.Sc. (Econ.) examination to students proposing to take a subject of commercial interest, e.g. Industry and Trade, Accounting and Finance, Monetary Economics or appropriate subjects in Economics (Analytical and Descriptive) as the special subject in Part II of the examination.

No application is required. Students selected for interview will be informed.

GRAHAM WALLAS MEMORIAL SCHOLARSHIP

A Graham Wallas Memorial Scholarship, founded by friends of the late Professor Graham Wallas for the encouragement of studies in his particular field of learning, will be offered from time to time. The scholarship will be of the value of £40 a year.

The conditions for this scholarship are:

1. The scholarship is open to any student working as an internal student of the University for the B.Sc. (Econ.) (with the special subject of Government or Sociology), the B.Sc. (Sociology), the B.A. degree in Sociology, or the B.A. degree in Psychology or the B.Sc. degree in the Faculty of Science with main field Psychology, or the B.Sc. degree in the Faculty of Economics with main field Social Psychology, and who has completed satisfactorily one year of the course for the relevant degree in the University.
2. The scholarship will be tenable in the first instance for one year, but may be renewed on application.

Applications for the scholarship on a prescribed form, addressed to the Academic Registrar, University of London, Senate House, WC1E 7HU, and accompanied by the names and addresses of not more than two referees must reach the University not later than 1 September in the year of award.

Graduate Studentships

The attention of students from overseas is particularly directed to the conditions of award for graduate studentships offered by the School. Competition for the student-

Scholarships, Studentships

ships is keen and students from overseas should not come to the School in the expectation of securing an award. They should have sufficient resources to maintain themselves during their course of study.

GRADUATE STUDENTSHIPS IN ECONOMICS¹

Graduate Studentships will be offered for full-time advanced study in Economics, widely interpreted. These studentships are intended to enable recent graduates to spend at least a year in the Graduate School in organized courses or supervised research.

The regulations for these studentships are:

1. They shall be open primarily to graduates of United Kingdom universities with first or good second class honours degrees in Economics, or other appropriate subjects, who obtain such degrees in the year of award.
2. Each studentship shall be tenable for one year in the first instance, but may in a limited number of cases be extended for not more than two further years.
3. Each studentship shall be of the value of £750 a year in the first year, together with all appropriate fees. The value of the studentship may be increased if it is renewed for a second or third year.
4. Each holder of a studentship shall be required to register as a full-time student in the Graduate School and to follow a prescribed course of study or undertake approved research.
5. The holder of a studentship shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.

Applications should be made by letter to the Secretary of the Graduate School by 1 March.

Those who have already applied for admission to the School for the M.Sc. in Economics *and have stated on their application form that they wish to be considered for one of these awards* need take no further action.

STUDENTSHIPS IN THE ECONOMICS, ECONOMIC GEOGRAPHY OR ECONOMIC HISTORY OF LATIN AMERICA

One or more studentships will be offered for full-time advanced study in the Economics, Economic Geography or Economic History of Latin America.

The regulations for these studentships are:

1. The studentships shall be open to men and women graduates with good Honours degrees in Economics, in relevant aspects of Geography, History or Economic History, or to those who, before October in the year of the award, obtain such degrees.

¹'Economics' may be interpreted to include Statistics in relation to Economics, Econometrics, Operational Research, parts of Accounting and certain aspects of Economic Geography, Economic History and Industrial Relations.

Scholarships, Studentships

2. Studentships shall be tenable for one year in the first instance, but may be extended for not more than two further years.
3. Studentships shall be of the value of £750 a year, together with all appropriate fees. The cost of any travel in Latin America approved by the Director may also be provided.
4. Holders of these studentships shall be required to register at the School as full-time students and to undertake research in the Economics, Economic Geography or Economic History of Latin America, or advanced work preparatory to such research. Programmes of work will require the approval of the Director.
5. Holders of these studentships shall undertake no paid employment without the permission of the Director and, whenever this is given, appropriate deductions will normally be made from the value of the studentships in any case where the total income from all other sources exceeds £250 per annum.

Each candidate for an award should apply by letter giving his age and full particulars of his education and qualifications. He should indicate in outline his proposed scheme of research or course of study unless this information has already been sent to the School. He should give the names of two referees.

Applications should be received by 1 June for awards tenable from the following October and should be addressed to the Secretary of the Graduate School.

GRADUATE STUDENTSHIPS

Two Graduate Studentships may be offered annually for graduate work in the social sciences.

The regulations for these studentships are:

1. They shall be open to graduates of any university.
2. Each studentship shall be of the value of £525 together with tuition fees in the first year; £550 together with tuition fees if renewed.
3. Successful candidates shall be required to register as full-time students of the School and to obtain the approval of the Director for the advanced study or research which they propose to undertake.
4. The holder of a studentship shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.
5. Each studentship shall be tenable for one year in the first instance, but may be renewed for a second year subject to satisfactory progress.
6. Awards shall be made only if there are candidates of sufficient merit.

Applications should be made on a form obtainable from the Secretary of the Graduate School, to whom it must be returned by 1 September. Candidates should submit an outline of their proposed programme of advanced study or research and are also invited to send original work, either published or in typescript, in support of their application. They should also submit the names of two referees.

LEVERHULME RESEARCH STUDENTSHIPS

Two Leverhulme Research Studentships may be offered annually for graduate work in the social sciences.

The regulations for these studentships are:

1. They shall be open to graduates of any university.
2. Each studentship shall be of the value of £525 a year together with tuition fees.
3. Successful candidates shall be required to register as full-time students of the School and to obtain the approval of the Director for the advanced study or research which they propose to undertake.
4. The holder of a studentship shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.
5. Each studentship shall be tenable for one year only.
6. Awards shall be made only if there are candidates of sufficient merit.

Applications should be made on a form obtainable from the Secretary of the Graduate School, to whom it must be returned by 1 September. Candidates should submit an outline of their proposed programme of advanced study or research and are also invited to send original work, either published or in typescript, in support of their application. They should also submit the names of two referees.

LEVERHULME GRADUATE ENTRANCE STUDENTSHIP FOR OVERSEAS STUDENTS

One Graduate Studentship for overseas students may be offered annually for graduate work in the social sciences.

The regulations for this studentship are:

1. It shall be open to men and women who are graduates of an overseas university or who expect to become graduates of such a university before October in the year of award.
2. No person who is or who has been a student of the School shall normally be eligible.
3. The studentship shall be of the value of £775 a year in the first year; £800 if renewed.
4. The successful candidate shall be required to register as a full-time student of the School and to obtain the approval of the Director for the advanced study or research which he proposes to undertake.
5. The holder of the studentship shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.
6. The studentship shall be tenable for one year in the first instance, but may be renewed for a second year subject to satisfactory progress.
7. An award shall be made only if there is a candidate of sufficient merit.

Scholarships, Studentships

Applications should be made by letter, which should reach the Secretary of the Graduate School by 30 April. Candidates should submit an outline of their proposed programme of study or research and are also invited to send original work either published or in typescript, in support of their application unless this information has already been sent to the School. They should give the names of two persons whom they should ask to write direct to the Secretary of the Graduate School to report on their suitability for the award. Candidates are responsible for seeing that these letters are sent in support of their application.

LEVERHULME RESEARCH STUDENTSHIP FOR OVERSEAS STUDENTS

A Graduate Studentship will be offered annually to enable an overseas student to continue with full-time graduate work at the School leading to a higher degree of the University of London.

The regulations for this studentship are:

1. The award shall be restricted to students who are not graduates of the University of London and who have been registered at the School as graduate students throughout the session previous to that in which they wish to hold the award.
2. The studentship shall be of the value of £775 a year.
3. The successful candidate shall be required to continue as a full-time graduate student of the School.
4. The holder of the studentship shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.
5. The award shall be tenable for one year only.
6. An award shall be made only if there is a candidate of sufficient merit.

An announcement concerning the award will appear on the scholarships notice-board in the School at the beginning of the Summer term. Applications must be made by letter addressed to the Secretary of the Graduate School.

THE JACKSON LEWIS SCHOLARSHIP

The Jackson Lewis Scholarship, founded under the will of Mr. H. L. Jackson, a former student, will be offered every other year to enable the holder to undertake graduate work in the social sciences.

The regulations for this scholarship are:

1. It shall be open to graduates of any university.
2. The scholarship shall be of the value of at least £400 a year.
3. The successful candidate shall be required to register as a full-time student of the School and to obtain the approval of the Director for the advanced study or research which he proposes to undertake.

Scholarships, Studentships

4. Subject to satisfactory progress the scholarship shall normally be tenable for two years.

5. An award shall be made only if there is a candidate of sufficient merit.

Applications should be made by letter addressed to the Secretary of the Graduate School by 1 September. Candidates should submit an outline of their proposed programme of study or research and are also invited to send original work, either published or in typescript, in support of their application. They should also submit the names of two referees.

MONTAGUE BURTON STUDENTSHIPS IN INTERNATIONAL RELATIONS

The School offers annually one or more graduate studentships, each of the value of £40, to enable the holders to pursue research, or to read for a higher degree in International Relations under the direction of the Montague Burton Professor of International Relations.

The regulations for these studentships are:

1. The awards shall be open to graduates in the Humanities or the Social Sciences of any university.

2. Applicants need not necessarily have any formal grounding in any particular branch of International Studies.

3. In awarding the studentships the School shall have regard to the desire of those who founded this endowment by giving preference to those students who wish to qualify themselves for university teaching in International Relations, the subject in which the Montague Burton Professorship was established.

4. The awards shall be tenable for up to two years.

5. In exceptional circumstances, the School may grant a maintenance allowance to the holder of one of these studentships.

6. In the case of a studentship with a maintenance grant, the holder shall undertake no paid employment without the permission of the Director; appropriate deductions will normally be made from the value of the award in any case where the total income from all other sources exceeds £250 per annum.

Applications for the awards should be made on a form which can be obtained from the Secretary of the Graduate School and must be returned to her by 1 September.

NOEL BUXTON STUDENTSHIP IN INTERNATIONAL RELATIONS

With the aid of a grant provided by the Noel Buxton Trust, a Research Studentship in International Relations tenable at the London School of Economics and Political Science has been established for a limited period.

The regulations for the studentship are:

1. It shall be open to men and women who are graduates of a university.

2. The field for research or study shall be any subject calculated to promote the

Scholarships, Studentships

better understanding of the problems of international peace and security (including disarmament). Some preference, however, may be given to subjects associated with one or other of the more urgent international problems of the day.

3. The holder of the studentship shall be required to follow an approved course of study or research in the field defined in regulation 2, whether leading to a higher degree or not.

4. The value of each studentship shall not exceed £1,250 a year. It shall normally be held for a period of not less than two years at a time.

5. The holder of a studentship shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.

Applications for the studentship, which should be in writing, must give full particulars of the applicant's career and of his interest in the relevant field of study and must be received by the Secretary of the Graduate School by 31 March in the year of the award. The names of two referees should be given.

(In exceptional circumstances applications may be considered from candidates who expect to graduate before October in the year of award.)

HUTCHINS STUDENTSHIP FOR WOMEN

A studentship for women students will be offered for award every fourth year. Its value will be the income of the Hutchins Fund for the four preceding years and will normally be about £500. It is intended to promote the execution of definite pieces of original work preferably in Economic History, or if no suitable candidate is forthcoming in that field, in some branch of the social sciences. The next studentship may be offered in 1974.

The regulations for this studentship are:

1. The studentship shall be open to women students who are graduates or who possess the necessary qualifications to undertake research.

2. The subject of research shall be approved by the Director of the School.

3. Each holder of the studentship shall be required to register as a full-time student of the School and shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.

4. The studentship shall be tenable for one year only.

5. The studentship shall be awarded only if there is a candidate of sufficient merit. If there is no such candidate, the studentship shall be offered for award in the next following session; but this shall not affect the value of the studentship awarded on that occasion or the date of the next regular offer.

Applications should be made on the prescribed form which can be obtained from the Secretary of the Graduate School. The closing date for entry is 1 September in the year of award.

EILEEN POWER STUDENTSHIP

An Eileen Power Studentship in social and economic history, founded by the friends of the late Professor Eileen Power, will be awarded every second or fourth year until further notice. The studentship, which is designed for students of graduate standing, may next be offered for award in 1973. It is not conditional upon registration for a higher degree. The studentship is of the value of at least £750, and is tenable with other emoluments. In years in which the full studentship is not awarded, applications for grants may be considered.

The regulations for this studentship are:

1. The student shall be elected by a selection committee appointed by the Committee of Management.
2. The studentship shall be open equally to men and women.
3. The studentship shall be tenable from October of the year of award for one year.
4. Candidates for the studentship must submit with their applications full particulars of their qualifications, the names of two referees and a brief scheme of study of some subject in social or economic history which might include the study of the economic or social history of some country other than the country of their usual residence.
5. If a student registered at the School holds this studentship he shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the value of the studentship in any case where the total income from all other sources exceeds £250 per annum.

When the studentship has been advertised application should be made by letter addressed to the Secretary of the Graduate School. There are no special application forms.

REES JEFFREYS STUDENTSHIP IN TRANSPORT

The School will offer for award annually one studentship in Transport provided in part from funds from an endowment created for the purposes of the studentship by the late Mr. Rees Jeffreys and in part by the trustees of the Rees Jeffreys Road Fund.

The regulations for this studentship are as follows:

1. It shall be open both to men and women who are graduates of a university, and also to persons who are or have been engaged in the operation or administration of transport, the construction of transport facilities or the manufacture of transport equipment.
2. The field for research or study shall be in subjects relating to the economics of transport, and to the balanced development of the various forms of transport.
3. The holder of the studentship shall be required to register at the School as a full-time student and to undertake advanced study or research; his programme of work must have the approval of the Director.
4. The value of the studentship shall not exceed £1,000 a year.
5. The holder of a studentship shall undertake no paid employment without the permission of the Director. Appropriate deductions will normally be made from the

Scholarships, Studentships

value of the studentship in any case where the total income from all other sources exceeds £250 per annum.

6. The studentship shall be tenable at the School for one year in the first instance, but can in appropriate circumstance be renewed for a second year.

Applications for the studentship should be made on a form which can be obtained from the Secretary of the Graduate School and must be returned to her by 30 April.

ROSEBERY STUDENTSHIP

(This studentship may be held in addition to other awards.)

A Rosebery Studentship of the value of £100 a year will be offered for award by the School for graduate work in the social sciences. Preference will be given to candidates including some aspect of transport in their studies.

The regulations for this studentship are:

1. The studentship shall be open to graduates of any university.
2. The successful candidate shall be required to register as a graduate student of the School and to obtain the approval of the Director for the advanced study or research which he proposes to undertake.
3. The studentship shall be tenable for one year in the first instance, but may be renewed.
4. An award shall be made only if there is a candidate of sufficient merit.

Applications should be made on a form obtainable from the Secretary of the Graduate School, to whom it must be returned by 1 September, together with the names of two referees. Candidates should submit an outline of their proposed programme of study or research and are also invited to send original work, either published or in typescript, in support of their application.

S. H. BAILEY SCHOLARSHIP IN INTERNATIONAL STUDIES and

SCHOOL SCHOLARSHIP IN INTERNATIONAL LAW

(These two scholarships are open to undergraduates and graduates.)

These two scholarships are offered for award annually and are each of the value of £50. They are open to men and women who are regular students and who, as internal students of the University of London, are registered for first or higher degrees at the School. They are intended to enable the successful students to attend a session at the Academy of International Law at The Hague, or, in the case of the S. H. Bailey Scholarship, to attend any other institute of international study or to gain experience of some suitable international organization on a plan to be approved by the Director. They will be awarded only if there are candidates of sufficient merit, and candidates should make a written application to the Senior Assistant Registrar before 1 May in the year of award.

STATE STUDENTSHIPS

The Department of Education and Science offers Major State Studentships and State Studentships for research or advanced study in the Humanities.¹ The awards are open to graduates of British universities or students of such universities expecting to graduate; or to holders of a degree of the Council for National Academic Awards or students expecting to obtain such a degree. Candidates who are proceeding to graduate studies immediately after undergraduate studies, must have been ordinarily resident in England or Wales for at least three years immediately preceding the start of the undergraduate studies.² They have at present a maximum value for at least 44 weeks' full-time study in a year of £650 (£500 if the student lives at home or £425 for a married woman student who is living in the matrimonial home and whose husband is not a full-time student), plus tuition and examination fees. The maintenance grant will be awarded without reference to the income of the student's parents.

The awards are made by the Department of Education and Science each summer on the basis of recommendations made by British universities during the Lent term. Students of the School who wish to undertake graduate work with the aid of State studentships of either kind should apply to the Senior Assistant Registrar by a date in the Lent term which will be announced on the scholarships notice-board in the main entrance hall of the School. Every student seeking nomination must be supported by two sponsors, normally members of the teaching staff.

Students may not apply direct to the Department of Education and Science.

SOCIAL SCIENCE RESEARCH COUNCIL ADVANCED COURSE AND RESEARCH STUDENTSHIPS

The Social Science Research Council offers Research Studentships and Advanced Course Studentships for research or advanced study in the Social Sciences. For the purposes of these awards the Social Sciences are defined as the following subjects:

Accountancy	International Relations
Anthropology	Political Science
Demography	Regional Planning
Economics	Social Psychology

the start of postgraduate studies, hold a second class (upper division) honours degree and be under 27 years of age on 1 October in the year of application. If neither parent has been so resident, the three-year period must exclude any period of full-time education. Non-British subjects must also be graduates of a university in the United Kingdom. Candidates must be nominated for an award by the authority of the college at which the award is to be held.

SCIENCE RESEARCH COUNCIL ADVANCED COURSE AND RESEARCH STUDENTSHIPS

The Science Research Council includes the following subjects among those it recognises for its Advanced Course and Research Studentships:

Operational Research
Statistics

Generally, applicants for S.R.C. Studentships should be citizens of the United Kingdom or Colonies, or Commonwealth citizens who are normally resident in Great Britain and whose parents are normally resident in Great Britain. They should hold a good second class honours degree and be under 27 years of age on 1 October in the year of application.

The School will be given quotas of awards at the end of April or the beginning of May and will then be able to put forward applications to both these bodies for consideration. Confirmation of the awards will not be given by the S.S.R.C. or the S.R.C. until the degree results are known. Students who would like to obtain one of these studentships should state that they wish to do so when applying to the Secretary of the Graduate School for admission.

Students cannot apply direct to the S.S.R.C. or to the S.R.C.

METCALFE STUDENTSHIP

A studentship, founded under the will of Miss Agnes Edith Metcalfe, is awarded annually by the University, provided a candidate of sufficient merit presents herself. Until further notice the value of the studentship will be not less than £120 in the case of a full-time student, and not less than £60 in the case of a part-time student. Candidates who do not know the result of their degree examinations may make provisional application.

The conditions of eligibility and award for this studentship are:

1. The studentship is tenable at the School and is open to any woman who has graduated in any university of the United Kingdom.
2. The successful candidate will be required to register as a student of the School and undertake research in some social, economic or industrial problem to be approved by the University. Preference will be given to a student who proposes to study a problem bearing on the welfare of women.
3. The studentship is tenable for one year in the first instance, but may be renewed for a second year.

Applications must be received not later than 24 May in the year of award, by the Secretary of the Scholarships Committee, University of London, WC1E 7HU, from whom further particulars and application forms may be obtained.

LEON FELLOWSHIP

1. The Leon Fellowship has been founded under the will of Mr. Arthur Lewis Leon for the promotion of postgraduate or advanced research work in any subject, but preferably in the field of Economics or Education. The fund will be administered by the Leon Bequest Committee, hereinafter referred to as the Committee.
2. The following provisions are fundamental in the management of the fund:
 - (a) No qualifications or conditions of religious, political or economic opinions, party or creed, or of race or nationality, sex or marriage shall be attached to the grant or holding of any studentship or fellowship or the receipt of any grant or stipend.
 - (b) No part of the income of the Trust fund shall be applied in payment of the costs of the printing and publication of reports and such like matters (other than such reports or accounts as are hereby expressly provided for and the reports or treatises of any holder of any studentship or fellowship or recipient of any grant or stipend).
 - (c) The benefits of the Trust fund shall be open equally to men and women without limit of age whether or not they are members or graduates of any university and shall not be confined to residents within the Administrative County of London or within the appointed radius of the University.
3. The fellowship will be of the value of not less than £1,200 a year and will be awarded from time to time as advertised in the public press. The award will be made for one year in the first instance, but may be renewed for a second year.
4. Candidates for the fellowship need not be members or graduates of a university, but must be in possession of qualifications which would enable them to undertake research of the kind indicated in section 1 above.
5. Candidates must submit a scheme of work for the consideration of the Committee; selected candidates may be required to attend at the University for an interview with the Committee.
6. Applications, of which *ten* copies must be supplied, must be typewritten, and made in the following form:
 - (a) Name in full; age; address; present occupation
 - (b) Qualifications for research and titles of any published work
 - (c) Short particulars of education and previous career
 - (d) Nature of proposed research
 - (e) Grants received, if any, for same object
 - (f) Place where it is proposed to carry out the research
 - (g) Names and addresses of not more than two persons to whom reference may be made
 - (h) Any additional information which the candidate may desire to give in support of his application, in as short a form as possible.
7. The fellowship will be awarded by the Committee, who may obtain the assistance of such assessors as they consider necessary.
8. The amount of the fellowship will be paid in instalments at such times as may be decided in each case, each instalment (with the exception of the first, which will be

Scholarships, Studentships

paid in advance) being payable only on receipt by the Committee of evidence that the holder of the fellowship is satisfactorily pursuing his research.

9. The Fellow will be required at the expiration of the tenure of the fellowship to make a report to the Committee, and all published papers containing the results of researches carried out with the aid of the fellowship shall include a statement to the effect that the author is a Leon Fellow of the University of London.

10. Applications must be received by the Principal of the University on or before 1 February in the year of the award.

Note Applicants for the Leon Fellowship should note that ten copies of *all* documents are required, including the scheme of work.

INSTITUTE OF COMMONWEALTH STUDIES JUNIOR RESEARCH FELLOWSHIPS

1. The Institute offers the Henry Charles Chapman Junior Research Fellowship and the Dame Lillian Penson Junior Research Fellowship in Commonwealth Studies for research relating to the history, or to the contemporary social, economic, or political problems of the Commonwealth or any overseas part of it.

2. The annual value of the Junior Research Fellowships will be in the range £650-£850. In addition, University of London tuition fees may in some cases be paid where these fees have not otherwise been provided for.

3. The fellowships will normally be awarded to full-time students registered for a research degree who, at the time they take up the fellowship, will be in at least the second year of their research. Each fellowship will be tenable for one year, with the possibility of renewal for a second year.

4. Applications (five copies) on the prescribed form, should reach the Assistant Secretary, Institute of Commonwealth Studies, 27 Russell Square, London, WC1B 5DS, not later than 10 February.

UNIVERSITY POSTGRADUATE STUDENTSHIPS

(I) A number of Postgraduate Studentships of £650 a year, plus tuition and registration fees and, under certain conditions, payment of higher degree examination fees and a grant of up to £50 towards the cost of producing a thesis, will be awarded annually by the University provided candidates of sufficient merit present themselves. The conditions of award and eligibility for these studentships are:

1. Candidates must be internal or external graduates of the University, in any faculty.

2. Candidates must have taken their first degree not more than three years prior to the date of the award.

3. The studentships are tenable for one year or for two years in the first instance.

Applications must be received by the Secretary to the Scholarships Committee, University of London, WC1E 7HU, not later than 1 March in the year of award. Further information may be obtained from him.

Scholarships, Studentships

(II) The University also offers a number (approximately fifteen in 1972) of studentships available for award in any subject as follows:

1. The studentships are open to internal and external students who obtain first class honours at their final examinations for Bachelor's degrees, and who are either ineligible for, or, for special reasons are not candidates for awards under the national schemes. In special circumstances other candidates of special distinction may be considered.
2. Successful candidates must satisfy the University of their intention to pursue a full-time course of advanced study or research.
3. The holders of the studentships will normally be required to carry out their work in a school or institute of the University.
4. The studentships are tenable from the beginning of the session immediately following the final Bachelor's degree examinations and extend for one or two years in the first instance.
5. The value of the studentships is £625 in the first year and £650 in the second and subsequent years plus tuition and registration fees and, under certain conditions, payment of a grant of £25 for approved initial research expenses, and the payment of higher degree examination fees and a grant of up to £50 towards the cost of producing a thesis.

No special application need be made. The awards will be made by the University Scholarships Committee after considering recommendations made by the School.

Further information can be obtained from the Secretary to the Scholarships Committee, University of London, WC1E 7HU.

WILLIAM LINCOLN SHELLEY STUDENTSHIP

The William Lincoln Shelley Studentship founded under the will of Mr. William Lincoln Shelley, will be awarded from time to time to a graduate of the University of London for research in any subject. Until further notice the value of the studentship will be £275 a year plus a grant of £375.

The regulations for this studentship are as for University Postgraduate Studentships (I).

UNIVERSITY POSTGRADUATE TRAVELLING STUDENTSHIPS

A number of Postgraduate Travelling Studentships will be awarded annually by the University if candidates of sufficient merit present themselves.

The conditions of eligibility for these studentships are:

1. Candidates must be internal or external graduates of the University, in any faculty.
2. Candidates must not have completed their 28th year on or before 1 June in the year of award.
3. Successful candidates must spend the year of tenure abroad and must submit a scheme of work for the approval of the University.

Scholarships, Studentships

4. The value of the studentships will be fixed in relation to the estimated expenses of the successful candidates.

5. The studentships will be tenable for one year.

Applications must be received by 1 March in the year of award by the Secretary to the Scholarships Committee, University of London, WC1E 7HU, from whom further information can be obtained.

Note Candidates are not eligible to apply until the session after they have graduated in this University.

DERBY STUDENTSHIP

A Derby Studentship in History will be awarded annually by the University on the results of the final examination for the B.A. Honours degree. The value of the studentship will be £100 and it will be tenable for one year. It can be held concurrently with a University Studentship awarded on the results of the final examination, or other award. No special application is necessary; the studentship will be awarded by the Scholarships Committee after considering reports from the examiners.

GERSTENBERG STUDENTSHIP

A Gerstenberg Studentship will be awarded annually by the University on the results of the final examination for the B.Sc. (Econ.) degree. The value of the studentship will be £100 and it will be tenable for one year. It can be held concurrently with a University Studentship awarded on the results of the final examination, or other award. No special application is necessary; the studentship will be awarded by the Scholarships Committee after considering reports from the examiners.

RESEARCH FELLOWSHIPS IN HISTORY

(These regulations are under review.)

1. The Senate offers a number of Research Fellowships in History tenable at the Institute of Historical Research, Senate House, WC1E 7HU. The fellowships will be of an annual value of £700, or such smaller sum as will ensure that the holder's total income from scholarships is not less than £700 a year. In addition, tuition fees in the University of London, incurred by the holders of fellowships for their approved programmes of work, may be defrayed by the University, where these fees have not otherwise been provided for.

2. The fellowships will be awarded to graduates in History of any university. In respect of half of those available preference will be given to graduates in History of the University of London.

3. The fellowships will normally be awarded to postgraduates of at least two years' standing. They will be tenable for one year in the first instance, but may be renewed for a second year at the discretion of the Institute of Historical Research Committee.

4. Applications must be made on the prescribed form, which may be obtained from the Secretary of the Institute, and must include the names of two persons to whom reference may be made. Candidates placed on the short list will be required to attend at the Institute for interview.

Scholarships, Studentships

5. Successful candidates will be required to pursue an approved course of study leading either to a higher degree or to the completion of a research project under supervision. The holder of a fellowship will be required to keep terms at the Institute and to devote his full time to the subject of his research. Leave of absence from London for a limited period for the purpose of research may be given at the discretion of the Committee.

6. The awards will be made by the Institute of Historical Research Committee, acting on behalf of the University Scholarships Committee, subject to confirmation by the Senate.

7. The amounts of the fellowships will be paid in instalments at such times as may be decided in each case, each instalment (with the exception of the first, which will be paid in advance) being payable only on receipt by the University of satisfactory reports on the holder's progress and conduct.

8. The awards will be made in May and applications must reach the Director, Institute of Historical Research, Senate House, WC1E 7HU, not later than 1 April.

MADGE WALEY JOSEPH SCHOLARSHIP

1. The Madge Waley Joseph Memorial Postgraduate Scholarship for Women, founded by the friends of the late Mrs. Madge Waley Joseph, of the value of approximately £40 for one year, will be offered annually to a woman student at either Bedford College or the London School of Economics and Political Science, taking a one-year postgraduate course in the Department of Sociology, Social Studies and Economics at Bedford College, or in the department of Social Science and Administration at the London School of Economics, in preparation for subsequent work in social service.

2. The scholarship will be offered alternately in Bedford College and the London School of Economics, and candidates must be nominated by the head of the relevant school. Nominations must reach the Secretary to the Scholarships Committee not later than 30 November in the year of award.

CENTRAL RESEARCH FUND

The Senate of the University has at its disposal a Research Fund from which grants may be made to students of the University. Such grants will be made for specific projects of research, being intended to cover approved expenses and for the provision of materials and apparatus not otherwise available to the applicant. Applications must be received not later than 31 March, 15 September or 15 December.

AWARDS FOR STUDY IN THE U.K. AND ABROAD

Many scholarships, studentships and fellowships, for which students of the School are eligible, are offered by or are tenable at universities both at home and overseas. Several awards are also available for vacation courses abroad. Particulars of these are posted on the scholarships notice-board in the main entrance hall of the School.

Prizes

Offered by the School and open only to students of the School.

Allyn Young Prize

In memory of the late Professor Allyn Young, a prize in books will be awarded annually to a student who has passed Part I of the B.Sc. (Econ.) examination, for the best performance in two papers one of which must be taken from the following papers in Group I: (a) Economics A; (b) Economics B; (c) Introduction to Mathematical Economics; and the other from the following papers in Group III: (a) Elements of Statistical Methods; (b) Elementary Statistical Theory; (c) Quantitative Methods for Economists. The value of the prize will be the income of the fund for the year preceding the award and will normally be about £8.50. It will be awarded only if there is a suitable candidate.

Hughes Parry Prize

The Hughes Parry Prize, of books to the value of about £22, may be awarded annually to a regular student of the School achieving an outstanding performance in the subject of Law of Contract in the College Intermediate examination in Laws. This prize commemorates the work of Sir David Hughes Parry, Professor of English Law from 1930 to 1959 and first Director of the Institute of Advanced Legal Studies.

Raynes Undergraduate Prize

A prize in books, provided through the generosity of the late Mr. Herbert Ernest Raynes, will be awarded annually in July to the student of the School who obtains the best marks in Part II of the B.Sc. (Econ.) final examination. The value of the prize will be the income of the fund for the year preceding the award, and will normally be about £20.50.

William Farr Prize

Through the generosity of the late Mr. W. J. H. Whittall, a prize consisting of a medal and books is offered annually in memory of Dr. William Farr, C.B., F.R.S. The value of the books will be the remainder of the preceding year's income of the fund after provision of the medal and will not normally be less than £10. It will be awarded for proficiency and merit in the special subject of Statistics or Computing¹ at Part II of the final B.Sc. (Econ.) examination, the award to be restricted to regular students of the School, who have pursued a course of study at the School as internal students of the University of London.

The Gonner Prize

A prize is offered annually in memory of the late Professor Sir Edward Gonner, Professor of Economic Science in the University of London from 1891 to 1922, and Director of Intelligence in the Ministry of Food from 1917 to 1921. The value

¹Students who are offering the special subject Computing will be eligible for the award if they offer the paper Probability and Distribution Theory.

Prizes

of the prize will be the income of the fund for the year preceding the award and will normally be about £8·50. It will be awarded to the student who shows conspicuous merit in the special subject of Economics, Analytical and Descriptive, or Mathematical Economics and Econometrics, or Monetary Economics, or Industry and Trade, or International Trade and Development, or Economic Institutions and Planning in Part II of the B.Sc. (Econ.) degree final examination. The prize will be given in books, and is restricted to registered students of the School who have pursued a course of study at the School as internal students of the University. It will be awarded only if there is a suitable candidate.

The George and Hilda Ormsby Prizes

Through the generosity of Dr. Hilda Ormsby the School offers annually two prizes open to students reading for first degrees in the department of Geography as internal students of the University of London.

One prize, to the value of £20, will be awarded to the candidate whose performance is judged the best either in the B.Sc. (Econ.) Part II examination with Geography as the special subject or in the examination for the B.Sc. degree main field Geography.

Another prize, to the value of £30, will be awarded for the best piece of original work submitted by a student in the department of Geography during his undergraduate course. Students will be allowed to submit, for example, work completed for the independent geographical study offered as part of the honours course, original field work, work published in *Horizon* or elsewhere, or other original geographical work completed during the undergraduate course.

S. W. Wooldridge Memorial Awards

Awards may be made annually from the S. W. Wooldridge Memorial Fund, established by contributions from present and past students and friends of the Joint School of Geography of King's College and the London School of Economics and Political Science. The awards are made to assist independent projects of field study by students registered in the Joint School and are not available to assist students with prescribed field work or dissertation topics.

A brief summary of up to 500 words of a proposed project must be submitted to the convener of the department of Geography before 10 June.

Geoids Book Prize in Memory of S. W. Wooldridge

Members of the Geoids Amateur Operatic Society, founded in 1930 by Professor S. W. Wooldridge, have subscribed to a fund in his memory, from which an annual book prize may be awarded. Further information may be obtained from the convener of the department of Geography at the School.

Premchand Prize

A prize of about £27·50 awarded through the generosity of Sir Kikabhai Premchand of Bombay, is offered annually to a student who shows conspicuous merit in the special subject of Monetary Economics at Part II of the final B.Sc. (Econ.) examination. The prize is restricted to registered students of the School whose course of study has been pursued as internal students of the University. It will be awarded only if there is a suitable candidate.

Prizes

The Arthur Andersen Prize in Accounting

A prize of the value of about £15 in books is offered annually to the regular student of the School who, as a candidate for the B.Sc. (Econ.) degree in the special subject of Accounting and Finance, is judged by the staff of the School who are examiners in that special subject to be the best of his year in the papers in Accounting. This prize will be awarded only if a candidate of sufficient merit presents himself.

The Bassett Memorial Prizes

Two prizes will be offered annually in memory of Professor R. Bassett, Professor of Political Science: (i) a prize of books to the value of £15 to the regular student of the School who, as a candidate for the B.Sc. (Econ.) degree, with Government as his special subject, is judged to be the best of his year; special consideration will be given to conspicuous merit in the paper or papers relating to the government of Great Britain; (ii) a prize of books to the value of £8 to the Trade Union student who is judged to have achieved the best performance of his year in Trade Union Studies.

Hobhouse Memorial Prize

A prize of about £10 in books is offered annually in memory of the late Professor L. T. Hobhouse, Martin White Professor of Sociology at the School from 1907–1929. The prize will be awarded to a student who shows conspicuous merit in the final examination for the B.A. degree with Honours in Sociology, Branch I, B.Sc. (Sociology) degree, Branch I, or the B.Sc. (Econ.) with Sociology in Part II of the final examination. Candidates must be regular students of the School who are also internal students of the University. The award will be made only if there is a suitable candidate.

The Free Press Prize

Through the generosity of the Free Press of Glencoe, a prize of about £25 in books is offered annually to a student who shows conspicuous merit in the subject of Sociology. The prize will be awarded on the basis of performance in the final examination for the B.A. degree with Honours in Sociology, Branch I, the B.Sc. (Sociology) degree, Branch I, or the B.Sc. (Econ.) degree with Sociology in Part II of the final examination. Candidates must be regular students of the School who are also internal students of the University. The award will be made only if there is a suitable candidate.

Mostyn Lloyd Memorial Prize

The Committee of the Mostyn Lloyd Memorial Fund offers annually a prize of about £17 in memory of the late Mr. Mostyn Lloyd, who was head of the department of Social Science from 1922 until 1944. Through the generosity of Mrs. Lloyd the prize in recent years has amounted to £20. It is awarded by the Director, on the recommendation of the convener of the department of Social Science and Administration, to the best all-round student or students obtaining the Diploma in Social Administration in each year. Both academic achievement and practical work are taken into consideration. The prize will be awarded only if there is a suitable candidate.

Prizes

The Janet Beveridge Award

A prize of about £38·50 in books is offered annually by the Trustees of the Janet Beveridge Memorial Fund. The prize will be awarded to a regular student of the School who, being an internal student of the University, achieves conspicuous merit in the final examination for the B.A. Honours degree in Sociology, Branch III, or the B.Sc. (Sociology) degree, Branch III. The award will be made only if there is a suitable candidate.

Gladstone Memorial Prize

The Trustees of the Gladstone Memorial Trust offer an annual prize of £30, one half of which will be awarded in books, for an essay set within the terms of the Trustees' essay formula. This demands that 'the subject of the Essay shall be connected with either History or Political Science or Economics, and with some aspect of British policy, domestic, international or foreign, in relation to finance or other matters, from the beginning of the nineteenth century to the present time'. The prize is open to all regular students registered at the School for the session preceding the date of entry, which will be 30 November in each year. The subjects of the essay are announced annually in the Lent term. In considering the essays submitted, the committee of award will take into account the age and standing of the candidates.

Essays, which should not exceed 8,000–10,000 words in length, should reach the Senior Assistant Registrar not later than 30 November in each year.

Rosebery Prizes

The School offers for award annually two prizes, one of the value of £20 and one of the value of £10, for an essay on an approved subject in the Social Sciences including Transport.

All students of the School reading for a first degree may compete. The subjects are announced in the Michaelmas term of each session and essays, of not more than 3,000 words in length, should be sent to the Senior Assistant Registrar by 31 May. An award will normally be made in June of each year.

The Director's Essay Prize

A prize in books of the value of £10 is offered for award annually by the Director for the best essay written by an undergraduate student reading for a first degree, or for the Diploma in Social Administration for non-graduates. The essay should not exceed 3,000 words. Subjects approved by the Director will be announced during the Michaelmas term and essays should normally be submitted by 1 May.

Bowley Prize

The School offers a prize to commemorate the distinguished services to economic and statistical sciences of the late Professor Sir Arthur L. Bowley, Professor of Statistics in the University of London from 1915 to 1936.

The value of the prize will be the income of the fund for the three years preceding the award and will normally be about £25.

Prizes

It will be open to present or past regular students of the School who have been registered for a period of at least two years and, if graduates, are within ten years of their first graduation at any university. The prize will be offered for written work in the field of economic or social statistics completed within four years prior to 1 January 1975. It will be awarded only if an adequate standard of excellence is attained.

The Committee of Award will consist of one representative of the School, one of the Royal Statistical Society and one of the Royal Economic Society.

Candidates wishing to submit work for consideration by the Committee should send it to the Senior Assistant Registrar by 1 January 1975.

The Firth Award

A prize to the value of about £20·50 will be offered annually to graduate students in the department of Anthropology for the best paper of the year contributed to any seminar in the department. The award will be made by the Director on the recommendation of the convener and senior members of the department.

An award will be made only if a paper of suitable merit is contributed.

Ely Devons Prizes

Two prizes, each of the value of about £20, will be offered annually in memory of the late Professor Ely Devons. One prize will be awarded to the regular student of the School who, as a candidate for the M.Sc. degree in Economics, is judged to be the best of his year; the other to the best candidate for the M.Sc. degree in Econometrics and Mathematical Economics. The awards will be made only if there are suitable candidates.

The Gourgey Essay Prize

Through the generosity of Mr. P. S. Gourgey, a former student of this School, a book prize of the value of about £1·50 will be offered for award annually to students attending the course in Trade Union Studies. It will be awarded to the student who, in the opinion of his teachers, submits the best project report during the Lent term of each academic year. An award will be made only if there is a candidate of sufficient merit.

Bursaries

The School may offer a limited number of bursaries to assist students to read for first degrees or diplomas or to proceed with advanced study or research. The maximum amount of the bursaries will be equivalent to the tuition fees at the U.K. rate which the students would otherwise be required to pay.

The regulations for these bursaries are:

1. Bursaries may normally be awarded only to students who have completed at least one year of their course at the School, who can demonstrate financial need and whose academic record shows merit.
2. They shall not be awarded for longer than one year in the first instance.
3. The bursary holder shall follow a course of study or research approved by the Director.
4. Applications must be accompanied by
 - (a) a full statement of the candidate's financial position, showing clearly why he is unable to pursue his studies without financial assistanceand
 - (b) a letter of recommendation from his tutor.
5. Applications should be made on the prescribed form obtainable from:
the Senior Assistant Registrar, by students reading for first degrees and diplomas;
the Secretary of the Graduate School, by students following a course for advanced study or research.

First Degree Courses

General Information

All students should read the **University Regulations for Internal Students in the relevant faculty**. They may be obtained from the University or the Registry at the School.

The School registers students for the following degrees of the University of London:

Bachelor of Science in Economics

B.Sc. Degree in the Faculty of Economics, with Main Fields in:

Geography¹,

Mathematics,

Mathematics and Philosophy,

Social Anthropology,

Social Psychology,

Sociology

Bachelor of Arts in History

Bachelor of Arts in Language Studies

Bachelor of Laws

Bachelor of Science in Social Science and Administration

The information printed in this Calendar concerning these degrees is correct at the time of going to press, but minor modifications may be made by the beginning of the academic year.

The School reserves the right at all times to withdraw or alter particular courses and course syllabuses.

The approved course of study for a first degree extends over not less than three years².

Except by special permission of the Director, students of the School who fail at any degree examination, or whose progress has been unsatisfactory, or who have completed the normal course for an examination but, without adequate reason, have failed to enter, will not be eligible for re-registration. Students who are given this special permission will not be allowed in the year of re-registration to do any work at the School other than work for that examination in which they failed. Departures from this rule will be made only in exceptional cases and subject to such conditions as the Director may require in any particular case.

¹Geography is formally within the Faculty of Science, but it is included here for convenience. With effect from 1973-74 candidates will be admitted to the Faculty of Economics.

²Graduates and persons who have obtained a Teacher's Certificate awarded after a course of study extending over not less than three years may in certain circumstances be permitted to complete the course for a first degree in not less than two years. Details may be found in the General Regulations for Internal Students obtainable from the University of London, Senate House, London, WC1E 7HU.

Degree of Bachelor of Science in Economics: Revised Regulations

(For candidates registering in and after October 1972)

Entrance Requirements

The entrance requirements for this degree are set out in the table on page 139.

Course of Study

A student will be eligible to present himself for Part I of the examination after having satisfactorily attended approved courses extending over one academic year, and Part II after having satisfactorily attended approved courses extending over two further academic years.

Details of Examination

The examination is divided into two Parts, and a candidate is required to pass Part I before he enters for Part II.

Methods of Examination

Examiners may test a candidate by means of written papers and an oral examination and at Part I may take into consideration the assessment of work done during his course. At Part II some of the papers may be examined by means of an essay.

Transitional Arrangements

In certain cases a student who began a course for the B.Sc. (Econ.) under the regulations in force before 1972, but then withdrew from the School, may be permitted to continue his course under these regulations. Applications should be addressed to the Registrar.

Part I

The examination for Part I consists of four papers to be chosen from at least three of the following groups; at least one paper must be from groups I to III and at least one from groups IV to VI. Provided these requirements are satisfied a paper in an approved foreign language may be substituted for one of the papers listed below.

Part I Subjects

<i>Group</i>	<i>Papers</i>	<i>Lectures, Classes and Seminars</i>
I	(a) Economics A	21
	or (b) Economics B	22
	or (c) Introduction to Mathematical Economics	24

First Degree Courses: B.Sc. (Economics) Revised Regulations

		<i>Lectures, Classes and Seminars</i>
II	(a) Basic Mathematics	900
	or (b) Algebra and Methods of Analysis	902-3
	(c) Introduction to Analysis and Set Theory	904
III	(a) Elements of Statistical Methods	917-8
	or (b) Elementary Statistical Theory	921
	or (c) Quantitative Methods for Economists	23, 917
	(d) Introduction to Logic	491
	(e) Introduction to Scientific Method	485-7
	(f) Theory and Techniques of Spatial Analysis	183
IV	(a) British Government: An Introduction to Politics	525
	(b) English Legal Institutions	442

VI	(a) Introduction to Sociology	830
	(b) Introduction to Psychology	695 (i)
	(c) Principles of Social Anthropology	640
	(d) Human Geography	182

As a special arrangement, for the sessions 1972-73 and 1973-74 students with appropriate qualifications who intend to read either Mathematical Economics and Econometrics, or Statistics, or Computing in Part II may be exempted by the School from the requirement to select a subject from groups IV to VI.

Approved Foreign Language

The following languages have been approved by the School for examination in Part I:

French	German	Russian	Spanish
--------	--------	---------	---------

Details of Examination

In the Part I examination a student may be referred in one paper which must be passed before the beginning of his third year of study. Instead of resitting the examination in the paper in which he was referred, a student may choose to follow a course of study in a new subject and offer that for examination to satisfy the Part I requirements. A student who fails at the next examination of the outstanding

First Degree Courses: B.Sc. (Economics) Revised Regulations

subject will normally not be permitted to continue his course until he has passed in that subject.

Part II

Part II of the examination consists of eight papers as prescribed for each special subject¹. At least two of the eight will be on subjects taught outside the department responsible for the special subject.

Details of Examination

In the lists of special subjects which appear on the following pages some papers are marked by an asterisk. Students have the right or the School may require them to be examined in at least two of these papers at the end of the first year of the Part II course. Students may also request permission to be examined in up to two more such papers, with a maximum number of four papers which may be taken in the first year of Part II.

The remaining papers prescribed for a special subject will be examined at the end of the second year of the Part II course.

A student who is unsuccessful in Part II examinations taken at the end of the first year of the Part II course may be permitted by the School to proceed to the final year of the course with re-examination in the paper or papers in which he has failed.

Classification for Honours

The classification for Honours will be based primarily on the candidate's performance in Part II of the examination, but the marks obtained in Part I may be taken into account.

Class List

Successful candidates at the Final examination will be awarded (1) First Class Honours, (2) Second Class Honours, or (3) Third Class Honours. The Second Class Honours List will be divided into an Upper and a Lower Division. Candidates who do not qualify for Honours may be awarded a Pass B.Sc.(Econ.) degree; the list of such candidates will be published separately from the Honours List. The names in each class or division of the Honours List and of the Pass List will be in alphabetical order.

Special Subjects

The papers prescribed for each special subject are as follows:

(c) Essay on a philosophical subject	—
(d) Essay, normally of 5,000 words, maximum 7,500, on a subject selected by the candidate in his final year, with the approval of the School, to be submitted through the School by 1 May preceding the final examination	—

The examiners shall be at liberty to test any candidate by means of oral questions. There will be no reference in either Part of the Examination.

A candidate who has satisfied the examiners at Part I of the examination and who desires to proceed to Part II of the examination with a special subject for which his Part I alternative subjects do not qualify him, may apply for permission to proceed to Part II of the examination without being required to satisfy the examiners in one or more additional Part I alternative subjects. Each application will be considered on its merits. If the application is refused and such a candidate is required to take one or more additional Part I alternative subjects, he must do so before entering for Part II.

The classification for Honours will be based primarily on the candidate's performance in Part II of the examination, but the marks obtained in Part I may be taken into account.

B.Sc. Degree in the Faculty of Economics

The degree is organized on the basis of course units. A course unit is defined as one third of the amount of study which any adequately prepared student can reasonably be expected to complete in a year; that is to say one third of the total work load which every student who is capable of obtaining a degree at all should be able to manage. To obtain the B.Sc. degree candidates must complete, to the satisfaction of the School, courses valued at a minimum of nine course units and must satisfy the examiners in courses to the value of at least eight course units.

All students should read the full regulations for the degree: they may be obtained from the Registry at the School.

The following Main Fields of study are available, within which candidates may qualify for Honours:

- Geography*
- Mathematics
- Mathematics and Philosophy
- Social Anthropology
- Social Psychology
- Sociology

1 Geography

- 1.1 Courses are given in the Joint School of Geography at King's College and L.S.E. and students are taught by teachers from both colleges.
- 1.2 Candidates for Honours will normally be required to take courses to the value of ten course units over three years; with permission this total may be extended.
- 1.3 Courses are normally examined at the end of the year in which they are studied, though a small number of second-year courses may be examined at the end of the third year.
- 1.4 All students must undertake field work. The compulsory field courses normally last for a week and are taken annually in each of the Easter vacations. Certain courses involve additional field work.
- 1.5 In assessing a candidate for Honours, his achievement in the second and third years may be given more weight than that of the first year.
- 1.6 In certain cases students may be able to take courses at other colleges of the University. The permission of the convener is required.
- 1.7 A candidate is required to take the following courses:

2 Mathematics

2.1 Candidates for this degree are required to take courses to the value of at least nine course units, and not more than twelve course units during their three years of study.

2.2 To obtain a degree a candidate must satisfy the examiners in no fewer than eight units or in a combination of units and half units to that number. To qualify for Honours a candidate must have completed the equivalent of a further two course units in Applied Mathematics. The remaining courses will be selected by the candidate after approval by his tutor.

2.3 Courses to the value of four course units must be taken in the first year and the remaining minimum of five over the second and third years of study.

¹This subject to be completed in one academic year.

²From 1973-74 720/0002 will normally be a prerequisite.

First Degree Courses

2.4 A candidate is required to take the following courses:

	<i>Value in Course Units</i>	<i>Course Registration Number</i>	<i>Lectures Classes and Seminars</i>
First Year			
Pure Mathematics			
1. Introduction to Analysis and Set Theory	1	550/0003	904, 904a

4 Social Anthropology

4.1 Candidates for Honours are required to take courses to the value of eleven course units during three years. They will normally be taken in the following sequence: four in the first year, three in the second year and four in the third year.

4.2 There will be no exemption from first-year courses.

4.3 The level of Honours awarded to a candidate will be determined largely by the assessments and examinations of courses taken in the second and third years. Less weight will be given to performance in courses in the first year.

¹The Dissertation is to be on a subject selected by the candidate and approved by the convener of the department of Philosophy. It should normally be of 5,000 words in length, with a maximum of 7,500 words, and must be submitted by 1 May preceding the final examination.

B.Sc. Social Science and Administration

(For candidates registering in and after October 1972)

The full regulations for this degree may be obtained from the School Registry.

Entrance Requirements

The entrance requirements for the degree are set out in the table on page 139.

Course of Study

The course of study extends over three years.

Details of Examination

An examination of first-year courses will be conducted by the School. The results of this examination will not count towards the classification for Honours.

The Final Examination consists of eight papers and an extended essay, and is divided into two stages. The first stage will consist of four papers and will be held at the beginning of the sixth term of the course of study for the degree. The second stage will consist of the remaining papers of the examination and the extended essay. The extended essay, work for which will begin in the second year, is due for submission by 15 January in the final year. The examination in the remaining papers will be held in the ninth term of the course.

¹From 1973-74 course 720/0002 will normally be a prerequisite.

First Degree Courses

Methods of Examination

The examination will be conducted by means of written papers and such other methods as may be approved by the University. Examiners may test any candidate by means of oral questions.

Subjects of Examination

The First Year Examination will consist of the following:

	<i>Lectures, Classes and Seminars</i>
1. Introduction to Economics	21, 758c
2. Introduction to Sociology	830, 763
3. Development of Social Institutions and Policy	740-2
4. Methods of Social Research	918-919a
5. Elements of Government	416

The Final Examination will consist of the following:

1. Social Policy
- *2. Social and Public Administration
- *3. Social Economics
- *4. Social Structure
- *5. Social Investigation

6. Social and Political Theory

*The papers marked with an asterisk will be examined at the beginning of the sixth term of the course.

7 and 8. Two of the following, subject to the approval of the School and availability of the course concerned:

- (a) Administration of Education¹
- (b) Race Relations and Minority Groups
- (c) Personal Social Services
- (d) Social Policy of Developing Countries
- (e) Housing and Urban Structure
- (f) Health Administration
- (g) Law and Social Policy
- (h) Social History
- (i) General and Social Psychology²
- (j) Industrial Sociology
- (k) Sociology of Deviance³
- (l) Penology³

^{1,2,3}Only one of the courses marked with the same number may be offered.

First Degree Courses

- (m) Family and Law
- (n) Demography
- (o) Sociology of Education¹
- (p) Political Sociology
- (q) Comparative Morals and Religion
- (r) Interpersonal Relations²
- (s) Values in Society
- (t) Urban and Regional Economics
- (u) Advanced Social Theory
- (v) Parliament, Policy-making and Legislation

9. An extended essay, normally of 5,000-7,000 words, to be presented not later than 15 January in the third year. The subject of the extended essay must be approved by the University.

Degree of Bachelor of Laws

The School provides a three-year course leading to the LL.B. degree of the University of London. The University regulations are not, however, the same for all the London colleges, and the pattern of the course is unique to students of the School. Subjects which are not exclusively legal have been introduced into the new syllabus, and an attempt has been made to break down the arbitrary boundaries between legal subjects. In addition, instruction in each subject is not always limited in length to one academic year, thus making it possible to emphasise the inter-relationship between different branches of the law.

The subjects which most L.S.E. students take are taught, both in lectures and classes, at this School, but, exceptionally, arrangements will be made for students to attend other colleges of the University for instruction in subjects not taught here.

The attention of students taking the LL.B. degree is drawn to the advantages and concessions granted in professional training (see page 245).

INTERMEDIATE EXAMINATION

The examination consists of written papers in subjects (a) to (d):

Lectures, Classes and Seminars

- | | |
|-------------------------|-----------|
| a) Public Law I | 416, 416a |
| b) Law of Contract | 417, 417a |
| c) Law of Property I | 418, 418a |
| d) English Legal System | 419, 419a |

A candidate is eligible to present himself for the Intermediate examination after having satisfactorily attended the prescribed course of study at the School extending over not less than one academic year.

^{1,2}Only one of the courses marked with the same number may be offered.

First Degree Courses

The Intermediate examination is normally held twice each year, in May or June and in September. A candidate offering himself for examination for the first time may not postpone his entry to the examination until September.

A candidate who passes in three of the papers at an Intermediate examination and fails in the remaining paper may be referred in that paper; if he satisfies the examiners in the paper in which he has been referred at either of the two next following Intermediate examinations he is regarded as having passed the whole examination; otherwise he is required to take the whole of the Intermediate examination again.

In exceptional cases, with permission of the School, a candidate who fails to reach the minimum standard in two or more subjects in May or June, whether or not he has presented himself for all or any part of the examination, may be permitted to re-enter for the whole examination in September of the same year.

PART I EXAMINATION

The examination consists of four written papers in subjects (a) to (d):

	<i>Lectures, Classes and Seminars</i>
a) Public Law II	420, 420a
b) Law of Tort	421, 421a
c) Law of Property II	422, 422a
d) Criminal Law	423-4

The examiners may, if they think fit, set an additional essay paper covering matters within the scope of any of the Part I and Intermediate subjects.

A candidate is eligible to present himself for the Part I examination after having satisfactorily attended the prescribed course of study extending over one year subsequent to passing the Intermediate examination.

The Part I examination is normally held twice each year, in May or June and in September. A candidate offering himself for examination for the first time may not normally postpone his entry to the examination until September.

A candidate who passes three of the four Part I papers and fails in the remaining paper may be referred in that paper; if he satisfies the examiners in the paper in which he has been referred at either of the two next following Part I examinations he is regarded as having passed the whole examination; otherwise he is required to take the whole of the Part I examination again.

In exceptional cases, with permission of the School, a candidate who fails to reach the minimum standard in two or more subjects in June, whether or not he has presented himself for all or any part of the above examination, may be permitted to re-enter for the whole examination in September of the same year.

PART II EXAMINATION

A candidate is required to satisfy the examiners in

	<i>Lectures, Classes and Seminars</i>
Jurisprudence	425, 425a

First Degree Courses

He is also required to satisfy the examiners in other subjects to the value of three units selected from the following lists:

	<i>Lectures, Classes and Seminars</i>
(i)	
a) Law of Evidence	426, 426a
b) History of English Law	427, 427a
c) Public International Law	428, 428a
d) Conflict of Laws	429, 429a
e) Mercantile Law	430, 430a
f) Labour Law	431, 431a
g) Domestic Relations	432, 432a
h) Administration of Estates and Trusts	433, 433a
i) Law of Business Associations	434, 434a
j) Administrative Law, with special reference to Local Government	435, 435a
k) International Protection of Human Rights	436, 436a
l) Basic Principles of the Soviet and Yugoslav Legal Systems	437, 437a
m) Hindu Law	—
n) Mohammedan Law	—
o) African Law	—
p) Legislation	438, 438a
(ii)	
a) Sentencing	439
b) Law Relating to Civil Liberties	440
c) Law and the 'Underprivileged'	441

Each subject in list (i) shall have the value of one unit, while each subject in list (ii) shall have the value of one half-unit. A candidate may not select more than two subjects from list (ii). Courses will not necessarily be available every year for all the subjects in lists (i) and (ii).

The Part II examination is conducted by written papers with the exception that a candidate who offers Administrative Law with special reference to Local Government, or Law and the 'Underprivileged', will be required, in either of those subjects, to write an essay instead. Where a candidate who has offered one of the two essay subjects fails the Part II examination he will not be permitted to submit the same essay at any repeat examination.

The examiners may, if they think fit, require any candidate at the Part II examination to present himself for an oral examination. An oral examination is compulsory for a candidate offering either the subject Administrative Law with special reference to Local Government or the subject Law and the 'Underprivileged', and questions may extend to cover the wider background aspects of the essay.

A candidate is eligible to present himself for the Part II examination after having satisfactorily attended the prescribed course of study extending over not less than one academic year subsequent to passing the Part I examination.

The Part II examination is normally held once each year in May or June.

B.A. Honours in History (Branch II: Mediaeval and Modern)

The examination will consist of nine papers up to three papers of which may be taken in the penultimate session of a candidate's course of study with the permission of the School. Honours classes will be awarded on the total range of marks obtained in the nine papers.

First Degree Courses

In addition to the above papers the School is required to certify that candidates have been examined by a paper containing passages for translation into English from a language or languages required by the School and appropriate to Branch II, and that they may be allowed to proceed to the final examination. No candidate will be admitted to the final examination without this certificate. Candidates will be permitted to bring dictionaries for use in the college-based language examination. This examination will take place during the course of study.

Special subjects will be examined by one three-hour paper normally including passages for comment from prescribed texts and *either* by another three-hour paper *or* by an essay not exceeding 5,000 words *or* two essays of not more than 2,500 words each. Such essays, which shall refer to texts and be fully documented, are to be on a topic or topics selected by the candidate and approved by his special subject supervisor and shall be submitted through the School by 31 March in the year a candidate completes his Final examination. Such essays should normally be type-written. The method of examination to be adopted for any particular special subject in any year will be subject to approval by the University.

Note The optional and special subjects are set out in the University of London *Regulations for First Degrees in the Faculty of Arts for Internal Students*. The School normally provides lectures and classes for the optional subjects British Economic History to the early 16th century; British Economic History from the early 16th to the late 18th century; British Economic History from the late 18th century; Modern English Constitutional History from c. 1530–1914; Diplomatic History, 1814–1945; and The History of Germany, c. 1860–1945, and seminars or classes for the special subjects of The Economy of England, 1350–1500; The Near Eastern Question, 1875–1881; and the German Revolution, October 1918–March 1920.

Language Studies

The School offers teaching for a number of two-subject combinations in the field of language studies within the framework of the combined studies degrees in the Faculty of Arts of London University. Entry to any particular two-language combination amongst those mentioned may not be possible in any given year.

Emphasis in the department is on general linguistics and on an analytical and social approach to language rather than on an aesthetic or literary one, and, where the University syllabus permits a choice, students of the School will be expected to select accordingly. Students taking two languages will be required to attend courses in general linguistics and phonetics.

The normal duration of all B.A. degrees in Language Studies at the School is *four* years, the third year being spent abroad. Candidates for degrees in certain subject combinations may be permitted to take a limited number of examination papers at the end of either their second or third year of study.

Supervisors will advise students on the choice of options and will recommend appropriate courses from the Language Studies section in Part III of this Calendar (Courses 365–406).

B.A. (Combined Subjects) in Linguistics and One Modern Language

The subjects for examination shown in the following tables are numbered differently in this Calendar from the list of subjects given in the University regulations.

(f) Link paper which may be set by individual colleges	—

Syllabuses for the papers from the B.A. in Russian Language and Literature and the B.A. in French and Russian are given in the University of London *Regulations for First Degrees in the Faculty of Arts for Internal Students*.

The School must approve the candidate's choice of papers.

There is also a practical test in Phonetics to be taken on the same occasion as paper 3, and a Russian oral examination.

B.A. Honours (Combined Subjects) in Two Modern Languages

The School provides teaching at present in French/Spanish, French/Russian, German/Russian and German/Spanish. Syllabuses for these courses are given in the University of London *Regulations for First Degrees in the Faculty of Arts for Internal Students*.

B.Sc. Mathematics

The regulations for Part II of this degree in Mathematics apply only to candidates registered before October 1971.

(Only third-year lectures and classes have been listed)

Part II

The examination consists of eight papers as follows:

	<i>Lectures, Classes and Seminars</i>
1 and 2. Real Variable, Analysis and Mathematical Methods	911, 911a
3. Algebra and Complex Analysis	909(b)
4. Theory of Probability	910, 910a
5, 6, 7 and 8. Four papers chosen from options (a) to (m).	

Students interested in Statistics should include options (a), (b) and (c).

Students interested in Computing should include options (c), (d) and (e).

Students interested in Economics should choose options (a), (f), (g) and (h).

Students interested in Sociology should choose four from (a), (c), (i), (j) and (k).

(a) Probability, Distribution and Sampling Theory	930
(b) Theory of Statistical Methods	927-8
(c) Numerical Methods and Programming	950(ii), 950(ii)(a)
(d) Elements of Computer Science	941(ii), 949, 949(a)
(e) Management Data Processing	161, 944, 944(a), 947-8a
(f) Mathematical Economics I	36(ii), 36(a)
(g) Mathematical Economics II	37(ii), 37(a)

(l) Actuarial Statistics	939, 939(a)
(m) Management Mathematics	953-954(a)
(n) Algebra III	912, 912a

Students of the School are subject to the following restrictions: option (e) cannot be taken without (d); (j) cannot be taken without (c), and in both cases attendance at a course in Fortran is necessary. Further, (f) may be taken only by those who have taken Introduction to Mathematical Economics at Part I and (g) may be taken only by those taking (f).

Subject to the approval of the School students may choose options not included in the above list when they are available.

The examiners shall be at liberty to test any candidate by means of oral questions.

There will be no reference in the examination.

The classification for Honours will be based primarily on the candidate's performance in Part II of the examination, but the marks obtained in Part I may be taken into account.

Degree of Bachelor of Science (Sociology)

Branch I (only for candidates registered before October 1971)

The examination will consist of ten written papers as follows:

	<i>Lectures, Classes and Seminars</i>
1. Theories and Methods of Sociology	837, 841-2
2. Statistical Methods in Social Investigation	—
3. Comparative Social Institutions	844(a)
4. Ethics and Social Philosophy	—
5. Social Psychology	699(i) and (iii), 699b
6. Economics	—

First Degree Courses

7 and 8.	<i>Lectures, Classes and Seminars</i>
<i>Either</i>	
(a) Social Structure of Modern Britain (2 papers)	266, 845(a)–6
or (b) Graeco-Roman Civilisation (2 papers)	848
or (c) European Civilisation in the Middle Ages ¹ (2 papers)	—
(Some other society or group of societies may be offered as an alternative for papers 7 and 8 with the permission of the University)	

9 and 10. Any two of the following:	
(a) Social Structure and Social Change	850, 850(a)
(b) Social Policy and Social Administration	741, 744–6
(c) Comparative Morals and Religion	—

(g) Industrial Sociology	345(ii), 853(a)–4
(h) General Principles of Cultural and Social Anthropology	640(a)
(i) Sociology of Education	856

The examination will be divided into Part I and Part II. A candidate will be required to sit Part I at the end of the second year and Part II at the end of the third year, and to satisfy the examiners in both Parts. A candidate must satisfy the examiners in Part I before proceeding to Part II. A minimum period of one session must elapse before a candidate, successful in Part I, may present himself for Part II.

The Part I examination will consist of 2. Statistical Methods in Social Investigation, 4. Ethics and Social Philosophy, and 6. Economics.

The examiners shall be at liberty to test any candidate by means of oral questions.

Branch III
(Only for candidates registered before October 1972)

The examination will consist of seven written papers and a dissertation:

	<i>Lectures, Classes and Seminars</i>
1. British Social History in the 19th and 20th Centuries	754, 754(a)
2. British Political, Administrative and Legal Institutions	755, 755(a)
3. Economics	42, 757, 758(b)
4. British Social Policy and Administration	740–1, 743–6
5. Social Investigation ²	918(b)
6. Social Theory ²	764, 845

¹There is no teaching for this subject at the School.
²These papers will not include questions on Psychology. Students should refer to Courses Nos. 695(i), (iii), 699(i), (iii), 760, 761(a)

7. *One of the following:*

(a) Central and Local Government Administration	530, 535, 551, 747
(b) Social Structure and Social Policy in Societies undergoing Industrialisation	8, 11, 749, 849-850
(c) The Structure of Social Security	765
(d) The Family in Law and in Society	756, 756(a)
(e) Industrial Sociology	345(ii), 853-4
(f) Criminology	855, 855(b)

8. A dissertation, normally limited to 5,000-7,000 words, to be presented not later than 1 February in the year in which the final examination will be taken. The subject of the dissertation must be approved by the University. The dissertation will be classed as one paper in the final examination. Candidates offering optional subject 7 (a) Central and Local Government Administration, will not be permitted to choose a dissertation subject which falls within the field of the selected development for special study prescribed by the regulations for the year in which they will present themselves for the final examination.

The examiners shall be at liberty to test any candidate by means of oral questions.

Vacation Grants for Undergraduate Students

A limited sum of money is given to universities to support vacation work undertaken by students reading for first degrees who hold awards made by local education authorities, the Department of Education and Science, the Scottish Education Department or the Ministry of Education Northern Ireland. Students of the School in these categories are eligible to apply for grants which are currently subject to the following arrangements:

1. Grants will normally be made to support
 - (a) full-time vacation study in an approved library, undertaken on the recommendation of the student's tutor;
 - (b) approved field work;
 - (c) approved vacation study overseas by students in the Department of Language Studies.
2. Approved travelling expenses will be paid in addition to grants for maintenance.

An announcement inviting claims will normally be placed on notice boards about four weeks before the end of each term, and applications should be made not later than two weeks before the end of term.

Advantages and Concessions in Professional Training Granted to Holders of First Degrees

ACCOUNTING

The concessions of the various professional accountancy bodies are granted to holders of the B.Sc. (Econ.) degree with the special subject Accounting and Finance under the Old Regulations. The School has applied for an extension of these concessions under the Revised Regulations. (The Institute of Chartered Accountants in England and Wales has agreed to grant their concessions.)

Institute of Chartered Accountants in England and Wales

In order to qualify as a chartered accountant, a period in articles with a firm of chartered accountants is necessary. Holders of a first degree normally have this period reduced to three years. Full particulars may be obtained from the Secretary, Institute of Chartered Accountants in England and Wales, Chartered Accountants Hall, Moorgate Place, EC2R 6EQ.

Graduates who have taken an 'approved degree' are entitled also to exemption from the Institute's intermediate examination. At the University of London, the course leading to the 'approved degree' is the course for the B.Sc. (Econ.) with the special subject Accounting and Finance. Further information is given in the pamphlet *Degree Studies and the Accountancy Profession* (obtainable from the Institute and also from the Registrar of the School).

Experience has shown that students from overseas often have difficulty after graduation in getting articles with a firm of professional accountants in Britain. Such students would therefore be greatly helped if they could obtain an offer of articles from a suitable firm before beginning their studies.

Association of Certified and Corporate Accountants

Students of the Association are not obliged to serve under articles of clerkship, but may as an alternative obtain experience of an approved accounting nature in the finance or accounting departments of a commercial or industrial company, one of the nationalised industries, in national or local government or in the office of a practising accountant (not under articles). They are also permitted to follow a course of full-time study for the Association's examinations if they so wish, provided that they do so at an educational institution approved by the Council.

The period of articles or approved training for graduates is three years. Those who have taken the 'approved degree' (B.Sc. (Econ.) with the special subject Accounting and Finance) are entitled to complete exemption from Sections I, II and III, and the paper in Industry and Finance in Section V of the Professional Examination provided that they have taken the appropriate option in their second and third years.

Further information may be obtained from the Secretary of the Association, 22 Bedford Square, London, WC1B 3HF.

Institute of Cost and Management Accountants

B.Sc. (Econ.) graduates with the special subject Accounting and Finance are

Advantages and Concessions in Professional Training

entitled to exemption from the whole of the Part I and Part II examinations of the Institute of Cost and Management Accountants.

B.Sc. (Econ.) graduates, irrespective of their special subject, are entitled to exemption from the whole of the Institute's Part I examination.

B.Sc. (Econ.) graduates who have offered appropriate subjects in Part II of the final examination may be entitled to exemption from Industrial and Commercial Law in Part III of the Institute's examination.

For information about further exemptions from the Institute's examinations please write to the Chief Education Officer, The Institute of Cost and Management Accountants, 63 Portland Place, London, W1N 4AB.

Institute of Municipal Treasurers and Accountants

The Institute's professional examinations fall into three parts: Intermediate, Final Part 1 and Final Part 2. Graduates may be granted subject for subject exemptions on the basis of papers taken at the degree examinations.

Further information may be obtained from the Secretary, Institute of Municipal Treasurers and Accountants, 1 Buckingham Place, London, SW1E 6HS.

LAW

The Bar

The Council of Legal Education may grant to a student who has obtained a degree in law from a university in England or Wales exemption from entering for the whole of Part I of the examination for call to the Bar or from entering for part of that examination. The conditions under which such exemptions may be obtained are set out in the Consolidated Regulations of the Honourable Societies of Lincoln's Inn, the Inner Temple, the Middle Temple, and Gray's Inn. Full details may be obtained from the Council of Legal Education, Gray's Inn Place, London, WC1R 5DX.

The Profession of Solicitor

Candidates seeking to qualify as solicitors must serve under articles of clerkship to a practising solicitor and pass the Law Society's examinations. The normal period of articles is five years, but for candidates who have taken a degree at an approved university the period is reduced to two-and-a-half years. Any first degree of the University of London entitles the holder to this reduction. In the case of law graduates the period for articles is reduced to two years.

In most cases law graduates are wholly exempt from Part I of the Law Society's qualifying examination and may sit for Part II of the qualifying examination before entering into articles. Holders of degrees in subjects other than law may sit for both Parts of the Law Society's qualifying examination before entering into articles. Further details may be obtained from The Law Society, 113 Chancery Lane, London, WC2A 1PL.

The Actuarial Profession

Students who have obtained the B.Sc. Mathematics degree, or the B.Sc. (Econ.) degree with Algebra and Methods of Analysis in Part I and Statistics in Part II with

Advantages and Concessions in Professional Training

Actuarial Statistics as an optional subject *may* be granted exemption from certain papers in the examinations of the Institute of Actuaries, depending on the standards reached in the degree examination. Further particulars may be obtained from The Institute of Actuaries, Staple Inn Hall, High Holborn, London, WC1V 7QJ.

Students intending to enter the actuarial profession are advised to communicate with the Institute at an early stage in the degree course.

Regulations for Diplomas Awarded by the School

The School awards the following diplomas:

- (1) Diploma in Development Administration
- (2) Diploma in Social Administration:
 - (a) One-year Course for Graduates
 - (b) Two-year Course for Non-Graduates
- (3) Diploma in Personnel Management
- (4) Diploma in Social Work Studies
- (5) Diploma in Statistics

The School reserves the right at all times to withdraw or alter particular courses and course syllabuses.

(1) Diploma in Development Administration

The London School of Economics and Political Science, with support from the Foreign and Commonwealth Office (Overseas Development Administration), offers a course in Development Administration which has special reference to the needs of the 'developing' countries.

It is designed for men and women who work in the civil service, public corporations or suitable types of business in relatively low-income countries. One of the purposes of the course is to assist a student to stand outside the immediate circumstances of his own country and to consider general questions about the methods and organization of development. He will be encouraged to examine the policies and methods of western countries, and to assess for himself their suitability for his own country's problems.

Though western ideas, institutions and experience are drawn on extensively in the teaching, they are viewed in terms of their possible application to the problems of less developed areas. If required, opportunity will be provided during the course for students to spend short periods in central or local government departments, or some other administrative agency in which they may be interested.

Members of the course will normally be university graduates who have had several years' experience of administrative work. Admission may also be offered, in special circumstances, to candidates otherwise well qualified who do not hold degrees, or to graduates who have had no practical experience, but are taking up administrative appointments. A small number of students from western countries may be admitted. The number of students to be admitted in any one year will, however, be limited.

The course covers one academic year and runs from late September until the beginning of July.

The course will cover the following subjects:

- (a) Governmental aspects of development
- (b) Social aspects of development
- (c) A third field of concentration

Regulations for School Diplomas

The alternatives offered under (c) will depend upon individual qualifications and the availability of teaching facilities and tutorial assistance. Subjects offered in the past have included for example, The Role of the Higher Civil Service in the District Administration of India, Voluntary Organizations and Social Services of Jordan, Housing Problems in Afghanistan, The Growth and Characteristics of Public Corporations in Britain, Italy and Pakistan, Rural Community Development in Pakistan, International Economics and Price Theory, Juvenile Delinquency in Uganda, and Monetary Policy in Mexico. The availability of each specialisation will depend upon individual qualifications.

At the end of the course, a paper will be set in each of the three branches of study. Suitably qualified persons will be allowed to substitute for one of the papers a dissertation on some specialised topic within the field of development administration.

Those who satisfy the examiners will be awarded a Diploma by the School.

The syllabus will be treated in a series of special lectures and classes accompanied by an interdisciplinary seminar, but members of the course will also be encouraged to attend a variety of other lectures and seminars, selected to meet their particular needs. Examples of lecture courses which may be of particular interest are given on pages 323-4 in Part III of the Calendar.

Applications for admission to the course should be sent by 15 April to the Assistant Registrar (Admissions), London School of Economics and Political Science, Houghton Street, London, WC2A 2AE.

Regulations

1. There shall be a Diploma in Development Administration which shall be awarded to persons who, having completed the course of study prescribed by these regulations, have satisfied the examiners in the examination for the Diploma.

2. No person shall be admitted to the prescribed course of study for the Diploma unless:

(a) he shall have attained the age of 21 years on or before 1 October of the calendar year in which he is admitted;

(b) *either* (i) he shall be a graduate of a university
or (ii) he shall, in the opinion of the tutors to the course, have practical experience or other qualifications of special relevance to the course;

and (c) he shall have had not less than two years' experience of administrative work, unless the tutors to the course should waive this condition.

3. The prescribed course of study shall be of one academic year's duration.

4. There shall be an examination for the Diploma, to be held in the Summer term of each year on dates to be determined by the tutors to the course. Candidates will normally take papers in three subjects:

(i) Governmental Aspects of Development

(ii) Social Aspects of Development

(iii) Special subject to be chosen in accordance with the candidate's qualifications and interests. The choice of special subject shall be approved by the tutors, after consultation with the candidates.

Regulations for School Diplomas

5. Candidates who have sufficient qualifications and have shown appropriate abilities may be allowed to substitute, for one of the papers, a dissertation upon some aspect of development administration. This substitution shall depend upon the tutors' agreement, and the form and length of the dissertation shall be settled by the tutors.

6. In assessing a candidate's performance the examiners shall have regard to the essays or other work written by the candidate in the first two terms of the course.

7. The examiners may test any candidate by means of oral questions.

8. A mark of distinction shall be awarded to candidates who show exceptional merit.

9. The examination shall be conducted by such members of the staff of the School as may be designated as internal examiners in each year by the Director, together with one external examiner. The external examiner shall be a person who, at the time of the examination, is not a member of the staff of the School. He shall be appointed by the Academic Board and shall be eligible for reappointment for two further years, but for three calendar years thereafter shall not again be eligible for appointment.

10. In order to satisfy the examiners in the examination a candidate shall be required to reach in each paper a standard prescribed by them.

11. Candidates who are unsuccessful in the examination as a whole shall receive a certificate of attendance, on which shall be recorded those parts of the examination, if any, in which they have passed.

12. A candidate who, for reasons which in the opinion of the Director are sufficient, fails to present himself for examination or who presents himself, but fails to satisfy the examiners, may be a candidate for the whole of the examination on one, but not, without the special permission of the examiners, more than one further occasion.

13. The examiners may recommend for an aegrotat a candidate who

- (i) has completed the full period of study and any field work or practical work required by the regulations;
- (ii) has been absent through illness or other sufficient cause from the whole or part of the examination for the Diploma;
- (iii) has made application, supported where appropriate by a medical certificate, to the Academic Secretary for an aegrotat award.

Having considered the work which the candidate has submitted in such part of the examination as he has attended if any, records of the candidate's performance during the course, and assessments provided by the candidate's teachers, the examiners will determine whether evidence has been shown to their satisfaction that, had he completed the examination, the candidate would clearly have reached a standard which would have qualified him for the award of the Diploma. The recommendation of the examiners shall be considered by the Academic Board.

(2) Diplomas in Social Administration

The School offers courses of study for full-time day students leading to a Diploma in Social Administration. The courses are designed to give a broad general education in the social sciences. Students who wish to prepare themselves to work as professional social workers after this course of study normally proceed to a course of training leading to a professional qualification.

Regulations for School Diplomas

The teaching for the Diploma combines theoretical study of the social sciences and practical experience in the fields of social administration, social work and social research. The curriculum includes lectures and classes in Economic and Social History, Economics, Psychology, Sociology, Social Anthropology and Social Policy and Administration. Each student is assigned to a tutor who is responsible for the general supervision of his studies. For tutorials and classes the students are required to do regular written work. Variations are made in the course to meet the needs of students who are preparing to work in the low-income countries.

Field work in both statutory and voluntary agencies is arranged with the aim both of helping the students to gain a better appreciation of social conditions and social problems and of giving them an introduction to the practice of social work. This is undertaken during vacations. In their own interests students are advised to gain some experience outside London, and this may involve additional expense.

Diploma for Graduate Students

The full-time course for the Diploma for graduate students covers one academic year. Candidates are required to undertake a minimum of twelve weeks' full-time field work as an integral part of the course, six weeks of which must be done before the beginning of the Michaelmas term and six weeks during the Easter vacation.

Candidates are required to take one paper in each of the following subjects:

	<i>Lectures, Classes and Seminars</i>	
	<i>U.K.</i>	<i>Overseas</i>
1. Social Policy and Administration	740-1, 743-6, 750-1, 753	7-8, 740-1, 748, 750-1
2. The Economic and Social Background to Social Policy and Administration	20, 25, 42, 757-8a, 918-9	20, 87-8, 640, 757-8a, 918-9
3. Psychology and Social Structure	695(i) and (iii), 760, 761b, 762b, 830(ii), 845, 855	695(i) and (iii), 760, 761b, 762c, 830(ii), 855

Candidates are required to pass in all of these subjects, and, in addition, they must reach the required standard in their field work.

Applicants for admission to the course for the Diploma in Social Administration for graduate students must have attained the age of 21 by 1 October in the year for which they seek admission and they must be graduates of a university.

Admission for British graduates will be determined by interview and relevant documentary evidence. Application must be made by 1 March preceding the session for which admission is desired, but interviews will be given in the Christmas vacation for candidates who apply by the middle of November, and during the Lent term for those who apply by the middle of January.

Graduates of overseas universities must apply by 31 January if they are applying from overseas and by 1 March if they are in the United Kingdom. They should have had practical experience of at least one year's duration, preferably in their own country, in the social welfare field or in other relevant work. They are normally required to take an entrance examination, for which there is a fee of £1, and they may be called for interview; if necessary, arrangements can be made for the examination and the interview to take place overseas. Overseas graduates of a British

Regulations for School Diplomas

university are not required to take the entrance examination, but they should have had the year's practical experience. The Diploma course is adapted to meet the needs of students, both from the United Kingdom and from overseas, who intend to work outside the United Kingdom, and separate papers for these students are set in the examination for the Diploma. British graduates who wish to follow this 'overseas option' should have had a year's practical experience in an overseas country.

Application forms may be obtained from the department of Social Science and Administration.

Regulations

1. There shall be a Diploma in Social Administration which shall be awarded to persons who, having completed the course of study prescribed by these regulations, have satisfied the examiners in the examination for the Diploma and in the field work prescribed by these regulations.

2. No person shall be admitted to the prescribed course of study for the Diploma unless:

(a) he shall have attained the age of 21 years on or before 1 October of the calendar year in which he is admitted;

and (b) he shall be a graduate of a university.

3. The prescribed course of study shall be of one academic year's duration.

4. A candidate will be required to undertake twelve weeks' full-time field work during vacations as an integral part of the course. Six weeks of this shall normally be undertaken before the beginning of the course of study.

5. There shall be an examination for the Diploma, to be held in the Summer term of each year on dates determined by the convener of the department of Social Science and Administration, hereinafter referred to as the convener of the department. The examination shall comprise the following papers:

(1) Social Policy and Administration

(2) The Economic and Social Background to Social Policy and Administration

(3) Psychology and Social Structure

6. In each subject of the examination a separate paper shall be set for students from overseas.

7. The examination shall be conducted by such members of the staff of the department of Social Science and Administration as may be designated as internal examiners in each year by the Director, together with one external examiner. The external examiner shall be a person who, at the time of the examination, is not a member of the staff of the School. He shall be appointed by the Academic Board and shall be eligible for reappointment for two further years, but for three calendar years thereafter shall not again be eligible for appointment.

8. In order to satisfy the examiners in the examination a candidate shall be required to reach in each paper a standard prescribed by them; provided that if a candidate reaches the prescribed standard in each of two papers and the examiners do not consider his failure in the third to be serious they may, at their discretion, declare him to be referred in that paper.

Regulations for School Diplomas

9. A candidate may offer on not more than two subsequent occasions a paper in which he has been referred, of which the first occasion shall not normally be more than two, nor the second normally more than four academic years later than the occasion of the candidate's referral. If on one of those occasions he is successful in attaining the prescribed standard in that paper he shall be treated as having then satisfied the examiners in the whole examination.

10. The examiners may test any candidate by means of oral questions.

11. A mark of distinction shall be awarded to candidates who show exceptional merit.

12. The examiners may recommend for an aegrotat a candidate who

- (i) has completed the full period of study and any field work or practical work required by the regulations;
- (ii) has been absent through illness or other sufficient cause from the whole or part of the examination for the Diploma;
- (iii) has made application, supported where appropriate by a medical certificate to the Academic Secretary for an aegrotat award.

Having considered the work which the candidate has submitted in such part of the examination as he has attended if any, records of the candidate's performance during the course, and assessments provided by the candidate's teachers, the examiners will determine whether evidence has been shown to their satisfaction that, had he completed the examination, the candidate would clearly have reached a standard which would have qualified him for the award of the Diploma. The recommendation of the examiners shall be considered by the Academic Board.

13. A candidate who completes the course of study for the Diploma, but for reasons which, in the opinion of the convener of the department, are sufficient, fails to present himself for examination, or who presents himself, but fails to satisfy the examiners in the examination and who is not referred in any paper, may be a candidate for the whole examination on two, but not more than two subsequent occasions, of which the first shall not normally be more than two nor the second normally more than four academic years later than the occasion of the candidate's failure. If he is on either of those occasions referred in one paper, Regulation 9 shall apply to him.

14. Each candidate for the Diploma shall be required to submit to the convener of the department before the date on which he satisfies the examiners in the examination, or not later than two calendar years (or such further period as the convener of the department may in a particular case permit) after that date, evidence to the satisfaction of the convener of the department of his having completed field work of such nature and such duration as may be prescribed by the convener of the department.

Diploma for Non-Graduate Students

The full-time course for the Diploma for non-graduate students covers two academic years. Students are required to undertake a minimum of sixteen weeks' full-time field work to be done during the vacations.

Regulations for School Diplomas

Candidates are required to take one paper in each of the following subjects:

	<i>Lectures, Classes and Seminars</i>
1. Elements of Social Analysis	830(ii), 845, 855, 762a and b
2. Social Policy and Administration	262, 740-1, 743-6, 750-1, 753
3. Psychology	695(i) and (iii), 760, 761b
4. Social Economics	20, 25, 42, 757-8a, 918-9

Students are required to pass in all of these subjects, and, in addition, they must reach the required standard in their field work.

Applicants for admission to the course for the Diploma in Social Administration for non-graduate students must have attained the age of 20 by 1 October of the year for which they seek admission, and have completed a period of employment or other suitable experience of approximately one year between leaving school and the date at which they wish to begin the course. They must take an entrance examination, for which there is a fee of £1, and those who reach the required standard in the examination may be called for interview. If necessary, arrangements can be made for the examination and the interview to take place overseas. Applications must be made by 31 January preceding the session in which admission is desired. Application forms may be obtained from the department of Social Science and Administration.

Regulations

1. There shall be a Diploma in Social Administration which shall be awarded to persons who, having completed the course of study prescribed by these regulations, have satisfied the examiners in the examination for the Diploma and in the field work prescribed by these regulations.

2. No person shall be admitted to the prescribed course of study for the Diploma unless:

(a) he shall have attained the age of 20 years on or before 1 October of the calendar year in which he is admitted;

and (b) he shall, since leaving school, have completed to the satisfaction of the convener of the department of Social Science and Administration (hereinafter in these regulations referred to as the convener of the department) a period of employment or other suitable experience of approximately one year's duration.

3. The prescribed course of study shall be of two academic years' duration.

4. A candidate will be required to undertake sixteen weeks' full-time field work during vacations as an integral part of the course.

5. There shall be an examination for the Diploma, to be held in the Summer term of each year on dates determined by the convener of the department. The examination shall comprise the following papers:

(1) Elements of Social Analysis

(2) Social Policy and Administration

Regulations for School Diplomas

(3) Psychology

(4) Social Economics

6. The examination shall be conducted by such members of the staff of the department of Social Science and Administration as may be designated as internal examiners in each year by the Director, together with one external examiner. The external examiner shall be a person who, at the time of the examination, is not a member of the staff of the School. He shall be appointed by the Academic Board and shall be eligible for reappointment for two further years, but for three calendar years thereafter shall not again be eligible for appointment.

7. In order to satisfy the examiners in the examination a candidate shall be required to reach in each paper a standard prescribed by them; provided that if a candidate reaches the prescribed standard in each of three papers and the examiners do not consider his failure in the fourth to be serious they may, at their discretion, declare him to be referred in that paper.

8. A candidate may offer on not more than two subsequent occasions a paper in which he has been referred, of which the first occasion shall not normally be more than two, nor the second normally more than four academic years later than the occasion of the candidate's referral. If on one of those occasions he is successful in attaining the prescribed standard in that paper he shall be treated as having then satisfied the examiners in the whole examination.

9. The examiners may test any candidate by means of oral questions.

10. A mark of distinction shall be awarded to candidates who show exceptional merit.

11. The examiners may recommend for an aegrotat a candidate who

- (i) has completed the full period of study and any field work or practical work required by the regulations;
- (ii) has been absent through illness or other sufficient cause from the whole or part of the examination for the Diploma;
- (iii) has made application, supported where appropriate by a medical certificate, to the Academic Secretary for an aegrotat award.

Having considered the work which the candidate has submitted in such part of the examination as he has attended if any, records of the candidate's performance during the course, and assessments provided by the candidate's teachers, the examiners will determine whether evidence has been shown to their satisfaction that, had he completed the examination, the candidate would clearly have reached a standard which would have qualified him for the award of the Diploma. The recommendation of the examiners shall be considered by the Academic Board.

12. A candidate who fails to satisfy the examiners in the examination and who is not referred in any paper may be a candidate for the whole examination on two, but not more than two subsequent occasions, of which the first shall not normally be more than two nor the second normally more than four academic years later than the occasion of the candidate's failure. If he is on either of those occasions referred in one paper Regulation 8 shall apply to him.

13. Each candidate for the Diploma shall be required to submit to the convener of the department before the date on which he satisfies the examiners in the examin-

ation, or not later than two calendar years (or such further period as the convener of the department may in a particular case permit) after that date, evidence to the satisfaction of the convener of the department of his having completed field work of such nature and such duration as may be prescribed by the convener of the department.

(3) Diploma in Personnel Management

The School offers a full-time course of study for men and women intending to seek employment as Personnel Officers. It is designed to give students knowledge and understanding of the principles and problems of Personnel Management, both by theoretical study and by direct experience. For this purpose the School is fortunate in the assistance received from companies and management organizations, which makes it possible for students to obtain varied first-hand experience, including practical training in a personnel department.

A person to whom the Diploma is awarded may seek exemption from the examinations of the Institute of Personnel Management. The Institute has recently amended its requirements and in order to obtain the Graduate Membership grade of the I.P.M. candidates must now pass an examination in the following subjects:

Economics
Psychology
Sociology
Statistics
General Personnel Management, and
either Industrial Relations
or Training and Education
or Recruitment and Employee Services

To obtain the Membership grade further examinations must be taken in

Personnel Management Policies
Management Systems, and
either Industrial Relations (advanced)
or Training and Education (advanced)

The Institute has agreed to give exemption to all students passing the L.S.E. Diploma examinations except for the paper in Personnel Management Policies, which will be conducted by the I.P.M. itself and can be taken only after the completion of the course at L.S.E. The L.S.E. Diploma course, as will be seen below, differs in some respects from the Institute's programme, especially with regard to optional subjects, but the changes have been agreed by the Institute.

The major change under this new scheme is the need for students to pass examinations in the basic social science disciplines: economics, psychology, sociology and statistics, if they have not taken these subjects in their undergraduate work. For students who cannot gain exemption from these subjects, the Diploma course will last fifteen months and the programme will be as follows:

Regulations for School Diplomas

August	Intensive course in the social sciences at L.S.E.
September	First period of practical work in industry
October to May	Academic studies, with examination at the end of May in Economics, Psychology, Sociology, Statistics
June	Workshops at L.S.E.
July	Second period of practical work in industry
August	Revision at L.S.E. and Diploma examination (for subjects see below)
September to October	Project (report on project and oral examination based on project at end of October)

Exemption from the basic social science examinations will be given on a subject for subject basis depending on examinations passed in undergraduate courses or other comparable courses. In making application for the course students should list the subjects for which they claim exemption, stating why they should be exempt. Students who are granted full exemption will be able to complete the course in twelve months. Their programme will be as follows:

September	First period of practical work in industry
October to mid-March	Academic study
Mid-March to mid-May	Project (report on project and oral examinations based on project in mid-May)
June	Workshops at L.S.E.
July	Second period of practical work in industry
August	Revision at L.S.E. and Diploma examination in the following subjects:

Industrial Relations and Industrial Law
Applied Behavioural Sciences
Management Systems
Principles and Practice of Personnel Management

Arrangements have been made with the Social Science Research Council for an extension for maintenance grants for students who are required to follow the extended course.

Applicants resident in the United Kingdom should have either a degree or a social science diploma from a British university, or should have had considerable industrial or commercial experience. Those without a degree or diploma should be at least 24 years of age and must take the entrance examination, for which there is a fee of £1. Only those who reach the required standard will be called for interview. All applicants who are exempt from the entrance examination will be interviewed. Non-graduates should apply by 1 January preceding the session for which admission is desired. Applications from graduates will continue to be accepted up to 1 June. For candidates who apply by 1 January, interviews will be held during the Easter vacation. The entrance examination will be held early in March.

Regulations for School Diplomas

Applicants resident overseas must be university graduates or have a social science diploma, and they must have had at least two years' experience of industrial or related work in their own country. They are normally required to take the entrance examination and only those who reach the approved standard will be given an interview. If necessary, arrangements can be made for the examination and the interview to take place overseas. All candidates must apply by 1 January preceding the session for which admission is desired.

Application forms may be obtained from the Assistant Registrar (Admissions), London School of Economics and Political Science, Houghton Street, London, WC2A 2AE.

Regulations

- 1. There shall be a Diploma in Personnel Management which shall be awarded to persons who, having completed the course of study prescribed by these regulations, have satisfied the examiners in the examination for the Diploma.
- 2. No person shall be admitted to the prescribed course of study for the Diploma unless:
 - (a) he is a graduate of a university
 - or (b) he holds a certificate or diploma in Social Science
 - or (c) he has attained the age of 24 years, and, having had considerable industrial or commercial experience, satisfies the examiners in the entrance examination for the course
- 3. The prescribed course of study shall be of one calendar year's duration.
- 4. There shall be an examination for the Diploma, to be held at the end of August each year (on dates to be determined by the convener of the department of Social Science and Administration). The examination shall comprise the following:

Lectures, Classes and Seminars

Part I

Four paper as follows:

An oral examination based on the report of an investigation undertaken by students during the year

- 5. The examination shall be conducted by such members of the staff of the School as may be designated as internal examiners in each year by the Director, together with one or more external examiners. For the oral examinations, external examiners shall be appointed who, in addition to the appropriate academic qualifications, hold or have held a responsible position in personnel management in industry or commerce. All the external examiners shall be persons who at the time of the examination are

Regulations for School Diplomas

not members of the staff of the School. They shall be appointed by the Academic Board and shall be eligible for reappointment for two further years, but for three calendar years thereafter shall not again be eligible for appointment.

6. A candidate shall be required to satisfy the examiners in each paper of Part I and in Part II of the examination; provided that a candidate who has reached the prescribed standard in three papers in Part I and in Part II may, if the examiners think fit, be declared by them to be referred in the remaining paper of Part I.

7. A candidate may offer on not more than two subsequent occasions a paper in which he has been referred, of which the first occasion shall not normally be more than two, nor the second normally more than four academic years later than the occasion of the candidate's referral. If on one of those occasions he is successful in attaining the prescribed standard he shall be treated as having satisfied the examiners in the whole examination.

8. A mark of distinction shall be awarded to candidates who show exceptional merit.

9. The examiners may recommend for an aegrotat a candidate who

- (i) has completed the full period of study and any field work or practical work required by the regulations;
- (ii) has been absent through illness or other sufficient cause from the whole or part of the examination for the Diploma;
- (iii) has made application, supported where appropriate by a medical certificate, to the Academic Secretary for an aegrotat award.

Having considered the work which the candidate has submitted in such part of the examination as he has attended if any, records of the candidate's performance during the course, and assessments provided by the candidate's teachers, the examiners will determine whether evidence has been shown to their satisfaction that, had he completed the examination, the candidate would clearly have reached a standard which would have qualified him for the award of the Diploma. The recommendation of the examiners shall be considered by the Academic Board.

10. A candidate who completes the course of study for the Diploma, but for reasons which, in the opinion of the convener of the department, are sufficient, fails to present himself for examination, or who presents himself, but fails to satisfy the examiners in the examination and who is not referred in any paper may be a candidate for the whole examination on two, but not more than two subsequent occasions, of which the first shall not normally be more than two nor the second normally more than four academic years later than the occasion of the candidate's failure. If he is on either of those occasions referred in one paper Regulation 7 shall apply to him.

(4) Diploma in Social Work Studies

(This Diploma replaces the Diploma in Applied Social Studies and the Diploma for Social Workers in Mental Health.)

The School offers a one-year course in social work leading to a Diploma in Social Work Studies. The main subjects of study are principles and practice of social work, with special attention to casework, but including also the study of group work,

Regulations for School Diplomas

community work and residential work; human growth and development, social influences on behaviour, deviations from normal patterns of living created by ill health, disablement, mental disorder, delinquency and deprivation of family life.

Field work teaching under supervision, undertaken in various social work agencies, e.g. local authority social work departments, social work departments of general and psychiatric hospitals, is an essential part of the course and is closely integrated with the theoretical part of the studies. Individual tuition is given in both the theoretical and field work parts of the course.

The course is a generic one and students have a choice of field work placements. On qualifying they become eligible for membership of the appropriate professional associations. In addition to working as practitioners in different fields of social service those qualifying by means of this professional course are in demand for a variety of posts carrying responsibility for teaching, supervision and administration.

Applications will be considered in order of receipt, and in any case not after 31 January in the year in which admission is desired. Candidates are admitted to the course on the recommendation of a selection committee which takes into account personal suitability for the practice of social work as well as qualifications, experience and age (see regulations below). Candidates are expected to have had at least a year's experience in social work before the course commences at the beginning of October. Only in exceptional circumstances will candidates with less experience be admitted to the course. Further particulars may be obtained from the Secretary, Social Work Courses, Department of Social Science and Administration, London School of Economics and Political Science, Houghton Street, London, WC2A 2AE. Letters should be clearly marked 'Diploma in Social Work Studies'.

Regulations

1. There shall be a Diploma in Social Work Studies which shall be awarded to persons who, having completed the course of study prescribed by these regulations, have satisfied the examiners in the examination for the Diploma and in the field work as prescribed by these regulations.

2. No person shall be admitted to the prescribed course of study for the Diploma unless:

either (a) he holds a university degree or diploma or certificate in the social sciences approved for this purpose by the convener of the department of Social Science and Administration (hereafter referred to as the convener of the department)

and

(b) he has experience in social work or work of a similar nature

or (c) he has attained the age of 25 years and has satisfied the convener of the department that he is adequately qualified:

(i) by experience in social work or work of a similar nature
and

(ii) by reason of having followed a systematic course of study in the social sciences.

3. The prescribed course of study shall be of one academic year's duration.

Regulations for School Diplomas

4. There shall be an examination for the Diploma, to be held in the Summer term of each year on dates determined by the convener of the department. The examination shall comprise the following papers:

1. Human Growth and Behaviour
2. Social Work and Social Administration
3. Social Pathology

5. In order to qualify for the award of the Diploma each candidate shall be required to complete field work of such nature, duration and standard as may be prescribed by the convener of the department.

6. The examination shall be conducted by such members of the staff of the School as may be designated as internal examiners in each year by the Director, together with one external examiner. The external examiner shall be a person who, at the time of the examination, is not a member of the staff of the School. He shall be appointed by the Academic Board and shall be eligible for reappointment for two further years, but for three calendar years thereafter shall not again be eligible for appointment.

7. In order to satisfy the examiners in the examination a candidate shall be required to reach in each paper a standard prescribed by them; provided that if a candidate reaches the prescribed standard in two of the three papers and the examiners do not consider his failure in the other to be serious they may, at their discretion, declare him to be referred in that paper.

8. A candidate may offer on not more than two subsequent occasions a paper in which he has been referred, of which the first occasion shall not normally be more than two, nor the second normally more than four academic years later than the occasion of the candidate's referral. If on one of those occasions he is successful in attaining the prescribed standard in that paper he shall be treated as having then satisfied the examiners in the whole examination.

9. The examiners may test any candidate by means of oral questions.

10. A mark of distinction shall be awarded to candidates who show exceptional merit.

11. The examiners may recommend for an aegrotat a candidate who
- (i) has completed the full period of study and any field work or practical work required by the regulations;
 - (ii) has been absent through illness or other sufficient cause from the whole or part of the examination for the Diploma;
 - (iii) has made application, supported where appropriate by a medical certificate, to the Academic Secretary for an aegrotat award.

Having considered the work which the candidate has submitted in such part of the examination as he has attended if any, records of the candidate's performance during the course, and assessments provided by the candidate's teachers, the examiners will determine whether evidence has been shown to their satisfaction that, had he completed the examination, the candidate would clearly have reached a standard which would have qualified him for the award of the Diploma. The recommendation of the examiners shall be considered by the Academic Board.

Regulations for School Diplomas

12. A candidate whose field work has reached the required standard and who completes the course of study for the Diploma, but for reasons which, in the opinion of the convener of the department, are sufficient, fails to present himself for examination, or who presents himself, but fails to satisfy the examiners in the examination and who is not referred in any paper may be a candidate for the whole examination on two, but not more than two subsequent occasions, of which the first shall not normally be more than two nor the second normally more than four academic years later than the occasion of the candidate's failure. If he is on either of those occasions referred in one paper Regulation 8 shall apply to him.

(5) Diploma in Statistics

The School offers a full-time course for graduate students leading to a Diploma in Statistics. The course is intended for graduates with first degrees specialising in subjects other than statistics, but including some study of statistics. The mathematics background required is approximately that of an Advanced level pass in the General Certificate of Education examination. The Diploma will furnish a basis for further graduate work in statistics as well as provide a qualification for those who wish to embark on a career as a statistician.

Members of the staff of the Statistics department will advise prospective applicants on the relative suitability of the Diploma course and the M.Sc. Statistics course for particular individuals. Generally speaking, the M.Sc. can be obtained in one year only by students who have done a substantial amount of statistics during their first degree courses. In suitable cases it will, however, be possible for a student to obtain the M.Sc. by means of a further year's study after passing the Diploma examination at a sufficiently high level.

Applications for admission to the course should be made on the prescribed form by 1 February to the Secretary of the Graduate School, London School of Economics and Political Science, Houghton Street, London, WC2A 2AE.

The department reserves the right to cancel lecture courses for any option for which there are fewer than four candidates. In such cases candidates will be prepared for the examination by tutorials and directed reading.

Regulations

1. There shall be a Diploma in Statistics which shall be awarded to persons who, having completed the course of study prescribed by these regulations, have satisfied the examiners in the examination for the Diploma.

2. No person shall be admitted to the prescribed course of study for the Diploma unless he holds a university degree or other qualification approved for this purpose by the convener of the department of Statistics.

3. The prescribed course of study shall be of one academic year's duration.

4. There shall be an examination for the Diploma, to be held in the Summer term of each year on dates determined by the convener of the department of Statistics. (Note Candidates should collect their entry forms for the examination from the Graduate School Office and return them to the Office duly completed by 1 February.)

The examination shall comprise four papers selected with the approval of the candidate's supervisor from the following list:

Regulations for School Diplomas

	<i>Reference Nos. of Courses</i>
1. Statistical Theory	981, 981a
2. Statistical Methods and Inference	928, 930, 930a, 981, 981a
3. <i>Either</i> (i) Mathematics A <i>or</i> (ii) Mathematics B	913 914, 914a
4. Social Statistics and Survey Methodology	928-9, 936, 972
5. Demography	680-1, 684-6
6. Management Mathematics	952-4a
7. Economic Statistics	932-3
8. Economics treated Mathematically	32, 32a, 954, 954a
9. Any other approved paper	—

A candidate may not offer a paper in which he has been examined at first degree level or its equivalent.

A candidate will normally be expected to include papers 1, 2 and 3 in his selection unless he can satisfy his supervisor that he has already reached the required standard in any of these three papers.

5. In order to qualify for the award of the Diploma each candidate shall be required to attend a course on computer programming.

6. The examination shall be conducted by such members of the staff of the School as may be designated as internal examiners in each year by the Director, together with one external examiner. The external examiner shall be a person who, at the time of the examination, is not a member of the staff of the School. He shall be appointed by the Academic Board and shall be eligible for reappointment for two further years, but for three calendar years thereafter shall not again be eligible for appointment.

7. In order to satisfy the examiners in the examination a candidate shall be required to reach in each paper a standard prescribed by them.

8. The examiners may test any candidate by means of oral questions.

9. A mark of distinction shall be awarded to candidates who show exceptional merit.

10. A candidate who fails to reach the required standard in the examination may, in approved cases, be allowed to re-enter for the examination on one further occasion.

The Graduate School and Regulations for Higher Degrees

In its inception the London School of Economics was dedicated to research and advanced studies; and throughout its existence, the Graduate School, which is one of the largest of its kind in the country, has constituted a major division of its activities.

In the session 1971–72, 1,490 students were registered in the Graduate School either for systematic work for different higher degrees, or for shorter visits and special enquiries. The greater number of registered graduates work for the higher degrees of London University, but qualified applicants are admitted to do research under supervision without working for a degree.

At the present time the work of the Graduate School falls into two parts—advanced training and research.

As regards advanced training, the School provides lectures, classes, seminars and individual supervision for students who wish to take a Master's degree by examination. Such training is specifically designed to carry further specialisations commenced during work for a first degree, and to provide professional competence in the subject in which it is given. Reference to the details of lecture courses, classes and seminars in Part III of this Calendar will show the individual courses involved, which are now provided in the different subjects on a very extensive scale.

As regards research, unique facilities are provided by the close proximity of the School to the centres of government, business and law, and by its ease of access to the British Museum and the Public Record Office which, with the School's own large library, comprise perhaps the richest depository in the world of material relating to the social sciences.

Graduate students wishing to undertake research will be expected as a general rule to have attained the level of competence required by the one-year Master's degree. At this stage they have the opportunity of proceeding, according to their competence, either to the M.Phil., which involves a relatively short dissertation, or to the Ph.D., which involves a dissertation of more substantial dimensions. Students who are thus registered are attached to individual supervisors, who at all stages will be responsible for advising them on the planning and execution of their research.

A separate handbook, *The Graduate School*, issued each session, is obtainable by post on request. A copy may be obtained from the Graduate School Office by students applying personally for postgraduate registration. It contains a fuller description of graduate facilities, procedure on registration, the main regulations for internal higher degrees of the University of London open to students at the School and notes on library and social facilities.

Postal enquiries about admission to the Graduate School should be addressed to the Secretary of the Graduate School. Applicants enquiring in person should call at the Graduate School Admissions Office. Applications for October entrance must reach the School on the prescribed form, completed and fully documented, by 1 February. As preliminary correspondence is usually necessary, applicants are advised to make first enquiries well in advance.

Note If a candidate who has been offered admission for October fails to register

The Graduate School

at the School by 30 October, without adequate reasons and without informing the School in advance of his inability to register in time, the offer of admission will be automatically cancelled.

For all further particulars on facilities and procedure, students are referred to the handbook *The Graduate School*.

Higher Degrees

Candidates for internal higher degrees of the University of London must first be accepted by one of the colleges of the University. The fact that a student has satisfied the general requirements of the University of London does not mean that he will obtain a place at the School. Since its accommodation is limited the School can accept only a small proportion of those who apply. The School may specify conditions over and above the requirements of the University regulations with which a student must comply before admission. Candidates may also be asked to take a qualifying examination either before a decision is made on their application, or after the first year of registration at the School. A copy of the full University regulations of the relevant degree is available for inspection in the Graduate School Office. The School is able to distribute copies only to students registered for research degrees. There is given below only a selection of the regulations for those higher degrees for which candidates are most commonly registered at the School, together with a note on certain others.

The Higher Doctorates

The School does not register candidates for higher doctorates. For the D.Sc. (Econ.) and D.Lit., published work alone can be considered by the examiners. Only London graduates are eligible for these doctorates, and applicants should communicate directly with the Academic or External Registrar of the University of London as to the conditions and regulations pertaining to them.

External Higher Degrees

Only graduates of London University (either internal or external) may proceed to *external* higher degrees of the University. It is **most unusual** for candidates for external higher degrees to be registered at the School, but the Graduate School Committee may in special cases consider such applications. Candidates so accepted must conform to the appropriate School regulations and, while registered, pay the same tuition fees as candidates registered for internal degrees.

Regulations for Higher Degrees of the University of London

Candidates are directly responsible for knowing and observing University regulations, but deal with the University through the Graduate School Office. Only the final submission of theses and detailed arrangements for all examinations are conducted directly between the candidate and the University. Instructions on these points are given at the appropriate times.

The Graduate School

Degrees Available and Other Forms of Registration at the School

The degrees for which a student may register at the London School of Economics are as follows:

- (a) Doctor of Philosophy (Ph.D.)
- (b) Master of Philosophy (M.Phil.)
- (c) Master's Degrees:
 - Master of Laws (LL.M.)
 - Master of Science (M.Sc.)
 - Master of Arts (M.A.)¹

The Ph.D. may be awarded in the Faculties of Arts, Laws, Science and Economics.

The M.Phil. may be awarded in the Faculties of Arts, Laws, Science and Economics.

The M.Sc. may be awarded in the Faculties of Science and Economics.

As previously indicated, the School accepts under the Research Fee, students wishing to carry out research without taking a higher degree of London University. Such students may attend lectures and seminars relevant to their research work, and they are allocated to a supervisor.

Candidates may register at the School for the University Diploma in Social Anthropology, or the School Diploma in Statistics. Candidates may also register for the School Diploma in Social Administration, but applicants for this diploma should address their enquiries direct to the Department of Social Science and Administration at the School. For details see pages 249–255.

The School reserves the right at all times to withdraw or alter particular courses and course syllabuses.

Regulations Common to the Ph.D. and Master's Degrees

1. Recommendations for registration must be submitted by the School to the University not later than three months after the date on which the course is begun. Retrospective registration will be allowed in some circumstances and where a student has already been registered in the Graduate School. No retrospective registration towards another degree is allowed for any period spent on the M.Sc.

2. A candidate who has been accepted by the School must be registered with the University as soon as he starts his course at the School. A candidate's registration cannot be recommended to the University until the School has received *official* evidence of all his previous university qualifications. Candidates for the one-year M.Sc. must be registered within two months of taking up their course.

A fee of £8 is payable for each registration as an internal student of the University for a postgraduate degree except that no additional registration fee is payable by a student who is permitted to transfer his registration from one higher degree to another.

Registration fees are not normally returnable.

3. If a student does not begin his course of study within one calendar year from

¹The only branches of this degree for which the School registers candidates are International History and Area Studies.

the date of the approval of his registration the approval of his registration will lapse and he must apply again for registration if he still desires to proceed to a higher degree.

4. A qualifying or preliminary examination may be imposed after registration, as a condition of being allowed to enter for the degree examination. A student upon whom such a condition has been imposed will normally be required to sit the qualifying examination at least one year before he enters for his degree examination or submits his thesis. If he fails to pass this qualifying examination he will not be permitted to re-enter for it without the permission of the School and the University.

If the qualifying examination imposed consists of a paper or papers from an existing University examination, the fee payable by the candidate is prescribed by the University: £5 for a single paper, £10 for more than one paper. In this case, the candidate is required to submit an entry form to the University by the date prescribed in the regulations for the relevant examination.

5. It is essential that the student, whilst pursuing his course of study as an internal student, should be prepared to attend personally for study in a college, school or institution of the University during the ordinary terms at such time or times as his supervising teacher may require. All graduate students are therefore required to be resident within normal daily travelling distance of central London during term time.

6. Leave of absence may, under proper conditions, be permitted if the material for the work of a student registered for the M.Phil. or Ph.D. exists elsewhere. A full-time student granted leave of two terms or more must have been in attendance before entry to the degree examination for not less than four terms at the School and a part-time Ph.D. student not less than seven terms; neither the first nor the last term of the course can be counted as leave of absence.

7. The greater portion of the work submitted as a thesis for a degree must have been done since the student was registered as an internal student of the University.

8. All theses must be written in English and every candidate will be required to forward to the University the prescribed number of copies of his thesis and of a short abstract thereof comprising not more than 300 words. The abstract should be bound with each copy of the thesis submitted to the University.

9. A candidate will not be permitted to submit as his thesis a thesis for which a degree has been conferred on him in this or any other university, but a candidate shall not be precluded from incorporating work which he has already submitted for a degree in this or any other university in a thesis covering a wider field, provided that he shall indicate on his entry form and also in his thesis any work which has been so incorporated.

10. A student submitting a thesis in typescript will be required to supply, at the time of the examination, two of the required copies of his thesis (*one* of which must be the typescript itself, *not* a carbon copy) bound in accordance with the following specification:

size of paper: quarto (10 inches by 8 inches) or International A4 (11.7 inches by 8.3 inches), except for drawings and maps on which no restriction is placed. Margins of $1\frac{1}{2}$ inches to be left on each side to allow for binding. Bound in a standardised form as follows: art vellum or cloth; overcast; edges uncut; lettered

The Graduate School

boldly up back in gold ($\frac{1}{4}$ inch to $\frac{1}{2}$ inch letters), DEGREE, DATE, NAME; short title written or printed neatly and legibly on the front cover.

(The name and address of a firm of bookbinders in London, who will bind theses to this specification, may be obtained from the Academic Registrar, University of London, Senate House, WC1E 7HU).

11. Except with the special permission of the Academic Council an internal student will not be permitted to register concurrently for more than one degree, diploma or certificate, nor for any combination of these awards. No student who is registered as an external student may be registered concurrently as an internal student.

The Degree of Doctor of Philosophy

(See also the section on common regulations.)

1. The following are eligible, by University regulations, to apply for registration for a Ph.D. degree:

- (i) A graduate of London University;
- (ii) A graduate of another university;
- (iii) The holder of an approved diploma in certain educational institutions of university rank.

An applicant who has not obtained at least a **second class (upper division)** in an honours degree of this university, or its equivalent in another university, will not normally be admitted to the Graduate School as a candidate for the Ph.D. degree; and one who has not already obtained a Master's degree of this or another university will usually be required to register, in the first place, for a Master's degree. A candidate who is required to satisfy any qualifying conditions *before* registration for the Ph.D. degree will not be permitted to count the time spent up to the time of obtaining these qualifications towards his course of study for the Ph.D. degree.

2. A student is required to register as an internal student before proceeding to the Ph.D. degree. When applying for registration he must submit satisfactory evidence of his qualifications to proceed to this degree. The registration form, when completed, must be returned to the Graduate School Office.

3. In the Faculty of Laws, a candidate must have obtained either the LL.B. with first class honours or the LL.M. of London University or a degree of another university, assessed by London University as equivalent to one of these. In exceptional cases exemptions from these requirements may be granted.

4. A student registered for the Ph.D. who wishes to proceed instead to the M.Phil. must apply through the School for permission to do so. The length of further course, if any, which he will be required to pursue for the M.Phil. will be prescribed in each case by the University. On registering for the M.Phil. his Ph.D. registration will lapse.

The Graduate School

Course of Study

5. Every candidate must pursue as an internal student:

- (a) a course of not less than two academic years (in the Faculty of Science two calendar years) of full-time training in reasearch and research methods, or
- (b) a part-time course of training in research and research methods of not less than three academic years.

Note Students registering for the Ph.D. degree at any time other than the beginning of a session will be required to pursue a full-time course of not less than two calendar years, or a part-time course of not less than three calendar years.

6. A research student engaged in teaching work in a School of the University or elsewhere may be accepted as a full-time student, provided that the total demand made on his time, including any preparation which may be required, does not exceed six hours a week.

7. The course must be pursued continuously, except by special permission of the Senate.

8. Not later than nine months before the date when he proposes to enter for the examination the student must submit through the Graduate School Office the title of his thesis for approval by the University. After the title of the thesis has been approved it may not be changed except with the permission of the University.

Thesis

9. After completing his course of study every candidate must submit a thesis which must comply with the following conditions:

- (a) The greater portion of the work submitted therein must have been done after the registration of the student as a candidate for the Ph.D. degree.
- (b) It must form a distinct contribution to the knowledge of the subject and afford evidence of originality, shown either by the discovery of new facts or by the exercise of independent critical power.
- (c) It must be written in English and be satisfactory as regards literary presentation, and if not already published in an approved form, must be suitable for publication, either as submitted or in an abridged or modified form.
- (d) Theses for the Ph.D. in Geography and Philosophy shall not exceed 75,000 words in length unless permission to exceed this limit has been granted by the University.
- (e) For the Ph.D. in the Faculty of Economics the thesis shall not exceed 75,000 words in length, exclusive of bibliographies and technical appendices, unless permission to exceed this length has been granted by the University.
- (f) In the field of History no thesis shall exceed 100,000 words in length (inclusive of footnotes and appendices, other than documentary appendices, but exclusive of bibliography). This regulation does not apply to editions of a text or texts.
- (g) Theses for the Ph.D. in Anthropology shall not exceed 100,000 words in length, excluding notes, bibliography and appendices, unless permission to exceed this limit has been granted by the University.

The Graduate School

A candidate wishing to exceed the prescribed limit may apply for permission to the University through his supervisor and the Graduate School Office, such application being made at least six months before the presentation of the thesis.

10. The thesis must consist of the candidate's own account of his research. It may describe work done in conjunction with the teacher who has supervised the work, provided that the candidate clearly states his personal share in the investigation, and that this statement is certified by the teacher. In no case will a paper written or published in the joint names of two or more persons be accepted as a thesis. Work done conjointly with persons other than the candidate's teacher will be accepted as a thesis in special cases only.

11. The candidate must indicate how far the thesis embodies the result of his own research or observation, and in what respects his investigations appear to him to advance the study of his subject.

Entry for Examination

12. Every candidate must apply to the Graduate School Office for a form of entry, which, when completed and countersigned by the School authorities, must be sent to the University together with the proper fee not earlier than six months and not later than two months before the submission of the thesis.

13. Every candidate must produce a certificate from the authorities of the School stating that he has studied to their satisfaction for the prescribed period. The certificate must be submitted before, or at the same time as the thesis is submitted. The thesis may be submitted on or after the first day of the month following that in which the prescribed course of study is completed. A candidate who is required to pursue a course of study extending over a specified number of academic years will be permitted to submit his thesis on or after 1 June of the relevant year.

A candidate who will not be ready to submit his thesis at the end of the prescribed course may defer submission of the form of entry up to one calendar year from the completion of his course. A candidate who does not submit his form of entry within one calendar year must apply again to the University for admission to the examination if he still desires to proceed to the degree.

If a candidate has not submitted his thesis for examination within eighteen months after submission of the form of entry for the examination, his entry will be cancelled and the fee refunded less £9.

A candidate registered for the Ph.D. degree will be required to submit three copies of his thesis typewritten or published in his own name. In the Faculty of Arts or Science he is required to bring an additional copy to the oral examination adequately bound and paginated in the same way as the three copies submitted to the University.

14. The candidate is invited to submit as subsidiary matter in support of his candidature any printed contribution or contributions to the advancement of his subject which he may have published independently or conjointly. In the event of a candidate submitting such subsidiary matter he will be required to state fully his own share in any conjoint work.

Examination

15. After the examiners have read the thesis they may, if they think fit and without further test, recommend that the candidate be rejected.

16. If the thesis is adequate the examiners shall examine the candidate orally and at their discretion by written papers or practical examinations or by both methods on the subject of the thesis and, if they see fit, on subjects relevant thereto; provided that a candidate for the Ph.D. degree in the Faculty of Arts who has obtained the degree of M.A. in the same subject in this University shall in any case be exempted from a written examination.

17. If the thesis is adequate, but the candidate fails to satisfy the examiners at the oral, practical or written examination held in connection therewith, the examiners may recommend to the Senate that the candidate be permitted to re-present the same thesis and submit to a further oral, practical or written examination within a period not exceeding eighteen months specified by them. The fee payable on re-entry to the Ph.D. examination by a candidate referred in this way is £17·50 for an oral examination, and £25 for a written or practical examination.

18. If the thesis, though inadequate, shall seem of sufficient merit to justify such action, the examiners may recommend to the Senate that the candidate be permitted to re-present his thesis in a revised form within eighteen months from the decision of the Senate with regard thereto, and the fee on re-entry, if the Senate adopt such recommendation, shall be £25. The examiners shall not, however, make such recommendation without submitting the candidate to an oral examination. The examiners may at their discretion exempt from a further oral examination on re-presentation of his thesis a candidate who, under this section, has been permitted by the Senate to re-present his thesis in a revised form.

19. If the thesis is otherwise adequate, but requires minor amendments, and if the candidate satisfies the examiners in all other parts of the examination, the examiners may require the candidate to make, within one month, specified amendments to their satisfaction or that of one of their number nominated by them.

20. If, after completion of the examination or re-examination for the Ph.D., the examiners are of the opinion that a candidate does not justify a recommendation for the award of that degree nor for the re-presentation of the thesis in a revised form for that degree, they may at their discretion recommend that the candidate be eligible to apply for the award of the M.Phil. under the following conditions and procedures. No recommendation under this regulation shall be made unless the examiners are satisfied that the candidate has reached the standard required for the award of the M.Phil.

(a) On approval of the examiners' report, the candidate will be informed that he has been unsuccessful at the examination for the Ph.D., but that he has been adjudged eligible to apply within two months for the award of the M.Phil. if he so wishes.

(b) A candidate who applies for the award of the M.Phil. under this regulation will not be required to submit the thesis or dissertation, as may be required under the regulations for the M.Phil. or to undergo an oral examination thereon, but

The Graduate School

will be required to fulfil the requirements for the M.Phil. examination in all other respects including the passing, at the next following occasion on which they are held, of any required written papers or other required tests prescribed for the M.Phil. in the relevant field.

(c) Upon an eligible candidate making application for the award of the M.Phil. for which no additional forms of examination are prescribed, he will be informed that the degree of M.Phil. has been conferred on him as from the date of the approval of the recommendation of the examiners for the Ph.D.

(d) Upon an eligible candidate making application for the award of the M.Phil. for which additional forms of examination are prescribed, he will be informed that the degree of M.Phil. will be conferred on him as from the date of his satisfying the examiners at such additional examinations. Should such a candidate fail to satisfy the examiners at any or all of the additional forms of examination, the question of his re-entry therefor will be governed by the regulations for the M.Phil. so far as applicable.

(e) An eligible candidate who does not apply for the award of the M.Phil. within the period given in (a) above, will be informed that he has failed to satisfy the examiners for the Ph.D. and that he is no longer eligible to apply for the award of the M.Phil. under this regulation.

21. For the purposes of the oral, practical or written examination held in connection with his thesis the candidate will be required to present himself at such place as the University may direct and upon such day or days as shall be notified to him.

22. Work approved for the degree of Ph.D. and subsequently published must contain a reference, either on the title page or in the preface, to the fact that the work has been approved by the University for the award of the degree.

Master's Degrees

General Note on Regulations for Master's Degrees

(See also the section on common regulations.)

1. The following are eligible, by University regulations, to apply to the School for registration for a Master's degree:

- (i) A graduate of London University
- (ii) A graduate of another university
- (iii) A candidate who has obtained a qualification of an approved standard after a course of study extending over not less than three years in a university (or educational institution of university rank) overseas.

2. A student is required to register as an internal student before proceeding to a Master's degree. When applying for registration he must submit official evidence of his qualification to proceed to a Master's degree.

3. A student admitted to the School must be recommended to the University for registration as a candidate for a Master's degree. The prescribed form for this official recommendation must be completed and returned to the Graduate School Office immediately after registration at the School.

The Graduate School

- 4. Students required to enter for a special examination or for the whole or a part of an examination for a lower degree as a qualification for admission to the examination for a Master's degree, will generally be required to pass such a qualifying examination at least one year before entry to the examination for the Master's degree. The lower degree, however, will not be granted to such persons.
- 5. A candidate registered for the M.Phil. who subsequently desires to proceed instead to the Ph.D. degree must apply through the authorities of his college, school or institution for permission to do so. A full-time or part-time student may be granted retrospective registration for another degree in respect of part of his previous course of study.
- 6. A student registered for a Master's degree is required to pursue an approved course of study. When he applies to be examined for the degree (by completing an entry form obtainable from the Graduate School Office) he must produce a certificate from the authorities of the School stating that he has studied to their satisfaction for the minimum period prescribed by the University. For course work degrees the certification is incorporated in the entry form.
- 7. A student registered for the M.Phil. will not be permitted to publish his thesis *as a thesis approved for the Master's degree* without the special permission of the University.
- 8. Information about the examinations for each of the Master's degrees is to be found below.
- 9. Candidates who are prevented owing to the death of a near relative, or contact with an infectious illness, or by their own illness from taking all or part of a written examination under revised regulations for the degree of M.A. or M.Sc. in the Faculty of Economics at the normal time, may, with the approval of the relevant Boards of Examiners, (i) be set a special examination in the papers missed, as soon as possible after that date or (ii) if electing to re-enter the written examination at the normal time, submit their reports, essays or dissertations immediately or at the time of re-entering the written papers. Application on behalf of such candidates must be made by the School, be accompanied by a medical certificate and reach the Academic Registrar, University of London, Malet Street, London, WC1E 7HU, within seven days from the last day of the examination.

The Degree of Master of Science (M.Sc.) in the Faculty of Economics

The degree of Master of Science in the Faculty of Economics is awarded to candidates successfully completing examinations based on courses which fall within any of the following branches:

Accounting and Finance	Econometrics and	Economics
Business Studies ¹	Mathematical	Economic History
Demography	Economics	European Studies

¹The School does not register students for this branch of the M.Sc.

The Graduate School

Geography	Operational Research	Sociology with special
Industrial Relations	Planning Studies	reference to Education ¹
International History	Politics	Sociology with special
International Law ¹	Social Administration and	reference to the Sociology
International Relations	Social Work Studies	of Medicine ¹
Logic and Scientific	Social Anthropology ¹	Statistics
Method	Social Psychology	
Management Studies	Sociology	

Qualifications for Admission

A graduate who has not obtained at least a **second class honours degree** in this University, or its equivalent in another university, will not normally be admitted to the School as a candidate for the M.Sc. degree.

Registration with the University

Candidates accepted for the M.Sc. must be registered with the University (through the Graduate School Office) immediately after the beginning of their course. Candidates should complete the University registration forms and return them to the Graduate School Office. Their registration cannot be recommended to the University until official evidence of their qualifications has been received by the Graduate School Office. There is no provision for retrospective registration for the M.Sc.

Course of Study

The course of study will extend over not less than **one** academic or **one** calendar year², but a candidate whose initial qualification in the field of study he wishes to pursue is held by the School to be insufficient may be required to extend his course over **two** years and to pass a qualifying or preliminary examination not less than one year before entry for the degree examination.

No candidate will be admitted to the School to follow the course of study for the M.Sc. degree except at the beginning of the session.

A candidate who has been admitted to the School as a part-time student will be required to extend his course of study over two academic or two calendar years.

Examination

The examination in each branch of study will take place once a year, either in the third week of June or in the first week of September.¹ It will consist of written papers, where appropriate a test of practical work or an essay written during the course of study, and, at the discretion of the examiners, an oral examination.

¹The School does not register students for this branch of the M.Sc.

²In the following branches of study the examination will take place in June: Accounting and Finance, Economics, Econometrics and Mathematical Economics, European Studies, Industrial Relations, International History, International Relations, Logic and Scientific Method, Management Studies, Operational Research, Regional and Urban Planning Studies, Social Administration and Social Work Studies, Social Psychology, Sociology, Statistics. In the following branches of study the examination will take place in September: Demography, Economic History, Geography, Politics.

The Graduate School

Each candidate must apply to the Graduate School Office for a form of entry either by 10 January or by 1 April for the June or the September examination respectively. This form must be sent, duly completed, together with the appropriate fee to the Academic Registrar **not later than 1 February or 1 May**.

A candidate who fails in his examination will not normally be readmitted to the School, but he may re-enter for the examination on **two** further occasions.

A list of candidates for the M.Sc. examination who have satisfied the examiners, will be published, arranged in alphabetical order, by the Academic Registrar. A mark of distinction will be placed against the names of those candidates who show superior merit.

A diploma for the M.Sc. degree, under the Seal of the University, will be sent to each successful candidate, after the report of the examiners has been approved by the Senate.

The latest date for withdrawal from the examination is 1 June for the June examination, and 15 August for the September examination.

If a candidate withdraws, for reasons other than his own illness or the death of a near relative, from a written examination for a Master's degree after the last date of entry, but not later than the above date, the entry fee less £9 will be refunded.

Subjects of Study

The following is a list, arranged under branches of study, of the subjects which may be offered. Where approval for a special subject is required it must be sought at the beginning of the course of study.

Where regulations for a branch permit a subject to be chosen from another branch, the examination for that subject will be taken at the same time as the examinations in the branch for which the candidate is registered.

I. Accounting and Finance

The examination will consist of four papers on subjects selected from the list below. The selection must be approved by the candidate's teachers. At least two papers must be written on subject 1.

	<i>Lectures, Classes and Seminars</i>
1. Economic Aspects of Accounting (papers 1-4)	155-7a, 159, 166-171, 937
2. Economics of Industry	84, 84a, 86
3. Management Mathematics	917, 917a, 951, 951a
4. Advanced Mathematical Programming	985-7
5. Advanced Systems Analysis	948, 948b, 949, 949b, 993-4a
6. Any other subject approved by the candidate's teachers	—

If the candidate's teachers approve, an essay or report of not more than 10,000 words, written during the course of study, may be substituted for one of the papers.

II. Business Studies

This branch of the M.Sc. is not offered at the School.

III. Demography

The examination will consist of three papers and a record of practical work done during the course:

	<i>Lectures, Classes and Seminars</i>
1. Demography I	684, 687-8, 690-2

The Graduate School

	<i>Lectures, Classes and Seminars</i>
2. Demography II	681, 685, 687-9
3. One of the following:	
(i) Methods of Sociological Study	862, 976
(ii) Sociology of Development	865
(iii) Social Structure of Industrial Societies	864
(iv) The Economics of Less Developed Countries and of their Development	87, 88
(v) Economic Growth Historically Considered	282
(vi) Problems of Public Health and Socio-medical Research	693
(vii) Statistical Theory	981, 981a
(viii) Any other subject approved by the candidate's teachers	—

IV. Economics

The examination will consist of four papers as follows:

	<i>Lectures, Classes and Seminars</i>
1. Economic Theory I	53-4a, 56-8a, 60, 60a
2. Economic Theory II	53-5a, 57-9a
3. Methods of Economic Investigation	53-4a, 57-8a, 61, 61a
4. One of the following (one paper):	
(i) Advanced Economic Theory I: Theory of Economic Growth	62, 62a, 64
(ii) Advanced Economic Theory II: Linear Economic Models	63-4
(iii) Advanced Economic Theory III: Theory of Investment Planning	65
(iv) History of Economic Thought	30-1, 66, 66a
(v) The Pure Theory of International Trade and Commercial Policy	67, 67a, 69-70
(vi) Theory of Optimal Decisions	39, 71, 915
(vii) Labour Economics	72, 72a, 100
(viii) Monetary Economics	73-5
(ix) Economics of Public Enterprise	—
(x) Economics of Transport	52, 77-80, 108
(xi) Public Finance	81-3, 100, 476
(xii) Economics of Industry	84-6
(xiii) The Economics of Less Developed Countries and of their Development	65, 87-9, 100
(xiv) Agricultural Economics	90-3
(xv) Economic Aspects of Accounting	—
(xvi) Soviet Economic Structure	94-6, 98-9
(xvii) Theory and Implementation of Detailed Planning	94-9
(xviii) International Monetary Economics	68. 68a, 70

Lectures, Classes and Seminars

(xix) Economics of Education and Human Capital	100-3, 125
(xx) Urban Economics	76, 79-80, 83, 105-6, 108, 110-1, 244-5, 997
(xxi) Marx's Economics in the Light of Contemporary Economic Analysis	112, 112a
(xxii) Any other field of Economics approved by the candidate's teachers	—

In exceptional circumstances (for example, where the M.Sc. Committee is satisfied that a candidate has already attained the appropriate standard in one of the compulsory papers) a candidate may, subject to the approval of his teachers, substitute for one of the papers under 1, 2 or 3 a second paper in the subject selected under 4 or a paper in a second subject under 4.

Note In session 1972-73 there will be no teaching for papers 4 (ix) and (xv).

V. Econometrics and Mathematical Economics

The examination will consist of four papers as follows:

Lectures, Classes and Seminars

1. <i>Either</i> (i) Quantitative Economics I (one paper)	113-4
or (ii) Quantitative Economics II (one paper)	113, 115
2. <i>Three</i> of the following:	
(i) Quantitative Economics I (<i>not if taken under 1 (i)</i>)	113-4
(ii) Quantitative Economics II (<i>not if taken under 1 (ii)</i>)	113, 115
(iii) Econometric Theory I	119-21, 962-3
(iv) Econometric Theory II (<i>available only to candidates taking 2 (iii)</i>)	119-21, 964
(v) Advanced Mathematical Economics I	116, 118, 915
(vi) Advanced Mathematical Economics II (<i>available only to candidates taking 2 (v)</i>)	117-8, 915-6
(vii) Advanced Mathematical Programming	985-7
(viii) Any other subject approved by the candidate's teachers	—

Subject to the approval of the candidate's teachers, a candidate may substitute a record of practical work or an extended essay for one of the papers under 2.

VI. Economic History

The examination will consist of three papers and an essay written during the course of study. The candidate's choice of papers and essay title will require the approval of his supervisor.

Lectures, Classes and Seminars

1. The sources and historiography of Economic History in one of the following periods:	
(i) England 1350-1500	278
(ii) England in the 17th century	263, 279

The Graduate School

	<i>Lectures, Classes and Seminars</i>
(iii) Britain 1783–1850	264, 266, 280
(iv) Britain 1900–1950	264, 280
(v) U.S.A. 1890–1929	267(iii), 281
2. <i>Either</i> a second paper under 1 <i>or</i> a paper on a specified period in the Economic History of Great Britain or the U.S.A.	
3. An essay of about 10,000 words on an approved topic relating to the period chosen for paper 1	—
4. <i>One</i> of the following:	
(i) Economic Growth Historically Considered	282
(ii) The History of Science and Technology in Western Europe in <i>either</i> 1500–1750 <i>or</i> 1750–1900	— —
(iii) The Economic Geography of the U.S.A.	—
(iv) The History of Economic Thought	66, 66a
(v) The Regulation of Industry by Govern- ment in the U.S.A.	—
(vi) Elementary Statistics	—
(vii) British Labour History 1815–1939	277
(viii) The Population of the United States of America from Colonial Times to the Present	285

Note In session 1972–73 there will be no teaching for papers 4(ii), (iii), (v) and (vi).

VII. European Studies.

(For examination in and after June 1974)

The examination will consist of three papers of which at least two must be chosen from Group I, and an essay not exceeding 10,000 words on an approved topic falling within the field of one of the candidate's chosen papers.

I

- 1. European History since 1945
- 2. The Politics of Western European Institutions
- 3. The Law of Western European Institutions

II

- 4. The Politics and Government of an
 Approved European Country
- 5. The Political Geography of Western Europe
- 6. The International Politics of Western Europe
- 7. The Economics of European Integration
- 8. The Law of European Economic and
 Monetary Transactions.

The examination will be held in June each year. The essay must be submitted by 15 September.

VIII. Geography

The examination will consist of four papers as follows:

- 1. Modern Geographical Thought and Practice

The Graduate School

2. Three papers taken in *one* or, in special cases *two*, of the following:

- (i) Economic Geography
- (ii) Historical Geography
- (iii) Social Geography
- (iv) Physical Geography
- (v) Cartography
- (vi) Geography of a Particular Region

} Appropriate courses, including Nos. 228-40, 242, 245 will be arranged in consultation with supervisors.

As an alternative to one of these papers candidates may submit an essay of not more than 10,000 words on an approved topic.

Candidates will also be required to show satisfactory evidence of acquaintance with field and other practical research techniques.

IX. Industrial Relations

Candidates will be required to study the structure and functioning of systems of industrial relations in Britain, U.S.A. and other countries. The examination will consist of three papers and an essay or report of not more than 10,000 words on a topic approved by the School authorities, as follows:

- 1. Industrial Relations (two papers)
- 2. One paper in one of the following:
 - (i) Labour Economics
 - (ii) Labour History
 - (iii) Labour Law
 - (iv) Industrial Psychology
 - (v) Industrial Sociology
 - (vi) Manpower Planning

} Supervisors will recommend to candidates the courses appropriate for the option selected.

X. International History

The examination will consist of three papers, and an essay to be submitted in September. A knowledge of at least one European language in addition to English is essential.

1. One of the following general periods, including a knowledge of its sources and historiography:

- | | |
|-----------------|----------------|
| (i) 1688-1740 | (iv) 1815-1870 |
| (ii) 1740-1789 | (v) 1870-1914 |
| (iii) 1789-1815 | (vi) 1914-1946 |

- (i) 1500-1815
- (ii) 1815-1919
- (iii) 1919-1946

3. A special aspect to be studied with the appropriate period under paper 1. Candidates will be expected to show knowledge of set printed sources and relevant monographs and articles. This paper will be selected from those available to candidates for the M.A. in International History and approved by the candidate's teachers.

4. An essay not exceeding 10,000 words on a topic within the field of the above three papers.

} Courses by special arrangement.

The Graduate School

A candidate who is successful in this branch may not enter for the M.A. in International History. A candidate who is successful in the M.A. in International History may not enter for this branch.

XI. International Law

This branch of the M.Sc. is not offered at the School.

XII. International Relations

The examination will consist of three papers and an essay of not more than 10,000 words on an approved topic to be written during the course of study.

The three papers are as follows:

Lectures, Classes and Seminars

- | | |
|---|---------------------------------|
| 1. International Politics, | 581, 584, 592, 601, 609, 626 |
| 2. <i>Two</i> of the following, to be chosen with the approval of the supervisor: | |
| (i) Foreign Policy Analysis | 582-3(i), 584, 610-1 |
| (ii) International Institutions | 587-8, 590, 612, 614, 617, 627 |
| (iii) European Institutions | 466, 588-9, 614, 627 |
| (iv) International Theory | 596-599, 627 |
| (v) The Politics of International Economic Relations | 592, 616 |
| (vi) The Politics of International Law | 600, 619 |
| (vii) Strategic Studies | 593-4, 603, 624 |
| (viii) War and Crisis in International Politics | — |
| (ix) International Politics: The Western Powers | 583(i), 595, 615 |
| (x) International Politics: The Communist Powers | 583(i), 590, 618 |
| (xi) International Politics: Asia and the Pacific | 583(i), 584-5, 620 |
| (xii) International Politics: Africa and the Middle East | 539, 558, 583(i), 584, 621, 623 |
| (xiii) Any other subject of comparable range in the field of International Relations or one related thereto approved by the candidate's teachers. | — |

Note In session 1972-73 there will be no teaching for paper 2 (viii)

XIII. Logic and Scientific Method

The examination will consist of *four* papers *either* all from Option A *or* all from Option B.
Either

Option A: Philosophy of Science

Lectures, Classes and Seminars

- | | |
|--|-----------------|
| 1. Elements of Mathematical Logic | 491-2, 907 |
| 2. Advanced Scientific Method | 485-7, 489, 496 |
| 3. History of Epistemology | 488-9, 496 |
| 4. Philosophy of Mathematics | 494 |
| 5. Foundations of Probability and Statistics | 924-5 |

The Graduate School

- 6. Selected Topics in the History of Science and Mathematics 490, 494, 497
- 7. Methodology of the Social Sciences 498

or

Option B: Mathematical Logic and Philosophy of Mathematics

- 1. Mathematical Logic 492, 907
- 2. Advanced Mathematical Logic 493
- 3. Topics in the Foundations of Mathematics 493
- 4. Philosophy of Mathematics 494
- 5. Foundations of Probability and Statistics 924-5
- 6. Selected Topics in the History of Science and Mathematics 490 494, 497
- 7. Advanced Scientific Method 485-7, 489, 496
- 8. History of Epistemology 488-9, 496

XIV. Management Studies

The examination will consist of three papers to be taken in June and a report of not more than 10,000 words on a selected project to be submitted in the following September. For certain options a record of practical work assigned during the course will also be required.

A candidate's choice of options and project will be made subject to the advice and approval of his supervisor.

Candidates whose qualifications on admission are insufficient for their special subject will be required to spend not less than two years on the course and to pass a qualifying examination not later than the end of the first session.

A candidate is required to select one of the following subjects:

- A. Accounting and Finance** *Lectures, Classes and Seminars*
 - 1. Economic Aspects of Accounting 151-2a, 155, 155a, 157, 157a, 159, 168, 169, 171, 937
 - 2. and 3. *Two* papers chosen from the list of optional papers with the exception of papers (f) and (l) —
- or
- Advanced Systems Analysis 948, 948b, 949, 949b, 993-4a
and one paper chosen from the list of optional papers with the exception of papers (f), (l) and (p)

B. Industrial Relations and Personnel Management

- 1. Industrial Relations and Personnel Management 345(i), 345a, 348-350a, 351a
- 2. One of the following options: (e), (h), (i), (j), (k), (n) —
- 3. One of the following options: (a), (c), (l), (m), (o), (p) —

C. Systems Analysis

- 1. Advanced Systems Analysis 948, 948b, 949, 949b, 993-4a
- 2. *Either* (i) Operational Research I 982-3a, 985, 985a, 991
or (ii) one of the following options:
(c), (d), (f), (l), (m), (o) —
- 3. One of the following options: (b), (e), (g), (h),
(i), (j), (k), (n) —

Optional papers

- (a) Computing and Data Processing 940, 940b, 941(i), 941(i)a, 944, 944b,
947, 947b, 949, 949b, 989
- (b) Commercial Law —
- (c) Design and Analysis of Statistical Investigation 959-961a
- (d) Econometric Theory I 119-20, 962-4
- (e) Economics of Industry 84, 84a
- (f) Elements of Operational Research —
- (g) Industrial Relations and Personnel Management
for Non-specialists 355-6
- (h) Industrial Psychology 723
- (i) Industrial Sociology 351, 351a
- (j) Labour Economics 72, 72a, 100
- (k) Labour Law 357
- (l) Management Accounting 151, 151a, 155, 155a, 157, 157a, 937
- (m) Management Mathematics 917, 917a, 951, 951a
- (n) Manpower Planning 101, 354
- (o) Statistical Theory 981, 981a
- (p) Introduction to Systems Analysis 940, 940b, 944, 944b, 945(ii),
945(ii)a, 947, 947b, 989

In *exceptional* cases one other paper from another branch of the M.Sc. may be substituted for one of the papers listed above, subject to the approval of the candidate's supervisor.

XV. Operational Research

The examination will consist of four papers (or three papers and a report on an approved project) and a record of practical work done during the course. The choice of special subjects must be approved by the candidate's teachers.

- 1. Operational Research I 982-3a, 985, 985a, 991
- 2. Operational Research II 155, 155a, 981, 981a, 989, 995-6
- 3. *Two* (or *one* if a report on an approved project is submitted)
of the following options:
 - (i) Advanced Mathematical Programming 985-7
 - (ii) Advanced Operational Research Techniques 956, 956a, 984, 984a, 988, 988a, 998
 - (iii) Statistical Theory 981, 981a

Lectures, Classes and Seminars

(iv) Probability, Stochastic Processes and Distribution Theory	955-7
(v) Design and Analysis of Statistical Investigations	959-61a
(vi) Advanced Systems Analysis	948, 948b, 949, 949b, 993-4a
(vii) Advanced Scientific Method	485-7, 489, 496
(viii) Econometric Theory I	119-20, 962-4
(ix) Economic Aspects of Accounting I	151, 151a, 155, 155a, 168, 169, 171
(x) Economics of Transport	77-80
(xi) Industrial Sociology	351-51a, 830(ii)
(xii) Mathematical Methods in Planning	76, 79, 107-8, 244-5, 997
(xiii) Any other subject approved by the candidate's teachers.	—

N.B. A knowledge of mathematics and statistics to the level of the papers in Algebra and Methods of Analysis and Elementary Statistical Theory of the Part I examination of the B.Sc.(Econ) will be assumed. A student who applies without previous study of one or more of these subjects may be required to pass a qualifying examination before admission.

XVI. Planning Studies

Regional and Urban Planning Studies

The examination will consist of three papers and *either* an essay *or* a report of practical exercises.

Lectures, Classes and Seminars

1. The Economics of Regional and Urban Planning	28(i) and (ii), 28a, 105-6, 107, 109, 122, 241, 243
2. Administration in Regional and Urban Planning	241, 243, 550-50(a), 552-3(a)
3. Geographical Aspects of Regional and Urban Planning	217, 228, 228a, 241-3, 245, 997
4. <i>Either</i> an essay of not more than 10,000 words on an approved topic <i>or</i> a report of not more than 10,000 words on practical exercises carried out during the course	— —

The essay or report on practical exercises must be submitted in September.

Candidates must also satisfy the examiners that they have a sufficient level of attainment in statistics.

XVII. Politics

The examination will consist of four papers or three papers and an essay written during the course of study.

Candidates will be required to choose *one* of the following:

¹Course 975

The Degree of M.A. in International History

The examination will consist of three papers and an essay. A knowledge of at least one European language in addition to English is essential.

1. One of the following general periods, including a knowledge of its sources and historiography:
 - (i) 1688–1740
 - (ii) 1740–1789
 - (iii) 1789–1815
 - (iv) 1815–1870
 - (v) 1870–1914
 - (vi) 1914–1946
2. Diplomatic theory and practice in one of the following periods, to be selected with the appropriate period under 1:
 - (i) 1500–1815
 - (ii) 1815–1919
 - (iii) 1919–1946
3. A special aspect, to be studied with the appropriate period under 1. Candidates will be expected to show knowledge of set printed sources and relevant monographs and articles.
4. An essay not exceeding 10,000 words on a topic within the field of the above papers.

The course will extend over one academic year, and the written examination will be held in June. The essay shall be presented not later than the end of September. Two copies must be submitted. They should normally be typewritten.

A candidate who has been successful at the examination for this degree may not enter for the M.Sc. branch X. International History. A candidate who has been successful at the examination in the M.Sc. branch X. International History may not enter for this degree.

A candidate who is permitted to re-enter with exemption from re-examination by written papers may re-present his essay at any time within a period not exceeding eighteen months from the date of the examiners' report. Examiners may, at their discretion, prescribe a minimum period to elapse before re-presentation.

The Degree of M.A. in Area Studies

The University offers an M.A. degree in Area Studies, but candidates cannot apply direct to the School. They are advised to write for details to the Academic Registrar, University of London, Senate House, WC1E 7HU.

The Degree of Master of Philosophy (M.Phil.)

The degree of Master of Philosophy is awarded by thesis or dissertation in the

The Graduate School

Faculties of Economics, Arts and Laws in every field for which the School offers teaching.

In the Faculty of Arts, candidates for the M.Phil. in General Linguistics and Phonetics are required in addition to take two written examination papers. In Psychology, the University may, in certain cases, prescribe written papers and/or practical examinations.

Qualifications for Admission

A graduate who has not obtained at least a **second class (upper division)** in an honours degree of this University, or its equivalent in another university, will not normally be admitted to the School as a candidate for the M.Phil. degree.

A candidate whose initial qualification in the field of study he wishes to pursue is held by the School to be insufficient may be required to follow a course of study and to pass a preliminary examination not less than a year before he submits his dissertation.

The Course of Study and the Dissertation

The course of study will extend over not less than **two** academic years.

Students registering for the M.Phil. at any time other than the beginning of the session will be required to pursue a course of not less than two calendar years.

Each candidate will settle with his supervisor the subject and title of his dissertation and must have it approved by the University at least nine months before he submits the dissertation, which must not exceed 55,000 words. Candidates should bring the title for approval into the Graduate School Office before the end of the first session.

The thesis or dissertation must be written in English. The greater portion of the work must have been done after the registration of the student as a candidate for the M.Phil. The thesis or dissertation shall be either a record of original work or an ordered and critical exposition of existing knowledge.

The examination will consist of (a) a thesis, and (b) an oral examination which will include a test of the candidate's knowledge of the general background of his thesis.

A candidate will be permitted to enter at any time during the year provided that he has completed the prescribed course of study. A candidate will be permitted to submit his entry form and fee not less than two and not more than six months before he is eligible to submit his thesis for examination.

A candidate who is required to pursue a course of study extending over a specified number of academic years will be permitted to submit his thesis on or after 1 June in the year in which the course of study is completed.

If the thesis, though inadequate, shall seem of sufficient merit to justify such action, the examiners may, after having examined the candidate orally, recommend the University to permit the candidate to resubmit the thesis in a revised form within twelve months from the decision of the University with regard thereto. The examiners may, if they so desire, require the candidate to submit to a further oral examination when he presents the revised thesis for examination.

If the thesis is otherwise adequate, but requires minor amendments, and if the candidate satisfies the examiners in all other parts of the examination, the

examiners may require the candidate to make within one month specified amendments to their satisfaction or that of one of their number nominated by them.

A list of candidates for the M.Phil. examination, who have satisfied the examiners, will be published, arranged in alphabetical order, by the Academic Registrar. No unsuccessful candidate will be permitted to re-enter within one year of the date of his first entry without the permission of the examiners, save that a candidate who has failed in respect of his dissertation alone may re-present his revised dissertation at any time.

A candidate registered for the M.Phil. degree may, with the approval of his supervisor and of the School, be transferred to registration for the Ph.D. degree. Where this is permitted he may be allowed to count part of the period during which he was registered for the M.Phil. degree towards the registration period for the Ph.D. degree.

Fees for the Examination

Every candidate for the degree of M.Phil. must at each entry to the whole examination pay a fee of £25.

The Degree of Master of Laws (LL.M.)

Qualifications for Admission

Candidates entering for the LL.M. examination after the minimum course of one year must have obtained either first or second class honours at a first degree of the University of London or an approved equivalent degree.

There will be one examination paper in each subject. A candidate will be required *either* (i) to pass at one and the same examination in any *four* of the subjects, *or* (ii) in special circumstances and with the prior approval of the University to pass at one and the same examination in any *three* of the subjects, *and* in an essay of not more than 15,000 words on an approved legal topic. The essay must provide evidence of original work or a capacity for critical analysis, and must be written during the candidate's course of study. A candidate submitting an essay shall be examined orally on the subject of his essay unless the examiners otherwise determine.

Note Permission to take an essay will be granted only to candidates with particularly high entrance qualifications and will be subject to the approval of the candidate's supervisor and the University.

Course of Study

The course will extend over not less than one academic year and the examination will take place once in each year in September.

The title of the essay must be submitted to the University for approval by 1 January of the year in which the candidate presents himself for the examination and the essay must be submitted in typescript in duplicate by 1 July of that year.

Every candidate must submit a form of entry duly completed, together with the appropriate fee, not later than 1 May.

Diploma in Statistics

The School offers a full-time course for graduate students leading to a Diploma in Statistics. For details about this diploma please see pages 261-2.

Diploma in Social Anthropology

This diploma is awarded by the University of London and a full-time course of study is arranged by the School.

All diploma students are required to register as internal students of the University.

All students should read the *Regulations for Academic Diplomas*, which may be obtained from the Academic Registrar, University of London, Senate House, WC1E 7HU.

The School reserves the right at all times to withdraw or alter particular courses and course syllabuses.

The diploma course is open to:

- (a) Students of postgraduate standing whose undergraduate courses have in the opinion of the University included a suitable preliminary training.
- (b) Students who, though not graduates, have satisfied the University that their previous education and experience qualify them to rank on the same level as graduates approved under (a) for this purpose.

Students are required to attend a course of study approved for this purpose by the University, extending over two sessions. The course of study must, unless special exemption is obtained, be continuously pursued.

¹Seminars on these subjects will not be given at the School in the session 1972-73, but candidates wishing to study not more than two of them may take the relevant seminars at other colleges while registered at the School.

Consideration will be given to the major indigenous institutions and their significance in modern conditions
 - (b) Applied Social Anthropology
or Social Change in Developing Societies
 - (c) Social Anthropological Studies of Sectors of Complex Modern Societies
 - (d) General Principles of Linguistics
or Anthropological Linguistics
 - (e) Primitive Technology
 - (f) An essay consisting of a paper of three hours, relating to a subject within the fields of the first three papers
 - (g) Primitive Art

Supervisors will recommend to candidates courses appropriate for this diploma.

A dissertation of not more than 30,000 words may be offered in lieu of papers (iv) and (v). The subject of the dissertation must be submitted to the candidate's supervisor by 1 January.

The examination is held once a year beginning on the second Monday in June. Every student entering for this examination must apply to the Graduate School Office by 1 March at the latest, for an entry form which must be returned to the University, duly completed with the certificate of course of study thereon attested in accordance with General Regulations for Approved Courses of Study, together with the proper fee, not later than 15 March. Candidates submitting original work in the form of a dissertation must submit two copies of the dissertation typewritten or printed, and bound in the prescribed fashion, not later than 15 May.

The fee is £18 for each entry to the examination.

At the discretion of the examiners there may be an oral or a practical examination in any subject, in addition to the written examination in that subject.

Candidates shall not be approved by the examiners unless they have shown a competent knowledge in all the branches prescribed for the examination.

A student shall enter for the whole examination at the end of his two-year course.

Enquiries about this diploma should be addressed to the Secretary of the Graduate School.

Course in Trade Union Studies

The School offers a one-year course of study for men and women interested in the work of the trade union movement. The course, which provides a training in the social sciences with special reference to the development of trade unionism, is primarily intended for persons taking up responsible work in trade union organizations, though applications for admission from other qualified students will be considered. All applicants must show that they possess the training and experience necessary to profit from the course.

Lectures are available in the main subjects of the syllabus; classes, open only to members of the course, are provided. Opportunities for written work are given and provision is made for tutorial supervision. Subject to approval, students may be admitted to other lectures given at the School which are of interest to them, and to which entry is not limited. In addition, they are full students of the School and members of the Students' Union and as such entitled to enjoy all the facilities provided by the Union.

The course is open to full-time day students only.

The syllabus of study consists of seven subjects for which lectures and special classes are provided. The subjects are:

- (i) Economics
- (ii) Contemporary Trade Unionism and Industrial Relations
- (iii) British Economic and Social History, with special reference to the Growth of Labour Movements
- (iv) Law, with special reference to Trade Unionism
- (v) Political Theory and Organization
- (vi) Elementary Statistics and Business Finance
- (vii) Industrial Sociology and Psychology

Problems of human relations; the social organization of industry; industrial relations in overseas territories and the work of international organizations are covered in a series of lectures and classes.

There is a regular series of talks and discussions given or opened by prominent leaders and students of Trade Unionism. There is also a number of observation visits to firms and trade union offices.

On the completion of the course the student will receive a certificate from the School describing the work done and the standard reached during his period of study.

Application forms for admission may be obtained from the department of Industrial Relations.

Full details of the fees payable are given in the Fees section of the *Calendar*.

Members of affiliated trade unions may be eligible for scholarships provided by the Trades Union Congress, to whom they should apply.

Regulations as to Honorary Fellows

1. The Honorary Fellows Committee of the Court of Governors shall consist of the Chairman and Vice-Chairman of the Court of Governors, the Director, the Vice-Chairman of the Academic Board, and six members appointed by the Court, of whom four shall be appointed on the nomination of the Academic Board.
2. The Court of Governors may, on the recommendation of the Honorary Fellows Committee and with the concurrence of the Academic Board, elect as an Honorary Fellow of the London School of Economics and Political Science any former student of the School who has attained distinction in the arts, science or public life, or any person who has rendered exceptional services to the School, or to the arts, science or public life.
3. No full-time member of the staff of the School shall be elected an Honorary Fellow.
4. Not more than thirty Honorary Fellows shall be elected at the meeting of the Court of Governors to be held in the Michaelmas term 1958. Thereafter elections may be made annually in the Michaelmas term. In any year after 1958 the number of persons elected shall not, save for special reasons considered adequate by the Court, exceed ten nor shall there be included amongst them, save for the like reasons, more than three persons who are not former students of the School.
5. Suggestions for election to Honorary Fellowships shall be invited annually by the Honorary Fellows Committee in May from:
 - (i) each member of the Court of Governors
 - (ii) each member of the Academic Board
 - (iii) each Honorary Fellow
6. Every suggestion shall be made in writing, shall be signed by the person making it and shall be received by the Academic Secretary not later than 31 May. Thereafter, unless successful or withdrawn, it shall be regarded as current for three successive years, after which it shall lapse; but a fresh suggestion of the same name can be made.
7. The file of names suggested, past and current, shall be open to inspection in confidence by those persons who are to be invited, in accordance with regulation 5, to make suggestions.
8. In each year the Honorary Fellows Committee shall not earlier than 1 June nor later than 15 October consider the current list of names suggested, and such other names as may be proposed in the course of their deliberations; and the names of persons recommended for election shall be arranged in alphabetical order in the report of the Committee.
9. The report of the Honorary Fellows Committee shall be considered by the Academic Board at their first meeting in the Michaelmas term and shall be transmitted by the Board, with such observations as they may think fit, to the Court of Governors for consideration at their meeting held in the Michaelmas term.
10. After the report of the Honorary Fellows Committee has been considered by the Academic Board, but before its transmission to the Court, the Director shall ask those who are recommended for election to Honorary Fellowships whether they would be willing to accept election. No such enquiry shall be made by those who suggest their names.

The Library

The British Library of Political and Economic Science, which is the library of the School, was founded by public subscription in 1896, a year later than the School. From the outset it was intended to serve not only as the working library of the School, but also as a national collection.

These interdependent functions have grown together: the School has given the Library wide contacts with the public and academic worlds and a standing which it could not easily have gained as an independent institution, and the Library has in its turn assisted in attracting research workers to the School.

It is freely open to members of the School and is extensively used by other scholars and researchers. Application by non-members of the School for readers' permits must be made on a special form, which may be obtained from the Librarian.

The scope of the Library is the social sciences in the widest sense of that term. It is particularly rich in economics, in commerce and business administration, in transport, in statistics, in political science and public administration, in international law and in the social, economic and international aspects of history. As well as treatises and some 12,400 non-governmental periodicals (of which 4,200 are received currently), it contains several hundred thousand controversial and other pamphlets and leaflets; rich collections of government publications from nearly all the important countries of the world, including some 11,700 serials (of which 6,000 are received currently); collections which are probably unique of reports of local government authorities, of banks, and of railways; much historical material; and miscellaneous manuscript and printed collections of very varied extent and kind. The total amounts to some 595,000 bound volumes; the total number of separate items is estimated at over two million. In some subjects within its field, the Library is surpassed only by smaller and more highly specialised libraries, and in others it is unsurpassed; it is perhaps the largest library in the world devoted exclusively to the social sciences as a whole. A brochure, *Outline of the Resources of the Library*, may be obtained from the Librarian.

There is a full author catalogue typed on cards. The subject catalogue is published as *A London Bibliography of the Social Sciences*; this is widely used not only as a key to the contents of the Library, but also as a general bibliography of the social sciences. Further particulars of this work, of which 21 volumes have so far been published, may be obtained from the Librarian. A catalogue of a more specialised interest is the *Classified Catalogue of a Collection of Works on Publishing and Bookselling in the British Library of Political and Economic Science*, available at £1.25 a copy (plus postage).

The Library occupies a connected series of rooms on the north side of the School's main buildings in Houghton Street, Clare Market and Portugal Street. They include the only remaining part of the original School building of 1902, and later additions built partly with the aid of benefactions from the Rockefeller Foundation of New York. They are entered through a hall containing the counter for enquiries and the issue of books. There are seats for 964 readers. Immediately adjacent to the entrance hall is a room containing the catalogues and the most important bibliographies, encyclopaedias, directories etc. Reading rooms devoted to particular subjects or classes of material contain open-shelf collections amounting to some

The Library

71,000 volumes. The Periodicals Room provides all readers with immediate access to the current numbers of some 600 periodicals. Three further reading rooms are reserved for research workers, and one for the teaching staff of the School.

The greater part of the Library's collections is housed in the reserve stacks, which occupy nearly the whole of the basements of the main School building. Readers are not normally admitted to these, but any book is issued on request for use in the reading rooms.

The School also possesses other libraries. The Teaching Library occupies a series of connected rooms in the East Building. Its stock of over 30,000 volumes contains additional lending copies of the more important books used by undergraduates and graduates taking courses, and there is also a short-loan collection of periodicals and photocopies of articles etc. In addition to lending books, this library is a place of study, with accommodation for 159 readers. A leaflet giving details of Teaching Library services may be obtained at the counter.

The Shaw Library (established with the help of a gift from Mrs. George Bernard Shaw) is a lending collection of general literature; it is housed in the Founders' Room on the fifth floor of the Main Building.

A brochure *Notes for Readers* may be obtained free of charge on request from any member of the Library staff.

Rules of the British Library of Political and Economic Science

1. The Library is open for the purpose of study and research to:

(i) Members of the London School of Economics and Political Science, as follows:

- (a) Governors
- (b) Honorary Fellows
- (c) Staff
- (d) Students accepted by the School for intercollegiate study
- (e) Intercollegiate students
- (f) Occasional students

(ii) Persons to whom permits have been issued

(iii) Day visitors admitted at the discretion of the Librarian

2. Permits may be issued to:

- (a) Persons engaged in research which cannot be pursued elsewhere
- (b) Professors and lecturers of any recognised university
- (c) Persons engaged in any branch of public administration
- (d) Undergraduates of other universities and colleges (in vacation only)
- (e) Such other persons as may from time to time be admitted by the Librarian

Applications for Library permits must be made on the prescribed form; they should be addressed to the Librarian, and should be supported either by a member of

The Library

the staff of the School, or by a letter of recommendation from a person of position. Evidence of Fellowship of the Royal Economic Society, or of the Royal Statistical Society or of membership of the London School of Economics Society or of the British Institute of International and Comparative Law, is accepted in place of a letter of recommendation.

Library permits are not transferable. They are issued upon payment of the prescribed fees, which may, however, be remitted.¹ All fees are non-returnable.

3. Every registered student on his first visit must produce his School registration card to be endorsed by the appropriate Library officer. Every permit holder on his first visit must sign his name in a book kept for that purpose and may be required to sign on subsequent occasions.

All readers are required to show their School registration cards or Library permits or visitors' tickets to Library officials upon request. Admission may be refused to anyone not in possession of such a registration card or permit.

4. The reading rooms are normally open on all working days during hours prescribed from time to time. They are closed on Sundays and on certain other days as prescribed.²

5. Readers must not bring attaché cases, overcoats, hats, umbrellas or other impedimenta into the Library. All such articles can be deposited in the cloakrooms of the School.

6. Readers may take the books they require for purposes of study from any of the open shelves, and may take them to any of the reading rooms in the main Library.

7. Readers who have finished with books taken from the open shelves in any of the rooms should return them without delay to the returned-book stack in the room from which they have been taken, or preferably to their places on the shelves.

8. Books not on the open shelves must be applied for on the prescribed vouchers. Readers must return such books to the book counter when done with and claim the corresponding vouchers; they will be held responsible for all books issued to them as long as the vouchers are in the possession of the Library uncanceled. Certain categories of books and papers may be read only in such rooms and during such hours as the Librarian may prescribe.

9. Except as provided below, no book, manuscript, or other property of the Library may be taken out of the Library. All readers as they leave the Library are required to show to the Library janitor any books, papers, folders, newspapers etc., they may be carrying.

Members of the School staff may borrow books subject to the prescribed conditions.

¹The fees at present prescribed are, for persons in categories 2 (a) and (c), £5.25 for a permit valid for six months, £2.62½ for three months or £1.05 for one month.

²The hours of opening prescribed at present are from 10 a.m. to 5 p.m. on Saturdays, and from 10 a.m. to 9.20 p.m. on other days except in August, when the Library closes at 5 p.m. On Mondays to Thursdays in term for most of the session the Library remains open, with a limited service, until 10.30 p.m. The days of closing prescribed at present are: six days at Christmas, six days at Easter, the Spring and late Summer Bank Holidays, and all Saturdays in July and August.

The Library

Students of the School may borrow books over the weekend and at other times when the Library is closed subject to the prescribed conditions.

10. Graduate students, upon completion of the prescribed vouchers, may keep books from the reserve stacks in their individual lockers in the research reading rooms. They will be responsible for books so held by them, and the books must remain accessible to the Library staff.

11. Graduate students of the School (including graduate students accepted by the School for intercollegiate study) may borrow books for use outside the Library, subject to the following conditions:

(i) During the months of June, July, August and September, graduate students may borrow books only by special authorisation in each case, and on such special conditions as the Librarian shall impose, including, if required, the payment of a deposit.

(ii) No book borrowed shall be taken out of the United Kingdom, without special permission of the Librarian.

(iii) Graduate students may not have on loan more than six volumes at one time.

(iv) Books in the reading rooms, unique and rare books, and other books in particular demand, will be lent only by special permission in each case.

(v) The prescribed loan voucher must be completed and handed in before any book is removed.

(vi) Books borrowed during the term are due back one week before the last day of term, but they will be subject to recall at any time. Books borrowed during the last week of any term or during vacation will be due for return at the end of the first week of the next term, but will also be subject to recall.

12. Readers handing in vouchers are required to supply all the necessary information in the appropriate spaces. The members of the Library staff are authorised to refuse vouchers giving insufficient detail.

13. A reader vacating his place will be deemed to have left the Library, and his books may be removed and the place occupied by another reader, unless he leaves on the table a note of the time of his return. In that case the place will be reserved for him from the time stated, but this reservation will lapse after fifteen minutes. The place will be available to other readers during the interim.

14. Ink-bottles or ink-wells cannot be taken into any of the Library rooms. Fountain pens are permitted. Readers using rare or valuable works, however, may be required to work with pencil.

15. Eating, drinking and smoking are forbidden within the Library.

16. No reader may enter the Library basement or any other part of the Library not open to general readers without special permission.

17. The tracing of maps or illustrations in books is forbidden. No book, manuscript, paper or other property of the Library may be marked by readers. Anyone who damages the property of the Library in any way will be required to pay the cost of repairing or replacing the damaged property, and may be debarred from further use of the Library.

18. The Library is intended solely for study and research, and may not be used for any other purpose whatsoever.

The Library

19. Silence should be preserved in the reading rooms and on the central staircase and landings.

20. Permission to use the Library may be withdrawn by the Director or the Librarian from any reader for breach of the rules in force at the time, or for any other cause that may appear to the Director or to the Librarian to be sufficient.

University Library

Any member of the University, staff or student, may apply to use the University Library (entrance on the fourth floor of the Senate House). An internal student may obtain a ticket entitling him to read in the Library and borrow books, by completing an application form (obtainable at the University Library) and showing evidence of University registration e.g. a College Card. Short instructional tours of the Library are arranged for new members, particularly during the first few weeks of the session.

The University Library is a large general library of about 950,000 volumes of books and periodicals, many of which may be borrowed for home reading. There are reading places for about 600, arranged in general reading rooms where there are collections of reference books and bibliographies, and in special rooms for Periodicals, British Government Publications, Geography and Maps, History (European), Palaeography, Philosophy, Psychology, United States and Latin American Studies, and Music. The Goldsmiths' Library houses the collection of early economic literature presented to the University Library by the Goldsmiths' Company in 1903. It has been added to throughout the years and now consists of about 60,000 volumes, mainly of works published before 1850.

Photocopying facilities include coin-operated machines in the Library and a photographic department in the basement, which can supply microfilms, slides, enlargements and other photographic copies.

Hours of Opening

Monday to Friday during the session: 9.30 a.m. to 9 p.m.

(book-stack service 10 a.m. to 6.30 p.m.)

Saturday and during the Summer vacation: 9.30 a.m. to 5.30 p.m.

(book-stack service 10 a.m. to 5 p.m.)

The Economists' Bookshop

The Economists' Bookshop, owned jointly by the School and The Economist Newspaper, was established in 1947 to provide a service to the staff, students and Library of the School and, through its mail order trade, to the world community of social scientists. The Bookshop's Board of Directors is composed equally of representatives of the School and of The Economist Newspaper. From small beginnings it has grown in recent years into a considerable bookselling enterprise, which numbers among its customers nearly all the universities in Great Britain as well as many universities and institutional bodies overseas. In addition to the main premises in Clare Market, the Bookshop has a Mail Order Department in Hampstead Road, and a separate shop selling secondhand books, new paperback fiction and stationery in Portugal Street. Over 8,000 titles are regularly held in stock, including a wide range of paperbacks and pamphlets. It also operates a bookstall at the London Graduate School of Business Studies in Regent's Park, and the Enfield College Bookshop.

Publications of the School

From the School's foundation in October 1895, one of its objects has been to assist in the publication of research undertaken at or in connection with the School. Over the years there has been a steady and distinguished flow of papers, books and journals, some issued directly from the School and some issued for the School by one or other of the well-known British and American publishers.

Journals

Four journals are edited and published from the School: *Economica* (founded in 1921), *Population Studies* (1947), the *British Journal of Industrial Relations* (1963), and the *Journal of Transport Economics and Policy* (1967). The *British Journal of Sociology* (1956) is edited in the School and is published by Routledge and Kegan Paul. *Government and Opposition* is edited from and assisted by the School, and is published independently.

The L.S.E.-Weidenfeld and Nicolson Imprint

The School has close association with Weidenfeld and Nicolson, and books sponsored or initiated by the Publications Committee of the School are generally produced under a joint imprint of the School and Weidenfeld and Nicholson. Any present or former member of the School's staff, or any present or former student, may submit either finished manuscripts or ideas for books to the Publications Committee; the Committee itself, together with the publisher, initiates schemes for books and series of books.

With certain exceptions, authors will sign a separate contract with the publisher in the normal way, and can expect a scale of remuneration that should compare favourably with what they might get elsewhere. The exceptions will be books that are judged commercially 'difficult'—the specialised monograph, the occasional paper, and so on; these may be published on a commission basis, and it may not always be possible to give authors full commercial rates of royalty.

The object of these arrangements is to provide a first-class and ready-made vehicle for the publishing of such works of scholarship as staff and students may wish to offer. It will perhaps be of most value to those whose existing publishing arrangements may be proving unsatisfactory, or to those who are looking for a publisher for the first time.

Anyone interested should get in touch with any member of the Publications Committee (see page 45), or with the Publications Officer.

Books and Pamphlets

In addition to the individual books published under the Weidenfeld and Nicolson scheme outlined above, the following series of books and pamphlets are issued for or by the School and its departments:

The New Series of Learned Works (G. Bell and Sons Ltd.)

Monographs on Social Anthropology (Athlone Press)

Reprints of Scarce Works on Political Economy (*Economica* Office, L.S.E.)

Papers in Soviet and East European Law, Economics and Politics (Athlone Press)

Greater London Papers (Greater London Group, L.S.E.)

Publications of the School

Occasional Papers on Social Administration (G. Bell and Sons Ltd.)

Geographical Papers (Weidenfeld and Nicolson)

L.S.E. Research Monographs Series (Weidenfeld and Nicolson)

L.S.E. Outlines in Economic Analysis (Weidenfeld and Nicolson)

A London Bibliography of the Social Sciences (British Library of Political and Economic Science, L.S.E.)

Monthly List of Additions to the Library

Auguste Comte Memorial Lectures (Athlone Press)

Hobhouse Memorial Trust Lectures (Athlone Press)

Inaugural Lectures (G. Bell and Sons Ltd. and Weidenfeld and Nicolson)

The Report Series of the Higher Education Research Unit (Oliver and Boyd)

L.S.E. Studies in Education (Penguin Books)

History of the Foundation of the School

The following book published for the School by G. Bell and Sons Ltd. should be noted: *The History of the Foundation of the London School of Economics and Political Science* by Sir Sydney Caine, 1963, £1.25.

Student Health Service

The Student Health Service is situated on the eighth floor of Connaught House and its facilities are available to all students of the School. It is hoped that from October 1972 there will be a full-time general practitioner service based on the School. Full details will be available at the beginning of the term. During the vacations when they are at home, students may obtain locally as temporary residents any medical attention required on the National Health Service.

The facilities of the Service are:

General Medical Care

The School doctor holds a surgery daily, by appointment, from Mondays to Fridays in term time. Appointments to see him can be made in advance with the Nursing Sister. Students with urgent medical conditions will of course be seen without an appointment.

Students may obtain advice on all matters concerning health and illness. Those students who live within the practice area of the School doctor may with his permission register with him under the National Health Service. Those students who live outside his area can obtain advice about registration with other doctors.

A gynaecologist provides a clinic three times a fortnight in term time to advise women students. Appointments to see her should be made through the Secretary of the Health Service.

An ophthalmic surgeon is available once a week in term time to carry out eye tests. An optician is also present at the same time. Appointments to see the ophthalmic surgeon may be made through the Secretary of the Health Service.

The Nursing Sister is available daily in term time to give advice. She will also arrange immunisation and vaccination procedures. Her surgery hours throughout the term are 9.30 a.m. to 1 p.m. and 2.30 p.m. to 5.30 p.m. from Mondays to Fridays.

Psychiatric Advice

The full-time director of the Health Service is a psychiatrist and is assisted by two part-time psychiatrists. They are available daily by appointment to give advice about psychological problems, whether related to work, or of a more personal nature. It is important to emphasise that all psychiatric consultations are completely confidential. Appointments to see any of the psychiatrists may be made through the Secretary of the Health Service.

Dental Treatment

The Health Service operates a full-time dental practice. Dental treatment is available to all students under the National Health Service and according to its rates. Appointments should be made through the Secretary of the Health Service.

Careers

Many careers are now open to university graduates in the social sciences and in arts. They can offer work of great interest and responsibility and the degrees offered by the School are of value in any occupation that calls for a trained intelligence and an understanding of the contemporary world. Our graduates have been able to seek employment from a wide range of occupations requiring people who are well educated, broadly informed and mature in outlook. Employers need and seek graduates who are well qualified academically; they also look for men and women with the ability to exercise judgment, to make decisions and to exhibit powers of leadership and control. These qualities cannot all be assessed merely from the type or class of degree obtained. The possession of a degree, irrespective of subject, is only the first criterion that interests the majority of employers, though expert or specialist posts clearly demand an appropriate training. Even then, specialist graduates may find that they have to compete eventually with non-graduates who have moved into specialist jobs by chance, because of natural aptitude for a particular type of work or by acquiring specialist training outside university. Many graduates today assume that they are superior to the non-graduate. This is an understandable attitude of mind, but graduates are entitled to this self-confidence only if they accept the need to justify it by subsequent performance.

The choice of career, then, is wide. Experience suggests that of those who take the B.Sc.(Econ.) degree a considerable number finds employment in industrial and commercial management, enters the teaching profession or goes on to undertake academic research. Others are widely spread in finance; in expert posts as economists, lawyers or statisticians in industry and commerce; in government service; in journalism and librarianship; and in advertising and market research. Broadly speaking, our graduates can realistically consider the following areas of employment: education, the civil service, local government, the social and health services, private and nationalised industries, commerce, H.M. services. In addition there are opportunities overseas and a limited number in various cultural organizations.

Many graduates enter the educational field, either as school teachers or as lecturers in establishments of further education. Graduates obtaining their degrees in or after 1970 must complete a course of professional teacher training before they can teach in primary schools. Those obtaining their degrees in or after 1973 must complete a course of professional teacher training before they can teach in secondary schools. A higher degree is usually necessary for the graduate who seeks a university post.

The civil service offers an immense variety of career opportunities for graduates, including specialist posts in economics, psychology, law and statistics. There are opportunities for research and investigation, primarily for economists, geographers, psychologists and social scientists. In addition, graduates are needed for the Tax Inspectorate, Factory Inspectorate and the Department of Employment. Following the recommendations of the Fulton Committee on the Civil Service, the Administrative, Executive and Clerical Classes of the Home Civil Service were merged from the beginning of 1971 into a single Administration Group, and there is now a new recruitment scheme whereby graduates are able to enter the Group either at the

Administration Trainee or Executive Officer level of entry. Promotion to the higher posts in the Service is open to everyone, depending upon ability, but it does not rest on the method or level of entry to the Service. Under the new regulations the minimum qualification for entry to the Diplomatic Service and the Administration Trainee grade is a degree with honours. Final-year students are eligible to apply.

Local government employs an increasing number of graduates. Normally they join a local authority as specialist administrators or become specialist practitioners in law, finance, librarianship, town planning or housing management and welfare. An appropriate professional qualification is needed for these expert categories of employment.

The Bachelor's degrees in Sociology, the B.Sc. degree in Social Science and Administration, and the diploma in Social Administration awarded by the School are recognised initial qualifications for employment in some areas of social administration. They also provide the necessary basic qualification for *training* in social work for such fields as those of medical and psychiatric social work, child care, probation and family casework. Since maturity is an asset in all branches of social work, a degree course is recommended for those starting under the age of twenty-one. In most cases further specialised training lasting at least one year is necessary for these careers and students should, therefore, be prepared to undertake this. Details of diplomas offered by the School are given on pages 247-62.

Many firms in private industry, together with the nationalised industries, offer graduate traineeships and direct appointments for a wide range of jobs in production, marketing, finance, personnel and management services. Banks, insurance companies and retailing organizations all need graduates, as do the professions of accountancy and law. Economists may make use of their specialised knowledge in economic forecasting and intelligence, while there is a growing demand among stockbrokers for investment analysts. Limited openings for graduates in any subject may be found in advertising agencies, journalism and market research.

It is worthy of note that the increased use made of statistics and, in particular, the development of mathematical and computational techniques offer great scope to the man or woman of mathematical ability. Equally, for many of our best graduates a fourth year of study may well prove fruitful as a career preparation; the rapid progress made in the social sciences means that it can take more than three years of study and a Bachelor's degree to make an expert economist, sociologist or statistician.

Possession of a university degree may result in a considerable shortening of the period of professional training. Thus, possession of the LL.B. degree leads to important exemptions from the Bar and Law Society examinations. The period for articles of clerkship for those who wish to qualify as solicitors is reduced to two and a half years for graduates of an approved university. Again, those who wish to become chartered accountants and who have taken Accounting and Finance as their special subject in Part II of the B.Sc.(Econ.) degree normally have their period of articles reduced from five to three years. They are also given exemption from the professional Intermediate examination.

Finally, with regard to the choice of specialist or optional subjects, there is one golden rule to be followed: the subjects that a student should choose for his degree are those that he likes and is good at. The syllabuses provided at the School are generally wide and comparatively flexible and, for this reason, students who are not

Careers

firmly committed to a specific course for professional reasons ought not to allow their choice of courses to be dominated by thoughts of future careers. But it is never too early to start thinking about a career and those who are in doubt should consult their tutors and the officers of the Careers Advisory Service. The University of London Careers Advisory Service maintains a permanent unit in the School. Students may consult the officers of the unit at any time during their courses, preferably not later than the second year of study, but it is open to all students to seek advice at any time before entry and after graduation if they so desire.

Students' Union and Athletic Union

Students' Union

The objects of the Students' Union are to promote the welfare and corporate life of the students, and, through the Union Council, to represent the students in all matters relevant thereto except those relating to Athletics.

The Union's main functions are to administer, supervise and improve Union premises, which include offices, a coffee bar, a bar and a shop; to represent student interests and co-operate with the School authorities in securing necessary improvements in student welfare; to provide a forum for the discussion of student affairs and interests and to approve and regulate the numerous student societies in the School.

Every regular and occasional student becomes a full member of the Students' Union on the payment of School fees, while students of other colleges attending the School for a course of lectures become associate members and are allowed to use the Union premises. Full members are also members of the Three Tuns Club and are entitled to use the Club's bar and other amenities.

The Union offices are situated in St. Clements building. Information concerning the Union, its services and activities, may be obtained from the Union offices.

Union meetings are held in the Old Theatre on Friday evenings during term. All students are urged to attend Union meetings, where they can help decide Union policy as well as take part in debates and discussions. Full details of meetings are published on the Union noticeboards.

The Union provides many useful services in the fields of social activities, student welfare and relations with outside student bodies. Among these services are: debates, socials, dances; advice and information on housing, grants and fees; a number of common rooms and other amenities; and cheap travel and vacation work obtained in co-operation with the National Union of Students.

Members of the Union who are regular students of the School are also members of the University of London Union and are entitled to use all its premises and its services, and to participate in its activities.

The local branch of A.I.E.S.E.C. (Association Internationale des Etudiants en Sciences Economiques et Commerciales) is under the auspices of the external department of the Union and receives a grant from the department. A.I.E.S.E.C. organizes vacation traineeships for students in many countries and seminars on topics of current economic interest.

The Union magazine *Clare* was founded over seventy years ago, and is published twice a year. This is a magazine of special interest to students of the social sciences, with articles from staff, students and outside contributors. The Students' Union also publishes a fortnightly newspaper, *Beaver*.

Athletic Union

All students are eligible to join the Athletic Union by becoming a member of any of its constituent clubs. The subscription charged for membership of the first club joined is fifty pence, and for any other club, twenty-five pence.

The following clubs are affiliated to the Athletic Union:

Association Football, Athletics, Badminton, Basketball, Canoe, Cricket,

Students' Union and Athletic Union

Cross-Country, Gliding, Golf, Hockey (Women), Judo, Keep-fit, Mountaineering, Riding, Rowing, Rugby Football, Sailing, Skiing, Squash, Table Tennis, Tennis, Yoga.

Details about club activities may be obtained from the Athletic Union Office (S 110) or from the club noticeboards in the concourse area, St. Clements building.

There are two extensive sports grounds totalling some thirty-five acres at New Malden, to which there are frequent trains from Waterloo. There are pitches for Association and Rugby football, hockey and cricket, lawn tennis courts, and running tracks. The pavilions are well appointed and include refectories and bars, a games room and very well equipped dressing room accommodation. Facilities at the School itself include a circuit room (E29) and a gymnasium suitable for basketball, table tennis, five-a-side football etc.

The Rowing Club rows from the University Boat House, Chiswick; the Squash Club uses the School court; the Table Tennis and Judo Clubs use the School gymnasium; the Cross-Country Club runs on Hampstead Heath and in Richmond Park; the Sailing Club operates at the Welsh Harp, Hendon; the Golf Club plays at Malden Golf Club; the Gliding Club uses Lasham Aerodrome, Hants.; the Canoe Club has a block booking with the Royal Canoe Club at Teddington. The Mountaineering Club meets in England and on the Continent.

There is an annual open day at New Malden. In the current session this will be Saturday, 9 June.

Residential Accommodation

The School does not keep an index of lodgings suitable for students, but those who require help in finding accommodation may consult the University of London Accommodation Office, University of London Union, Malet Street, WC1E 7HY.

The Office maintains a register of addresses of various types in most districts of London, and each student's requirements are carefully considered. During term time a personal interview, for which an appointment must be made, is desirable; but from the end of the Summer term to October students should apply by post.

In choosing lodgings students should bear in mind that it is possible to take lodgings which provide either bed and breakfast or bed and breakfast with a regular evening meal in addition. Anyone whose tastes are likely to lead him to enter very fully into the life of the Union and its societies, or to spend his evenings in the Library, will be well advised to seek lodgings of the former type; those who prefer to study in their own rooms may be better suited by the latter type.

The fees for halls of residence, stated on the following pages, are those which are in force at present, but they are liable to amendment.

Halls of Residence for Men and Women

Passfield Hall

Endsleigh Place, WC1H 0PW

(Warden: G. F. D. Dawson, M.A., Ph.D.)

This hall of residence is provided by the School for men and women students of the School. It is in Bloomsbury, situated in the north-west corner of Tavistock Square, and is twenty minutes' walk from the School.

There is accommodation for about 160 students in single, double, and treble study-bedrooms. The fees, including Common Room subscription, are at present £231.60, £219 and £204.30 per session respectively, payable by terminal instalments in advance.

Fees cover breakfast and dinner, and all meals on Saturdays and Sundays. Washbasins and fires with slot meters are provided in all rooms.

Application should be made to the Assistant Registrar (Admissions) at the School, if possible by 15 May. Applicants are selected for places towards the end of May each year, for the following October.

Hughes Parry Hall

Cartwright Gardens, WC1H 9EF

(Warden: Dr. J. Lewins, M.A., M.Sc., Ph.D.)

Hughes Parry Hall, opened in 1969, provides accommodation for 175 men and 100 women students, with priority given to first-year students. There are 245 single rooms and 15 double rooms, together with common rooms, library, games room, two squash courts and laundry.

Residential Accommodation

Fees for the thirty-week session: £241·50 (single room), £231 (shared room). Fees cover breakfast and dinner, Mondays to Fridays, and full board at weekends.

Application forms may be obtained from the Hall and should be returned by 31 May. (Please state whether man or woman when requesting application forms.)

Halls of Residence for Men

Carr-Saunders Hall

Fitzroy Street, W1P 5AE

(Warden: E. A. Kuska; B.A., Ph.D.)

Carr-Saunders Hall, a hall of residence for men students of the School, built with funds provided by an anonymous benefactor, is a few minutes' walk from the junction of Tottenham Court Road and Euston Road and twenty-five minutes' walk from the School.

There is accommodation for about 148 students in single and double study-bedrooms. The fees are at present £246 and £219 per session respectively, payable by terminal instalments in advance and in addition there is a Common Room subscription (at present £1 per term).

Fees cover breakfast and dinner and all meals on Saturdays and Sundays. Washbasins are provided in all study-bedrooms, which are centrally heated.

Application should be made to the Assistant Registrar (Admissions) at the School, if possible by 15 May, for admission in the following October.

Commonwealth Hall

Cartwright Gardens, WC1H 9EB

An intercollegiate hall of residence for 400 men from the United Kingdom and overseas. Accommodation almost entirely in single study-bedrooms. Squash courts, table-tennis room, billiards room, library, common rooms, television rooms, drip-dry laundry rooms. Central heating. Selection is made after consideration of the individual student's needs and his ability to benefit from and contribute to life in a residential community.

Fees: £256·20 (single room) and £241·20 (double room) per session of about thirty weeks. This includes breakfast and dinner during the week, and full board at weekends.

Application forms may be obtained from the Secretary of the Hall and must be returned by 31 May.

Connaught Hall of Residence

36-45 Tavistock Square, WC1H 9EX

An intercollegiate hall of residence for men; 194 places, mainly in single rooms. The rent of the study-bedrooms, including breakfast and dinner, and also lunch at weekends, is £261 per session of thirty weeks.

Residential Accommodation

Application forms may be obtained from the Warden, Professor D. M. Lang, and should be returned to him before 31 May.

International Hall

Brunswick Square, WC1N 1AS

International Hall accommodates 438 men students. Half the rooms are reserved for students from overseas. There are 10 double rooms and 418 single rooms.

Fees: £246 (single room) and £230·70 (for share of double room) per session of thirty weeks. This includes breakfast and dinner from Mondays to Fridays inclusive, and breakfast, lunch and supper on Saturdays and Sundays.

Application forms may be obtained from the Hall Secretary and should be returned by 31 May.

International Students House

1-6 Park Crescent, W1N 3HE (immediately opposite Gt. Portland St. Tube Station)

International Students House, on the edge of Regent's Park, offers study-bedroom accommodation and club facilities to men and women students from the United Kingdom and overseas. There are flats for married students and a very limited number for married students with children. A very full programme is organized; there is an information officer who will give advice on careers, courses, travel, living in London etc., and a student adviser who will help with problems of welfare, accommodation and personal matters. Visitors are most welcome.

Fees (for long-term residents): £7, £5·95 and £4·90 per week for single, double and treble rooms respectively. This includes bed and breakfast.

Early application is advised. Forms may be obtained from the Warden.

London House

Mecklenburgh Square, WC1N 2AB

London House has accommodation for 330 postgraduate men students from the overseas countries of the Commonwealth, the United Kingdom, former member countries of the British Commonwealth and the United States of America. It was established by the Dominion Students' Hall Trust.

Fees for residence (excluding meals) vary between £6·30 and £7 per week, but there are a few shared rooms at cheaper rates. All meals are available in the dining hall (cafeteria system).

The House is close to three London Transport stations: King's Cross (Metropolitan, Northern, Victoria and District Lines), Russell Square (Piccadilly Line), Chancery Lane (Central Line). It is within easy walking distance of the School.

Application should be made direct to the Controller, London House, giving as much notice as possible.

Halls of Residence for Women

Canterbury Hall, College Hall and Nutford House are under the authority of the

Residential Accommodation

Halls of Residence Committee of the University of London. Only full-time students of the University are eligible for admission. An application form and information may be obtained from any one of the halls (a stamped addressed envelope must be sent with the enquiry), and the completed form should be sent to the hall of first choice by the end of March for admission the following October. There are occasional vacancies in the course of the academic year.

Canterbury Hall

Cartwright Gardens, WC1H 9EE

(Warden: Miss V. McCririck, M.A., L.R.A.M.)

(Warden: Miss B. M. Sutherland, B.A., M.A.)

Opened in 1949 for 124 women students and since extended to take 194; accommodation is in 148 single rooms and 23 double rooms, most of them with central heating; there are common rooms and laundries, a library and games room. Fees for the thirty-week session: £237 (single) and £228 (for share of double). Fees cover breakfast and dinner, Monday to Friday, and full board at weekends.

Lillian Penson Hall

Talbot Square, W2 1TT

Telephone: 01-262 2081

(Warden: K. G. T. McDonnell, B.Sc. (Econ.), Ph.D.)

Lillian Penson Hall, formerly a large hotel, is an intercollegiate hall of residence for

Residential Accommodation

full-time, registered, internal, postgraduate students of the University of London, both men and women and married couples without children.

Each room is centrally heated and has its own bathroom, telephone extension for incoming calls and maid service. Meals can be purchased in the dining room at reasonable prices. Fees cover accommodation only. The monthly rate for a single room is £30; a single bed in a shared double room, £18. There are also double rooms for married couples at £36 in addition to rooms with light cooking facilities or kitchens at £41.40 or £57. A few two-room flats at £67.80 are also available.

Application forms are obtainable from the Warden.

William Goodenough House

(The Dominion Students' Hall Trust)

Mecklenburgh Square, WC1N 2AN

William Goodenough House accommodates 116 postgraduate women students from the British Commonwealth and the United States of America.

Residence fees are from £5.25 to £6.65 per week, with all meals available on a cafeteria system. The rooms are single study-bedrooms with central heating and with electric fires on a meter system. There are ample common rooms. In addition there are 60 self-contained flats for married students, for which the rentals are between £35 and £64 per month.

Applications, addressed to the Controller, should be made well in advance for the single rooms, but not more than six months before arrival in the U.K. for the flats.

Flats

Anson Road and Carleton Road

(Academic Resident: D. K. C. Jones, B.Sc.)

The School has 19 flatlets at 83 and 83a Anson Road, N7 0AS, and 73 Carleton Road, Tufnell Park, N7 0ET, which are available for letting to married full-time students of graduate status. The flats are self-contained and consist of either one room or two rooms, plus a kitchen and a bathroom. Rents at present vary between approximately £6 and £9.25 per week, including a hire charge for furniture. Applications for flatlets, for which there is generally a waiting list, should be made to the Assistant Bursar of the School.

Fitzroy Street and Maple Street Flats

12-16 Fitzroy Street, W1P 5AE

(Academic Resident: C. A. O'Muirheartaigh, B.A., M.Sc., Dip. Survey Research Techniques)

The Fitzroy Street flats adjoin Carr-Saunders Hall and were acquired by the School in 1970. The Maple Street flats are immediately opposite the main entrance to

Residential Accommodation

Carr-Saunders Hall and were acquired by the School in 1972. Both blocks of flats are of modern construction.

Fitzroy Street Flats (12-16 Fitzroy Street, London, W1P 5AE)

There is accommodation for 91 men and women student residents in double and treble furnished self-contained flatlets.

Maple Street Flats (19-23 Fitzroy Street and 35-41 Maple Street, W1P 5AE)

There is accommodation for 123 men and women student residents in double, quadruple and a small number of quintuple furnished self-contained flatlets.

The double flatlets consist of one large room with adjoining fitted kitchen, small hall and bathroom, the whole forming a self-contained unit. The treble flatlets are similar, but have an additional room. Although there are no communal rooms in either block, the common room and bar facilities of Carr-Saunders Hall are available to residents by courtesy of the students of Carr-Saunders Hall, and the University Union is within five minutes' walking distance.

Any full-time student of the School may apply except that in the case of married couples both must be currently registered students of the School.

The rent is at present £4.70 per week per resident for a thirty-nine-week period of letting, beginning in early October. This does not cover the cost of gas for cooking or electricity for heating and lighting; the residents of each flatlet are billed periodically for these expenditures. Use of the basement garage at the Fitzroy Street flats is available to residents at an extra charge.

Application forms may be obtained from the Assistant Registrar (Admissions) at the School.

Afsil House

Afsil Limited, a Housing Association formed by a number of London colleges including the School, provides a number of furnished flats for married graduate students at Afsil House, 155 Saffron Hill, EC1N 8QL, about ten minutes' walk from the School. Eight of these are reserved for students of the School. In allocating the flats preference is given to students from the British Commonwealth. Most of the flats are suitable for childless married couples only, but there are a few which could accommodate a couple with a small child. Most of the flats, which are self-contained, consist of a living room, bedroom, kitchen and bathroom. Rents, which include central heating and the hire of furniture, are about £36 a month plus rates. Applications for the flats should be made to the Assistant Bursar of the School.

The London School of Economics Society

HONORARY OFFICERS AND COMMITTEE, 1972

President: Aubrey Jones

Deputy President: R. J. Hacon

Life Vice-President: Dr. Vera Anstey

Representatives of the London School of Economics Society on the Court of Governors: G. C. Brunton, W. H. B. Carey, R. J. Hacon

Secretary: Mrs. Barbara Asherson

Entertainments Secretary: Mrs. Eva Morris

Treasurer: J. B. Selier

Editors of L.S.E.: P. D. C. Davis, Mrs. Nell McGregor

Editorial Consultant: D. J. Kingsley

Auditor: J. W. Smith

Committee Members: The Officers, Editors of *L.S.E.* and E. L. Bedford, R. W. Belben, Mrs. Elizabeth K. Collard, T. E. Dale, N. B. Harte, Mrs. Kim Knudsen, Mrs. Blanche H. M. Lucas, Miss H. M. Veronica Matcham, Mrs. Kit F. Russell, Mrs. Audrey J. Stern

Membership of the London School of Economics Society is open to past students of the School, day and evening, who have been full members of the Students' Union for at least one session, if so admitted by the Committee. Members of the School's staff who were not students at the School are eligible for membership. Persons not so qualified can be admitted to membership at the discretion of the Committee.

Members of the Society are granted various privileges in regard to the use of the School facilities. Subject to certain restrictions, they are entitled to free permits to use the School Library during vacations and in some cases during term. The magazine *L.S.E.*, published twice yearly, is sent to members free of charge, and there are occasional social events, including discussion meetings on subjects of general interest to members, a Saturday School on Social Science and an annual dinner.

The life subscription is £5 and the annual subscription £1. Application forms and information relating to the Society can be obtained from the Honorary Secretary at the School.

Friends of the London School of Economics

Trustees:

Chairman: G. Tugendhat

Vice-Chairman: Sir Paul Chambers

Treasurer: W. H. B. Carey

Sir Sydney Caine, L. Farrer-Brown, the Director, the Chairman of the Senior Common Room

Secretary: J. Alcock

In July 1957 an Association of Friends of the London School of Economics was formed. Membership is open to all former students of the School, present and past members of the staff, present and past Governors and any other persons or organizations interested in the welfare of the School. The principal object of the Association is to raise funds to provide for the School amenities which are important to its daily life, but which it cannot afford, either because of shortage of money or because it would not be appropriate to expend public funds on their acquisition. Since its foundation the Association has made many gifts to the School, some valuable in themselves, such as the three Persian carpets provided for the Founders' Room and furniture for the common rooms at Carr-Saunders Hall and Passfield Hall, and others whose usefulness is far in excess of their cost, such as the furniture for the roof gardens. Donations and gifts in kind of such items as pictures, plate, glass and silver are welcomed.

The Secretary will gladly send particulars of the Association on application. The annual subscription is £2.10 or £1.05 if paid under a seven-year deed of covenant. New members are urgently needed.

Part III : Lecture Courses, Classes and Seminars

Part III of the Calendar groups courses according to subject, but regular students should understand that, beyond those which are restricted to certain students, they are at liberty to attend any course of lectures.

The rubrics for courses in this list show the degrees and years for which each course is intended and thus give a general indication of its level.

Students following degree or diploma courses of the University of London or the School are referred to the degree and diploma regulations set out on pages 180 to 291 where the course numbers of the relevant lectures, classes and seminars are shown against each subject.

The following abbreviations are used:

c.u.	course unit
B.Sc. S.S. and A.	B.Sc. in Social Science and Administration

The School reserves at all times the right to withdraw or alter particular courses and course syllabuses.

INTRODUCTORY ECONOMICS

20 Introduction to Economics

Mrs Sharp. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. c.u. main field Soc.; Dip Soc. Admin. (first year and one-year); Overseas Option (one-year); Special Course for Overseas Administrators; Dip. Development Admin.

Syllabus An introduction to economic analysis, with some illustrations of its application to various topics.

Recommended reading will be given during the course.

21 Economics A

Mr Klappholz and Dr Richardson. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part I; B.Sc. c.u. main fields Geog., Soc. Anth. 2nd yr., Soc. Psych. 2nd yr.; B.Sc. S.S. and A. 1st yr.

Syllabus Economics as a social science. Are there alternative approaches to economics? Analysis and prescription. Division of labour and the resulting need for co-ordinating mechanisms. Alternative co-ordinating mechanisms and their appraisal in the light of certain policy aims. Effects of decentralised decisions on the distribution and allocation of resources. Reasons for and consequences of collective decisions. Policy aims with respect to output levels, rates of growth and the price level. Problems in achieving these aims. Problems of international transactions.

Recommended reading will be given at the beginning of the course.

21(a) Classes

Sessional.

22 Economics B

Dr Hindley. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part I.

Syllabus An introduction to the analytical treatment of economic problems. The first part of the course will cover interactions between buyers and sellers. After analysis of the determination of the prices of goods, wages, interest and rents, the implications of various forms of intervention in the markets for goods and for factors will be discussed. The second part will deal with problems of unemployment and inflation, concluding with elementary balance of payments theory.

Recommended reading will be given at the beginning of the course. Standard introductory texts are: R. G. Lipsey, *An Introduction to Positive Economics*; P. A. Samuelson, *Economics: An Introductory Analysis*; A. A. Alchian and W. R. Allen, *Exchange and Production: Theory in Use*.

22(a) Classes

Sessional.

23 Quantitative Methods for Economists

(i) Mathematical Methods

Mr M. A. M. Smith. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part I; M.Sc. preliminary yr.

Syllabus Simple curves and functions; differentiation including differentiation of functions of several variables; maximisation including maximisation subject to constraints; simple difference equations. Economic applications.

Recommended reading R. G. D. Allen, *Mathematical Analysis for Economists* (first 14 chapters).

(ii) Students should attend Course 917 Elements of Statistical Methods.

23(a) Classes

24 Introduction to Mathematical Economics

Mr Nickell. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part I; B.Sc. c.u. main field Maths. 1st yr.

Syllabus An elementary treatment of basic principles of economics: the theory of markets and the actions of agents in these; simple monetary theory and macro-economic models. All formal propositions will be treated mathematically. This course covers roughly the material of Lipsey: *Positive Economics* using elementary mathematical tools.

Recommended reading R. G. Lipsey, *An Introduction to Positive Economics*; R. G. D. Allen, *Mathematics for Economists* (selected chaps.).

24(a) Classes

25 The Economics of the Labour Market

Dr Metcalf. Ten lectures, Michaelmas Term.

For Dip. Personnel Management. Optional for Dip. Soc. Admin. 2nd yr. and one-yr.

Syllabus The quantity of labour supplied: hours, activity rates. The quality of labour supplied: training, education, information, migration. The demand for labour. The wage structure by industry, occupation, sex ("equal pay"). The impact of trade unions. Unemployment. Selected policy issues e.g. incomes policy, strikes, wage inflation, income distribution, low pay.

Recommended reading E. H. Phelps Brown, *The Economics of Labor*. Detailed reading will be given at the beginning of the course.

25(a) Classes

Five classes, Lent Term.

For Diploma in Personnel Management.

26 Economics

Professor Sen and Mr Marin.

Twenty-eight lectures, Sessional.

For B.Sc. (Econ.) Part II 2nd yr; B.Sc. c.u. main field Geog. 2nd or 3rd yr.; Dip. Personnel Management.

Syllabus The workings of contemporary economies (with special reference to the United Kingdom): their institutions, processes and problems, and the application of elementary economic analysis to the study of these.

26(a) Classes

Twenty classes, Sessional.

An outline of the lecture course, class topics and a reading list will be distributed at the beginning of the course.

ECONOMICS FOR SPECIALISTS

28 Economic Principles and Problems of Applied Economics

(i) Micro-Economic Theory

Mr Gould. Twelve lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; M.Sc. preliminary and final yrs.

Recommended reading Main texts: C. E. Ferguson, *Microeconomic Theory* or J. Hadar, *The Elementary Theory of Economic Behaviour* or K. J. Cohen and R. M. Cyert, *The Theory of the Firm*. Detailed reading will be given at the beginning of the course.

(i) (a) Classes

Twelve classes, Michaelmas and Lent Terms.

(ii) Macro-Economic Theory

Dr Perlman. Twelve lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; M.Sc. preliminary and final yrs.

Economics

Recommended reading T. F. Dernburg and D. M. McDougall, *Macro-Economics*; M. G. Mueller (Ed.), *Readings in Macroeconomics*.

(ii) (a) Classes

Twelve classes; Michaelmas and Lent Terms.

(iii) International Economics

Mr M. A. M. Smith. Five lectures, Lent Term.

For B.Sc. (Econ.) Part II 2nd yr.

(iv) Problems in the Application of Micro-Economics

Mr Layard. Twelve lectures, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.

Useful preliminary reading: E. J. Mishan, *Cost-Benefit Analysis*. Further reading will be given at the beginning of the course.

(iv) (a) Classes

Twelve classes, Lent and Summer Terms.

(v) Applied Macro-Economics

Mr Jackman and Dr Kennedy. Fifteen lectures, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.

Recommended reading J. C. R. Dow, *The Management of the British Economy, 1945-60*; R. E. Caves (Ed.), *Britain's Economic Prospects*; S. Brittan, *Steering the Economy*. Many of the books in the Penguin Modern Economics series are also recommended. Detailed reading will be given at the beginning of the course.

(v) (a) Classes

Twelve classes, Lent and Summer Terms.

29 Introduction to a Mathematical Treatment and Statistical Testing of Economics

Mr Marin. Fifteen lectures, Michaelmas and Lent Terms.

Optional for B.Sc. (Econ.) Part II 2nd yr.

Description of course No knowledge of mathematics beyond "O" level will be assumed. The first term of the course is intended to be mainly for those who have taken no other mathematics courses, to help them understand the mathematical formulations used in economic theory. It will include functions and curves, introduction to calculus and their application to economics. The second part of the course is an elementary treatment of statistical testing of economic theory.

Recommended reading R. G. D. Allen, *Mathematical Analysis for Economists*; J. Parry Lewis, *An Introduction to Mathematics for Students of Economics*; S. G. B. Henry, *Elementary Mathematical Economics*; G. C. Archibald and R. G. Lipsey, *An Introduction to a Mathematical Treatment of Economics*; P. Hoel, *Elementary Statistics*; A. A. Walters, *An Introduction to Econometrics*; L. R. Klein, *An Introduction to Econometrics*; D. Huff, *How to Lie with Statistics*.

29(a) Classes

Classes will be held if there is sufficient demand.

32(a) Classes

33 Econometrics

Mr Thomas. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part II 3rd yr.

(Note It will be assumed that the students attending this course either have taken Elementary Statistical Theory at Part I or

are taking Elements of Statistical Theory and Methods at Part II.)

Syllabus Introduction to methods of statistical estimation and testing of economic theories. Special problems of statistical inference arising from simultaneous relations, distributed time lags and autocorrelated disturbances. A study of recent applied econometric work.

Recommended reading A. A. Walters, *An Introduction to Econometrics*; J. Kmenta, *Elements of Econometrics*; J. Johnston, *Econometric Methods* (2nd edn.).

33(a) Classes

Twenty-five classes.

34 Econometric Theory

Dr Hendry. Thirty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. Maths. 3rd yr.

Syllabus Multiple regression, generalised least squares, linear stochastic models and identification, two and three stage least squares, limited and full information maximum likelihood estimates.

Recommended reading J. Johnston, *Econometric Methods*; A. Goldberger, *Econometric Theory*; E. Malinvaud, *Statistical Methods of Econometrics*.

34(a) Classes

Twenty classes.

35 Applied Econometrics

Dr Wymer and Dr Desai. Thirty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.

Syllabus Introduction to data problems in econometrics. Index numbers. Social accounting and input-output analysis. Some recent applied econometric work.

Recommended reading will be given at the beginning of the course.

35(a) Classes

36 Mathematical Economics I

(i) Dr Dasgupta, Professor Morishima, Mr Nickell. Forty lectures, Sessional.

For B.Sc. (Econ.) Part II 2nd yr; B.Sc. c.u. main field Maths. 2nd yr.

Syllabus Micro-economic principles; the theory of imperfect competition; macro-economic principles.

(ii) Mr Nickell. Ten lectures, Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.

Syllabus Macro-economic theory.

Recommended reading R. G. D. Allen, *Macro-Economics*.

Further reading will be given at the beginning of the course.

36(a) Classes

37 (i) Mathematical Economics II
Mr Nickell and others. Ten lectures, Lent Term.

For B.Sc. (Econ.) Part II 2nd and 3rd yrs; B.Sc. c.u. main field Maths. 2nd and 3rd yrs.

Syllabus Applied economics.

37 (ii) Mathematical Economics II: Special Topics

Professor Morishima and Dr Dasgupta. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.

Syllabus Dynamic linear economics and topics in macro-economics.

37(a) Classes

INDUSTRY AND TRADE

38 Economics of Industry

Professor Yamey. Twenty-seven lectures: Lent and Summer Terms for second-year students; Michaelmas and Lent Terms for third-year students.

For B.Sc. (Econ.) Part II.

Part I The analysis of industrial structure; vertical integration; size of firms; concentration; conditions of entry; specialisation and diversification.

Part II Industrial structure and economic performance; competition and its control in oligopoly; competition, concentration, prices and profits; industrial research and innovation.

Part III Selected topics: pricing policies; ownership and control of large companies; multi-national companies; advertising; economics of consumer protection.

A detailed outline and reading list will be given at the beginning of the course.

38(a) Classes

Twenty classes, beginning in the Summer Term of the second year and continuing in the Michaelmas Term of the third year.

39 Business Administration

Mr Foldes, Mr Gould and Mrs Sharp. Ten lectures, Summer Term, second year, and twenty lectures, Michaelmas and Lent Terms, third year.

For B.Sc. (Econ.) Part II; M.Sc. preliminary yr.

Syllabus A selection from the following topics:

(a) Theory of decisions: the structure of decision problems. Linear problems. Probability, utility, uncertainty, dynamic planning, trees. Criteria for investment. Stock control. Layout and scheduling problems. Location. Special pricing systems. Hire or buy.

(b) Theory of organizations: Conflict and co-operation. Theory of games. Theory of

teams. The aims of capitalists, managers and workers. The aims of organizations. Division of labour, delegation, authority and communication. Review of particular administrative techniques, including administration charts, standard systems of organization, budgets, accounts, internal pricing systems. Predictive models of administrative action. New theories of the firm.

(c) Organization of public enterprise in the U.K.

Recommended reading General:

H. A. Simon, *The New Science of Management Decision*; A. Rappoport, *Games, Fights and Debates*, Part II; A. Etzioni, *Modern Organizations* or P. Blau and J. D. Scott, *Formal Organizations*; R. M. Cyert and J. G. March, *A Behavioral Theory of the Firm*. Main texts: W. Baumol, *Economic Theory and Operations Analysis* (2nd edn., chaps. 1–6, 11–13, 22–25); M. Alexis and C. Z. Wilson (Eds.), *Organizational Decision Making* (relevant parts); H. Raiffa, *Decision Analysis*; *Nationalised Industries: Review of Economic and Financial Objectives* (Cmnd 3437, 1967).

39(a) Classes

LABOUR ECONOMICS

40 Labour Economics

Dr Metcalf and Dr Richardson. Fifteen lectures, Lent and Summer Terms, for second-year students. Fifteen lectures, Michaelmas and Lent Terms, for third-year students.

For B.Sc. (Econ.) Part II.

Syllabus Most of the following will be covered: 1 Labour supply: quantity (participation rates, hours); quality (education, training, migration, information) 2 Labour demand 3 Wage structure: by occupation, industry 4 Effects of unions on wages and resource allocation 5 Unemployment 6 Macro topics: wage adjustment, incomes policy 7 Income distribution 8 Policy questions e.g. strikes,

efficiency in industrial relations, low pay minimum wage legislation.

Recommended reading B. Fleisher, *Labor Economics*.

Further reading will be given at the beginning of the course.

40(a) Classes

Twenty classes.

PUBLIC FINANCE

41 The Economics of Public Finance

Professor Prest. Twenty lectures, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.

Syllabus The principles behind the allocation of functions between the private and the public sector; the theory of public goods and related topics. Analysis of the allocative and distributional effects of taxes on income, output, value added, wealth and the like. Analysis of fiscal policy and debt management, and discussion of problems of control of the economy. Central–local government financial relationships. The main institutional references will be to the U.K., but some attention will also be given to other countries, especially the U.S.A.

Recommended reading A. R. Prest, *Public Finance in Theory and Practice* (4th edn.); A. Williams, *Public Finance and Budgetary Systems*; J. F. Due, *Government Finance* (4th edn.); R. A. Musgrave, *Fiscal Systems*.

41(a) Classes

Twenty classes, Lent and Summer Terms (second year).

42 Economic Aspects of British Social Services

Mr Layard and Dr Barr. Ten lectures, Michaelmas Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.A./B.Sc. (Soc.) Branch III, 2nd yr.

Optional for Dip. Soc. Admin. (2nd yr. and one-yr.).

Syllabus The objectives of state activity in the social services and the appropriate modes of activity. Redistribution in cash and kind. Selectivity. The specific economics of social security, education, health and housing.

A detailed reading list will be given at the beginning of the course.

MONETARY ECONOMICS

43 Money – An Introduction

Professor Walters. Ten lectures, Lent Term.

For B.Sc. (Econ.) Part II 2nd yr.

Description of course The basic characteristics of money. The quantity theory and portfolio adjustment. Empirical evidence.

Recommended reading M. Friedman, "Money" (*Encyclopaedia of Social Sciences*, 1968); A. A. Walters, *Money in Boom and Slump* (Hobart Paper 44, I.E.A., 1969); C. Goodhart, *British Monetary Policy 1957–1967*; W. T. Newlyn, *The Theory of Money*; D. Wrightsman, *An Introduction to Monetary Theory and Policy*.

44 U.S. and Other Monetary Systems

Miss Chick. Ten lectures, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.

Recommended reading U.S. Board of Governors of the F.R.S., *Federal Reserve System: Purposes and Functions*; M. Friedman and A. J. Schwartz, *Monetary History of the United States*, chaps. 8–12; J. S. G. Wilson, *Monetary Policy and the Development of Money Markets*, chaps. 7 and 8; Clay J. Anderson, *A Half-Century of Federal Reserve Policy-Making, 1914–1964*; *Federal Reserve Bulletin*; *Monthly Review* of the F.R.B. of New York.

45 The British Monetary System

Mr Alford. Twenty lectures, Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.

Syllabus Banks and other financial intermediaries in the U.K.; the discount houses and specialised financial markets. Public sector debt and its management. Monetary policy and its problems. The role of money in the U.K.

Recommended reading *Report of the U.K. Committee on the Working of the Monetary System* (Radcliffe Report) (Cmnd 827, 1959); R. S. Sayers, *Modern Banking*, 7th edn.; J. C. R. Dow, *The Management of the British Economy 1945–60*, chaps. 9 and 12; N. G. Gibson, *Financial Intermediaries and Monetary Policy* (Hobart Paper 39); A. D. Bain, *The Control of the Money Supply*; For recent developments see *Bank of England Quarterly Bulletin*, *Midland Bank Review*, *The Banker* and *The Bankers' Magazine*.

46 International Monetary Economics

Professor Day. Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.

Recommended reading L. B. Yeager, *International Monetary Relations*; J. E. Meade, *Balance of Payments*; H. G. Johnson, *International Trade and Economic Growth* (esp. chaps. 4 and 6); R. A. Mundell, *International Economics*; League of Nations, *International Currency Experience*; A. G. Ford, *The Gold Standard* (esp. chap. 1); R. Triffin, *Gold and the Dollar Crisis*.

46(a) International Monetary Economics (Seminar)

Professor Day. Lent Term. In connection with Course 46.

47 Seminar in Monetary Economics

Mr Alford. Ten seminars, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.

Recommended reading will be given during the course.

48 Monetary Theory

Mr Miller. Fifteen lectures,
Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.

Recommended reading D. Laidler, *The Demand for Money*; A. Bain, *The Control of the Money Supply*; M. Friedman, "The Quantity Theory of Money: A Restatement" in *Studies in the Quantity Theory of Money*; J. Tobin, "Liquidity Preference as Behaviour Towards Risk" (*Review of Economic Studies*, 1958).

48(a) Classes

Ten classes, Michaelmas and Lent Terms.

INTERNATIONAL TRADE AND ECONOMIC DEVELOPMENT

49 International Economics

For B.Sc. (Econ.) Part II.

(i) International Economics

Dr Hindley. Twenty lectures,
Michaelmas and Lent Terms.

Description of course The course will cover the theory of comparative cost, tariff theory, customs unions, the benefits and costs of foreign investment and growth. In the second term, the monetary aspects of trade will be discussed; exchange rates, the use of monetary and fiscal policy to attain balance of payments equilibrium, and problems of the international monetary system.

Selected reading R. E. Caves and H. G. Johnson (Eds.), *Readings in International Economics*; J. Bhagwati (Ed.), *International Trade*; R. N. Cooper (Ed.), *International Finance*.

Recommended reading will be given at the beginning of the course.

(ii) Agricultural and Primary Product Trade

Dr Josling. Five lectures,
Michaelmas Term.

Syllabus Importance of primary trade to developing countries; problems of instability; international agreements; trade and aid; developed country attitudes and policies.

Suggested reading A. MacBean, *Export Instability and Economic Development*. Further reading will be given during the course.

49(a) Classes

Twenty classes, Michaelmas and Lent Terms.

50 Economic Development

(i) Introduction to Development Economics

Professor Myint. Ten lectures,
Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr; Dip. Development Admin.

(ii) Agriculture and Development

Dr Josling. Five lectures,
Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.

Syllabus Characteristics of the agricultural sector in developing countries; contribution to development; capital accumulation; labour transfer, export earnings, import substitution; land tenure problems.

Suggested reading J. Mellor, *The Economics of Agricultural Development*. Further reading will be given during the course.

(iii) Problems of Development of the Non-Agricultural Sector

Mr Layard. Five lectures,
Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.

Syllabus Industrialisation; labour markets and wages in the non-agricultural sectors.

Recommended reading for (i) – (iii) P. T.

Economics

Bauer, *Dissent on Development*; P. T. Bauer and B. S. Yamey, *The Economics of Underdeveloped Countries*; U. K. Hicks, *Development Finance*; H. G. Johnson, *Economic Policies Toward Less Developed Countries*; S. Kuznets, *Modern Economic Growth*; G. M. Meier, *Leading Issues in Development Economics*; J. T. Morgan and G. W. Betz, *Economic Development, Readings in Theory and Practice*; H. Myint, *The Economics of the Developing Countries*; H. Myint, *Economic Theory and the Underdeveloped Countries*; A. R. Prest, *Public Finance in Underdeveloped Countries*; I. Little, T. Scitovsky and M. Scott, *Industry and Trade in Some Developing Countries*; C. R. Schultz, *Transforming Traditional Agriculture*.

50(a) Classes

Ten classes, Michaelmas Term, for third-year students.

50(b) Economic Development Seminar

Professor Myint. Ten seminars, Lent Term.

COMPARATIVE ECONOMICS

51 Economic Institutions Compared

Professor Wiles, Mr Markowski and Dr Richardson. Thirty lectures, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.

Description of course Capitalism, classical Communism, Yugoslavia, the Kibbutz, the peasant.

Recommended reading G. Grossman, *Economic Systems*; A. Sturmfels, *Workers' Councils*; A. Nove, *The Soviet Economy*.

Further reading will be given during the course.

51(a) Classes

TRANSPORT ECONOMICS

52 Economics of Transport

Mr Thomson. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part II 3rd yr.; M.Sc. Students taking Course 231 are advised to attend this course if they have not already done so.

Syllabus The course will be concerned principally with major current problems in transport economics and policy.

Recommended reading C. D. Foster, *The Transport Problem*; K. M. Gwilliam, *Transport and Public Policy*; D. Munby (Ed.), *Transport*; G. J. Roth, *Paying for Parking* (Institute of Economic Affairs, 1967); Ministry of Transport, Report on Carriers' Licensing (Geddes Report) (H.M.S.O., 1965); J. Hibbs, *Transport for Passengers* (Institute of Economic Affairs); D. St. J. Thomas, *The Rural Transport Problem*; White Paper on Railway Policy, 1967; A. S. Svendsen, *Sea Transport and Shipping Economics*; J. R. Meyer, J. F. Kain and M. Wohl, *The Urban Transportation Problem*; A. A. Walters, *Economics of Road User Charges*; White Papers on Transport Policy, 1966, and on the Economic and Financial Objectives of the Nationalised Industries, 1967; Ministry of Transport, Road Pricing, 1964.

52(a) Classes

II Graduate Courses

(A) M.Sc. in Economics

ECONOMIC THEORY I AND II AND METHODS OF ECONOMIC INVESTIGATION

53 Preliminary-Year Mathematics for Economists

Mr Glaister. Sessional.

For M.Sc. preliminary yr.

Economics

Description of course The course will cover the elements of linear algebra including the theory of matrices determinants and the solution of linear systems, differential calculus, the theory of optimisation, an introduction to comparative statics, and dynamics.

Recommended reading G. Hadley, *Linear Algebra*; R. G. D. Allen, *Mathematical Analysis for Economists*; A. C. Chiang, *Fundamental Methods of Mathematical Economics*; T. Yamane, *Mathematics for Economists*.

53(a) Classes

Sessional.

54 Preliminary-Year Statistics for Economists

Dr Wymer. Sessional.

For M.Sc. preliminary yr.

Description of course Section I: Introduction, probability theory, frequency distributions. The binomial and normal distributions. Sampling theory. Estimation and hypothesis testing.

Section II: Correlation analysis. Simple linear regression. Multiple regression analysis. Time-series problems.

Recommended reading Section I: P. G. Hoel, *Elementary Statistics*; J. E. Freund and F. J. Williams, *Modern Business Statistics*; T. H. and R. J. Wonnacott, *Introductory Statistics*.

Section II: Lecture notes and a reading list will be given at the beginning of the course.

54(a) Classes

Sessional.

55 Preliminary-Year Micro-Economics

Dr Perlman. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. preliminary yr.

Reading Those students who have not studied economics before should ensure before taking this course that they are thoroughly acquainted with R. G. Lipsey, *An Introduction to Positive Economics*, (2nd edn., parts 1–5). G. J. Stigler,

Theory of Price (3rd edn.) and W. J. Baumol, *Economic Theory and Operations Analysis* (2nd edn.), are good general texts.

55(a) Classes

Eighteen classes, Sessional.

56 Preliminary-Year Macro-Economics

Mr Jackman. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. preliminary yr.

Reading Those students who have not studied economics before should ensure before taking this course that they are thoroughly acquainted with R. G. Lipsey, *An Introduction to Positive Economics*, (2nd edn., part 1 and parts 6–10). The main content of the course is to be found in T. F. Dernburg and D. M. McDougall, *Macro-Economics*, and G. Ackley, *Macro-Economic Theory*.

56(a) Classes

Eighteen classes, Sessional.

57 Final-Year Mathematics for Economists.

Dr Kuska.

(i) Twenty lectures, September, 1972.

(ii) Ten revision lectures, Lent Term.

For M.Sc. final yr.

Description of course The course will cover the following topics: an introduction to matrix algebra, partial differentiation, differentials, determinants, maximisation and minimisation, and the mathematical methods of comparative statics.

Reading Essential preliminary reading: a treatment of the differential calculus of one variable. Suitable expositions may be found in one of the following: T. Yamane, *Mathematics for Economists*, chaps. 1, 2 and 3 or A. Kooros, *Elements of Mathematical Economics*, chaps. 1–5 or R. G. D. Allen, *Mathematical Analysis*

for *Economists*, chaps. 1–10. Course reading: T. Yamane, *op. cit.*, chaps. 4, 5, 10, 11 and section 12.4 of chap. 12 or A. Kooros, *op. cit.*, chaps. 6, 7, 11 and 12 or R. G. D. Allen, *op. cit.*, chaps. 11–14 and 17–19; C. F. Christ, *Econometric Models and Methods*, chap. 3.

57(a) Classes

Ten classes, September, 1972.

58 Final-Year Statistics for Economists

Dr Desai.

(i) Twenty lectures, September, 1972.

(ii) Ten revision lectures, Lent Term.

For M.Sc. final yr.

Description of course Section I: Introduction, probability theory, frequency distributions. The binomial and normal distributions. Sampling theory. Estimation and hypothesis testing. Section II: Correlation analysis. Simple linear regression. Multiple regression analysis. Time-series problems.

Reading For Section I: J. E. Freund and F. J. Williams, *Modern Business Statistics* or P. G. Hoel, *Elementary Statistics*; T. H. and R. J. Wonnacott, *Introductory Statistics*.

58(a) Classes

Ten classes, September, 1972.

59 Final-Year Micro-Economics

Professor Walters. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.

Description of course 1 General equilibrium models: two-sector models and their properties. 2 Demand and supply curves – derivation, use and interpretation and empirical evidence. Derived demands and elasticity laws, measurements of the value of exchange. 3 Utility and household behaviour – properties of utility functions

and intertemporal problems. Risk and utility. The permanent income hypothesis. 4 Production, technology and costs – feasible sets, the efficient frontier and the production function. Technical progress. Monopoly, oligopoly and imperfect competition. 5 Distribution and allocation – marginal productivity and the theory of wages. Monopsony.

Selected reading M. Friedman, *Price Theory – A Provisional Text*; J. R. Hicks, *Value and Capital*; G. J. Stigler, *The Theory of Price* (3rd edn.); H. G. Johnson, *The Two-Sector Model of General Equilibrium*; J. R. Hicks, *A Revision of Demand Theory*; W. Breit and H. Hochman, *Readings in Micro-Economics*; H. Townsend, *Readings in Price Theory* (Penguin).

59(a) Classes

60 Final-Year Macro-Economics

Professor Laidler and Professor Parkin. Forty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.

Description of course A. Macro-economics. The simple Keynesian model of income-determination. The theory of economic policy. The consumption function. The theory of investment. Business cycles. Problems of stabilisation policy. Models of economic growth. Keynesian theory *versus* quantity theory.

B. Monetary theory. The classical quantity theory. The Keynesian theory of money. The demand for money and liquidity. Quantity theory, portfolio balance and inventory-theoretic approaches. The supply of money and monetary policy. Financial intermediation. Money and general equilibrium theory. Inflation theory. Money in growth models. The monetary standard and international monetary arrangements.

Selected reading J. M. Keynes, *The General Theory of Employment, Interest and Money*; D. Patinkin, *Money, Interest and Prices* (2nd edn.); J. G. Gurley and E. S. Shaw, *Money in a Theory of Finance*; M. J. Bailey, *National Income and the Price Level*; W. T. Newlyn, *Theory of Money*; H. G. Johnson, *Essays in Monetary*

Economics

Economics; R. S. Thorn (Ed.), *Monetary Theory and Policy*.

60(a) Classes

61 Methods of Economic Investigation

For M.Sc. final yr.

Description of course The purpose of this course is to present the more frequently used techniques of empirical investigation in economics. In addition to the methods employed, it illustrates the advantages and difficulties involved in their application.

(i) Introductory Econometrics

Dr Wallis. Twenty lectures, Michaelmas Term.

Recommended reading C. F. Christ, *Econometric Models and Methods*; K. F. Wallis, *Introductory Econometrics*.

(ii) Case Studies

Dr Desai. Twenty lectures, Lent Term.

Recommended reading A detailed list of empirical articles will be given at the beginning of the course.

61(a) Classes

ADVANCED ECONOMIC THEORY I: Theory of Economic Growth

ADVANCED ECONOMIC THEORY II: Linear Economic Models

ADVANCED ECONOMIC THEORY III: Theory of Investment Planning

62 Theory of Economic Growth

Dr Ozga. Thirty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.

Description of course General properties of one-sector and two-sector models of economic growth. The characteristics of their paths of steady growth and the conditions of their convergence onto those paths. The concepts and the analysis of embodied and disembodied technical progress. Optimal growth.

Selected reading R. G. D. Allen, *Macro-Economic Theory*; W. J. Baumol, *Economic Dynamics*; F. H. Hahn and R. C. O. Matthews "The Theory of Economic Growth: A Survey" (*The Economic Journal*, December 1964); J. R. Hicks, *Capital and Growth*; R. M. Solow, *Growth Theory*.

62(a) Classes

63 Linear Economic Models

Dr Ozga. Thirty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.

Description of course An introduction to linear programming, input-output and games theory. Static and dynamic production models and the von Neumann model. Application of activity analysis to economic theory.

Selected reading H. B. Chenery and P. B. Clark, *Interindustry Economics*; R. Dorfman, P. A. Samuelson and R. M. Solow, *Linear Programming and Economic Analysis*; D. Gale, *The Theory of Linear Economic Models*; G. Hadley, *Linear Programming*.

63(a) Classes

64 Turnpike Theorem and Related Topics

Dr Kuska. Six lectures, Summer Term.

For M.Sc. final yr.

Description of course The concepts and the analysis of efficient and optimal programmes of capital accumulation. Formulation and proof of a turnpike theorem.

65 Theory of Investment Planning

Professor Sen. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.; Dip. Development Admin. (Part I only).

Description of course Part I Cost-benefit analysis and project evaluation. Part II aggregate planning, optimal resource allocation and intertemporal choices.

HISTORY OF ECONOMIC THOUGHT

66 History of Economic Thought: Economic Theory in Retrospect

Dr Devletoglou. Ten lectures of one-and-a-half hours, Michaelmas Term.

For M.Sc. final yr.

Description of course The emphasis of this course is on the development of economic analysis over the years: its relation to policy issues and its methodological and philosophical underpinnings. Particular consideration is given to classical and post-classical development.

Selected reading M. Blaug, *Economic Theory in Retrospect*; J. A. Schumpeter, *The History of Economic Analysis*.

66(a) Classes

THE PURE THEORY OF INTERNATIONAL TRADE AND COMMERCIAL POLICY

INTERNATIONAL MONETARY ECONOMICS

67 The Theory of Commercial Policy

Dr Krauss. Ten lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.

Description of course The theory of the optimum tariff and tariff retaliation. Tariffs, the terms of trade and the distribution of income. The cost of protection. Distortions of competition and the case for protection; the infant industry argument for protection. The theory of tariff structure and effective protection. The theory of tariff bargaining. The theory of customs unions and preferential trading arrangements.

Selected reading G. Haberler, *The Theory of International Trade*; H. G. Johnson, *Economic Policies Toward Less Developed Countries* (chaps. 3, 4, 6); J. Bhagwati, "A Survey of the Theory of International Trade" (*The Economic Journal*, March, 1964); M. C. Kemp, *The Pure Theory of International Trade*; J. Vanek, *International Trade: Theory and Economic Policy*; R. E. Caves and H. G. Johnson (Eds.), *Readings in International Economics*; J. E. Meade, *The Theory of International Economic Policy*, Vol. II, *Trade and Welfare* and *A Geometry of International Trade*.

67(a) Classes

Ten classes, Michaelmas and Lent Terms.

68 International Monetary Economics

(i) History of International Monetary Systems

Dr de Cecco. Six lectures, Michaelmas Term.

(ii) International Monetary Economics

Dr Swoboda. Ten lectures of two hours each, Lent and Summer Terms.

For M.Sc. final yr.

Description of course The balance of payments and the foreign exchange market. "Automatic" adjustment mechanisms under alternative international monetary standards. The transfer problem. The analysis of currency depreciation: the elasticity, absorption and monetary

approaches. Growth, imported inflation and the balance of payments. National economic policy, the balance of payments, and the adjustment mechanism. Policy mixes under fixed and flexible exchange rates. International monetary problems: liquidity and the world price level; confidence and the crisis problem; the speed, cost, and burden of adjustment. the efficiency of alternative international monetary systems. World inflation, money and reserves.

Selected reading R. E. Caves and H. G. Johnson (Eds.), *Readings in International Economics* (chaps. 21–25, 31); H. G. Johnson, *International Trade and Economic Growth*, Part III; J. E. 69(a) Classes

Five classes, Lent Term.

70 Seminar on International Trade

Dr Hindley. Weekly, Sessional, starting in the sixth week of the Michaelmas Term.

For M.Sc. final yr. Other students will be admitted only by permission of Dr. Hindley, to whom application should be made in writing.

THEORY OF OPTIMAL DECISIONS

71 Theory of Optimal Decisions

Mr Foldes. Thirty lectures, Sessional.

For M.Sc. final yr.

Description of course Models for optimal decisions under certainty and uncertainty, with applications to problems of business and public policy. (Applications in 1972–73 will probably be mainly to the evaluation of risk in investment planning.)

Economics

Recommended reading Selected parts of the following: W. Baumol, *Economic Analysis and Operational Research*; T. C. Koopmans, *Three Essays on the State of Economic Science* (first essay); K. H. Borch, *Economics of Uncertainty*; R. D. Luce and H. Raiffa, *Games and Decisions*; H. Chernoff and L. E. Moses, *Elementary Decision Theory*; A. A. Fel'dbaum, *Optimal Control Systems*; P. Hillier, *The Evaluation of Risky Interrelated Investments*; W. F. Sharpe, *Portfolio Theory and Capital Markets*.

71(a) Classes

Ten or fifteen classes, Lent and Summer Terms.

LABOUR ECONOMICS

72 Labour Economics

Dr Metcalf and Dr Richardson. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr. and other graduate students.

Description of course 1 Analysis of labour supply, considering population, activity rates, hours worked and the quality of the labour force. 2 The demand for labour. 3 The wage structure and income distribution. 4 Selected other topics e.g. trade unions, strike activity, unemployment and wages policies.

Recommended reading J. F. Burton *et al.*, *Readings in Labor Market Analysis*.

72(a) Classes

Twenty classes, Michaelmas and Lent Terms.

MONETARY ECONOMICS

73 Analysis of Monetary Institutions

Mr Alford. Ten one-and-a-half hour meetings, Lent Term.

For M.Sc. final yr.

74 Topics in Monetary Theory

Lecturers to be announced.

Ten meetings of one-and-a-half hours, Michaelmas and Lent Terms, beginning in the sixth week of the Michaelmas Term.

For M.Sc. final yr.

75 Econometrics in the Monetary Field—A Survey

Professor Walters and Professor Buse. Ten lectures of one-and-a-half hours, Michaelmas and Lent Terms.

For M.Sc. final yr.

Recommended reading H. G. Johnson *et al.* (Eds.), *Readings in British Monetary Economics*.

ECONOMICS OF PUBLIC ENTERPRISE

In the session 1972-73 no courses will be provided.

ECONOMICS OF TRANSPORT

76 Introduction to Transport Economics

Mr Thomson. Eight lectures, Michaelmas Term.

For M.Sc. final yr.

Economics

Syllabus Basic economic features of transport and application of economic theory to transport problems. This course is intended as a preliminary to the more specialised courses 78, 79 and 80.

77 Seminar in the Economics of Transport

Mr Thomson. Sessional.

For M.Sc. final yr.

78 Economics of Transport

For M.Sc. final yr.

(i) Shipping and Ports

Professor Walters. Four lectures in the second half of the Michaelmas Term.

Syllabus Cost structure, organization of shipping and demand; conferences and competition and government regulations. Technological change.

Recommended reading *Rochdale Report*; E. Bennathan and A. A. Walters, *The Economics of Ocean Freight Rates*.

(ii) Railways

Dr Joy. Five lectures in the first half of the Lent Term.

Syllabus The application of economic techniques to the analysis of railway operations and policy.

Recommended reading P. W. MacAvoy and J. Sloss, *Regulation of Transport Innovation, The I.C.C. and Unit Coal Trains to the East Coast*; A. F. Friedlander, *The Dilemma of Freight Transport Regulation*; J. R. Meyer, J. F. Kain and M. Wohl, *The Urban Transport Problem*.

(iii) Highways

Mr Foster. Five lectures in the second half of the Lent Term.

Syllabus The analysis of highway economic questions, concentrating particularly on investment and pricing issues.

Recommended reading Alan Day, *Roads*; A. A. Walters, *The Economics of Road-User Charges*; R. Winfrey, *The Economics of Highways*.

(iv) Aviation and Airports

Professor Day and Mr Flowerdew. Five lectures in the first half of the Summer Term.

Syllabus The application of economics to aviation and airports.

Recommended reading will be given during the course.

79 Urban and Transport Modelling

Mr Flowerdew. Ten lectures, Lent Term.

For M.Sc. final yr.

Syllabus Land use transportation models. Location models. Simulations.

Recommended reading W. Alonso, *Location and Land Use*; H. W. Richardson, *Regional Economics*; J. B. McLaughlin, *Urban and Regional Planning: A Systems Approach* (Special issues, *Journal of the American Institute of Planners*).

80 Urban Transport

Mr Thomson. Five lectures in the first half of the Summer Term.

For M.Sc. final yr.

Syllabus Some more advanced problems of urban transport policy.

Recommended reading will be given during the course.

PUBLIC FINANCE

81 The Economics of Public Finance

Professor Prest. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.

Description of course The lectures will examine in detail the role of the public sector in the modern economy. This will lead to discussion of the interrelations between problems of public goods, externalities and cost benefit analysis, and the possible advantages of political solutions. Problems of the optimum supply of particular government services

Economics

will also be discussed. Taxes on personal and corporate income, outlay, value added and wealth will be analysed in detail.

Selected reading R. A. Musgrave, *The Theory of Public Finance*; R. A. Musgrave, *Fiscal Systems*; L. Johansen, *Public Economics*; A.E.A., *Readings in the Economics of Taxation*; A. R. Prest, *Public Finance in Theory and Practice*, 4th edn.; C. S. Shoup, *Public Finance*; J. M. Buchanan, *Fiscal Theory and Political Economy*.

82 Seminar in Public Sector Economics

Professor Prest. Fortnightly, Michaelmas and Lent Terms.

For M.Sc. final yr. Others may attend by permission of Professor Prest.

83 The Economics of Multilevel Government

Dr Perlman. Five lectures, Lent Term.

For M.Sc. final yr.

Description of course The problems posed by different levels of government authority, e.g. the optimum multilevel structure of authority and the sort of fiscal relationships which should exist among the different levels of authority, both in terms of equity and the allocation of resources. A background reading in the theory of public goods and externalities will be very useful.

ECONOMICS OF INDUSTRY

84 Economics of Industry

Professor Yamey. Twenty lectures of one-and-a-half hours, Michaelmas and Lent Terms.

For M.Sc. final yr.

Description of course 1 Analysis of the structure of industries: size-distribution of plants and firms; concentration; vertical integration; specialisation and diversification; conditions of new entry. 2 Expansion and contraction of industries and changes in their structure; changes in concentration, market shares and ranks, vertical integration, and specialisation and diversification. The process of structural change: entry, exit and mergers. 3 The economics of innovation in industry. 4 The relation between industrial structure, forms of competitive behaviour, and economic performance. 5 Public policy in relation to the structure and performance of industries (selection of topics).

Selected reading G. J. Stigler, *The Organisation of Industry*; R. E. Caves (Ed.), *Britain's Economic Prospects*, chap. 7; F. M. Scherer, *Industrial Market Structure and Economic Performance*; E. W. Singer, *Antitrust Economics*.

84(a) Classes

Ten classes, Lent Term.

85 Economic Aspects of the Joint Stock Company

Dr Hindlëy. Five lectures, Lent Term.

For M.Sc. final yr.

Syllabus A discussion of the significance of the managerial firm and of the various theories designed to explain its behaviour.

86 The Economics of Regulation and Licensing

Dr Richardson. Five lectures, Lent Term.

For M.Sc. final yr.

Description of course The consequences of the regulation of: 1 Quality standards in product markets. 2 The behaviour and performance of firms. 3 The terms of exchange in the factor markets.

ECONOMICS OF LESS DEVELOPED COUNTRIES AND OF THEIR DEVELOPMENT

87 The Economics of Less Developed Countries

Professor Bauer and Professor Myint. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.; Dip. Development Admin.; Dip. Soc. Admin. overseas option (one-yr.).

Description of course The relevance and limitations of economics. Characteristics of poor economies. Issues of concept and measurement. The vicious circle of poverty. Aspects of change. Varying degrees of integration between different markets and between different sectors of the economy. Balanced and unbalanced growth. International trade and development. Fiscal and monetary problems of development. Some specific issues of policy.

Recommended reading A. N. Agarwala and S. P. Singh, *The Economics of Underdevelopment*; P. T. Bauer, *Dissent on Development*; *P. T. Bauer and B. S. Yamey, *The Economics of Under-developed Countries*; G. Ohlin, *Population Control and Economic Development* (O.E.C.D. Report, 1967); *H. G. Johnson, *Economic Policies Toward Less Developed Countries*; *S. Kuznets, *Modern Economic Growth: Rate Structure and Spread*; *W. A. Lewis, *Development Planning*; A. I. MacBean, *Export Instability and Economic Development*; I. Little, T. Scitovsky and M. Scott, *Industry and Trade in Some Developing Countries*; G. M. Meier, *Leading Issues in Development Economics*; *H. Myint, *The Economics of the Developing Countries*; H. Myint, *Economic Theory and the Underdeveloped Countries*; A. R. Prest, *Public Finance in Under-developed Countries*; T. W. Schultz, *Transforming Traditional Agriculture*. Starred items are basic reading. Further references will be given during the course.

88 Seminar on the Economics of Less Developed Countries
Professor Bauer and Professor Myint. Michaelmas and Lent Terms, in conjunction with Course 87. Admission will normally be restricted to graduate students working in this field and will be by permission of Professor Bauer or Professor Myint, to whom application should be made in writing.

89 Aspects of Economic Development (Classes)

Professor Myint, Dr Josling and Mr Layard. Fourteen classes, Lent and Summer Terms.

Note Students are also expected to attend Course 65 Theory of Investment Planning, Part I.

AGRICULTURAL ECONOMICS

90 Economic Analysis of Agricultural Production and Markets
Dr Josling. Five lectures, Summer Term.

For M.Sc. final yr.

Description of course The analysis of decision making at the farm-firm level including the use of linear programming, game theoretic and simulation techniques; the estimation of production functions and the application of production function analysis; the analysis of factor markets (except labour); analysis of consumer demand for agricultural products; macro-economic models of the farm sector.

Suggested reading K. A. Fox and D. G. Johnson (Eds.), *Readings in the Economics of Agriculture*; E. O. Heady, *The Economics of Agricultural Production and Resource Use*; E. O. Heady and J. Dillon, *Agricultural Production Functions*; Z. Griliches, "Research Expenditures, Education and the Aggregate Agricultural

Production Function" (*The American Economic Review*, December, 1964).

Further references will be given at the beginning of the course.

90(a) Classes

91 Agricultural Labour Market

Dr Metcalf. Five lectures, Lent Term.

For M.Sc. final yr.

Syllabus The operation of the agricultural labour market in the U.K., U.S.A. and certain developing countries. For the advanced countries special attention will be paid to problems of income distribution and rural poverty. For developing areas special attention to hypothesis of surplus agricultural labour and to problems caused by urban unemployment.

Recommended reading will be given at the beginning of the course.

91(a) Classes

Five classes, Lent Term.

92 Public Policy and Agriculture in Industrial Countries

Dr Josling. Ten lectures, Michaelmas Term.

For M.Sc. final yr.

Description of course The economic analysis of government policies toward agriculture, with emphasis on the objectives of agricultural policies and their effects on resource returns, income distribution, international trade, balance of payments and resource allocation. The impact of general economic policies on the farm sector.

Policies of the U.K., E.E.C., U.S.A. and Canada will be examined, but other countries may be studied if of interest to class participants.

Suggested reading D. E. Hathaway, *Government and Agriculture*; V. Ruttan, A. Waldo and J. Houck (Eds.), *Agricultural Policy in an Affluent Society*.

Further reading will be given at the beginning of the course.

92(a) Classes

Five classes, Michaelmas Term.

93 Seminar in Agricultural Economics

Dr Josling. Ten seminars, Michaelmas Term.

For M.Sc. final yr.; research degree and other interested students.

ECONOMIC ASPECTS OF ACCOUNTING

Details of the courses for M.Sc.: *Economic Aspects of Accounting*, IV 4(xv) will be found in the section on Accounting and Finance.

SOVIET ECONOMIC STRUCTURE

94 Soviet Economic Structure

Professor Wiles. Twenty-five lectures, Lent and Summer Terms.

For M.Sc. final yr. Also suitable for undergraduates.

Description of course The changing institutional framework and mechanisms of the economy, 1917-64: their intellectual origins; the actual performance of the economy. Parallel problems in other communist countries.

Recommended reading A. Nove, *The Soviet Economy*, 2nd edn.; K. Marx, *Value* (sometimes written "Wages"), *Price and Profit*; P. J. D. Wiles, *The Political Economy of Communism*; H. Schwartz, *Russia's Soviet Economy*, 2nd edn.; *Political Economy* (the official Soviet textbook). Further reading will be given during the course.

95 Economic Problems of the Communist World (Seminar)

Professor Wiles, Dr Zauberman and Mr Markowski. Sessional.

For M.Sc. final yr.

Economics

Admission by permission of Professor Wiles, Dr Zauberman or Mr Markowski.

THEORY AND IMPLEMENTATION OF DETAILED PLANNING

96 Introduction to National Planning
Mr Markowski and Professor Wiles. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.; B.Sc. (Econ.) Part II 3rd yr.

Description of course The general theory and practice of detailed national planning: in France, U.S.S.R., Pakistan, India.

Recommended reading B. Gross (Ed.), *Action Under Planning*; J. Tinbergen, *Central Planning*; P. J. D. Wiles, *The Political Economy of Communism*; P. Bauchet, *Economic Planning, The French Experience*; J. E. Meade, *Planning and the Price Mechanism*; B. Ward, *The Socialist Economy*; Mahbub-ul-Haq, *The Strategy of Economic Planning: A Case Study of Pakistan*.

Further reading will be given during the course.

96(a) Classes

Ten classes, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr. only.

97 Techniques in Normative and Indicative Planning

Dr Gomulka and Dr Zauberman. Thirty lectures, Lent Term.

For M.Sc. final yr.

Description of course Aggregate, inter-industry and operational planning. Choice of technique on micro-level. Price formation systems and dual stability theorem. Kuhn-Tucker conditions and decentralised procedures. Some topics in optimal growth. Some experiments with national planning in the Western world.

Recommended reading M. Kalecki, *Introduction to the Theory of Growth in a Socialist Economy*; J. Kornai, *Mathematical Planning of Structural Decisions*; A. Zauberman, *Aspects of Planometrics*; H. Fiszal, *Investment Efficiency in a Socialist Economy*.

Further reading will be given during the course.

98 Problems of Planning and Development (Seminar)

Dr Gomulka, Professor Wiles and Dr Zauberman. Sessional.

Attendance is by permission of Dr Gomulka or Dr Zauberman.

For M.Sc. final yr.

99 Control- and System-Theoretic Approach to Planning

Dr Zauberman. Ten lectures, Michaelmas Term.

For M.Sc. final yr.

Recommended reading will be given at the beginning of the course.

ECONOMICS OF EDUCATION AND HUMAN CAPITAL

100 Economics of Education and Human Capital

Mr Layard. Sixteen lectures, Michaelmas and Lent Terms.

For M.Sc. final yr.; B.Sc. (Econ.) Part II 3rd yr.

Syllabus: Principles of optimal private and social choice over time. The private investment choice in education. The social rate of return to education: measuring returns by wages and by direct production function estimates. The contribution of education to economic growth. The social investment choice in education. The financing of education and the political economy of educational supply. The internal productivity of educational institutions. Industrial training, general and specific. Labour

market information, job search and the causes of unemployment. Labour mobility and brain drain. Economics of health and population. Economics of research and development.

Recommended reading G. S. Becker, *Human Capital*; J. Hirschliefer, *Investment, Interest and Capital*; M. Blaug, *Introduction to the Economics of Education*; M. Blaug (Ed.), *Penguin Modern Economics Readings, Economics of Education 1 and 2*; L. Thurow, *Investment in Human Capital*; L. Kindleberger (Ed.), *The International Corporation*; N. Rosenberg (Ed.), *Penguin Modern Economics Readings: The Economics of Technological Change*.

101 Workshop in the Economics of Education

Mr Layard and Dr Psacharopoulos. Fortnightly, Sessional.

For M.Sc. final yr. This workshop will proceed systematically through the advanced literature in the subject. Admission by permission of Mr Layard.

102 Economic Models of Educational Planning

Dr Psacharopoulos. Ten lectures, Lent Term.

For M.Sc. final yr.

Description of course The philosophy, techniques and assumptions of alternative planning methods illustrated by actual applications; social demand, manpower requirements, international comparisons, rate of return and linear programming.

Recommended reading M. Blaug, *An Introduction to the Economics of Education* (Penguin, 1970); S. Bowles, *Planning Educational Systems for Economic Growth* (Harvard, 1969); R. Hollister, "The Economics of Manpower Forecasting" (*International Labour Review*, April 1964); R. Layard, "Economic Theories of Educational Planning" in M. H. Peston and B. A. Hinchliffe, "Further Evidence on the Elasticity of Substitution Between Different Types of Educated Labour" (*The Journal of Political Economy*, July-August 1972).

103 Economics of Research and Development

Four lectures, Lent Term. This course will not be given in 1972-73.

Description of course Knowledge as a factor of production in a generalised capital-theoretic approach. Welfare problems in the provision of productive knowledge in a competitive system. The problem of basic as distinguished from applied research. Problems of university research and of government science policy. Optimality rules for investment in the production of knowledge. Knowledge as a consumption good.

Recommended reading will be given at the beginning of the session.

URBAN ECONOMICS

105 Urban Economics

Mr Flowerdew, Mr Foster and Dr Whitehead. Twenty-five lectures, Sessional.

For M.Sc. final yr. and others by arrangement.

Description of course Introduction to the analysis of urban economic growth, development and policy. The use of welfare economics, public finance theory and cost-benefit analysis. Urban housing: subsidies and rent control, household formation, densities, rehabilitation and renewal. Urban employment: economic growth, externalities, labour market, industrial and office controls. Planning and land use: locational economics, urban growth, environmental costs and benefits. Urban government: efficiency and redistributive issues. Urban transport.

Recommended reading W. Thomson, *A Preface to Urban Economics*; H. W. Richardson, *Urban Economics*; D. Netzer, *Economics and Urban Problems*; H. S. Perloff and L. Wingo (Eds.), *Issues in Urban Economics*; H. W. Richardson, *Regional Economics*; A. R. Prest and R. Turvey, "Cost-Benefit Analysis: A Survey", (*The Economic Journal*, December 1965); J. Rothenberg, *Economic Evaluation of Urban Renewal*; R. E. Muth, *Cities and Housing*; N. Lichfield, "Evaluation Methodology of Urban and Regional Plans: A Review" (*Regional Studies*, August 1970).

106 Urban Economics (Seminar)

Mr Flowerdew, Mr Foster, Mr Thomson and Dr Whitehead. Sessional.

For M.Sc. final yr. and others by arrangement.

Syllabus Discussion of papers by students, faculty and visitors in connection with all urban economics courses.

107 Introduction to Cost-Benefit Analysis

Mr Flowerdew. Five lectures in the first half of the Michaelmas Term.

For M.Sc. final yr. and others by permission.

Syllabus Principles of cost-benefit analysis. Externalities in cities. Valuing intangibles. Congestion and pollution. Cost-benefit analysis in planning.

Recommended reading A. R. Prest and R. Turvey, "Cost-Benefit Analysis: A Survey" (*The Economic Journal*); H. G. Welsh and Alan Williams, *Current Issues in Cost-Benefit Analysis*; J. Rothenberg, *Economic Evaluation of Urban Renewal*; N. Lichfield, "Evaluation Methodology of Urban and Regional Plans: A Review" (*Regional Studies*, August 1970).

108 Valuation of Intangibles in Cost-Benefit Analysis

Mr Flowerdew. Five lectures in the second half of the Michaelmas Term.

For M.Sc. final yr.

Syllabus Valuation of travel time, trip-end benefits including recreation, accidents and environmental effects.

Recommended reading E. J. Mishan, *Cost-Benefit Analysis*; Commission on the Third London Airport *Report*, Appendices 15 and 22; T. L. Burton and M. N. Fulcher, "The Measurement of Recreation Benefits – A Survey" (*Journal of Economic Studies*, July 1968).

109 Housing: Institutions and Economics

Mr Foster. Five lectures, Lent Term.

For M.Sc. final yr.

Syllabus The application of economic analysis to the housing market.

Recommended reading L. Needleman, *Economics of Housing*; A. A. Nevitt, *Economics and Problems of Housing*; A. A. Nevitt, *Housing, Taxation and*

Economics

Subsidies; A. N. Page and W. R. Seyfried (Eds.), *Urban Analysis*.

110 Topics in Urban Economics

Mr Foster and others. Five lectures in the second half of the Lent Term.

For M.Sc. final yr. and others by arrangement.

111 Economics of Environment

Dr Desai. Five lectures, Michaelmas Term.

For M.Sc. final yr. and others by arrangement.

Description of course The relevance of economic theory, especially the literature on externalities for the problems of environmental pollution, congestion and common property; operational approaches to the problem of environmental control will also be discussed.

Recommended reading A. Kneese and B. Bower, *Managing Water Quality: Economics, Technology Institutions* (Johns Hopkins, 1968); *Royal Commission on Environmental Pollution: First Report* (Cmd. 4585, 1971).

Additional reading will be recommended at the beginning of the course.

Students taking Urban Economics in the M.Sc. may also be interested in the following courses:

No. 79 Urban and Transport Modelling

No. 83 The Economics of Multi-level Government.

MARX'S ECONOMICS IN THE LIGHT OF CONTEMPORARY ECONOMIC ANALYSIS

112 Marx's Economics in the Light of Contemporary Economic Analysis

Professor Morishima. Ten lectures, Lent Term.

For M.Sc. final yr.

Description of course Labour theory of value. Theory of exploitation. Transformation problem. Reproduction scheme. Law of relative surplus population. Towards the von Neumann revolution. The treatment is analytical and mathematical to enable Marx's contributions to be placed in the context of contemporary economic analysis. However, no advanced knowledge of mathematics is assumed.

Recommended reading A. Brody, *Proportions, Prices and Planning*; I. Adelman, *Theories of Economic Growth and Development*; J. Robinson, *An Essay on Marxian Economics*; P. Sraffa, *Production of Commodities by Means of Commodities*; P. M. Sweezy, *The Theory of Capitalist Development*.

112(a) Classes

Ten classes.

(B) M.Sc. in Econometrics and Mathematical Economics

113 Seminar in Quantitative Economics

Professor Gorman, Professor Sargan and others. Sessional.

For M.Sc. final yr.

Description of course Papers will cover recent work in quantitative economics, the econometric models and methodology used and an economic interpretation of the results.

Recommended reading S. J. Prais and E. S. Houthakker, *Analysis of Family Budgets*; M. Friedman, *The Consumption Function*; C. Christ, *Measurement in Economics*; R. Stone, *A Programme for Growth*, Vols. 1-5; N.B.E.R., *Models of Income Determination*; J. S. Duesenberry, G. Fromm, L. R. Klein, E. Kuh, *The Brookings-S.S.R.C. Quarterly Econometric Model of the U.S. Economy*.

114 Econometric Methodology for Quantitative Economics

Professor Sargan. Ten lectures, Michaelmas Term.

For M.Sc. final yr.

Description of course More applied aspects of econometric methods. Dummy variables. Demographic variables. Instrumental variables with applications to permanent income hypothesis. Simultaneous equations systems with applications to production functions. Extraneous estimators and the combination of several samples. Covariance analysis.

Recommended reading as for Course 113.

115 Aggregation in Economics and Econometric Models

Professor Gorman. Ten lectures, Lent Term.

For M.Sc. final yr.

116 Advanced Mathematical Economics I

For M.Sc. final yr.

Students will be expected to be familiar with the work for the undergraduate paper Mathematical Economics I.

(i) Applications of Duality and Separability

Professor Gorman. Fifteen lectures, Michaelmas and Lent Terms.

(ii) General Equilibrium Analysis

Professor Morishima. Fifteen lectures, Lent Term.

(iii) Collective Choice

Professor Sen, Ten lectures, Michaelmas Term.

117 Advanced Mathematical Economics II

For M.Sc. final yr.

Available only to students taking Advanced Mathematical Economics I.

(i) Monetary Economics

Dr Ostroy. Twenty lectures, Lent Term.

(ii) Game Theory and Resource Allocation

Dr Dasgupta. Ten lectures, Lent Term.

(iii) Theory of Growth

Dr Majumdar. Fifteen lectures, Summer Term.

(iv) Optimum Growth

Mr Lane. Ten lectures, Michaelmas Term.

117(a) Mathematical Economics Classes

Lecturer to be announced. Fortnightly, Sessional.

For M.Sc. preliminary yr.

118 Seminar in Mathematical Economics

Professor Gorman and Professor Morishima. Fortnightly, Sessional.

For M.Sc. final yr.

119 Econometric Theory

Professor Sargan. Twenty-five lectures, Sessional.

For M.Sc. final yr.

Description of course Least squares, Aitken generalised, with lagged endogenous variables, heteroskedastic and autoregressive errors. Two-stage and three-stage least squares. Limited and full information maximum likelihood estimates.

Recommended reading P. Dhrymes, *Econometrics*; A. S. Goldberger, *Econometric Theory*; E. Malinvaud, *Statistical Methods of Econometrics*.

119(a) Classes

Twenty classes, Michaelmas and Lent Terms.

120 Special Topics in Econometric Theory

Optional for M.Sc. final yr.

These courses are particularly recommended for students with a good knowledge of econometric theory.

(i) Finite Sample Theory

Professor Sargan. Five lectures, Michaelmas Term.

Description of course Models with two endogenous variables, exact distributions, approximations, moments. General approximations to distributions, Nagar approximations to moments.

(ii) Autocorrelation in Simultaneous Equation Systems

Dr Hendry. Five lectures, Lent Term.

Description of course Vector autoregressive processes, appropriate estimators based on generalisations of two stage least squares and full information maximum likelihood.

(iii) Estimation of Continuous Systems

Dr Wymer. Five lectures, Lent Term.

Description of course Estimation of differential equation systems and some econometric applications.

(iv) Estimation of Simultaneous Models

Dr Wymer. Three lectures, Lent Term.

Description of course Full information maximum likelihood estimation of econometric models with general restrictions on the coefficients. Applications.

(v) Spectral Methods in Econometrics

Dr Wallis. Five lectures, Lent Term.

121 Seminar in Econometrics

Professor Sargan and Professor Gorman. Fortnightly, Sessional.

For M.Sc. final yr. Others will be admitted only by permission of Professor Gorman or Professor Sargan.

(C) M.Sc. in Regional and Urban Planning Studies

122 Seminar in Regional and Urban Economics

Professor Day. Fifteen meetings, Lent and Summer Terms.

For M.Sc. final yr.

III Other Graduate Courses

For courses intended primarily for M.Sc. students, see under the appropriate M.Sc. heading.

123 Problems in Industrial Administration

Professor Sir Ronald Edwards. Sessional (evening). Admission strictly by permission of Professor Sir Ronald Edwards.

The seminar, which is organized jointly with the London Graduate School of Business Studies, will be attended by industrialists, professional businessmen and civil servants as guests, and each discussion will be based on a paper prepared and circulated in advance. The papers will be concerned with such matters as the following: distinctive features of cost, demand, organization and management in different firms and industries; marketing, including export business; economic and other considerations affecting industrial design; organization and economics of research; the development of new enterprises; industrial location in the light of present government policy; labour relations and

the human factor; relations with trade associations and government departments.

124 Monetary Economics: Theory and Testing

Mr Alford. Michaelmas and Lent Terms.

This seminar is for staff and graduate students working for the M.Phil and Ph.D. degrees. It will cover general monetary theory, and theory and testing in relation to: (a) the U.K. monetary system, (b) the U.S. monetary system, and (c) the international monetary system. Application for admission should be made in writing to Mr Alford in the first week of the Michaelmas Term.

125 Research Seminar in the Economics of Education

Professor Blaug. Fortnightly, Lent and Summer Terms.

For academic staff and research students. Optional for M.Sc. final yr. Admission by permission of Professor Blaug.

126 Educational Planning Seminar

Professor Moser and Mr Williams. Fortnightly, Sessional.

For academic staff and graduate students.

127 Workshop in Economic Research

Professor Walters and Mr Thomas. Sessional.

For research degree students.

This workshop offers students writing dissertations the opportunity to present their work for criticism and advice by staff and fellow students.

128 Computer Programs for Economists

Dr Hendry, Professor Sargan and Dr Wymer. Lent Term.

For research degree students in Economics. This course will consider programs designed to apply a variety of econometric methods, including analysis of time-series data, autocorrelation prob-

lems, simultaneous equation models, prediction and simulation, and the estimation of non-linear equations.

129 Contemporary Economics

This course will not be given in 1972-73.

An informal discussion group for M.Sc. and other graduate students in Economics.

130 Further Methods of Economic Investigation

Dr Wallis and Dr Hendry. Ten lectures, Lent Term.

For graduate students in economics.

IV Additional Courses for Undergraduates and Graduates

131 Behaviouralism and Economic Analysis

Dr Devletoglou. Five lectures, Michaelmas Term.

Suitable for graduate students.

Description of course A survey of the major recent attempts to emphasise human behaviour in economic analysis in a manner compatible with current developments in the behavioural disciplines. The lectures will concentrate on the theory of consumer and firm behaviour, but will also consider problems in macro-behaviour.

Recommended reading N. Georgescu-Roegen, *Analytical Economics*, 1966, Parts I and II; F. M. Nicosia, *Consumer Decision Processes*, 1966; A. G. Papandreou, "Some Basic Problems in the Theory of the Firm" (*A Survey of Contemporary Economics*, Vol. II, A.E.A., 1952); J. A. Howard, *Buyer and Executive Behavior*, 1963; R. M. Cyert and J. G. March, *A Behavioral Theory of the Firm*, 1963; N. E. Devletoglou, "A Dissenting View of Duopoly and Spatial Competition" (*Economica*, May, 1965); H. A. Simon, "Theories of

Economics

Decision-Making in Economics and Behavioural Science" (*Surveys of Economic Theory*, A.E.A.-R.E.S., 1966); N. E. Devletoglou and P. A. Demetriou, "Choice and Threshold" (*Economica*, November, 1967); N. E. Devletoglou, "Threshold and Rationality" (*Kyklos*, Fasc. 4, 1968); J. Buchanan, *Cost and Choice*, 1970; N. E. Devletoglou, "Thresholds and Transaction Costs" (*The Quarterly Journal of Economics*, February 1971), or *Consumer Behaviour*, 1971.

132 Introduction to Linear Programming

Dr Makower. Five lectures, Lent Term.

Suitable for undergraduates.

Suggested reading J. Hadar, *Elementary Theory of Economic Behaviour*, chap. 11; H. Makower, *Activity Analysis*; J. R. Hicks, "Linear Theory" (*The Economic Journal*, December 1960); W. J. Baumol, "Activity Analysis in One Lesson" (*The American Economic Review*, December 1958).

133 The U.K. Capital Market

Mr Alford. Nine lectures, Michaelmas Term.

Syllabus Framework of the U.K. capital market; the characteristics and functions of the chief financial institutions; banks; hire purchase finance companies; investment and unit trusts; insurance companies; official and semi-official financial institutions; the Stock Exchange and the new issue market; monetary policy.

Recommended reading H. B. Rose, *Economic Background to Investment*, Parts 2 and 5; C.O.I., Reference Pamphlet 24, *British Financial Institutions* and 65, *The British Banking System* (H.M.S.O.); Investors Chronicle Ltd., *The New "Beginners Please"*, chaps. 3, 4, 6.

134 Methodology of Cost-Benefit Studies of the Location of Airports

Professor Walters. Four lectures, Michaelmas Term.

For graduate students and undergraduates by permission of Professor Walters.

Recommended reading *Report of the Commission on the Third London Airport* (H.M.S.O.).

135 Economics of Socialism

Geography

Geography

Courses are given in the Joint School of Geography at the London School of Economics and at King's College, London. Academic arrangements are integrated and, in most courses, students are taught in common by teachers of both colleges. However, the introduction of college syllabuses for the B.Sc. has meant the introduction of separate teaching provision for part of this degree and has involved some re-arrangement of courses for other degrees. All students should take care to identify the courses needed to complete their specific degree requirements. Systematic and regional course units in Geography are given in lists A and B on pages 214-5.

COURSES FOR B.Sc. (ECON.) PART I

182 Introduction to Human Geography

Professor Wise and Professor Jones. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part I; B.Sc. c.u. main fields Maths., Soc., Soc. Anth. 1st yr., Soc. Psych.

Syllabus An introduction to human geography. Concepts of "environment". The regional concept and its application to social, economic and political problems. An introduction to location problems. The location and form of urban settlements. Problems of urban growth and change. The changing distribution and structure of population. Recent developments in human geography.

Recommended reading P. Ambrose, *Analytical Human Geography*; R. Arvill, *Man and Environment*; R. Abler, J. S. Adams and P. Gould, *Spatial Organisation*; W. Bunge, *Theoretical Geography*; M. Chisholm, *Rural Settlement and Land Use*; M. Chisholm, *Geography and Economics*; R. J. Chorley and P. Haggett (Eds.), *Socio-Economic Models in Geography*; J. I. Clarke, *Population*

Geography; R. E. Dickinson, *City and Region*; R. E. Dickinson, *Regional Ecology*; R. C. Estall and R. O. Buchanan, *Industrial Activity and Economic Geography*; P. Haggett, *Locational Analysis in Human Geography*; J. H. Johnson, *Urban Geography*; R. Minshull, *The Changing Nature of Geography*; R. L. Morrill, *The Spatial Organisation of Society*; J. H. Paterson, *Land, Work and Resources*; W. Zelinsky, *A Prologue to Population Geography*.

182(a) Geography Class Dr Hamilton and others.

183 Theory and Techniques of Spatial Analysis

Dr Board, Mr Goddard, Mr Spence and Dr Thornes. Twenty classes of two hours, Sessional.

For B.Sc. (Econ.) Part I. Compulsory for B.Sc. c.u. main field Geog. 1st yr.

Syllabus An introduction to theoretical and quantitative geography: the spatial organisation of society: quantitative approaches to the analysis of urban and regional systems, including statistical and mapping techniques.

Recommended reading B. J. L. Berry and D. F. Marble, *Spatial Analysis: a Reader in Statistical Geography*; P. Haggett, *Locational Analysis in Human Geography*; R. J. Chorley and P. Haggett, *Models in Geography*; R. Abler, J. S. Adams and P. Gould, *Spatial Organisation*; R. Morrill, *The Spatial Organisation of Society*; J. C. Doornkamp and C. King, *Numerical Analysis in Geomorphology*; M. R. Spiegel, *Theory and Problems of Statistics*; L. J. King, *Statistical Analysis in Geography*.

COURSES FOR B.Sc. AND B.Sc. (ECON.) PART II

Note Students reading for B.Sc. are required to attend three field classes, one in each year of their course. Students reading Geography as a special subject in Part II of the B.Sc. (Econ.) are required

Geography

to attend two field classes, one in the second and one in the third year of their course. The field classes are normally of one week's duration and are customarily arranged during the Easter vacation.

184 Physical Geography

Dr Brunsden, Mr Drewett, Mr D. K. C. Jones, Dr M. Jones and Dr F. Rose.

Compulsory for B.Sc. c.u. main field Geog. 1st yr.

Syllabus The course is concerned with landforms, weather and climate, and vegetation and soils. Basic principles, concepts and relationships between the different fields of physical geography are stressed. Three introductory lectures discuss scale, time and systems in physical geography, and are followed by:

I Landforms

Eighteen lectures, Michaelmas and Lent Terms.

Syllabus The earth's primary features, continental drift, sea-level change, weathering and mass movements, hydrology and drainage systems and coastal geomorphology.

Recommended reading M. Morisawa, *Streams*; A. Holmes, *Principles of Physical Geology*; W. D. Thornbury, *Principles of Geomorphology*; B. W. Sparks, *Rocks and Relief*; J. Gilluly, A. C. Waters and A. O. Woodford, *Principles of Geology*; J. A. Steers (Ed.), *Introduction to Coastline Development*.

II Meteorology and Climatology

Seventeen lectures, Michaelmas and Lent Terms.

Syllabus The atmosphere, its heat and moisture balance, global circulation, air masses and weather systems, micro-climate.

Recommended reading G. T. Trewartha, *An Introduction to Climate*; H. Riehl, *Introduction to the Atmosphere*; G. T. Trewartha, *The Earth's Problem Climates*; R. G. Barry and R. J. Chorley, *Atmosphere, Weather and Climate*;

H.M.S.O., *A Course in Elementary Meteorology*.

III Biogeography

Eighteen lectures, Sessional.

Syllabus Biological history of the earth, ecosystems, world vegetation and soils, water ecosystems, pollution and conservation.

Recommended reading R. L. Donahue, *Soils*; C. S. Elton, *Animal Ecology* (1966 reprint); S. R. Eyre, *Vegetation and Soils*; J. R. Matthews, *Origin and Distribution of the British Flora*; E. P. Odum, *Ecology* (Modern Biology Series); *Fundamentals of Ecology* (1968); A. G. Tansley, *Britain's Green Mantle* (1968).

185 Man and his Physical Environment

Dr Thornes, Mr D. K. C. Jones and Mrs Rees. Forty-five lectures, Sessional.

For B.Sc. (Econ.) Part II (normally taken in 3rd yr.); B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus A survey of the interaction between societies and the physical environment, including problems of pollution, conservation and resources. Emphasis will be laid upon ecological, economic and control systems approaches to problems of environmental pressure and management.

Recommended reading R. Arvill, *Man and Environment*; I. Burton and R. W. Kates, *Readings in Resource Management and Conservation*; W. L. Thomas Jr., *Man's Role in Changing the Face of the Earth*; R. J. Chorley and B. A. Kennedy, *Physical Geography: a Systems Approach*; A. Kneese and B. T. Bower, *Managing Water Quality*.

186 Human Geography

Professor Morgan and others. Forty-six lectures, Sessional.

Compulsory for B.Sc. c.u. main field Geog. 1st yr.

Syllabus An introduction to the field of human geography including a general

Geography

study of the evolving relationship between man and his physical environment. Emphasis will be laid on the geography of population and the geography of society.

Recommended reading R. Arvill, *Man and Environment*; A. Barnett, *The Human Species*; A. M. Bates, *Man in Nature*; E. Boserup, *The Conditions of Agricultural Growth*; A. M. Carr-Saunders, *World Population*; M. Chisholm, *Rural Settlement and Land Use*; J. I. Clarke, *Population Geography*; C. D. Forde, *Habitat, Economy and Society*; P. Haggett, *Locational Analysis in Human Geography*; H. H. McCarty and J. B. Lindberg, *A Preface to Economic Geography*; E. Jones, *Human Geography*; P. L. Wagner, *The Human Use of the Earth*; P. L. Wagner and M. W. Mikesell, *Readings in Cultural Geography*; J. H. Johnson, *Urban Geography*; R. S. Thomas, E. C. Coutling and M. H. Yeates, *The Geography of Economic Activity, 1968*; R. L. Morrill, *The Spatial Organisation of Society*.
Note for Theory and Techniques of Spatial Analysis see course 183.

187 Practical Class

Mr Shepherd. Sessional.

Compulsory for B.Sc. (Econ.) Part II 2nd yr.

Syllabus The application of quantitative methods to spatial analysis. Map analysis and cartographic representation of statistical data.

Recommended reading B. J. L. Berry and D. F. Marble, *Spatial Analysis: A Reader in Statistical Geography*; R. Abler, J. S. Adams and P. Gould, *Spatial Organisation*.

188 Applied Spatial Analysis

Mr Goddard and Mr Frost. Sessional.

For B.Sc. c.u. main fields Geog. 2nd yr., Maths.

Syllabus The practical application of quantitative methods of analysis, using the computer, to specific problems in urban, economic and social geography. The description of spatial patterns (points, lines and surfaces); the measurement of

spatial associations; methods of classification and regionalisation; calibration of spatial models and the use of computer simulation techniques.

Recommended reading B. J. L. Berry and D. F. Marble, *Spatial Analysis: A Reader in Statistical Geography*; L. J. King, *Statistical Analysis in Geography*.

189 Economic and Regional Geography of the British Isles

Professor Wise and others.

Forty lectures and classes, Michaelmas and Lent Terms.

Compulsory for B.Sc. c.u. main field Geog. 2nd yr. Appropriate sections for B.Sc. (Econ.) Part II 2nd yr.

Syllabus Appreciation of the conditions, physical, social and economic, that have influenced the modern pattern of settlement and land use. Special studies of selected industrial and agricultural areas. The modern economic geography of Britain, including distribution of population, location pattern of selected industries, evolution of the present pattern of land use.

Recommended reading L. D. Stamp and S. H. Beaver, *The British Isles*; J. B. Mitchell (Ed.), *Great Britain: Geographical Essays*; A. E. Trueman, *The Scenery of England and Wales*; U.K. Geological Survey and Museum, *British Regional Geology*; L. D. Dr Estall and Dr K. R. Sealy. Twenty lectures, Sessional.

For B.Sc. c.u. main field Geog.; B.Sc. (Econ.) Part II 3rd yr.

Syllabus A broad review of regional disparities in economic structure and performance and some theoretical explanations thereof. A detailed analysis of the economic and social geography of selected regions and contrasting regional problems.

Recommended reading General texts: H. S. Perloff, E. S. Dunn, E. E. Lampard and R. F. Muth, *Regions, Resources and Economic Growth*; J. H. Paterson, *North America*; W. R. Mead and E. H. Brown, *The United States and Canada*; G. H. Dury and R. Mathieson, *The United States and Canada*; Special studies: R. C. Estall, *New England, A Study in Industrial Adjustment*; J. R. Ford (Ed.), *The Southern Appalachian Region: A Survey*; J. F. Hart,

The Southern United States; L. M. Alexander, *The North Eastern United States*; J. Gottman, *Megalopolis*; J. H. Garland (Ed.), *The North American Midwest*; D. W. Lantis, R. Steiner and A. E. Karinen, *California: Land of Contrast*; R. H. Durrenberger, *California: The Last Frontier*. Some background to modern patterns and problems can be obtained from B. E. Supple (Ed.), *The Experience of Economic Growth*, part IV; H. F. Williamson (Ed.), *The Growth of the American Economy*, part V; A. Birnie, *A Short Economic History of the United States*. For Canada: see P. Carnu, E. P. Weeks and Z. W. Sametz, *The Economic Geography of Canada, with An Introduction to the 68-region System*.

197(a) North America II (Classes)

For B.Sc. c.u. main field Geog. 3rd yr.

198 Geomorphology I

Dr Brunsdon, Dr Embleton, Mr D. K. C. Jones and Dr Thornes. Forty lectures, Sessional.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.; B.Sc. (Econ.) Part II 2nd yr.

Syllabus A study of the processes of landform sculpture under differing climatic and structural environments, and the techniques used in process investigations. This course will involve seminars, laboratory and field work.

Recommended reading M. A. Carson and M. J. Kirkby, *Hillslope Form and Process*; L. B. Leopold, G. Wolman and J. P. Miller, *Fluvial Processes in Geomorphology*; C. E. Embleton and C. A. M. King, *Glacial and Periglacial Processes*; C. A. M. King, *Beaches and Coasts*.

199 Geomorphology II

Dr Embleton and Mr D. K. C. Jones. Twenty-five lectures, Sessional.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus Chronological studies in geo-

Geography

morphology. Methods of dating and their limitations. Problems of landscape evolution illustrated by selected regional examples, with special reference to areas of the British Isles.

This course will involve some fieldwork.

Recommended reading S. W. Wooldridge and D. L. Linton, *Structure Surface and Drainage in South-east England*; V. B. Sissons, *The Evolution of Scotland's Scenery*; R. G. West, *Pleistocene Geology and Biology*; E. H. Brown, *Relief and Drainage of Wales*.

200 Geomorphology III

Dr Brunsden and Dr Thornes.
Twenty-five lectures, Sessional.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus Major developments in the field of geomorphology and especially in recent and contemporary research methodology.

Recommended reading R. J. Chorley, A. J. Dunn and R. P. Beckinsale, *The History of the Study of Landforms* (Vol. 1): *Geomorphology before Davis*; C. Albritton, *The Fabric of Geology*, A. E. Schedegger, *Theoretical Geomorphology*; D. F. Alarbaugh and F. Bonham-Carter, *Computer Simulation in Geology*.

201 Geomorphology

Twenty lectures, Michaelmas and Lent Terms. An intercollegiate course. At University College.

Optional for B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus The precise content of the course varies from year to year, but it is in the general field of current research by staff on selected themes within geomorphology.

202 Meteorology and Climatology

Twenty-five lectures, Sessional. An intercollegiate course. At University College.

For B.Sc. c.u. main field Geog. 2nd yr.

Recommended reading H. C. Willett and F. Sanders, *Descriptive Meteorology*; G. T.

Trewartha, *The Earth's Problem Climates*; S. L. Hess, *Introduction to Theoretical Meteorology*; W. D. Sellers, *Physical Climatology*.

202(a) Meteorology and Climatology (Classes)

In conjunction with Course 202.

203 Climatic Change

Dr M. Jones. Twenty lectures, Michaelmas and Lent Terms. An intercollegiate course.

For B.Sc. c.u. main field Geog. 3rd yr.

Recommended reading H. H. Lamb, *The Changing Climate*; *Proceedings of the UNESCO-WMO Symposium on Climatic Change in the Arid Zones* (UNESCO, 1962); R. Fairbridge (Ed.), *Solar Variations, Climatic Change and Related Geophysical Phenomena* (New York Academy of Sciences, 1961); A. E. M. Nairn (Ed.), *Problems in Paleoclimatology*.

203(a) Climatic Change (Classes)

In conjunction with Course 203.

Note Teaching for other branches of Meteorology and Climatology will be provided at other colleges of the University and is open to all students. Not all courses will be available in any one session.

204 Theoretical Aspects of Economic Geography

Mrs Rees. Six lectures, Michaelmas Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus An introduction to some theoretical concepts to be used in a subsequent economic geography course. Resource allocation theory (land, labour and capital). Traditional and behavioural location theories.

Recommended reading R. Dorfman, *Prices and Markets*; R. H. T. Smith, E. J. Taaffe and L. J. King, *Readings in Economic*

Geography; G. J. Karaska and D. F. Bramhall, *Locational Analysis for Manufacturing*; H. H. McCarty and J. B. Lindberg, *A Preface to Economic Geography*.

205 Economic Geography: I

Mrs Rees. Fifteen lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus The nature of resources. Economic and actual methods of allocating and exploiting scarce resources. Role of government in resource allocation. Natural resources and economic growth. The geography and economics of water resources. The geography of energy and of mineral production. Allocation or conservation?

Recommended reading M. Chisholm, *Geography and Economics*; I. Burton and R. W. Kates, *Readings in Resource Management*; H. Boesch, *A Geography of World Economy*; H. L. Barnett and C. Morse, *Scarcity and Growth*; N. G. Ginsburg, *Essays in Geography and Economic Development*; P. R. Odell, *An Economic Geography of Oil*; P. R. Odell, *Oil and World Power*; E. S. Simpson, *Coal and the Power Industries in Postwar Britain*; G. Manners, *The Geography of Energy*; H. H. McCarty and J. B. Lindberg, *A Preface to Economic Geography*; J. Rees, *Industrial Demand for Water*; J. Hirshleifer et al., *Water Supply: Economics, Technology and Policy*; Institution of Civil Engineers, *Conservation of Water Resources in the United Kingdom*.

205(a) Economic Geography: I (Class)

Mrs Rees. Eight classes, Michaelmas and Lent Terms.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.; B.Sc. (Econ.) Part II 2nd yr.

205(b) Economic Geography (Class)

Mrs Rees.

For B.Sc. (Econ.) Part II 2nd and 3rd yrs.

206 Economic Geography: II

Mr Sinclair and Professor Morgan. Fifteen lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus Concepts and methods in the geography of agriculture. The evolution, location and structure of systems of commercial agriculture.

Recommended reading L. Symons, *Agricultural Geography*; A. N. Duckham, *The Fabric of Farming*; M. Chisholm, *Rural Settlement and Land Use*; J. W. Alexander, *Economic Geography*; R. Dumont, *Types of Rural Economy*; A. Martin, *Economics and Agriculture*; S. H. Franklin, *The European Peasantry*; K. Dexter and D. Barber, *Farming for Profits*; H. F. Gregor, *Geography of Agriculture: Themes in Research*; E. Isaac, *Geography of Domestication*; W. B. Morgan and R. J. C. Munton, *Agricultural Geography*.

206(a) Economic Geography: II (Class)

Eight classes, Michaelmas and Lent Terms.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.

207 Economic Geography: III

Dr J. E. Martin, Dr Estall and Dr K. R. Sealy. Fifteen lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Geog. 3rd yr.

Syllabus The location of economic activity. The economic geography of industry. Industrial complexes. The elements of the geography of transport.

Recommended reading E. M. Hoover, *The Location of Economic Activity*; R. C. Estall and R. O. Buchanan, *Industrial Activity and Economic Geography*; D. M. Smith, *Industrial Location, An Economic Geographical Analysis*; P. Haggett, *Locational Analysis in Human Geography*; D. W. Fryer, *World Economic Development*; J. W.

207(a) Economic Geography: III (Class)

Dr J. E. Martin and others. Eight classes, Michaelmas and Lent Terms.
For B.Sc. c.u. main field Geog. 3rd yr.

208 Economic Geography: IV

Professor Wise and others.
Sessional. An intercollegiate course.
At University College.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Geog. in connection with Economic Geography I, II and III 2nd or 3rd yr.

209 Social Geography

Professor Jones, Sessional. This course is given only in alternate years.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus A study of the relationships of social groups with their environments and the regional differentiation of such relationships.

Recommended reading W. Zellinsky, *Prologue to Population Geography*; J. Beaujeu-Garnier, *Geography of Population*; J. Saville, *Rural Depopulation* E. R. Wolf, *Peasants*; J. M. Houston, *A Social Geography of Europe*; G. A. Theodorson (Ed.), *Studies in Human Ecology*; A. Hawley, *Human Ecology*; P. W. Burgess and D. J. Bogue, *Contributions to Urban Sociology*; A. J. Reiss and P. K. Hatt, *Cities and Society*.

210 Urban Geography

Professor Jones and others.
Sessional. An intercollegiate course.

For B.Sc. (Econ.) Part II 2nd yr.;
B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus The history, morphology, economic base and social geography of cities, together with their regional relations.

Recommended reading A. E. Smailes, *The Geography of Towns*; E. Jones, *Towns and Cities*; R. E. Dickinson, *City and Region*; L. Mumford, *The City in History*; R. Murphy, *The American City*; G. Sjoberg, *The Pre-Industrial City*; A. B. Gallion and S. Ersner, *The Urban Pattern*; P. Self, *Cities in Flood*; L. Reissmair, *The Urban Process*; A. J. Reiss and P. K. Wilson, *Entropy in Urban and Regional Modelling*.

212 Geography of Rural Settlement

Twenty-five lectures, Sessional.
An intercollegiate course. At Queen Mary College.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.

213 Historical Geography: British Isles

Dr Lambert. Sessional.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus A study of the historical geography of the British Isles, with special reference to England.

Recommended reading W. G. East, *The Geography behind History*; J. B. Mitchell, *Historical Geography*; H. C. Darby (Ed.), *An Historical Geography of England before 1800*; W. G. Hoskins, *The Making of the English Landscape*.

213(a) Historical Geography (Class)

Dr Lambert. Twenty classes, Michaelmas and Lent Terms.

214 Historical Geography: Western and Central Europe

Dr Lambert. Sessional.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus A study of the interrelations of man and his environment since prehistoric times with special reference to the part played by man's activities in adapting the landscape to his needs; the geographical significance of political and administrative divisions.

Recommended reading W. G. East, *An Historical Geography of Europe*; *The Geography behind History*; C. T. Smith, *Historical Geography of Western Europe*; E. A. Freeman, *The Historical Geography of Europe*; *Cambridge Economic History of Europe*, Vol. I, especially chaps. 1, 2, 3, 6 and 8; *Cambridge Medieval History of Europe*, Vol. I, chap. 13; Vol. V, chap 5; Vol. VI, chaps. 14 and 15; Vol. VII, chaps. 8, 9 and 24; W. Slicher van Bath, *The Agrarian History of Western Europe, A.D. 500-1850*; A. M. Lambert, *The Making of the Dutch Landscape*.

215 Biogeography: I

Dr Yates and Dr Rose. An intercollegiate course. At King's College.

For B.Sc. c.u. main field Geog. 2nd yr.

Note Two field weekends are a compulsory part of the course.

216 Biogeography: II

Dr Yates and Dr Rose. An intercollegiate course. At King's College.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Geography

Note Attendance at a field class in Plant Geography is a compulsory part of the course. If this course is taken in the third year, the field course must be taken in the previous summer.

217 Geography and Planning

Mr Diamond. Michaelmas and Lent Terms. An intercollegiate course.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Geog. 3rd yr.; M.Sc.

Syllabus A study of the way in which, and the extent to which, town and country planning has affected the geography of Britain.

Recommended reading J. B. Cullingworth, *Town and Country Planning in England and Wales*; C. D. Buchanan, *Traffic in Towns*; P. J. O. Self, *Cities in Flood*; D. Senior (Ed.), *The Regional City*; J. H. Tetlow and A. Goss, *Homes, Towns and Traffic*; P. G. Hall, *Theory and Practice of Regional Planning*; G. McCrone, *Regional Policy in Britain*. References to official planning studies and to the periodical literature will be given during the course.

218 History of Geographical Science and Discovery: I

An intercollegiate course. At Birkbeck College.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus The development of geographical concepts and methods since A.D. 1300 with special emphasis on the interrelation between ideas and discoveries.

219 Political Geography: I

Mrs Toledano. Sessional.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Geog. 2nd or 3rd yr.

Syllabus A general study of the interaction between geographical factors and the state, including such aspects as territorial

organization and expansion, demographic considerations and strategic factors.

Recommended reading N. J. G. Pounds, *Political Geography*; J. R. V. Prescott, *The Geography of State Policies*; H. J. De Blij, *Systematic Political Geography*; C. A. Fisher (Ed.), *Essays in Political Geography*; W. A. D. Jackson, *Politics and Geographic Relationships*. Periodical and other literature will be suggested during the course.

220 Political Geography: II The Political Geography of West Africa

Professor Harrison Church.

Sessional. This course will not be given in 1972-73.

For B.Sc. c.u. main field Geog. 3rd yr. Open to other students by agreement.

221 Latin America: Pre-Industrial Societies

Miss Newson. Sessional.

For B.Sc. c.u. main field Geog. 2nd or 3rd yr.; B.Sc. (Econ.) Part II 3rd yr.

Syllabus This course examines the origin, nature and evolution of pre-industrial societies in Latin America.

222 Philosophy, Methodology and Explanation in Geography

Mr Drewett and Mr Spence. Michaelmas and Lent Terms.

For B.Sc. c.u. main field Geog. 3rd yr.; graduate students by permission.

Syllabus Scientific explanation through inductive and deductive reasoning. The structure of scientific hypotheses and the development of theories and laws. The use of models, systems and model languages for geographic explanation. Evaluation of methodology and levels of explanation in geography. Elaboration of specific philosophies and methods in geography.

Geography

Recommended reading H. M. Blalock, *Causal Inferences in Non-Experimental Research*; F. E. Emery (Ed.), *Systems Thinking*; T. S. Kuhn, *The Structure of Scientific Revolutions*; K. R. Hartshorne, *Perspective in the Nature of Geography*; D. Harvey, *Explanation in Geography*; L. J. King, *Statistical Analysis in Geography*.

223 Transport Geography (Class)

Dr K. R. Sealy. Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.

Recommended reading P. Haggett and R. J. Chorley, *Network Analysis in Geography*; M. J. Bruton, *Introduction to Transportation Planning*; B. T. Bayliss and S. L. Edwards, *Transport for Industry*; K. M. Johnson and H. C. Garnett, *The Economics of Containerisation*; H.M.S.O. Report of the Committee of Inquiry into Civil Air Transport (Edwards Report), *British Air Transport in the Seventies*.

FOR GRADUATE STUDENTS

Note Courses 228–239, 242 and 245 are intended primarily for students reading Geography for M.Sc. All M.Sc. students should consult their advisers in selecting courses which meet the specific requirements of their degree syllabus.

228 Modern Geographical Thought and Practice

Professor E. Jones and Dr B. S. Morgan. Michaelmas and Lent Terms.

Also for M.Sc. in Regional and Urban Planning Studies.

A course of lectures and discussions in methodology.

228(a) Modern Geographical Thought and Practice (Classes)
Michaelmas and Lent Terms.

229 Quantitative Methods in Geography

Mr Goddard and Mr Spence. Sessional.

Also for M.Phil. and Ph.D. students by permission.

Syllabus Spatial probability models, sampling and statistical inference, correlation and regression, factor analytic models, taxonomic procedures, spatial series, canonical models.

Recommended reading L. J. King, *Statistical Analysis in Geography*.

230 Geography of Industry

Dr J. E. Martin. Sessional.

Syllabus Industrial linkage, subcontracting and geographical association of industries; economies of agglomeration. Industrial cities and regions; intrametropolitan location; the economic base and inter-regional flows. Empirical studies of industrial location and movement: methods of research, sources and problems. Location decision making and location theory. Transportation, freight rates and comparative costs in the geography of industry.

Recommended reading D. M. Smith, *Industrial Location: an Economic Geographical Analysis*; A. Pred, *Spatial Dynamics of U.S. Urban-Industrial Growth, 1800–1914*; P. A. Groves, *Towards a Typology of Intrametropolitan Manufacturing Location*; E. L. Ullman, M. F. Dacey and H. Brodsky, *The Economic Base of American Cities*; S.E. 232 Resource Management and Utilisation

Mrs Rees. Sessional.

Syllabus Economic methods of resource allocation, pricing systems, investment appraisal, cost-benefit analysis. Real world methods used to allocate land, water, fuels and minerals between competing uses. The distribution of resources that results. Conservation *versus* management. Environmental quality problems.

233 Urban Geography

Professor E. Jones. Sessional.

Syllabus Urban origins, growth and the process of urbanisation. Theories of differentiation within cities, relating to function and society.

234 The Geography of Agriculture

Mr Sinclair. Sessional.

Syllabus Environmental studies of subsistence and commercial agriculture. The role and status of agriculture in economic development, and the analysis of changes in the structure of agricultural activity.

235 Social Geography of South Africa

This course will not be given in 1972-73.

Also for M.A. (Area Studies) Africa.

Syllabus Cultural, ethnic and political factors in the changing distribution of population in South Africa and neighbouring countries.

236 Geography of West Africa

Professor Morgan. Sessional.

Syllabus The economic and social geography of West Africa with particular reference to problems of site and location in selected regions and countries.

237 The Spatial Structure of the South African Economy

Michaelmas and Lent Terms. This course will not be given in 1972-73.

Syllabus Stages of economic development and their spatial manifestation, socio-economic regionalisation, nodal regions and their integration in development regions.

238 Regional Problems in the United States

Dr Estall.

Syllabus An analysis of the processes of industrial change and of the regional problems arising therefrom. The role of government as an agent of geographic change.

239 Concepts and Methods of Geomorphology

Dr Brunsden and Dr Thornes.

Twenty-four lectures and classes.

240 Geographical Research Seminar

Mr Spence and Mr Drewett.
Sessional.

For all graduate students in the department.

A series of lectures and discussions presented by invited speakers, reflecting the broad spectrum of current geographical and planning research.

M.Sc. REGIONAL AND URBAN PLANNING STUDIES

241 Regional and Urban Planning Problems (Seminar)

Professor Day, Professor Self and Mr Diamond. An interdepartmental seminar, Summer Term.

242 Geographical Concepts in Regional and Urban Planning (Seminar)

Mr Diamond. Michaelmas and Lent Terms.

Also for M.Sc. in Geography.

A seminar on the application of locational and spatial concepts to problems of urban and regional planning.

Recommended reading B. J. L. Berry and F. E. Horton, *Geographic Perspectives on Urban Systems*; G. Chadwick, *A Systems View of Planning*; F. S. Chapin, *Urban Land Use Planning*; M. Chisholm and G.

Hall, *Theory and Practice of Regional Planning*; J. B. McLoughlin, *Urban and Regional Planning*; K. Norborg (Ed.), *The I.G.U. Symposium in Urban Geography*.

Other references will be given during the course.

243 Quantitative Methods in Regional and Urban Planning Studies

Mr Flowerdew. Michaelmas Term.

244 Introduction to British Urban and Regional Planning

Mr Diamond. Four lectures, Michaelmas Term.

For M.Sc. in Economics; Operational Research.

245 Urban Systems (Graduate Course)

Mr Drewett. Six lectures, Michaelmas Term, beginning in the fifth week of the Michaelmas Term.

Also for M.Sc. in Economics; Geography; Operational Research.

Syllabus Inter and intra-urban patterns and functional processes will be examined in the context of systems analysis and model building. The basic components of the urban system and their interdependence will be outlined reviewing the associated theoretical and empirical models.

Recommended reading B. J. L. Berry and F. E. Horton, *Geographic Perspectives on Urban Systems*.

Members of the Staff of King's College, London, sharing in the work of the Joint School of Geography

D. Brunsdon, B.Sc., Ph.D.; Lecturer in Geography.

Alice M. Coleman, M.A.; Reader in Geography.

C. Embleton, M.A., Ph.D. (Cantab.); Reader in Geography.

M. E. Frost, B.A., M.Sc.; Lecturer in Geography.

Maureen Jones, B.Sc. (Wales), M.Sc., Ph.D.; Lecturer in Geography.

G. R. P. Lawrence, M.Sc.; Lecturer in Geography.

B. S. Morgan, B.Sc., Ph.D. (Exeter); Lecturer in Geography.

W. B. Morgan, M.A. (Oxon.), Ph.D. (Glasgow); Professor of Geography.

Linda Newson, B.A., Ph.D.; Lecturer in Geography.

J. C. Pugh, M.A. (Cantab.), Ph.D., A.R.I.C.S.; Professor of Geography.

F. Rose, B.Sc., Ph.D.; Senior Lecturer in Biogeography.

SEMINARS FOR THE LL.M. DEGREE, GIVEN WHOLLY OR PARTLY BY TEACHERS OF THE SCHOOL

453 Legal History

Professor Milsom and Mr Birks.

Syllabus English legal history generally (as in the LL.B. examination) with special reference to its bearing upon the following topics in the prescribed period. The period prescribed until further notice is 1216–1327.

The main movements of legal thought.

Characteristics of mediaeval law.

Influence of civil, canon and mercantile law. Legislation. Case law, local customs. Principal sources of legal history (records, year books, treatises).

The courts of law (including parliament). Local courts. The judiciary and the legal profession.

The forms of action and the outline of procedure and pleading. Battle. Wager of law. The jury.

Real property. Tenure. Common law estates. Conveyances and their effects.

Feudalism. Seisin. Inheritance. Personal property. Ownership and possession.

Contract at common law and in law merchant. Tort. Trespass. Defamation and its relation to ecclesiastical jurisdiction.

Criminal law (treason, felonies, misdemeanours). Appeals, indictments, pardons, forfeiture and escheat.

Law merchant (its sources, nature and the institutions administering it).

Recommended reading General introductions are T. F. T. Plucknett, *Concise History of the Common Law* and S. F. C. Milsom, *Historical Foundations of the Common Law*. The most detailed study of most of the period, and to be used as a

basic text-book, is F. Pollock and F. W. Maitland, *History of English Law* (2nd edn. 1898) reissued with new introduction and bibliography in 1968.

Reference should also be made to the following: W. S. Holdsworth, *History of English Law*; T. F. T. Plucknett, *Legislation of Edward I*; *Early English Legal Literature*; *Edward I and Criminal Law*; J. B. Ames, *Lectures on Legal History*; C. H. S. Fifoot, *History and Sources of the Common Law*; A. W. B. Simpson, *Introduction to the History of the Land Law*; J. B. Thayer, *Preliminary Treatise on Evidence at the Common Law*.

Students should consult the latest editions of these books.

Copious original materials are in print, in the publications of the Selden Society and elsewhere, and students should familiarise themselves with the nature of plea rolls, year books, formularies, and of the principal treatises. Attention is drawn to the edition of *Glanvill* by G. D. G. Hall and to the edition of *Bracton* now in course of publication by S. E. Thorne. The publications of the Selden Society and the Ames Foundation and the year book volumes in the Rolls Series frequently contain introductions of value and those falling within the special period should be studied. Articles and reviews in *The Law Quarterly Review* and *The English Historical Review* should be consulted.

Mr Bretten. Michaelmas Term.

For LL.M.: *Estate Planning*. Admission restricted to students of the School taking this subject.

473 Law of Management and Labour Relations

Professor Wedderburn. Sessional.

Syllabus This course is concerned primarily with English law as it affects the making of decisions at the place of work and the context of labour relations in which such decisions are made. Comparisons with other systems will be made, in general terms, wherever possible. I. Structure of corporate enterprise. Control of management; and representation of various interests.

Chief executives, directors and governing board. One-tier boards of directors in British law. Other managers. Two-tier arrangements in practice under such laws; and obligatory two-tier systems. Role of shareholders and employees; election or appointment of managers; and the duties of management to act in the interests of the enterprise. "Participation" of employees by profit-sharing or other methods. Current legal and other problems in Britain for "Participation".

II. Management's plans. Legal requirements for disclosure of information to shareholders and public; to Government; to employees and trade unions.

III. Management and labour relations. Recognition of trade unions: the legal duty to bargain. The role of state agencies and collective bargaining structure e.g. the Commission on Industrial Relations. Legal requirements for "participation" by works councils etc.

IV. Collective bargaining. Effect of the law upon collective agreements, and upon objectives of management and trade unions in bargaining. Legal enforceability of agreements; legal "extension" of agreements; legal machinery for arbitration and inquiry. Grievance procedures and the "peace obligation" for employer, trade union and worker. The place of "Labour Courts".

V. Legal problems of managerial functions, industrial discipline and industrial conflict. Collective negotiation and the standard obligations of the employment relationship. Impact of law and practice affecting dismissal or discipline of workers. Law of industrial conflict affecting power of the parties in decision-making in the enterprise. State intervention in industrial conflict. Control of jobs and entry to the trade: effect of the law, for example, on the closed shop, rules of trade unions and employers' associations. Other legal control of decisions e.g. racial or other discrimination.

VI. The problems already described in the special context of the "multi-national" or international corporation.

OTHER GRADUATE COURSES IN LAW GIVEN AT THE SCHOOL

475 Problems of Civil Litigation

Master Jacob and Mr Zander.
Fortnightly, Michaelmas and Lent
Terms.

This seminar is mainly for students attending Course 461. Current problems in civil litigation will be discussed.

476 Problems in Taxation (Seminar)

Professor Wheatcroft and Professor Prest. Fortnightly, Lent and Summer Terms.

For graduate students in the Law Department and M.Sc. Admission by permission of Professor Wheatcroft.

Syllabus The seminar will discuss the legal, accounting and economic aspects of various current problems in taxation. Subjects will be announced in advance.

477 Legal Medicine and Psychiatry

Mr Hall Williams, Dr Stone and visiting speakers. Lectures followed by discussion, Michaelmas and Lent Terms.

For LL.M.; LL.B. Optional for Dip. Soc. Work Studies. Other students may attend by permission.

Philosophy, Logic and Scientific Method

Philosophy, Logic and Scientific Method

485 Introduction to Scientific Method

Professor Watkins. Ten lectures, Michaelmas Term.

For B.Sc. (Econ.) Part I and Part II 2nd yr.; B.Sc. c.u. main fields Soc. Anth. 2nd yr., Soc. Psych., Soc., Maths., Maths. and Phil. 1st yr.; M.Sc.

Syllabus The aim of science. Explanation, prediction, technological control. Independent evidence and the avoidance of *ad hoc* hypotheses. Empirical content. Precision and measurement. Testing and corroboration. The empirical basis. Background knowledge. Induction and simplicity. Criteria for scientific progress. Scientific revolutions. Probability. Statistical hypotheses.

Recommended reading K. R. Popper, *Conjectures and Refutations*, especially the introduction and chaps. 1, 2, 3, 5, 7, 8, 10, 11; *The Logic of Scientific Discovery*, especially chaps. 1-7, 10; R. 488(a) History of Modern Philosophy Class

Mr Mannu. Twenty meetings, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; M.Sc.

489 Philosophy of Science After Kant

Mr Zahar. Ten lectures, Michaelmas Term.

For B.Sc. (Econ.) Part II 2nd and 3rd yrs. Optional for M.Sc.

Syllabus Problems of demarcation: analytic *versus* synthetic, science *versus* non-science. Euclidean geometry and the

Philosophy, Logic and Scientific Method

problem of synthetic *a priori* truth. The epistemological status of scientific laws. Positivism and conventionalism (Mach, Duhem, Poincaré). Operationalism (Mach, Bridgman).

Recommended reading I. Kant, *Prolegomena*; E. Mach, *Popular Scientific Lectures*; H. Poincaré, *Science and Hypothesis*; P. Duhem, *Aim and Structure of Physical Theory*; E. Meyerson, *Identity and Reality*.

490 History of Scientific Thought

Mr Zahar. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part II 2nd and 3rd yrs.; M.Sc.

Syllabus The structure of scientific revolutions, with special reference to the seventeenth century revolution; the main philosophies of science which have accompanied the growth of modern science.

Recommended reading **ESSENTIAL READING:** G. Holton and D. H. D. Roller, *Foundations of Modern Physical Science*.

FURTHER READING: I. B. Cohen, *The Birth of a New Physics*; T. S. Kuhn, *The Copernican Revolution*; D. Brewster, *Memoirs of Sir Isaac Newton*; A. I. 490(a) History of Scientific Thought Class

Mr Zahar. Sessional.

For B.Sc. (Econ.) Part II.

491 Introduction to Logic

Mr Howson. Twenty-four lectures, Sessional.

For B.Sc. (Econ.) Part I and Part II 2nd yr.; B.Sc. c.u. main fields Maths. and Phil. 1st yr., Maths., Soc.; M.Sc.

Syllabus I An informal analysis of validity of inference, consistency and logical independence. Logical form and interpretation. Syntax and semantics. Truth-functional validity and the existence of an effective decision procedure for it. The absence of a general decision procedure for validity of inference. The introduction of formal rules of proof. II Axiomatics. The problems of consistency, independence and completeness. Types of consistency proof. Axiomatised logic. The absence of a finite model for arithmetic, and an informal account of the theorems of Gödel and Church.

III The development of semantics, the Liar paradox and the inconsistency of natural languages.

Recommended reading Formal logic: the principal text is P. Suppe's *Introduction to Logic*, of which the first four chapters constitute the formal foundation of the course. Other works which may be consulted are B. Mates, *Elementary Logic*; W. V. O. Quine, *Elementary Logic*; *Methods of Logic*; I. Copi, *Symbolic Logic*. Other references will be given as the course proceeds.

491(a) Logic Class

Twenty classes. Sessional, in conjunction with Course 491.

For B.Sc. (Econ.) Part I; B.Sc. c.u. main fields Maths. 1st and 2nd yrs., Maths. and Phil. 1st yr., Soc. 1st and 2nd yrs.

491(b) Logic Classes

Ten fortnightly classes, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II.

492 Mathematical Logic

Mr Worrall and Mr Howson.

Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Maths.; M.Sc.

Syllabus Elements of informal set theory. Introduction to first order theories. Turing machines. Incompleteness and undecidability. The Completeness Theorem and some of its corollaries.

Recommended reading P. R. Halmos, *Naive Set Theory*; E. Mendelson, *Introduction to Mathematical Logic*; S. C. Kleene, *Introduction to Metamathematics*. **FURTHER READING** J. R. Shoenfield, *Mathematical Logic*; A. A. Fraenkel and Y. Bar Hillel, *Foundations of Set Theory*; I. Lakatos, *Infinite Regress and the Foundations of Mathematics* (Arist. Soc. Supplementary Vol., 1962).

492(a) Mathematical Logic Class

Mr Howson and Mr Worrall. Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Maths. 2nd yr.

493(i) Boolean Algebras

Dr J. L. Bell. Michaelmas Term.

For M.Sc. Optional for B.Sc. (Maths.) 3rd yr.

Syllabus Lattices. Elementary properties of Boolean algebras. Filters and ultrafilters. Stone representation theorem. Atomic and complete Boolean algebras. Stone spaces of Boolean algebras.

Recommended reading P. R. Halmos, *Lectures on Boolean Algebras*; P. Dwyer, *Introduction to Boolean Algebras*. **FURTHER READING** R. Sikorski, *Boolean Algebras*.

493(ii) Model Theory

Dr J. L. Bell. Lent Term.

For M.Sc.

Syllabus Gödel-Henkin completeness theorem for first order theories. Löwenheim-Skolem theorems. Ultraproducts and applications.

Recommended reading J. L. Bell and A. B. Slomson, *Models and Ultraproducts: An Introduction*.

493(iii) Axiomatic Set Theory

Dr J. L. Bell. Lent and Summer Terms.

For M.Sc.

Syllabus Axiomatic development of Zermelo-Fraenkel set theory. Definitions by transfinite induction. Constructible sets.

Recommended reading J. L. Krivine, *Théorie Axiomatique des Ensembles*; P. Cohen, *Set Theory and the Continuum Hypothesis*.

494 Philosophy of Mathematics

Professor Lakatos and Mr Worrall. Ten lectures and seminars, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. c.u. main field Maths.; M.Sc.

Syllabus Mathematical heuristic. Selected topics in the history of mathematics. The idea of a foundation for mathematics in set theory; the work of Frege, Dedekind and Cantor. The paradoxes of Russell, Cantor and Burali-Forti and the resultant formation of three principal schools: Russell's, Hilbert's and Brouwer's. The decline of Russell's programme for the reduction of mathematics to logic. Hilbert's programme as a positive challenge to Brouwer's intuitionism and the concept of finitary mathematics. Gödel's incompleteness theorems and their effects on Hilbert's programme.

Recommended reading G. Polya, *Mathematics and Plausible Reasoning*; I. Lakatos, "Proofs and Refutations" (*The British Journal for the Philosophy of Science*, 1963-64); S. Körner, *Introduction to the Philosophy of Mathematics*; H. Putnam

SEMINARS

495 Philosophy and Scientific Method

All members of the department. Sessional.

For M.Sc. and other graduate students. Attendance by permission of Professor Watkins or Professor Lakatos.

496 Scientific Method and Epistemology

Professor Watkins, Mr Howson, Mr Zahar and Mr Worrall. Michaelmas and Lent Terms.

For M.Sc.

497 History of Science

Professor Lakatos, Mr Zahar and Mr Maxwell. Michaelmas and Lent Terms.

For M.Sc.

498 Philosophy of the Social Sciences

Professor Watkins, Mr Klappholz and Mr Latsis. Twenty seminars, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; M.Sc. Students are expected to have attended Course 486 Introduction to Scientific Method: Social Sciences.

499 Philosophical Problems

Professor Watkins and Mr Zahar. Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.

500 Logic and Methodology I

Mr Worrall. Ten meetings, Lent Term.

For B.Sc. (Econ.) Part II 2nd yr.

501 Logic and Methodology II

Mr Howson, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.

The following courses are taught at Chelsea College of Science and Technology and constitute part of the teaching for the M.Sc. in Logic and Scientific Method

Theory of Computability (Recursion Theory)

Dr Machover.

Syllabus Introduction. Recursive functionals and functions; machine computable functionals and functions; equivalence of recursiveness and computability. Fundamental theorems; the arithmetic hierarchy; the recursion (fixed point) theorem. Recursively enumerable sets; recursively separable sets; creative sets; productive sets; discussion of Tarski's theorem on the indefinability of truth and of the Gödel-Rosser incompleteness theorem. Degrees of unsolvability; Post's problem and its solution.

Proof Theory

Dr Machover.

Philosophy of Probability and Statistics

Dr Gillies and Dr Solari.

(B) Politics and Public Administration

525 British Government: an Introduction to Politics

Dr Donoughue, Dr G. W. Jones and Professor Self. Sessional

For B.Sc. (Econ.) Part I; B.Sc. c.u. main fields Maths., Soc.

Syllabus A study of constitutional government in Britain with some reference, by way of comparison and contrast, to the experience and traditions of other countries (not excluding autocracies); to be treated as a study both of institutions and of the concepts associated with them and their interaction with changes in the social order.

The Revolution of 1688; constitutional monarchy, parliamentary supremacy, separation and balance of power, judicial independence, the rule of law, rights and liberties. Cabinet government and other forms of executive government. Representation and legislation; the House of Commons; parties, opinion, special interests and pressure groups; the House of Lords; second chambers. The expansion of administration; the civil service; departments and statutory bodies; armed forces and police; state economic and social action; discretionary power and safeguards. Local government, decentralisation, federalism. Extension of constitutional government in the Commonwealth.

The double title of this subject is central to it. The juxtaposition is perhaps insufficiently self-explanatory. Those who have studied the government of Britain at 'A' level should not be misled into thinking that they have covered the subject.

Although they will be much helped—particularly in what they have learnt about the political institutions of the U.K., where there is certainly a significant overlap—they would do well to appreciate the wider and deeper approach shown below. That approach is analytical rather than descriptive, seeking reasons, explanations and justifications. It may also compare alternative ways of solving specific problems or of recognising what have come to be regarded as basic needs of modern societies, and meeting them. Political studies are concerned with the aims which society, judging from its history, ethic and organization, would seem to set itself in ordering its affairs; with its ways of expressing and developing them; and with the methods or institutions through which they are sought to be achieved—sometimes called the process of government. Political study, regarded as a discipline of enquiry, borrows from several others—such as philosophy, psychology, ethics, history and law or jurisprudence. It deals in “concepts” or ideas (as well as “machinery” or institutions), such as rights, liberties, representation, rule of law, equality, leadership, communication and education. The government of Britain is to be seen as a case-study in this context.

Recommended reading Students will be given details of recommended reading shortly before or after the beginning of the course.

584 New States in World Politics

Dr Lyon. Fifteen lectures,
Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; M.Sc.
and other graduate students.

Syllabus The central theme of the course will be the part played by new states in international order. Modern international history presents three main waves of new state making and these have each been consequent upon the collapse of imperial orders: (1) in Latin America in the early nineteenth century; (2) in Eastern Europe at the end of the First World War and in its aftermath; (3) in Asia and Africa, and elsewhere, since 1945. This course will mostly be concerned with the third of these phases, but it will begin by looking briefly at the two earlier phases to provide a historical perspective and some bases for comparison.

Gulliver (Ed.), *Tradition and Transition in East Africa*; R. Firth and B. S. Yamey (Eds.), *Capital, Saving and Credit in Peasant Societies*.

Other reading will be suggested in the course of the classes.

Note Students should also attend Course 849 Social Change and Development in Contemporary Africa.

(iii) Special

652 A Programme of Ethnographic Films

Dr Loizos and Dr Woodburn. Sessional.

For all students, undergraduate and graduate, taking Anthropology as any part of their course.

653 Kinship among the Australian Aborigines

Mr McKnight. Ten lectures, Lent Term.

FOR GRADUATE STUDENTS

655 Seminar on Anthropological Theory

Professor Lewis and other members of the department. Sessional.

For senior graduate students. Admission by permission of Professor Lewis. This seminar is not open to first-year graduate students.

656 Seminar on Current Anthropological Themes

Dr H. S. Morris and Dr Cutileiro. Michaelmas and Lent Terms.

For first- and second-year graduate students. Admission by permission.

657 Thesis-Writing Seminar

Dr Loizos and other members of the department. Sessional.

For all graduate students currently engaged in preparing theses.

658 Regional Seminars

Seminars on the anthropological study of (i) Asia (ii) Melanesia and (iii) Africa *may* be arranged.

659 Teaching Seminar

Dr La Fontaine. Michaelmas and Lent Terms.

For first-year Diploma students and graduate students taking qualifying examinations.

Reference should also be made to the following course:

876 Sociology of Islam (Seminar)

Intercollegiate Seminars for Staff and Senior Graduate Students:

Fieldwork Training

Chairman: Professor Pitt-Rivers
Michaelmas Term. At L.S.E.

Initiation Rituals

Chairman: Dr La Fontaine
Summer Term. At L.S.E.

Admission by permission of
Seminar Chairmen.

Demography

680 Introduction to Demography

Mr Carrier. Twenty lectures and twenty classes, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths. 2nd yr.; Dip. Stats.

Syllabus Sources and reliability of population statistics. Development of censuses and vital statistics. The interpretation of population statistics. The analysis of mortality, nuptiality and fertility.

Recommended reading GENERAL: A. M. Carr-Saunders, *World Population*; F. Lorimer and F. Osborn, *Dynamics of Population*; Royal Commission on Population, *Report* (Cmd. 7695); J. J. Spengler and O. D. Duncan (Eds.), *Population Theory and Policy: Selected Readings*; P.E.P., *World Population and Resources*.

METHODS: D. V. Glass, *Population Policies and Movements in Europe* (Appendix);

I. Dublin, A. J. Lotka and M. Spiegelman, *Length of Life*; M. Spiegelman, *Introduction to Demography*;

U.K. Royal Commission on Population, *Selected Papers of the Statistics Committee*; J. J. Spengler and O. D. Duncan (Eds.), *Demographic Analysis: Selected Readings*; G. W. Barclay, *Techniques of Population Analysis*.

SOURCES: The General Reports of the various Censuses of England and Wales; The Registrar-General, *Statistical Review of England and Wales*; United Nations, *Demographic Yearbook*; United Kingdom, Interdepartmental Committee on Social and Economic Research, Guides to Official Sources, No. 2, *Census Reports of Great Britain, 1801-1931*; P. R. Cox, *Demography*; S.S.R.C., *The Population Census*.

References to articles and works of specialised interest will be given in the lectures.

681 Mathematics of Population Growth

Mr Carrier. Ten lectures, Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc.

(Maths.) 3rd yr.; Dip. Stats. Optional for M.Sc. Recommended for other graduate students.

Students will be expected to have attended Course 680 Introduction to Demography, and to possess some knowledge of the calculus and of linear algebra.

Syllabus A study of certain aspects of stationary and stable populations with practical applications. Application of matrix algebra.

Recommended reading E. C. Rhodes, "Population Mathematics" (*Journal of the Royal Statistical Society*, 1940); United Nations Bureau of Social Affairs, Population Studies, No. 22, *Age and Sex Patterns of Mortality*; No. 25, *Methods of Population Projections by Sex and Age*; No. 26, *The Aging of Populations and its Economic and Social Implications*; N. Keyfitz, *Introduction to the Mathematics of Population*. Detailed references will be given as the course proceeds.

682 Elements of Demographic Analysis I

Mr Langford and Dr Thapar. Twenty hours, Lent Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main fields Geog., Soc.

Syllabus Sources and reliability of population statistics. The life table and its applications. Simple techniques of population projection. Cohort analysis. The study of mortality, nuptiality and fertility. The effect of vital rates on age structure and population growth.

Recommended reading GENERAL: A. M. Carr-Saunders, *World Population*; Royal Commission on Population, *Report* (Cmd. 7695); P.E.P., *World Population and Resources*.

METHODS AND SOURCES: G. W. Barclay, *Techniques of Population Analysis*; P. R. Cox, *Demography*; B. 683 Elements of Demographic Analysis II

Mr Langford and Dr Thapar.
Ten hours, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.

684 Population Trends and Policies

Professor Glass. Ten lectures,
Michaelmas Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. (Maths.) 2nd yr.; B.Sc. c.u. main fields Geog., Soc.; M.Sc.; Dip. Stats.; Dip. Development Admin.

Recommended for other graduate students.

Syllabus The growth and distribution of world population since 1800. Historical trends and territorial differentials in mortality. The course and levels of fertility. International migration. The contemporary demographic situation. The development of the small family. Family size and socio-economic characteristics. Stages of demographic and industrial development. The demographic problems of underdeveloped territories. Population theory and policy.

A reading list will be given at the first lecture in the course.

684(a) Population Trends and Policies Class

Professor Glass. Michaelmas Term.

For B.Sc. (Econ.) Part II: *Demography I* 2nd and 3rd yrs.; B.A./B.Sc. (Soc.) Branch I 3rd yr.; B.Sc. c.u. main fields Geog., Soc. Optional for B.Sc. (Econ.) Part II: 2nd and 3rd yrs.; B.Sc. (Maths.) 2nd and 3rd yrs.; Dip. Stats.

685 Mathematical Techniques for the Manipulation and Analysis of Demographic Data

Mr Carrier. Ten lectures of two hours each, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.; Dip. Stats. Optional for M.Sc. Other students will be admitted only by permission.

Syllabus Manipulation of data classified by age and similar variables. The measurement of infant mortality and fertility. Mathematical models.

Recommended reading will be given during the course.

686 Demography Revision Class

Mr Carrier. Five classes, Summer Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.); Dip. Stats.

FOR GRADUATE STUDENTS

687 Formal Demography

Mr Hobcraft and Dr Thapar.
Twenty hours, Michaelmas Term.

For M.Sc.

Syllabus The construction and use of life tables and other indices of mortality. The concepts of stationary and stable populations. The measurement of fertility and replacement.

688 The Collection and Analysis of Demographic Data on Under-developed Countries

Mr Brass and Mr Britton. Sixty hours, Sessional.

For M.Sc.

Syllabus The design of census-type inquiries. The content and design of census questionnaires. The structure of a census organization. Recruitment and training of field staff. Enumeration problems. The design of special inquiries for the determination of birth and death

Demography

rates and of population growth. Processing techniques and problems. Analysis of age-sex distributions. Estimation of fertility and mortality rates from census and survey data. Use of model life tables and stable population models.

Recommended reading U.N., *Handbook of Population Census Methods* (3 vols.); R. Blanc, *Manual of Demographic Research in Underdeveloped Countries*; Norma McArthur, *Introducing Population Statistics*; 1960 Census of Ghana, Volume V, *General Report*; 1965-66 School of Public Health, Turkey, *Vital Statistics from the Turkish Demographic Survey*; W. 689 The Detection and Reduction of Errors in Demographic Data

Mr Hobcraft. Twenty hours, Lent Term.

For M.Sc.

Syllabus Simple plausibility tests. Self-consistency and independent tests. The oblique axis ogive. The treatment of digital preference. Use of survivorship ratios. Under-enumeration at young ages and overstatement of age at old ages. Sex ratio tests. Testing birth and death registration. Application of stable and quasi-stable population models.

Recommended reading N. H. Carrier and J. N. Hobcraft, *Demographic Estimation for Developing Societies*.

690 Population Trends and Policies (Seminar)

Professor Glass and others. Fortnightly, Sessional.

For M.Sc.

Syllabus Trends and patterns of mortality,

marriage and fertility in both western and non-western societies.

691 Design and Analysis of Investigations relating to Fertility and Birth Control (Seminar)

Professor Glass, Mr Langford, Dr Thapar and others. Fortnightly, Sessional.

For M.Sc.

Syllabus Purpose and design of fertility surveys. The use of surveys in connection with the formulation and implementation of birth control programmes. Problems of questionnaire design in fertility and other demographic surveys.

692 Techniques of Demographic Analysis

Dr Thapar. Twenty hours, Lent Term.

For M.Sc.

Syllabus Examination, analysis and interpretation of data collected through censuses, vital registration and demographic surveys.

Recommended reading will be given during the course.

693 Social and Demographic Problems in Medicine

Dr Douglas and Mr Wadsworth.

Five lectures, Michaelmas Term.

Seven lectures, Lent Term.

Five classes, Summer Term.

For M.Sc. and other graduate students.

Syllabus Early studies of environment and health. The pattern of illness and growth related to demographic and social changes. High-risk groups in the population, problems of identification. Comparisons of the health of populations. Use of sociological methods in the study of disease. Introduction to sociological studies in medicine.

Recommended reading A. Bradford Hill, *Statistical Methods in Clinical and Preventive Medicine*; G. W. Brown and J. Wing, *Comparative Clinical and Social*

Psychology

695 Introduction to General and Social Psychology

Sections (i), (ii) and (iii) for B.Sc. c.u. main field Soc. Psych. 1st yr. Section (i) for B.Sc. (Econ.) Part I and Part II 2nd yr.; B.Sc. c.u. main fields Geog., Maths., Soc., Soc. Anth. 1st yr. Sections (i) and (iii) for B.Sc. S.S. and A.; Dip. Soc. Admin. 1st yr. and one-yr. (incl. Overseas Option).

(i) Introduction to General and Social Psychology

Mrs Geber and others. Twenty-five lectures. Sessional.

Syllabus Learned and unlearned patterns of behaviour in man and animals. Ways of perceiving and comprehending the environment. Modes and development of thinking, concept formation and categorisation. Development of individual differences in ability and personality. The process of socialisation: social learning, imitation and modelling; societal and familial influences. Attitudes and social behaviour: their development and organization; decision making and attitude change. Social interaction: behaviour in small and large groups. Throughout the lecture course stress will be laid on the methodology of psychological enquiry. Experience in acting as a subject for a psychological experiment can be obtained. Reference to simple statistics will be made. Students not attending a statistics course are advised to consult an elementary book on statistics for reference purposes.

(ii) Context of Psychology

Mr Hotopf. Seven lectures, Lent Term.

Syllabus Relationship of psychology to other sciences. Its history seen in terms of its relation to philosophy, the social and natural sciences. Behaviourism *versus* introspectionism, a conceptual and methodological confrontation. The independent origin of Freudian theory. Later historical developments.

Recommended reading D. S. Wright *et al.*, *Introducing Psychology*; D. Krech and P. Zimbardo, *Psychology and Life*; D. Krech, R. S. Crutchfield and E. L. Ballachey, *Individual in Society*; R. Brown, *Social Psychology*.

(iii) Psychoanalytic Theories and their Application

Five lectures, Lent and Summer Terms

Syllabus Introduction to Freudian and post-Freudian theories; implications of these theories for the study of individual and social behaviour.

695(a) Introduction to General and Social Psychology (Classes)

Sessional.

For B.Sc. c.u. main field Soc. Psych. 1st yr.

695(b) Introduction to General and Social Psychology (Classes)

Sessional.

For B.Sc. (Econ.) Part I; B.Sc. c.u. main fields Geog., Maths., Soc., Soc. Anth. 1st yr.

695(c) Introduction to General and Social Psychology (Classes)

Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.

696 Foundations of Experimental Psychology

Dr Seaborne. Twenty-five lectures, Sessional.

For B.Sc. c.u. main field Soc. Psych. 1st yr.

Syllabus Processes of information intake, psychophysical judgment, signal detection, perceptual organization, selective attention. Conditions for the acquisition of learned behaviour: classical and instrumental conditioning, generalisation, discrimina-

tion and transfer of training. The role of incentives and motivation in learning, problems of reinforcement, reward schedules, brain mechanisms in reinforcement. Extinction and forgetting, interference theories, autonomous changes in memory, short-term memory. Development of learning capacity, learning sets, critical learning periods. Social learning, observational learning, social reinforcers.

Recommended reading will be given during the course.

Students taking this course should also attend Course 919.

697 Fundamental Approaches to the Study of Behaviour

For B.Sc. c.u. main field Soc. Psych. 1st yr.

(i) Biological Bases of Behaviour

Professor Wolpert (Middlesex Hospital Medical School). Twenty-five lectures, Sessional.

Syllabus Basic cell structure and function of the nervous system including sense organs. The effects of drugs on the nervous system. Genetics: Mendelism, linkage, population and quantitative aspects.

(ii) Practical Course

Dr Stockdale. Twenty-five laboratory sessions.

698 Basic Processes of Behaviour

Dr Stockdale and other members of the department. Twenty seminars, Michaelmas and Lent Terms.

For B.Sc. c.u. main field Soc. Psych. 1st yr.

Syllabus This is a seminar course examining the relationships between physiological and psychological mechanisms. Specific topics to be discussed will include physiological aspects of motivation, neurological disorders of cognitive processes, psychopharmacology, animal behaviour, genetic aspects of intellectual abnormality, physiological determinants of perception.

699 Social Psychology: Cognition, Attitudes and Social Behaviour

Sections (i) and (ii) for B.Sc. c.u. main field Soc. Psych. 2nd yr. Sections (i) and (iii) for B.Sc. (Econ.) Part II 3rd yr.; B.A./B.Sc. (Soc.) Branch I 3rd yr., Branch III 2nd yr.; B.Sc. c.u. main fields Soc. Anth. 2nd yr., Geog., Soc.

(i) Attitudes and Social Behaviour I

Mr A. D. Jones. Ten lectures, Michaelmas Term.

Syllabus The nature of attitudes. Cognitive, emotional and behavioural aspects of attitudes. The functional basis of attitude formation. Social processes of attitude elicitation. Stereotypes and prejudice attitudes. The basis of attitude measurement. The principle of consistency of attitudes.

(ii) Attitudes and Social Behaviour II

Mr A. D. Jones. Six lectures, Lent Term.

Syllabus Social influence processes. Co-operation and competition. Dyadic interaction and exchange theory. Norms and conformity. Leadership and social power. Group decision making and the physical properties of groups. Intergroup conflict.

(iii) Psychological Approaches to the Study of Society

Mr A. D. Jones. Ten lectures, Lent Term.

Syllabus Personality and social behaviour. The processes of socialisation, personality traits and their relationship to racial conflict, economic organization and development. The relationship between cultural and social class characteristics and intelligence, perception and attitudes etc. Rules and behaviour in institutions. Selected topics from industrial psychology, mass media studies, exchange theory, interpersonal communication and group dynamics.

Recommended reading will be given during the course.

Social Psychological Research**

Mr Gaskell, Dr Oppenheim, Dr
Stockdale and other members of
the department. Twenty-four
lectures and laboratory sessions.
Sessional.

For B.Sc. c.u. main field Soc. Psych.
2nd yr.

Syllabus Theory and practice of inter-
viewing; introduction to further aspects
of survey methodology, especially attitude
scaling and questionnaire design.
Experimental methods in social psycho-
logy, especially in relation to attitude
change, interpersonal influence and group
decision making. Statistical methods
relevant to social psychological research,
particularly analysis of variance and
correlation.

Dr Seaborne and Dr Stockdale.
Twenty-five lectures, Sessional.

For B.Sc. c.u. main field Soc. Psych.
2nd yr.

Syllabus The course will deal with recent
studies of learning especially those con-
cerned with complex behavioural processes
such as social learning, changes in cognitive
functioning with age, language develop-
ment applications to clinical psychology
and perceptual learning.

**702(a) Learning, Memory and
Thinking (Classes)**
Fortnightly, Sessional.

**703 Personality, Motivation and
Development I**

For B.Sc. c.u. main field Soc. Psych.
2nd yr.

(i) Personality and Motivation I
Dr A. P. E. L. Sealy. Twenty
lectures, Michaelmas and Lent
Terms.

Syllabus Clinical *versus* statistical pre-
diction in the study of personality;
individual differences in personality as
revealed by description, self-report,
behaviour, physiological reactions and
symptom clusters. Concepts of trait, type
and dimension. Structure of personality;
defence and coping mechanisms; human
motivations and emotion. Introduction to
the theory and practice of personality
measurement by questionnaire, projective
techniques and repertory grid methods.

Michaelmas Term.

791 Principles and Practice of Social Work

Miss Butrym, Miss Elkan, Miss Edmonds, Mr Gregory, Mr Howell, Mr Sage, Miss Sinanoglou and Mrs Thomas. Twenty-seven seminars, Sessional.

Syllabus The aim of the seminars is to provide the necessary background theory through a study of concepts and methods used in social work. The study of casework is a major part of these seminars, but attention is also given to group and community work. The seminars are closely related to the various lecture courses and form a bridge between these and field work.

792 Social Work and Social Problems

Mr Howell, Mr Sage, Miss Wilson and others. Twelve lectures, Michaelmas and Lent Terms.

Syllabus This course discusses a number of social problems and considers the ways in which such phenomena come to be defined as a "social problem". Theories of description (e.g. "deviance", "social disorganization") and theories of causation. The part played by social work and the social sciences in defining and dealing with social problems.

793 Human Growth and Development

Dr Stewart Prince. Twenty lectures, Michaelmas and Lent Terms.

Syllabus The biological and psychological

development of the individual from birth until old age, and the relevance of modern theories of personality to each phase of development. Psycho-analytic theory and its derivatives. Deviations from the normal commonly met with in social work practice. Parent-child relationships, family dynamics and the psychology of marriage. The implications of such adverse experience as emotional deprivation, illness, bereavement and placement in an abnormal environment.

794 Clinical Psychiatry

Dr Cawley. Ten lectures,
Michaelmas and Lent Terms.

Syllabus The concept of mental illness and its significance in medical and psychiatric practice. The interplay of somatic, psychological, and social interactional variables in the genesis of symptoms, interpersonal difficulties, and deviant behaviour. The work of the psychiatric team. The phenomena and classification of mental illness, and the contrasting features of different syndromes. Consideration of each of the main groups of syndromes, with special regard to (a) theories concerning biological, developmental and psychosocial aspects of causation; and (b) a multi-dimensional approach in management and treatment. The scope and limitations of somatic (physical) methods of treatment. Types of psychotherapy and indications and contra-indications for their use. Social treatment and family therapy; management in the hospital and in the community.

795 Clinical Aspects of Child Development

Dr Hersov. Eight seminars, Lent and Summer terms.

Syllabus Theory of emotional development of infant and child. Evaluation of the environmental factor. Health in terms of emotional maturity and ill-health in terms of distortions in emotional growth. Classification according to the specific needs of each case. Clinical material illustrating health and ill-health at various ages; interview reports with discussion of technique. Aetiology of psychoneurosis, antisocial tendency and psychosis. The

effect of physical disease and of mental defect on the personal pattern of defence against anxiety.

796 The Meaning of Health and Disease

Dr Thurston. Eight lectures,
Lent Term.

Syllabus The basic principles underlying health and ill-health. The physiology and pathology of the main systems of the body and the incidence of the more common diseases in the different age groups. The interaction of medical, social and emotional factors.

797 Theories of Personality Development

Professor Plowman and Miss Elkan. Eight lectures, Michaelmas Term.

798 Theories of Small Groups

Miss Sinanoglou. Five lectures,
Lent Term.

799 Family and Marital Interaction

Mr Woodhouse, Summer Term.

800 Forms of Substitute Care

Miss Edmonds. Five lectures, Lent Term.

801 Psycho-Social Aspects of Health Care

Miss Butrym. Eight lectures, Lent Term.

Syllabus The course is primarily concerned with a study of the differing concepts of health and medical care, with the various factors influencing these, and with their effects on the health services. Particular attention will be given to the following more specific aspects of the theme: the cultural and social influences affecting people's attitudes towards health, sickness, and medical care; the characteristics of the various health institutions including the issues involved in an integration of the scientific and the "whole person

Social Science and Administration

medicine" approaches; the place of social work in promoting health through participation in preventive, therapeutic and rehabilitative programmes; and the various obstacles to a truly effective contribution by social workers in this field.

Recommended reading will be given during the course.

802 Organization and Social Policy

Dr Hadley and Mr A. L. Webb.

Ten lectures, Michaelmas Term.

Syllabus Some of the key administrative problems and processes associated with social welfare organizations. The manner in which scarce services are allocated. The relationships between organizations. The processes of organizational growth, development and change. Information, communication and decision. Administrative discretion and the use of professional power. The design of administrative structures.

Sociology

I Undergraduate Courses

830 Introduction to Sociology

(i) Professor MacRae. Eight lectures, Michaelmas Term.

For B.Sc. c.u. main fields Soc. 1st yr., Geog., Maths., Soc. Anth., Soc. Psych.; B.Sc. (Econ.) Part I; Part II 2nd yr.; B.Sc. S.S. and A. 1st yr.

(ii) Mr Hopkins. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part I; Part II 2nd yr.; B.Sc. c.u. main fields Soc. 1st yr., Geog., Maths., Soc. Anth., Soc. Psych.; B.Sc. S.S. and A. 1st yr.; Dip. Personnel Management; Dip. Soc. Admin., incl. Overseas Option (one-year and first year); Dip. Development Admin.; M.Sc.

Syllabus Each of us has spent several years observing ourselves and others behaving. Consciously and unconsciously we have taken into account the thoughts and feelings of others as they behave, even though the evidence which others give us is often ambiguous. Other people with different values and from different sub-cultures and cultures interpret the same behaviour differently. We have a repertory of observations and understandings. Students of sociology should exploit this repertory and try to find out how much it is shared by others—both by conversation, reading (novels and newspapers, as well as sociology books) and observing. This exploration will probably show that each perception encompasses only a small portion of reality, that perceptions conflict with one another and that the values we start with dictate not only what we perceive, but also the questions we ask and what we take for granted. These problems can also be stated in

more formal and abstract language. One advantage of doing this is that it puts our own experience in its place. Individual humans can perceive only a small sector of action. We are born into a society, with our sex, age and social status given. We are each unlike anybody else, a unique configuration; but the components of each configuration are similar to components in other people. Men and women in England aged twenty to twenty-four have high probability of falling in love and marrying. We can predict the probability of marriage without knowing anything about the individuals. Sociologists are concerned with the relationships which hold between patterns such as these, which individuals cannot perceive. In order to analyse data on age, sex and class-related behaviour sociology students should be able to understand rudimentary statistics and be able to read and construct tables.

By the end of the first year of studying sociology, students should have a good idea of their own values and of the values held by some other social groups. They should also have at their command a range of concepts (such as function, model, ascription class), and understand the difficulties, benefits and short-comings of each and their relationship to one another. They should be able to temper an abstract statement of sociological theory by seeing whether it coincides with what is known about behaviour in our own society and in some other societies, either contemporary or past.

834(b) Social Research (Revision Class)

For B.Sc. c.u. main field Soc. 2nd yr.

Note on Social Philosophy Courses

Courses 835-838 are intended principally for students reading sociology, and the main criterion governing content is relevance to sociology. The aim is to give students a general idea of the conceptual and ethical problems which arise in the study of society, so that they will be able to recognize these problems and to relate them both to major philosophies and to their own more concrete work in sociology.

Recommended reading This reading list is not definitive. No student would be expected to read *all* these books. Every student would be likely to consult a number of sources not listed here. The aim has been to list most of the main books which students may be recommended to read or refer to, with the exception of some obviously relevant works on the Theories and Methods of Sociology which it would be tedious to list here as well as under the course of that name. Articles in journals are not listed: references will be given during the courses. Some main journals in which relevant articles are likely to be found (apart from the standard sociological journals) are: *British Journal for the Philosophy of Science*; *Ethics*; *History and Theory*; *Inquiry*; *Mind*; *Philosophical Review*; *Philosophy*; *Philosophy of Science*;

836 Values and Society

Professor Gellner. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. c.u. main fields, Soc., Soc. Psych. 2nd yr.; B.Sc. (Econ.) Part II.

Syllabus The course will deal with some of the main types of ethical theory from a sociological as well as a philosophical viewpoint. Specific moral philosophies such as Utilitarianism, Kantianism, or psychological ethics will be examined as specimens of the kinds of reasoning by means of which thinkers have attempted to provide a rationale for a social order or for social reform. Both the internal logical structure and the

external social implications of these systems will be considered.

Recommended reading See Note on page 526. Further references for reading will be given during the course.

837 Sociology of Ideas

Professor Gellner. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. c.u. main fields, Soc., Soc. Psych, 2nd yr.; B.Sc. (Econ.) Part II 3rd yr.; B.A./B.Sc. (Soc.) Branch I 3rd yr.; M.Sc.

Syllabus This course will consider some of the main theories of knowledge and examine both their internal logical structure and their role as charters of or guidelines for cognitive practices. The logical merits, mutual relations, and social role of some of the principal modern philosophies will be considered.

Recommended reading See Note on page 526. Further references for reading will be given during the course.

(ii) **Whole course** for B.Sc. c.u. main fields Maths. 1st yr., Maths. and Phil. 1st yr.

Syllabus The manipulative techniques of the differential and integral calculus.

903(a) Calculus Class

Dr R. A. Holmes. Twenty classes, Michaelmas and Lent Terms.

For B.Sc. c.u. main fields Maths. 1st yr., Maths. and Phil. 1st yr.

903(b) Calculus Class

Dr Bell. Ten classes, Michaelmas Term.

For B.Sc. (Econ.) Part I; B.Sc. c.u. main field Geog.

904 Introduction to Analysis and Set Theory

Dr Binmore. Fifty lectures, Sessional.

For B.Sc. c.u. main fields Geog., Maths. 1st yr., Maths. and Phil. 1st yr.; B.Sc. (Econ.) Part I and Part II 2nd yr.

Syllabus Elementary set theory. The real number system. Convergence and continuity. Differentiation and integration. Point set topology in a finite dimensional space. The idea of measure.

Recommended reading J. C. Burkill, *An Introduction to Mathematical Analysis*.

904(a) Introduction to Analysis and Set Theory Class

Dr Binmore and Dr R. A. Holmes. Twenty-five classes, Sessional, beginning in the second week of the Michaelmas Term.

905 Introduction to Abstract Algebra

Dr Freedman. Twenty-five lectures, Sessional.

For B.Sc. c.u. main fields Maths. 1st yr., Maths. and Phil. 1st yr.

Syllabus Sets and mappings. Integers. Integral domains. Quotient fields. Polynomials. Euclidean rings. Elementary group theory.

905(a) Introduction to Abstract Algebra Class

Dr Freedman. Twenty classes, Sessional, beginning in the third week of the Michaelmas Term.

For B.Sc. c.u. main fields Maths. 1st yr., Maths. and Phil. 1st yr.

906 Real Variable I

Professor Offord. Forty lectures, Sessional.

Whole course for B.Sc. c.u. main field Maths. 2nd yr. **Fifteen lectures only** for B.Sc. (Econ.) Part II 2nd yr.

Syllabus Topics selected from: measure and integration theory; topological spaces with special references to metric spaces; linear functions; convex sets; elements of the calculus of variance.

906(a) Real Variable I Second-Year Class

Professor Offord. Twenty-five classes, Sessional.

907 Introduction to Topology

Dr Bell. Thirty lectures, Sessional.

For B.Sc. c.u. main field Maths. 2nd yr.; B.Sc. (Econ.) Part II 2nd yr.; M.Sc.

Syllabus Topological spaces. Continuous functions. Metric spaces and Urysohn's metrisation theorem.

907(a) Topology Second-Year and Third-Year Class

Dr Bell. Thirty classes, Sessional.

908 Algebra II

Dr Freedman. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. c.u. main field Maths. 2nd yr.

Syllabus Rings. Unique factorisation and principal ideal domains. Finitely generated modules over a principal ideal domain. Applications to abelian groups and matrices.

908(a) Algebra II Class

Dr Freedman. Twenty classes, Sessional, beginning in the second week of the Michaelmas Term.

For B.Sc. (Maths.) 3rd yr.; B.Sc. c.u. main field Maths. 2nd yr.

909 Complex Variable

Dr Boardman. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. c.u. main field Maths. 2nd yr.

Syllabus Point set topology. Functions of a complex variable. Integration along rectifiable curves. Cauchy's theorem for a triangle. Bilinear and other elementary transformations. Power series. Taylor and Laurent expansion. Calculus of residues. The Maximum Principle.

909(a) Complex Variable Second-Year Class

Dr Boardman. Twenty classes, Sessional.

For B.Sc. c.u. main field Maths. 2nd yr.

909(b) Complex Variable Third-Year Class

For B.Sc. (Maths.) 3rd yr.

910 Theory of Probability

Dr R. A. Holmes. Sessional.

For B.Sc. (Maths.) 3rd yr.

Syllabus Measure theory and integration. Probability measures. Random variables, distribution and characteristic functions. Convergence of sequences of distribution functions and their application to convergence theorems for sums of independent random variables.

910(a) Theory of Probability Third-Year Class

Dr R. A. Holmes.

For B.Sc. (Maths.) 3rd yr.

911 Real Variable II

Dr Binmore. Sessional.

For B.Sc. (Maths.) 3rd yr.

911(a) Real Variable II Class

Dr Binmore.

For B.Sc. (Maths.) 3rd yr.

912 Algebra III

Dr Freedman. Michaelmas and Lent Terms.

For B.Sc. (Maths.) 3rd yr.

Syllabus Abelian groups. Basic properties of abelian groups, free groups, divisible groups, pure sub-groups, basic sub-groups, Ulm's theorem, homomorphism groups, tensor products, torsion free groups.

912(a) Algebra III Class

For B.Sc. (Maths.) 3rd yr.

913 Mathematics A

(i) Mr Shorrocks.

Second Year: three hours per week, Sessional.

(ii) Dr Wymer.

Third Year: one hour per week, Lent Term.

For B.Sc. (Econ.) Part II; Dip. Stats.

Syllabus Vectors, matrices and quadratic forms. Differential calculus of one and several variables. Stationary values. Lagrange multiplier. Complex numbers. Integral calculus. Series, expansions. Difference and differential equations.

Recommended reading G. Hadley, *Linear Algebra*; D. Gale, *Theory of Linear Economic Models*; R. G. D. Allen, *Mathematical Analysis for Economists*; R. Courant and F. John, *Introduction to Calculus and Analysis*, Vol. I.

914 Mathematics B

Dr R. A. Holmes, Dr Boardman, Mr Hajnal, and Dr Knott. Two hours a week, Sessional.

Whole course for B.Sc. (Econ.) Part II: *Mathematics B* 2nd yr.; Dip. Stats.

Selected lectures for B.Sc. (Econ.) *Real Variable*, Part II 2nd yr.

Syllabus *Calculus* Partial differentiation. Implicit functions. Change of variables in partial differentiation. Homogeneous functions. Taylor's theorem, maxima and

minima, maxima and minima with constraints. Repeated integration and multiple integrals. Volume and area. Transformations, Jacobians and change of variable in multiple integrals. Improper integrals. Beta and gamma functions.

Matrix methods Topics chosen from matrices and vectors with complex elements, partitioned matrices, spectral decomposition of a Hermitian matrix, singular value decomposition of a matrix, Kronecker products, matrix derivatives, matrix valued random variables, vectoring, some special inverse matrices, projection matrices. Generalised inverse of a matrix.

Differential and difference equations First order differential equations. Linear differential equations with constant coefficients. Laplace transforms. Linear difference equations. Factorial polynomials. Generating functions.

Complex variable Elementary functions. Analyticity. Cauchy-Riemann equations. Power series. Integration of complex functions. Residues and evaluation of real integrals.

914(a) Mathematics B Second-Year Class

Dr R. A. Holmes, Dr Boardman, Dr Knott and Mr Hajnal. Thirty hours, Sessional.

914(b) Mathematics B Third-Year Revision Class

Dr R. A. Holmes, Dr Boardman, Dr Knott and Mr Hajnal. Ten hours, Lent Term.

915 Introduction to Sets and Metric Spaces: Theory

Mr Foldes. Twenty lectures of one-and-a-half hours, Michaelmas Term.

For M.Sc.: *Advanced Mathematical Economics I and II*.

First three weeks only for M.Sc.:
Theory of Optimal Decisions.

Syllabus Elementary properties of sets, relations and functions. Equivalence and ordering relations. Cardinal numbers. Metrics, open and closed sets, limits, continuity. Compact and connected sets in metric spaces. Linear and affine spaces, subspaces and functions. Inner products and norms. Convex sets. Separating hyperplanes. Simplexes. Fixed points.

Recommended reading Basic reading: On sets and relations: R. R. Stoll, *Sets, Logic and Axiomatic Theories*, chap. 1. or P. R. Halmos, *Naive Set Theory*. Main text: H. Nikaido, *Introduction to Sets and Mappings in Modern Economics*.

916 Mathematics for Mathematical Economics

Professor Sargan. Ten lectures, Lent Term.

For M.Sc.

Syllabus Kuhn-Tucker theorem, properties of non-negative matrices, stability of difference and differential equations systems, Lyapoumov functions.

Recommended reading H. W. Kuhn and A. W. Tucker, *Second Berkeley Symposium on Mathematical Statistics and Probability*; F. R. Gantmacher, *Applications of the Theory of Matrices*; K. Lancaster, *Mathematical Economics*; J. Bram and T. L. Saaty, *Non-Linear Mathematics*.

Reference should also be made to the following courses:

493(i) **Boolean Algebras**

493(ii) **Model Theory**

493(iii) **Axiomatic Set Theory**

(b) STATISTICAL THEORY AND METHOD

917 Elements of Statistical Methods

Mrs Prais and Dr Reid. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part I; B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main fields Soc. Anth., Geog.; M.Sc. prelim. and final yrs,

Syllabus Elementary mathematics and various descriptive and analytic statistical techniques: measures of average and dispersion; distributions; tests of hypotheses concerning means, proportions and association; regression and correlation.

Recommended reading R. G. D. Allen, *Statistics for Economists*; A. R. Ilersic, *Statistics*; J. E. Freund and F. J. Williams, *Modern Business Statistics*; B. C. Brookes, and W. F. L. Dick, *Introduction to Statistical Method*; M. R. Spiegel, *Schaum's Outline Series, Statistics*.

917(a) Elements of Statistical Methods Class

Class teachers to be announced. Twelve classes, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part I: *Quantitative Methods for Economists*.

917(b) Elements of Statistical Methods Class

Mrs Prais, Dr Reid and others. Twenty classes, Sessional.

For B.Sc. (Econ.) Part I: *Elements of Statistical Methods*; B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main fields Geog., Soc. Anth. 2nd yr.; M.Sc. prelim. and final yrs.

918 Survey Methods for Social Research

Dr Phillips. Five lectures, Michaelmas Term and five lectures, Summer Term.

(i) **First five lectures** for B.Sc. c.u. main field Soc. 1st yr.; Dip. Personnel Management.

Syllabus Sample survey techniques.

(ii) **Whole course** for B.Sc. (Econ.) Part I; B.Sc. S.S. and A. 1st yr.; Dip. Soc. Admin. 2nd and one-yr.; B.Sc. c.u. main fields Soc. Anth. 2nd yr., Geog.; M.Sc. prelim. yr.; Dip. Development Admin. Recommended for graduate students.

Syllabus Problems associated with the planning and execution of statistical

investigations by sample survey techniques with case study illustrations.

Recommended reading F. Yates, *Sampling Methods for Censuses and Surveys*; B. S. Rowntree, *Poverty and Progress*; *New Survey of London Life and Labour*; M. A. Abrams, *Social Surveys and Social Action*; P. Gray and T. Corlett, "Sampling for the Social Survey" (*Journal of the Royal Statistical Society*, 1950); C. Selltitz and others, *Research Methods in Social Relations*; L. Festinger and D. Katz (Eds.), *Research Methods in the Behavioural Sciences*; H. H. Hyman and others, *Interviewing in Social Research*; H. H. Hyman, *Survey Design and Analysis*; C. A. Moser and G. Kalton, *Survey Methods in Social Investigation*; F. Edwards (Ed.), *Readings in Market Research*; A. Bradford Hill, *Statistical Methods in Clinical and Preventive Medicine*.

918(a) Survey Methods for Social Research Class

Dr Phillips, Mrs Spitz and others. Five fortnightly classes, Lent Term.

For B.Sc. (Econ.) Part I; B.Sc. c.u. main fields Geog., Soc. Anth. 2nd yr.

918(b) Survey Methods Class

Mr Davies. Fifteen hours, Lent and Summer Terms.

For B.A./B.Sc. (Soc.) Branch III 2nd yr.

919 Statistical Methods for Social Research

Mr Fielding. Twenty lectures, Sessional, beginning in the third week of the Michaelmas Term.

First fifteen lectures for B.Sc. c.u. main field Soc. 1st yr.; Dip. Personnel Management; M.Sc. prelim. yr.; Dip. Soc. Admin., 1st yr. and one-yr.

Whole course for B.Sc. c.u. main field Soc. Psych. 1st yr.; B.Sc. S.S. and A. 1st yr.

Syllabus Measurement and observation, elements of descriptive statistics. Theoretical models of frequency dis-

tributions. Elementary probability. Sampling distributions, elements of statistical inference, estimation and hypothesis testing. Selected techniques for hypothesis testing. Two-variable correlation and regression. Elementary non-parametric techniques. One-way analysis of variance.

Recommended reading H. M. Blalock, *Social Statistics*; W. A. Wallis and H. V. Roberts, *Statistics, a New Approach*; A. R. Illersic, *Statistics*; R. S. Weiss, *Statistics in Social Research*; H. Zeisel, *Say it with Figures*; G. Kalton, *Introduction to Statistical Ideas for the Social Scientist*; D. J. Bartholomew, *Let's Have a Look at the Figures*; D. Huff, *How to Lie with Statistics*; R. M. Cormack, *The Statistical Argument*; W. Reichmann, *The Uses and Abuses of Statistics*; W. Liebermann, *Contemporary Problems in Statistics*.

919(a) Statistical Methods for Social Research Class

Mr Fielding, Professor Bartholomew and Mr Davies. Eighteen or twenty-three classes.

920 Introductory Practical Statistics

Mr Webster. Twenty lectures, Michaelmas and Lent Terms.

For Trade Union Studies course.

Recommended reading R. Langley, *Practical Statistics for Non-Mathematical People*; C. A. Moser, *Survey Methods in Social Investigation*.

921 Elementary Statistical Theory I

Dr Wallis. Thirty lectures, Michaelmas and Lent Terms.

Whole course for B.Sc. (Econ.) Part I; B.Sc. c.u. main fields Maths. 1st yr., Geog.

Michaelmas and Lent Terms only for B.Sc. (Econ.) Part II 2nd yr.

Syllabus Descriptive statistics. Probability and distribution theory. Sampling. Estimation and tests of hypotheses. Statistical relationship. Time series.

Recommended reading INTRODUCTORY:

P. G. Hoel, *Elementary Statistics*.

GENERAL: J. E. Freund, *Modern Elementary Statistics*; R. E. Walpole, *Introduction to Statistics*; R. J. and T. H. Wonnacott, *Introductory Statistics*.

Further references will be given during the course.

921(a) Elementary Statistical Theory I Class

Dr Wallis and others. Weekly classes, Sessional.

922 Elementary Statistical Theory II

Dr Hendry. Ten lectures, Summer Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths. 2nd yr.

Syllabus Theory of the general linear regression model. Partial and multiple correlations. A familiarity with matrix algebra will be assumed.

Recommended reading J. Johnston, *Econometric Methods*, chaps. 1-4.

922(a) Elementary Statistical Theory II Classes

Summer Term.

923 Elements of Statistical Theory and Methods Revision Class

Dr Reid. Eight classes, Lent Term, beginning in the third week.

For B.Sc. (Econ.) Part II 3rd yr.

924 Probability

Mr Hajnal. Twelve lectures and five classes, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; M.Sc.

Syllabus Discrete sample spaces. Definitions and rules of probability. Conditional probability. Independence. Random variables and calculus of expectations. Frequency-generating functions. Bernoulli trials. Binomial,

negative binomial, Poisson, hypergeometric, multinomial distributions. Poisson process. Mixtures and compound distributions. Random walks.

Recommended reading W. Feller, *An Introduction to Probability Theory and its Applications* (Vol. I).

925 Theory of Statistical Distributions

Dr Milne. Eighteen lectures and five classes. Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths. 2nd yr.; M.Sc.

Syllabus Distribution and frequency functions. Moments, cumulants and their generating functions. Characteristic functions. Distributions of sums. Weak law of large numbers and Central Limit theorem. Change of variables technique. Linear (including orthogonal) transformations. Ratios of random variables. Bivariate and multivariate generalisations. Independence. Order-statistics and functions of them. Distributions associated with the normal, including F , χ^2 , t and the bivariate normal. Standard errors.

Recommended reading A. M. Mood and F. A. Graybill, *Introduction to the Theory of Statistics*; M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. I.

926 Theory of Statistical Methods (Second Year)

Professor Bartholomew and Miss S. A. Brown. Twenty lectures, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths. 2nd yr.

Syllabus Applications and theory of the normal distribution, statistical tests and procedures, least squares, analysis of variance and covariance, regression and correlation analysis.

Recommended reading N. R. Draper and H. Smith, *Applied Regression Analysis*; M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. II; D. A. S. Fraser, *Statistics: An Introduction*.

926(a) Theory of Statistical Methods Class (Second Year)

Professor Bartholomew and Miss S. A. Brown. Ten classes, alternate weeks, Lent and Summer Terms.

927 Theory of Statistical Methods (Third Year)

Dr Knott and Dr Milne. Fifteen lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. Maths. 3rd yr.

Syllabus Further analysis of variance and experimental design. Non-parametric methods. Sequential tests.

Recommended reading D. A. S. Fraser, *Statistics: An Introduction*; M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vols. II and III; H. Scheffé, *The Analysis of Variance*; K. A. Brownlee, *Statistical Theory and Methodology in Science and Engineering*.

927(a) Theory of Statistical Methods Class (Third Year)

Dr Knott and Dr Milne. Five classes, Lent Term.

928 Sample Survey Theory

Mr O'Muircheartaigh. Ten lectures, Michaelmas Term.

For Dip. Stats.; B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr. Optional for M.Sc.

Further treatment of sample survey theory is provided in Course 969.

Syllabus Simple random sampling; stratification; multi-stage sampling. Optimum allocation for given cost function. Selection with unequal probabilities.

Recommended reading W. G. Cochran, *Sampling Techniques*; L. Kish, *Survey Sampling*; M. H. Hansen, W. N. Hurwitz and W. G. Madow, *Sample Survey Methods and Theory*; F. Yates, *Sampling Methods for Censuses and Surveys*;

Statistics, Mathematics, Computing and Operational Research

A. Stuart, *Basic Ideas of Scientific Sampling*; M. R. Sampford, *An Introduction to Sampling Theory*.

929 Sample Survey Applications

Mrs Spitz and Mr O'Muirheartaigh. Ten lectures, Lent Term.

For Dip. Stats.; B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.; M.Sc.

930 Estimation and Tests

Professor Durbin. Fifteen lectures and five classes, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.; Dip. Stats.

Syllabus Criteria of estimation: consistency, unbiasedness, efficiency, minimum variance. Sufficiency. Maximum likelihood estimation and its properties. Bayesian estimation. Confidence intervals. Elementary notions of the theory of tests.

Recommended reading A. M. Mood and F. A. Graybill, *Introduction to the Theory of Statistics*; D. V. Lindley, *Introduction to Probability and Statistics from a Bayesian Viewpoint*, Vols. I and II; M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. II (chaps. 17, 18, 22).

931 Probability and Statistical Theory: Problems Class (Third Year)

Dr Milne. Thirteen classes, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) Part II 3rd yr.

(c) APPLIED STATISTICS

932 Macro-Economic Statistics

Professor Sir Roy Allen and Mrs Prais. Twenty-five lectures, Sessional.

For B.Sc. (Econ.) Part II 2nd yr.; Dip. Stats.; graduate students by permission.

Syllabus An introduction to the main sources of macro-economic statistics. National income accounting: conceptual framework and methods of estimation. Elementary statistical techniques applied in the analysis of macro-economic data. Construction and estimation of simple econometric models.

Recommended reading E. Devons, *An Introduction to British Economic Statistics*; U.K. Central Statistical Office, *New Contributions to Economic Statistics*; *Economic Trends* (monthly); *National Income and Expenditure* (annual); *United Kingdom Balance of Payments* (annual); *National Accounts Statistics, Sources and Methods* (1968 edn); W. Beckerman, *An Introduction to National Income Analysis*; R. J. Nicholson, *Economic Statistics and Economic Problems*; R. G. D. Allen, *Statistics for Economists*; L. R. Klein, *Introduction to Econometrics*; A. A. Walters, *An Introduction to Econometrics*.

932(a) Macro-Economic Statistics Classes

Sessional, beginning in the fifth week of the Michaelmas Term.

932(b) Economic Statistics Revision Class

Professor Sir Roy Allen and Mrs Prais. Six classes, Lent Term, beginning in the fifth week.

For B.Sc. (Econ.) Part II 3rd yr.

933 International Trade and the Balance of Payments

Professor Sir Roy Allen. Five lectures, Summer Term.

For B.Sc. (Econ.) Part II 2nd yr.; Dip. Stats.

Syllabus International trade in goods and services. Indices of prices and volume of trade; the terms of trade. The U.K. balance of payments and its relation to the national income accounts.

Recommended reading U.K. Central Statistical Office, *United Kingdom Balance of Payments* (annual) and other sources specified during the course.

**934(a) Applied Statistical Methods
Practical Class (Second Year)**

Dr Knott. Ten classes, alternate weeks, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.

**934(b) Applied Statistical Methods
Project Class (Second Year)**

Mr Fielding, Mr O'Muircheartaigh and Dr Phillips. Five classes, Summer Term.

For B.Sc. (Econ.) Part II 2nd yr.

**934(c) Applied Statistical Methods
Practical Class (Third Year)**

Dr C. S. Smith and others. Ten classes, alternate weeks, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.

**935 Introduction to Statistics:
Class**

Mr O'Muircheartaigh. Ten hours, Michaelmas Term. This class will not be held in 1972-73.

For M.Sc.

**936 Social Statistics and Survey
Methodology**

Mrs Spitz, Professor Bartholomew and Dr Phillips. Forty hours, Sessional.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.; Dip. Stats.

937 Compound Interest

Mr Carrier. Five lectures, Michaelmas Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths. 2nd yr.; M.Sc. prelim. and final yrs.

Syllabus An introduction to the annuity certain, valuation of redeemable securities, sinking funds; the determination of interest rates in given transactions and continuous growth.

Recommended reading D. W. A. Donald, *Compound Interest and Annuities Certain*; W. L. Hart, *Mathematics of Investment*.

938 Actuarial Statistics I

Mr Dyson. Twenty-five hours, Sessional.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths. 2nd yr.

Syllabus Further compound interest. Exposed to risk formulae and the construction of life tables. Theory of multiple decrements. Construction of select mortality and multiple decrement tables.

Recommended reading A. H. Pollard, *An Introduction to the Mathematics of Finance*; D. W. A. Donald, *Compound Interest and Annuities Certain*; B. Benjamin and H. W. Haycocks, *The Analysis of Mortality and Other Actuarial Statistics*.

939 Actuarial Statistics II

Mr Dyson. Twenty hours, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.

Syllabus Further compound interest. Comparison of mortality and other experiences. Graduation. English life and other standard mortality tables. Marriage and fertility rates. Population projections. Students will be expected to have attended Course 938.

Recommended reading D. W. A. Donald, *Compound Interest and Annuities Certain*; B. Benjamin and H. W. Haycocks, *The Analysis of Mortality and other Actuarial Statistics*; Registrar General's Decennial Supplement (Life Tables) 1961; Preface to the a(55) Tables for Annuitants; P. R. Cox, *Demography*.

**939(a) Actuarial Statistics II,
Classes**

Five hours, Summer Term.

Optional for B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) Part II 3rd yr.

(d) COMPUTING

**940 Introduction to Computers:
Basic Concepts**

Mr F. F. Land. Ten lectures,
Michaelmas Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc.
c.u. main field Maths.; M.Sc.

Syllabus Input and output devices, central
processing unit, backing store, software,
survey of applications.

Recommended reading C. O. Elliot and
R. S. Wasley, *Business Information
Processing Systems*; A. Daniels and
D. Yeates, *Basic Training in Systems
Analysis*; T. E. Hull, *Introduction to
Computing*; S. H. Hollingdale and
G. C. Tootill, *Electronic Computers*; R. W.
Brightman, B. J. Luskin and T. Tilton,
Data Processing for Decision-Making.

**940(a) Introduction to Computers:
Basic Concepts, Undergraduate
Class**

Mr F. F. Land. Five classes,
Michaelmas Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc.
c.u. main field Maths. 2nd yr.

**940(b) Introduction to Computers:
Basic Concepts, Graduate Class**

Mr F. F. Land. Five classes,
Michaelmas Term.

For M.Sc.

**941(i) Introduction to Computing
(Second Year)**

Mr Waters. Twenty lectures,
Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc.
c.u. main field Maths. 2nd yr.; M.Sc.
This course is a continuation of Course
940.

Syllabus Computer hardware; central
processing unit and peripheral devices.
Computer software; operating systems,
programming languages (including study
of COBOL), utilities and packages.

Methodology of programming; problem
formulation and specification (including
flowcharts and decision tables), coding,
testing and debugging.

Recommended reading T. E. Hull,
Introduction to Computing; A. I. Forsythe,
T. A. Keenan, E. I. Organick and W.
Stenberg, *Computer Science*; D. D.
McCracken, *A Guide to COBOL
Programming*.

**941(i)(a) Introduction to
Computing, Second-Year Class**
Mr Waters. Twenty classes, Lent
and Summer Terms.

**941(ii) Introduction to Computing
(Third Year)**

Mr Waters. Ten lectures,
Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc.
(Maths.) 3rd yr.

Syllabus Interface between the computer
and its immediate environment; input
and output design (including data
capture and validation controls).

942 Fortran IV

Miss S. A. Brown. Ten lectures,
Michaelmas Term.

For B.Sc. (Econ.) Part II Statistics and
Computing 2nd yr.; B.Sc. c.u. Maths.
2nd yr.

Other students wishing to attend a
Fortran course should attend Course
943 (a), (b) or (c) and not this course.

Syllabus The syntax of the Fortran IV
programming language.

Recommended reading D. D. McCracken,
A Guide to Fortran IV Programming.

942(a) Fortran IV Class

Miss S. A. Brown. Ten classes,
Michaelmas Term.

**943 Fortran Programming
(General)**

Miss S. A. Brown, Miss Hewlett,
Mrs S. Jones, Mr Chastney,
Mr F. F. Land, Mr Wakeford
and others.

A basic course will be given several
times during the session.

(a) Course lasting seven to eight days.
Christmas vacation.

(b) Course lasting seven to eight days.
Easter vacation.

(c) One or two courses lasting seven to
eight days. Summer.

Recommended reading D. D. McCracken,
A Guide to Fortran IV Programming.

**944 Introduction to a Systems Life
Cycle**

Mr F. F. Land. Five lectures,
Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc.
(Maths.) 3rd yr.; M.Sc. prelim. and
final yrs.; Dip. Personnel Management.

Syllabus Identification and description of
problem. Feasibility studies. Analysis and
design of computer based systems.
Specification. Programming and imple-
mentation. Maintenance and development.

Recommended reading H. N. Laden and
T. R. Gildersleeve, *Systems Design for
Computer Applications.*

**944(a) Introduction to a Systems
Life Cycle, Undergraduate Class**

Mr F. F. Land. Five classes,
Michaelmas Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc.
(Maths.) Part II 3rd yr.

**944(b) Introduction to a Systems
Life Cycle, Graduate Class**

Mr F. F. Land. Five classes,
Michaelmas Term.

For M.Sc.; Dip. Personnel Management.

**945(i) Computer Applications,
Second Year**

Mr Waters and others. Ten classes,
Summer Term.

For B.Sc. (Econ.) Part II.

**945(ii) Computer Applications,
Third Year**

Mr Waters and others. Ten lectures,
Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II; M.Sc.

**945(ii)(a) Computer Applications,
Third Year Class**

Mr Waters and others. Ten classes,
Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II; M.Sc.

946 Computing Practical Class

Mr Waters and others. Thirty
classes. Sessional.

For B.Sc. (Econ.) Part II 2nd and 3rd
yrs.

947 Data Processing Methods

Mr F. F. Land. Fifteen lectures,
Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc.
(Maths.) 3rd yr.; M.Sc.

Syllabus Data capture and data trans-
mission. System protection and error
recovery. Coding systems.

Recommended reading R. H. Gregory and
R. L. Van Horn, *Business Data Processing
and Programming*; H. N. Laden and
T. R. Gildersleeve, *Systems Design for
Computer Applications*; A. Daniels and
D. Yeates, *Basic Training in Systems
Analysis*; R. R. Arnold, H. C. Hill and
A. V. Nichols, *Introduction to Data
Processing*; H. D. Clifton, *Systems
Analysis for Business Data Processing.*

947(a) Data Processing Methods Undergraduate Class

Mr F. F. Land. Five classes, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.

947(b) Data Processing Methods Graduate Class

Mr F. F. Land. Five classes, Lent Term.

For M.Sc.

948 Systems Analysis Methodology

Mr F. F. Land and Mr Stamper. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.; M.Sc.

Syllabus Analysis and synthesis of information systems. Description of systems and complex procedures. Evaluation, implementation and maintenance of systems incorporating computers. Solution to the programming problem: high level languages, application packages, generalised programs, data base management systems, modular programming, computer utilities, data banks. Integrated and comprehensive systems. Automatic evaluation methods (SCERT).

Recommended reading H. N. Laden and T. R. Gildersleeve, *Systems Design for Computer Applications*; H. D. Clifton, *Systems Analysis for Business Data Processing*; A. Chandos, J. Graham and R. Williamson, *Practical Systems Analysis*; A. D. Hall, *A Methodology for Systems Engineering*; W. T. Singleton, *Current Trends Towards Systems Designs*; C. B. Randall and S. W. Burgly, *Systems and Procedures for Business Data Processing*; R. W. Brightman, B. J. Luskin, T. Tilton, *Data Processing for Decision-Making*; Roger Gupta, *Electronic Information Processing*; D. H. Brandon, *Management Standards for Data Processing*; J. Dearden, F. W. McFarlan and W. M. Zani, *Management Information Systems*; D. H. Li, *Accounting, Computers, Management Information Systems*;

Codasyl Systems Committee, *A Survey of Generalised Data Base Management Systems* (Technical Report, May 1969).

948(a) Systems Analysis Methodology Undergraduate Class

Mr F. F. Land and others. Ten classes, Michaelmas and Lent Terms.

948(b) Systems Analysis Methodology Graduate Class

Mr F. F. Land and others. Ten classes, Michaelmas and Lent Terms.

949 Computer Systems Design

Mr Waters. Ten lectures, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.; M.Sc.

Syllabus Methodology of designing program and file organizations for batch and real-time systems.

Recommended reading H. N. Laden and T. R. Gildersleeve, *Systems Design for Computer Applications*; D. D. McCracken, *A Guide to COBOL Programming*; J. Martin, *Design of Real-Time Computer Systems*; S. J. Waters, *Elements of Computer Systems Design*.

949(a) Computer Systems Design Undergraduate Class

Mr Waters. Ten classes, Lent Term.

949(b) Computer Systems Design Graduate Class

Mr Waters. Ten classes, Lent Term.

950(i) Numerical Methods, Second Year

Professor Douglas. Twenty lectures, Lent and Summer Terms.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths. 2nd yr.

Syllabus An introduction to the use of digital computers in the solution of numerical problems. Fixed and floating point storage and arithmetic. Error analysis.

Algorithms for approximation, interpolation, numerical differentiation and integration, solution of differential equations.

Evaluations of functions. Solution of non-linear equations. Numerical methods in linear algebra. Random number generation and Monte Carlo methods.

Note It will be assumed that students have attended Course 942.

Recommended reading S. D. Conte, *Elementary Numerical Analysis*; J. M. Hammersley and D. C. Handscomb, *Monte Carlo Methods*; T. H. Naylor *et al.*, *Computer Simulation Techniques*.

950(i)(a) Numerical Methods, Second-Year Class

Lecturer to be announced. Ten classes, Summer Term.

950(ii) Numerical Methods, Third Year

Professor Douglas. Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.

Syllabus See Course 950(i).

950(ii)(a) Numerical Methods, Third-Year Class

Lecturer to be announced. Twenty classes, Michaelmas and Lent Terms.

(e) OPERATIONAL RESEARCH

951 Elements of Management Mathematics

Mr Rosenhead and others.

Twenty lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 2nd yr.; M.Sc.

Syllabus An introduction to mathematical techniques applied to problems of decision-making in business and industry. Topics treated will include: vectors and matrices, linear programming, game theory, critical path analysis, set theory, probability, decision trees, dynamic programming, Markov chains, replacement theory, stock control.

Recommended reading J. G. Kemeny, A. Schleifer, J. L. Snell and G. L. Thompson, *Finite Mathematics with Business Applications*; J. C. Turner, *Modern Applied Mathematics*; M. Sasieni, A. Yaspan and L. Friedman, *Operations Research*.

951(a) Elements of Management Mathematics Class

Class teachers to be announced. Twenty classes, Michaelmas and Lent Terms.

952 Introduction to Operational Research Techniques

Mr Rosenhead. Nine lectures, Summer Term.

For B.Sc. (Econ.) Part II 2nd yr.; B.Sc. c.u. main field Maths.; Dip. Stats.

Syllabus An introduction to mathematical techniques applied to problems of decision-making in business and government. Topics treated will include: game theory, decision trees, critical path analysis, replacement theory, Markov chains.

Recommended reading J. G. Kemeny, A. Schleifer, J. L. Snell and G. L. Thompson, *Finite Mathematics with Business Applications*; M. Sasieni, A. Yaspan and L. Friedman, *Operations Research*.

952(a) Introduction to Operational Research Techniques Class

Class teachers to be announced. Eight classes, Summer Term.

953 Operational Research Techniques

Mr Paul. Fifteen lectures, Michaelmas and Lent Terms.

For B.Sc. (Econ.) Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.; Dip. Stats.

Syllabus Inventory control. Scheduling. Queuing theory. Dynamic programming. Simulation.

Recommended reading M. Sasieni, A. Yaspan and L. Friedman, *Operations Research*; R. L. Ackoff and M. Sasieni, *Fundamentals of Operations Research*; D. R. Cox and W. L. Smith, *Queues*; R. E. Bellman and S. E. Dreyfus, *Applied Dynamic Programming*.

953(a) Operational Research Techniques, Third-Year Class

Class teacher to be announced. Fifteen classes, Michaelmas and Lent Terms.

954 Mathematical Programming

Dr A. H. Land. Fifteen lectures, Michaelmas and Lent Terms.

Whole course for B.Sc. (Econ.) Part II: *Management Mathematics* 3rd yr.; B.Sc. (Maths.) 3rd yr.; Dip. Stats.

First ten lectures optional for B.Sc. (Econ.) Part II: *Economics treated Mathematically* 3rd yr.

Syllabus The first ten lectures of this course are intended to acquaint students with the formulation of linear programming problems and the properties of their solutions, and to draw attention to their relationship to economic theory. The remaining five lectures will be concerned with techniques of solution and formulation of special problems. A familiarity with simple matrix algebra will be assumed.

Recommended reading G. Hadley, *Linear Programming*; S. Vajda, *Readings in Linear Programming; An Introduction to Linear Programming and the Theory of Games*; R. Dorfman, P. A. Samuelson and R. M. Solow, *Linear Programming and*

Economic Analysis; K. E. Boulding and W. A. Spivey, *Linear Programming and the Theory of the Firm*.

954(a) Mathematical Programming Class

Dr A. H. Land and others. Fifteen classes, Michaelmas and Lent Terms.

(f) GRADUATE COURSES (STATISTICS)

955 Advanced Probability and Stochastic Processes

Mr Hajnal and Dr Milne. Forty hours, Sessional.

For M.Sc.

956 Markov Chains and Related Topics

Mr Hajnal. Ten lectures, Lent Term.

For M.Sc.

Syllabus Markov chains with finite number of states in discrete and continuous time. Poisson process.

956(a) Markov Chains and Related Topics

Mr Hajnal. Ten classes, Lent Term.

957 Further Distribution Theory
Professor Durbin. Ten lectures, Lent Term.

For M.Sc.

Syllabus Distribution theory of quadratic forms in normally distributed random variables. Selected topics in the theory of order-statistics. Non-central χ^2 and F distributions. The sample distribution function.

Recommended reading M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. I, chaps. 14, 15, Vol. II,

chap. 24, Vol. III, chap. 35; H. Cramér, *Mathematical Methods of Statistics*; S. S. Wilks, *Mathematical Statistics*.

958 Statistical Inference

Professor Durbin and Dr Knott.
Twenty lectures, Michaelmas and Lent Terms.

For M.Sc.

Syllabus Estimation theory. Unbiasedness, minimum variance, sufficiency, completeness, maximum likelihood. The theory of testing hypotheses. Confidence intervals. Inference for linear models. Decision theory. Bayesian methods. Likelihood. Tests of fit. Distribution-free methods. Sequential methods.

Recommended reading M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vols. II and III; H. Cramér, *Mathematical Methods of Statistics*; S. S. Wilks, *Mathematical Statistics*; E. L. Lehmann, *Testing Statistical Hypotheses*; D. V. Lindley, *Introduction to Probability and Statistics*; C. R. Rao, *Linear Statistical Inference and its Applications*.

958(a) Statistical Inference Class

Dr Knott. Ten classes, Sessional.

959 Multivariate Analysis

Dr C. S. Smith. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc.

Syllabus Multiple regression analysis. Component analysis. Discriminant analysis. Canonical analysis. Multivariate analysis of variance. Factor analysis. Applications of these techniques.

Recommended reading M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. III, chaps. 41-45, with some supplementary notes.

960 Ranking and Other Distribution-Free Methods

Mr Fielding. Fifteen lectures, Michaelmas and Lent Terms.

For M.Sc.

Syllabus The rationale and efficiency of

ranking and distribution-free methods. Two sample and k-sample rank tests. Randomisation tests. Rank correlation and tests of independence. Tests of randomness. Intervals for population percentiles. Tolerance intervals for a distribution. Confidence intervals for an unknown distribution function. Partitioning of degrees of freedom in contingency tables.

Recommended reading M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. II, chaps. 30, 31 and 32; J. Hajek, *Nonparametric Statistics*; J. Hajek and I. Sidak, *The Theory of Rank Tests*; S. Bradley, *Distribution Free Methods*; M. G. Kendall, *Rank Correlation Methods*; A. E. Maxwell, *Analysing Quantitative Data*; J. Conover, *Practical Nonparametric Statistics*.

961 Design and Analysis of Experiments

Dr Knott. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc.

Syllabus Principles of experimental design. Randomised blocks. Latin squares. Incomplete blocks. Paired comparisons. Factorial designs. Confounding. Fractional replication. Analysis and interpretation of experimental results. Experimental complications and special analyses.

Recommended reading R. A. Fisher, *The Design of Experiments*; W. G. Cochran and G. M. Cox, *Experimental Designs*; O. L. Davies and others, *The Design and Analysis of Industrial Experiments*; H. Scheffé, *The Analysis of Variance*; D. R. Cox, *The Planning of Experiments*; O. Kempthorne, *The Design and Analysis of Experiments*.

961(a) Design and Analysis of Experiments Class

Dr Knott. Five classes, Summer Term.

962 Basic Time-Series Analysis

Professor Durbin, Dr Reid and Dr Wallis. Two hours per week, Michaelmas Term.

For M.Sc.

Syllabus Basic structure of time series. Stationarity. Autocorrelation. Periodogram and spectrum. Linear models. Forecasting. Elementary treatment of model-fitting in time-series analysis. Effects of autocorrelation on regression analysis. Tests of serial independence.

Recommended reading M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. III; E. J. Hannan, *Time Series Analysis; Multiple Time Series*; C. W. J. Granger and M. Hatanaka, *Spectral Analysis of Economic Time Series*; E. Malinvaud, *Statistical Methods of Econometrics*; A. M. Yaglom, *An Introduction to the Theory of Stationary Random Functions*; G. S. Fishman, *Spectral Methods in Econometrics*; G. M. Jenkins and D. G. Watts, *Spectral Analysis and its Applications*; T. W. Anderson, *The Statistical Analysis of Time Series*; P. J. Dhrymes, *Econometrics*.

963 Further Time-Series Analysis

Professor Durbin, Dr Reid and Dr Wallis. Two hours per week, Lent Term.

Optional for M.Sc.

Syllabus Properties of Fourier transforms. Estimation of spectrum. Cross-spectral methods. Linear time invariant relations between series.

Recommended reading as for Course 962.

964 Prediction and Control

Dr Hendry and Dr Reid. Ten lectures, Lent Term.

For M.Sc.: *Econometric Theory II*.
Optional for M.Sc.: *Econometric Theory I*; *Statistical Methodology and Inference*.

Recommended reading P. Whittle, *Prediction and Regulation by Linear Least-Square Methods*; H. Theil, *Optimal Decision Rules for Government and Industry*; C. C. Holt, F. Modigliani, J. F. Muth and A. A. Simon, *Planning Production, Inventory and Work Force*.

965 Selected Techniques of Quantitative Analysis

Mr Fielding. Eight lectures and four classes, Michaelmas and Lent Terms.

For M.Sc.

Syllabus Selections from stochastic population models, latent structure analysis, clustering techniques, scaling techniques, multivariate model building.

966 Model Building

Professor Bartholomew and Dr Phillips. Twelve lectures and six classes, Lent and Summer Terms.

For M.Sc.

Syllabus Model building, theory, applications and evaluation of policy implications, decision-making. Input-output and flow models; simulation techniques. Data storage and retrieval: record linkage.

967 Topics in Model Building

Dr Reid. Ten hours, Michaelmas Term.

For M.Sc.

968 Causal Analysis

Miss Atkins. Twelve hours, Lent and Summer Terms.

For M.Sc.

Syllabus Causal analysis, including recursive systems, path coefficients, cross-lagged correlations. Effects of measurement error.

969 Further Sample Survey Theory and Methods

Mr O'Muircheartaigh. Twenty lectures, Sessional, beginning in the fourth week of the Michaelmas Term.

Note This course presupposes attendance at Course 928.

For M.Sc.

Syllabus Stratification, controlled selection.

Multistage sampling. Area sampling. Multiphase sampling. Selection with unequal probabilities. Ratio and regression estimates. Domains of study. Panel studies. Nonsampling errors.

Recommended reading L. Kish, *Survey Sampling*; W. G. Cochran, *Sampling Techniques* (2nd edn.); M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. III (chaps. 39 and 40); W. E. Deming, *Sample Design in Business Research*; F. Yates, *Sampling Methods for Censuses and Surveys*; M. H. Hansen, W. N. Hurwitz and W. G. Madow, *Sample Survey Methods and Theory*; D. Raj, *Sampling Theory*; P. V. and B. V. Sukhatme, *Sampling Theory of Surveys with Applications*.

969(a) Further Sample Survey Theory and Methods Class
Mr O'Muircheartaigh. Eight classes, Lent and Summer Terms.

970 Bayesian Estimation in Sampling Theory
Mr O'Muircheartaigh. Five lectures, beginning in the sixth week of the Lent Term.

For M.Sc.

971 Survey Design, Execution and Analysis

Mr O'Muircheartaigh. Twenty-two lectures of two hours each, Sessional.

For M.Sc.

972 Statistical Aspects of Educational Planning

Mr G. L. Williams and Dr Phillips. Fifteen lectures, Michaelmas and Lent Terms.

Whole Course for M.Sc.: *Educational Statistics*; Dip. Stats.

Optional for M.Sc.: *Educational Administration*.

Michaelmas Term only for B.Sc. (Econ.)
Part II 3rd yr.; B.Sc. (Maths.) 3rd yr.

Syllabus Criteria for establishing priorities in planning in advanced and developing countries. Methods of forecasting the demand for education, and the demand and supply of teachers. Methods of forecasting manpower requirements. The analysis of educational expenditures. Computable models of the educational system.

Recommended reading M. Blaug, "Approaches to Educational Planning" (*The Economic Journal*, June 1967); C. A. Moser, P. R. G. Layard, "Planning the Scale of Higher Education in Britain: Some Statistical Problems" (*Journal of the Royal Statistical Society*, Series A, 4, 1964); O.E.C.D., *Mathematical Models in Educational Planning*; G. Orcutt and others, *Microanalysis of Socioeconomic Systems—A Simulation Study*, especially chaps. 1, 2, 3, 8, 9, 10, 13; H. S. Parnes, *Forecasting Educational Needs for Economic and Social Development*, chaps. 1–5; A. Peacock, J. Wiseman, S. Harris, *Financing of Education for Economic Growth*, chaps. 6 and 7; *The Robbins Report*, Appendix One, Part IV; R. Stone, "Input-Output and Demographic Accounting: A Tool for Educational Planning" (*Minerva*, Spring 1966); J. Tinbergen and others, *Econometric Models of Education: Some Applications*; U.S. Department of Health, Education and Welfare, *Equality of Educational Opportunity*; *Ninth Report of the National Advisory Council for the Training and Supply of Teachers*, especially Part I.

973 Educational Statistics (Seminar)

Dr Phillips. Ten fortnightly seminars, Sessional.

For M.Sc.

974 Fortran Programming (Statistics)

Miss S. A. Brown and Mr F. F. Land. Last week, Summer vacation.

For M.Sc.: Statistics. Dip. Stats. students should take *either* this course or Course 943 (a), (b) or (c).

Recommended Reading: D. D. McCracken, *A Guide to Fortran IV Programming*.

975 Statistical Analysis Practical Class

Miss S. A. Brown. Ten classes, Michaelmas Term.

For M.Sc. Fortran computer language will be used.

976 Further Statistical Methods

Mr Fielding. Twenty lectures, Michaelmas and Lent Terms.

For M.Sc. It will be assumed that students have a knowledge of statistics to the standard of Course 917.

Syllabus Nonparametric and distribution free techniques, analysis of variance and covariance for various experimental designs. Elements of matrix algebra. Multiple correlation and regression. Some multivariate procedures.

Recommended reading H. M. Blalock, *Social Statistics*; S. Siegel, *Nonparametric Statistics for the Behavioural Sciences*; J. Hajek, *Nonparametric Statistics*; T. Yamane, *Statistics, an Introductory Analysis*; W. L. Hays, *Statistics*; D. R. Cox, *Planning of Experiments*; A. L. Edwards, *Statistical Methods*.

977 Statistical Research Workshop

Professor Durbin and Dr Reid. Weekly, Michaelmas and Lent Terms.

For research students and staff in statistics and econometrics and others with a specialist interest in the topic.

Syllabus A review of the theory and methods of forecasting and discussion of current research in the field.

Attendance by permission of Professor Durbin or Dr Reid.

978 Applied Statistics Seminar

Dr Reid and others. Ten meetings of one-and-a-half hours, fortnightly, Michaelmas and Lent Terms.

For M.Sc.; Dip. Stats. and other graduate students.

979 Joint Statistics Seminar

Seminars on statistical theory and its applications will be held in conjunction with Birkbeck College, Imperial College and University College throughout the session. Further information about the seminar may be obtained from Professor Sir Roy Allen or Professor Durbin.

980 Advanced Lectures on Special Topics in Statistics

Short courses of lectures on special topics in statistical research will be given on Friday afternoons throughout the session immediately following the Joint Statistics Seminar. These lectures are intended for research students and staff members and are held in conjunction with Birkbeck College, Imperial College and University College. Further information may be obtained from Professor Sir Roy Allen or Professor Durbin.

(g) GRADUATE COURSES (OPERATIONAL RESEARCH AND MANAGEMENT STUDIES)

981 Statistical Theory

Dr C. S. Smith. Forty lectures and twenty classes, Michaelmas and Lent Terms.

Whole course for M.Sc.: *Statistical Theory*; Dip. Stats. students who already have a knowledge of statistics need not attend until the fourth week of the Michaelmas Term. **Selected lectures only for M.Sc.:** *Operational Research II*.

Syllabus Probability and distribution theory, estimation theory, regression, analysis of variance and general linear models.

Recommended reading M. G. Kendall and A. Stuart, *The Advanced Theory of Statistics*, Vol. I; A. M. Mood and F. A. Graybill, *Introduction to the Theory of Statistics*; O. L. Davies, *Statistical Methods in Research and Production*; N. R. Draper and H. Smith, *Applied Regression Analysis*.

982 Operational Research Methodology

Mr Rosenhead. Ten meetings of one-and-a-half hours, Michaelmas and Lent Terms.

For M.Sc.

Syllabus Operational research problems, models and criteria. The practice and context of operational research.

Recommended reading R. L. Ackoff, *Scientific Method: Optimizing Applied Research Decisions*; J. R. Ravetz, *Scientific Knowledge and its Social Problems*.

983 Basic Operational Research Techniques

Mr Paul. Ten lectures, Michaelmas Term.

For M.Sc.

Syllabus An introduction to stock control, scheduling, queuing theory, replacement, critical path analysis and dynamic programming.

Recommended reading M. Sasieni, A. Yaspan and L. Friedman, *Operations Research*; R. L. Ackoff and M. Sasieni, *Fundamentals of Operations Research*; F. S. Hillier and G. J. Lieberman, *Introduction to Operations Research*.

983(a) Basic Operational Research Techniques Class

Mr Paul. Ten classes, Michaelmas Term.

984 Advanced Operational Research Techniques

Mr Rosenhead and Mr Paul.

Fifteen lectures, Lent and Summer Terms.

For M.Sc.

Syllabus Replacement theory, scheduling, inventory control, queuing theory, dynamic programming.

Recommended reading D. W. Jorgenson, J. J. McCall and R. Radner, *Optimal Replacement Policy*; D. R. Cox and W. L. Smith, *Queues*; R. E. Bellman and S. E. Dreyfus, *Applied Dynamic Programming*; R. A. Howard, *Dynamic Programming and Markov Processes*; R. W. Conway, W. L. Maxwell and L. W. Miller, *Theory of Scheduling*; F. Hansmann, *Operations Research in Production and Inventory Control*; E. Naddor, *Inventory Systems*.

984(a) Advanced Operational Research Techniques Class

Mr Rosenhead and Mr Paul.

Fifteen classes, Lent and Summer Terms.

985 Basic Mathematical Programming

Dr A. H. Land. Ten lectures, Michaelmas Term.

For M.Sc.

Syllabus Formulation of operational problems in linear and non-linear programming models; solution of such problems by available computer programs, interpretation of the solutions; limitations of such models.

Recommended reading K. E. Boulding and W. A. Spivey, *Linear Programming and the Theory of the Firm*; R. Dorfman, P. A. Samuelson and R. M. Solow, *Linear Programming and Economic Analysis*; S. Vajda, *Readings in Linear Programming*; H. G. Daelleback and E. J. Bell, *Users' Guide to Linear Programming*.

985(a) Basic Mathematical Programming Class

Ten classes, Michaelmas Term.

986 Advanced Mathematical Programming

Dr A. H. Land. Thirty lectures, Michaelmas and Lent Terms.

For M.Sc.

Syllabus Basic formulations and theories of mathematical programming, convex point sets, linear and non-linear objective functions. Methods of solution.

Recommended reading G. Hadley, *Linear Programming*; D. Gale, *The Theory of Linear Economic Models*; G. B. Dantzig, *Linear Programming and Extensions*; R. L. Graves and P. Wolfe (Eds.), *Recent Advances in Mathematical Programming*.

986(a) Advanced Mathematical Programming Class

Twenty classes, Michaelmas and Lent Terms.

987 Theory of Games

Mr Paul. Four lectures, Lent Term.

For M.Sc. Recommended for other graduate students.

Syllabus The principles of games theory. Zero-sum two-person games in extended and normal form. The minimax principle and its application. Variable sum games and imperfect competition.

Recommended reading J. D. Williams, *The Compleat Strategyst*; R. D. Luce and H. Raiffa, *Games and Decisions*; J. C. C. McKinsey, *Introduction to the Theory of Games*; M. Shubik, *Strategy and Market Structure*; J. von Neumann and O. Morgenstern, *Theory of Games and Economic Behaviour*.

988 Graph Theory

Mr Shier. Ten lectures, Lent Term.

For M.Sc. Recommended for other

graduate students in Operational Research or Statistics.

Syllabus Fundamental concepts in graph theory, planar and dual graphs, maximum-minimum problems in networks; matching theory.

Recommended reading C. L. Liu, *Introduction to Combinatorial Mathematics*; F. Harary, *Graph Theory*.

988(a) Graph Theory Class

Class teacher to be announced.

Ten classes, Lent Term.

989 Forecasting and Exponential Smoothing

Mr Paul. Three lectures, Lent Term.

For B.Sc. (Econ.) Part II 3rd yr.; M.Sc.

990 Selected Topics in Operational Research

Mr Rosenhead and others. Fifteen meetings, Michaelmas and Lent Terms, beginning in the sixth week of the Michaelmas Term.

For M.Sc.

Syllabus Various speakers will present illustrations of the practical applications of operational research techniques. Intended for students having a preliminary acquaintance with the subject.

Recommended reading References to current literature will be provided during the course.

991 Operational Research Tutorial Class

Dr A. H. Land, Mr Rosenhead and Mr Paul. Ten sessions of one-and-a-half hours, Lent Term.

For M.Sc.

**992 Fortran Programming
(Operational Research)**

Mr Heard. Last week, Summer Vacation.

For M.Sc.: Operational Research only.

Recommended reading R. S. Ledley, *Fortran IV Programming*; D. D. McCracken, *A Guide to Fortran IV Programming*.

993 Information

Mr Stamper. Ten lectures, Michaelmas Term.

For M.Sc.

Syllabus Information as signs, signs and behaviour, semantics, syntactics, transmission of signals. Problems in the measurement of information relative to behaviour, relative to a formal language and as variety.

Recommended reading C. Cherry, *On Human Communication*; R. K. Stamper, *Information*.

993(a) Information Class

Mr Stamper. Five classes, Michaelmas Term.

For M.Sc.

994 Business Information Systems

Mr Stamper. Ten lectures, Lent Term.

For M.Sc.

Syllabus Some important information systems and how they vary from one type of organization to another. Information handling functions, communication, information storage and retrieval.

Recommended reading J. Dearden, F. W. McFarlan and W. M. Zani, *Management Information Systems*; E. S. Buffa, *Production-Inventions Systems*; C. B. Randall and S. W. Burgly, *Systems and Procedures for Business Data Processing*; L. R. Carzo and J. N. Yanouzas, *Formal Organization*.

**994(a) Business Information
Systems Class**

Mr Stamper. Five classes, Lent Term.

For M.Sc.

995 Basic Systems Analysis

Mr F. F. Land and Mr Waters. Twelve lectures, Michaelmas Term.

For M.Sc.; Dip. Personnel Management.

Syllabus An introduction to systems analysis and the role the systems analyst plays in the design of computer based systems.

Recommended reading A. Daniels and D. Yeates, *Basic Training in Systems Analysis*.

**995(a) Basic Systems Analysis
Class**

Mr F. F. Land and Mr Waters. Six classes, Michaelmas Term.

For M.Sc.; Dip. Personnel Management.

**996 Economics for Operational
Research**

Mr Lane. Ten lectures, Summer Term.

For M.Sc.

997 Design Methods in Planning

Mr Rosenhead. Five lectures, of two hours, Lent Term.

For M.Sc.

Syllabus The internal structure of design problems; the analysis of interconnected decision areas. The impact of uncertainty on planning; planning as a process; robustness as a criterion of a plan's flexibility.

Recommended reading C. Alexander, *Notes on the Synthesis of Form*; J. K. Friend and W. N. Jessop, *Local Government and Strategic Choice*.

998 Introduction to Simulation

Mr Paul. Ten lectures, Lent Term.

For M.Sc.

Syllabus Types and uses of simulation models. Monte Carlo methods. Random and pseudo-random numbers. Event sequence and control. Variance reduction. Verification. Simulation languages.

Recommended reading K. D. Tocher, *The Art of Simulation*; J. M. Hammersley and D. C. Handscomb, *Monte Carlo Methods*; T. H. Naylor, J. L. Balintfy and D. S. Burdick, *Computer Simulation Techniques*; G. Gordon, *System Simulation*; J. H. Mize and J. G. Cox, *Essentials of Simulation*.

JOURNAL OF TRANSPORT ECONOMICS AND POLICY

This journal, which is devoted to the study of all forms of transport, appeared for the first time in January 1967. It serves as a means of communication between research workers, planners, administrators and all others interested in the development of transport and its impact on other activities. The Journal attracts articles from many different countries and has an international readership.

Joint Editors: D. L. Munby and J. M. Thomson
